MEMORANDUM

TO: Board of Adjustment
FROM: Aaron Nelson, Project Coordinator; Barrett Voigt, Assistant Planner fo
DATE: June 19, 2018
RE: Board of Adjustment Meeting

The next meeting of the Board of Adjustment will be held on Tuesday, June 26, at 9:00 a.m. in the City Commission Room at Fargo City Hall. If you are not able to attend, please contact staff at (701) 241-1474 or planning@FargoND.gov. Thank you.

**BOARD OF ADJUSTMENT
Tuesday, June 26, 2017 9:00 a.m.
City Commission Room
AGENDA**

1. Approve Minutes of February 27, 2018 Meeting
2. New Business
 - a) Variance Request – 1620–1632 1st Avenue North
Request for a variance of Section 20-0502 of the LDC. The requested variance is to allow for the location of a prefabricated building that would encroach into the required rear setback area within the GC, General Commercial, zoning district.
3. Adjournment

Board of Adjustment meetings are broadcast live on cable channel TV Fargo 56 and can be seen live by video stream on www.FargoND.gov/streaming. They are rebroadcast each Tuesday at 9:00 a.m. for one month following the meeting.

People with disabilities who plan to attend the meeting and need special accommodations should contact the Planning Office at 701.241.1474 or TDD at 701.241.8258. Please contact us at least 48 hours before the meeting to give our staff adequate time to make arrangements.

**BOARD OF ADJUSTMENT
MINUTES**

Regular Meeting:

Tuesday, February 27, 2018

The Regular Meeting of the Board of Adjustment of the City of Fargo, North Dakota, was held in the City Commission Room at City Hall at 9:00 o'clock a.m., Tuesday, February 27, 2018.

The Members present or absent were as follows:

Present: Deb Wendel-Daub, Russell Ford-Dunker, Mark Lundberg, Matthew Boreen, Mike Mitchell

Absent: Michael Love

Also present: Jodi Bertrand, Bruce Taralson

Vice Chair Wendel-Daub called the meeting to order.

Item 1a: Approval of Minutes: Regular Meeting of September 26, 2017

Member Mitchell moved the minutes of the September 26, 2017 Board of Adjustment meeting be approved. Second by Member Boreen. All Members present voted aye and the motion was declared carried.

Item 1b: Approve Order of Agenda

Member Boreen moved the Order of Agenda be approved as presented. Second by Member Lundberg. All Members present voted aye and the motion was declared carried.

Vice Chair Wendel-Daub noted that the Item 2 heading on the Agenda should read as New Business instead of Old Business.

Item 2: New Business

a) Variance Request – 3600 39th Avenue South:

Request for a variance of Article 21-06 of the Municipal Code. The requested variance is to allow for the construction of a building at an existing manufacturing facility at a lower elevation than would otherwise be required by the City's Floodproofing Code: APPROVED WITH CONDITION

Planning Coordinator Aaron Nelson presented the staff report and an overview of the request. Mr. Nelson reviewed the Floodproofing Code Standards and stated that the review considerations have been satisfied and staff is recommending approval.

Applicant representative Brian Pattengale, Houston Engineering, spoke on behalf of the requested variance.

Stormwater Engineer Jody Bertrand spoke on behalf of the Engineering Department.

Member Ford-Dunker moved the findings of staff be accepted and the variance be approved as requested on the basis that the review considerations of Section 21-0603 have been satisfied with the condition that the applicant sign and submit a waiver of liability against the City. Second by Member Mitchell. Upon call of the roll Members Mitchell, Ford-Dunker, Lundberg, Boreen, and Wendel-Daub voted aye and the motion was declared carried.

Item 3: Other Business

a) 2018 Meeting Dates

Mr. Nelson presented the calendar included in the packet.

Item 4: Adjournment

Member Boreen moved to adjourn the meeting at 9:16 a.m. Second by Member Lundberg. All Members present voted aye and the motion was declared carried.

CITY OF FARGO - Board of Adjustment Variance Staff Report

Item No: 2.a

Date: June 15, 2018

Address: 1620–1632 1st Avenue North

Legal Description: Blocks 26 and Lots 1, 12, 13, and part of Lots 2-11, Block 27, Reeves Addition, and adjacent vacated right-of-way, Auditor’s Lot No. 1, and an unplatted portion of the South Half of Section 1, Township 139 North, Range 49 West

Owner(s)/Applicants: MBA Investments, LLC

Reason For Request: To relocate a building that would encroach into the required rear setback area

Zoning District: GC, General Commercial

Status: Board of Adjustment Pubic Hearing: June 26, 2018

GC Dimensional Standards	Current/Proposed Structure
Setbacks:	Setbacks:
Front (west): 20'	Front (north): >20'
Interior-Side (south): 5'	Interior-Side (east): > 5'
Rear (east): 15'	Rear (south): 5'

Background:

The applicant would like to relocate a prefabricated 7,140 square foot (68' × 105' 2") warehouse building on the southeast corner of the property, which would be partially located within the required rear-side setback area. The property is located at 1620–1632 1st Avenue North and is within the GC, General Commercial, zoning district. §20–0502 of the Land Development Code (LDC) requires that primary structures be set back at least 15 feet from the rear property line in the GC, General Commercial zoning district. However, the applicant would like to relocate the warehouse building as close as 5 feet from the southern rear lot line. Accordingly, the applicant is requesting a variance in order to allow the proposed addition to encroach 10 feet into the required rear setback area.

Criteria for Approval & Staff Analysis:

§20-0914.E.1 of the LDC states that, “A variance may be granted by the Board of Adjustment upon an affirmative finding that all of the following conditions exist.”

- a. **The requested variance arises from conditions that are unique to the subject property not ordinarily found in the same zoning district and are not a result of the owner’s intentional action;**

The property is approximately 5.07 acres. The property has 3 buildings that are used for a single-family residence, office health club, industrial service shop, warehouse, proposed office, and proposed manufacturing and production facility. Both the first building at 1620 1st Avenue North and the third building at 1632 1st Avenue North

were constructed prior to 1998 and are legally non-conforming. 1620 1st Avenue North does not meet GC interior-side setback dimensional standards and 1632 1st Avenue North does not meet GC rear setback dimensional standards. Aside from deficient interior-side and rear setback distances for the GC zoning district, which is not a result of the owners' intentional actions, no other unique conditions were identified.

It should be noted that staff finds that there is adequate buildable area located in the rear yard. Using Geographic Information Systems (GIS) software, it was estimated that there is 41,177 square feet of area on the southeast portion of the property where a warehouse could be located to meet all dimensional standards and fire code.

Consequently, staff finds that the requested variance does not arise from conditions that are unique to the subject property not ordinarily found in the GC zoning district. Staff suggests that the request for the variance arises from the applicant's desire to place the warehouse in a specific location on the lot, which is not a condition that is unique to the subject property.

(Criteria NOT satisfied)

b. The granting of the permit for the variance will not adversely affect the rights of adjacent property owners or residents;

Staff has no data that would identify an adverse impact to adjacent neighbors with this variance. In accordance with the notification requirements of the LDC, neighboring property owners were provided notice of the variance request. As of the writing of the staff report, staff has not received any comments on this application.

(Criteria satisfied)

c. The strict application of the applicable standards will constitute an unnecessary physical hardship (not economic hardship) because the property cannot be used for an otherwise allowed use without coming into conflict with applicable site development standards;

According to the applicant, the variance is being requested in order for the applicant to relocate a prefabricated warehouse building on the property, which is a use permitted by Conditional Use Permit 2017-002. More specifically, the applicant states that the variance is needed because fire code requires a 10-foot distance to allow for access between buildings. The applicant further states that in order to place the warehouse building in the southeast corner of the property and meet fire code, that the building would need to be shifted 10 feet into the rear setback area.

However, staff finds that fire code would not completely limit the areas where the warehouse building could be located and does not create an unnecessary physical hardship. As referenced above, there appears to be about 41,177 square feet of buildable area in the southeast corner of the property between the existing buildings and property line where the warehouse could be located. In addition, the applicant has presented little evidence to suggest that the warehouse cannot be located on the property without coming into conflict with applicable site development standards.

Ultimately, staff suggests that the strict application of the applicable standards should not constitute an unnecessary physical hardship because the subject property can be used for, and currently is used for, an allowed use without conflict with the LDC.

(Criteria NOT satisfied)

- d. The variance desired will not adversely affect the public health, safety or general welfare;**

Staff has no data that would identify an adverse effect on public health, safety, or general welfare. No public health, safety, or general welfare issues have been identified.

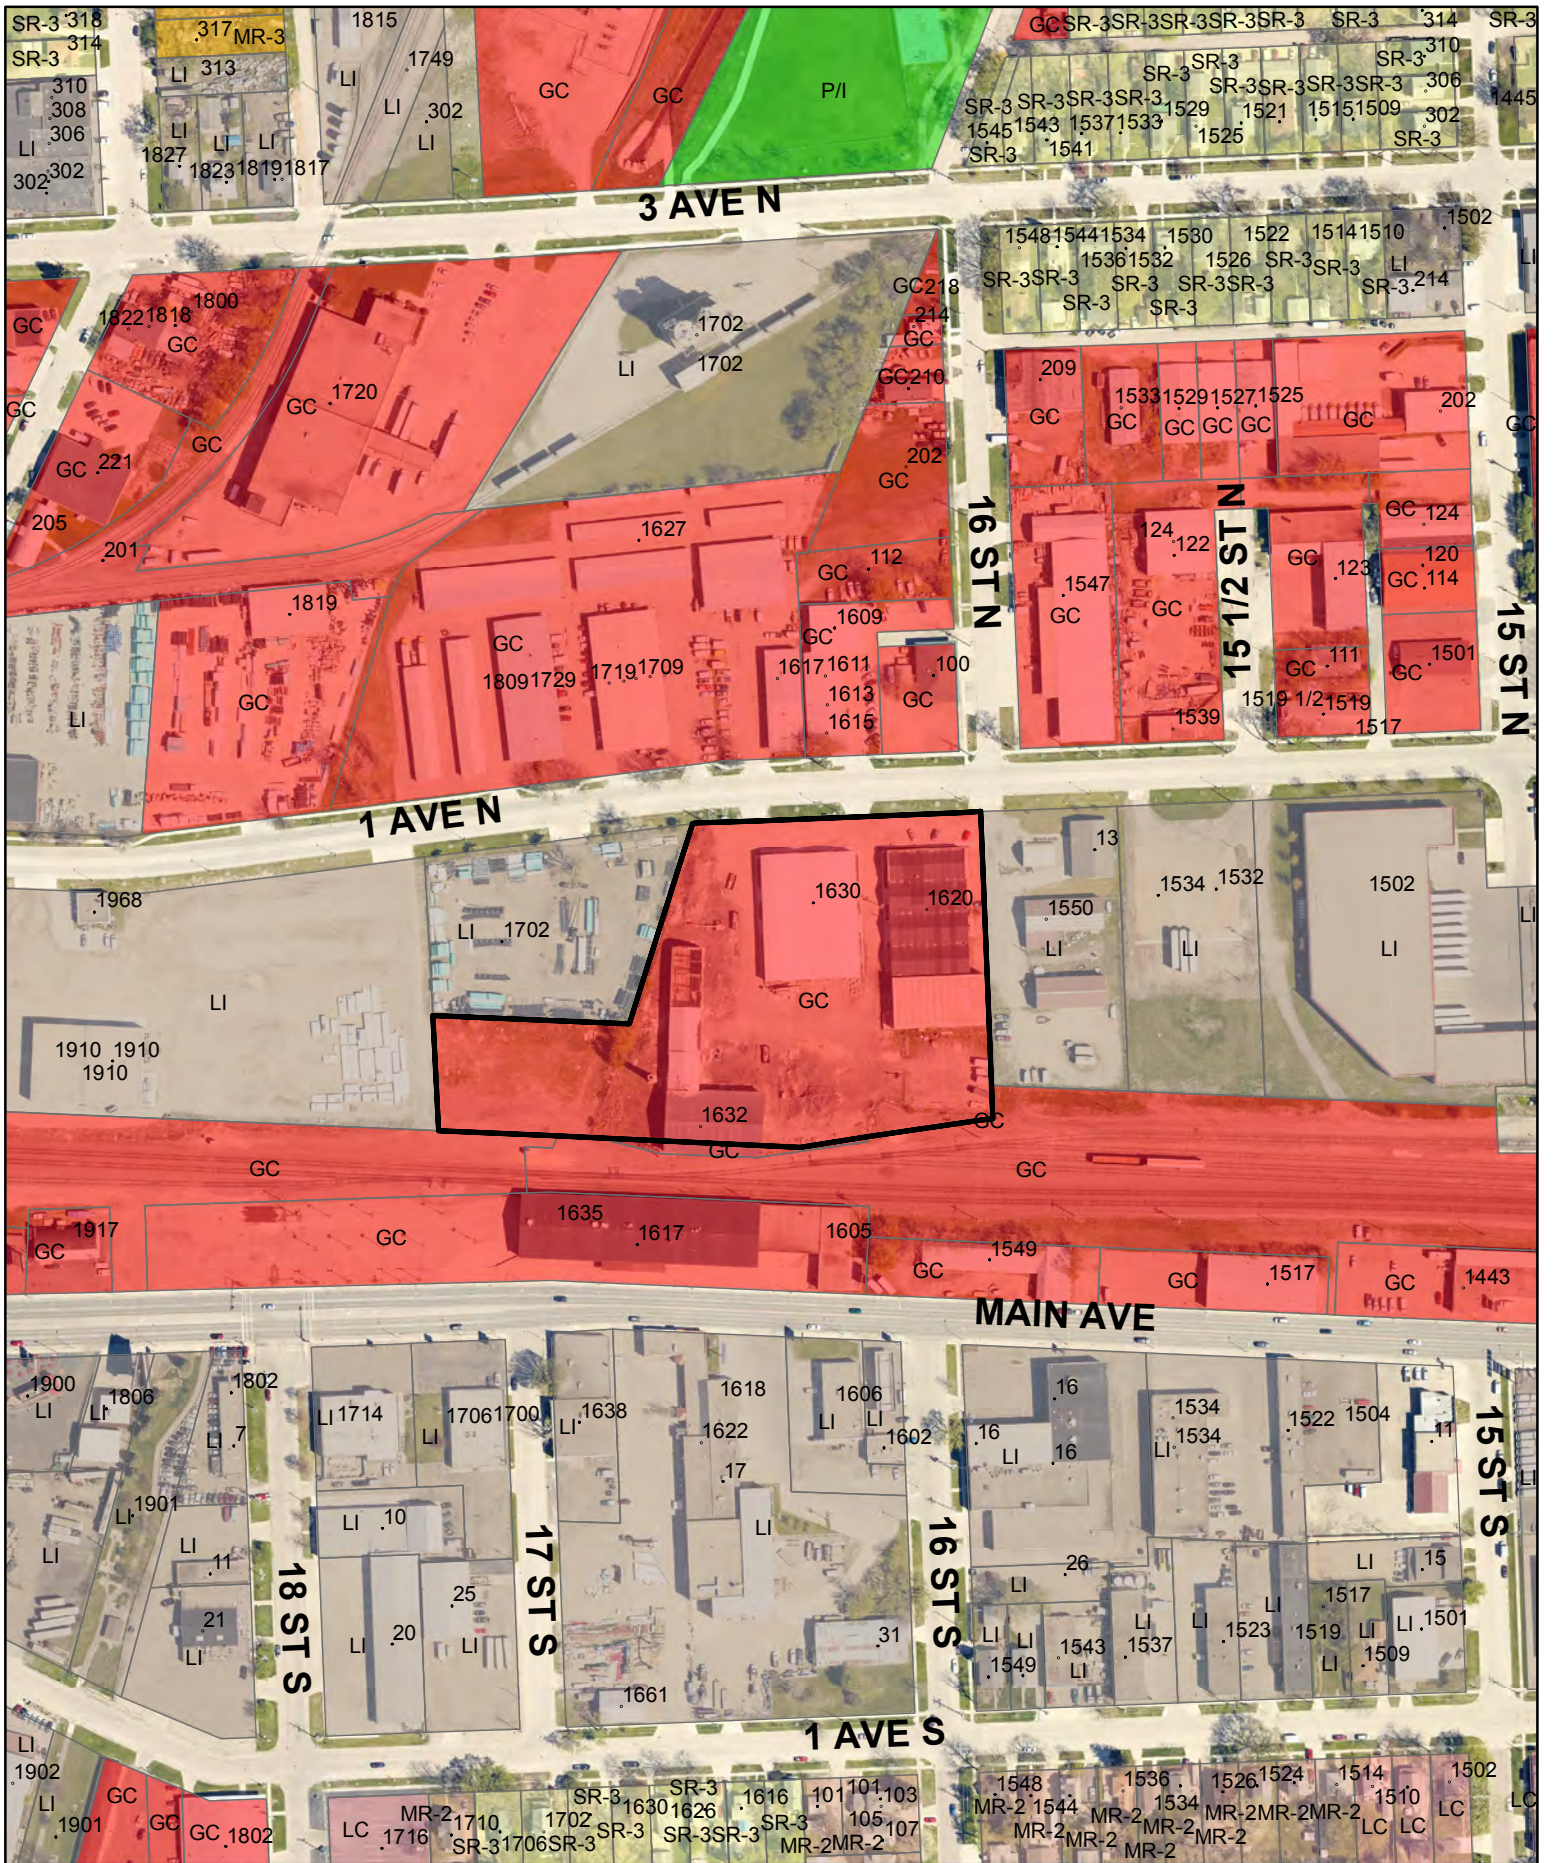

(Criteria satisfied)

- e. The variance is the minimum variance that will overcome the hardship;**

As mentioned above, staff suggests that there is no hardship to overcome due to the fact that the property can be (and is currently) used for an allowed use without coming into conflict with applicable site development standards. The desire for the variance is self imposed by the applicant and is not a situation caused by features unique to the subject property. However, if a hardship was found to exist, the proposed variance would be the minimum variance needed for the applicant to construct the building as proposed by the applicant.

(Criteria satisfied)

Staff Recommendation: “To accept the findings of staff and deny the requested variance to allow the proposed warehouse location to encroach into the required rear setback area in the GC, General Commercial zoning district on the basis that the review criteria of Section 20-0914.E.1 (a & c) have not been met.”

VARIANCES (§20-0914)

The Board of Adjustment is authorized to grant variances from the zoning district dimensional standards and off-street parking and loading standards of the Land Development Code (LDC) that will not be contrary to the public interest or the spirit of the LDC, where owing to special conditions, a literal enforcement of the provisions of this LDC would result in unnecessary physical (not economic) hardship to the property owner.

Variance Application Process

- 1) The application and a nonrefundable fee of \$185 are due at the time of submittal
- 2) Notice of the Public Hearing is mailed to property owners within 300 feet of the proposed site at least 15 days prior to the Hearing and published once a week for two consecutive weeks in the newspaper.
- 3) The City Planner reviews your case, develops a staff report and prepares a recommendation to the Board of Adjustment based on the Criteria for Approval, below.
- 4) Board of Adjustment meetings are scheduled as needed.

Criteria for Approval

A variance may be granted by the Board of Adjustment upon an affirmative finding that all of the following conditions exist.

- a. The requested variance arises from conditions that are unique to the subject property, that are not ordinarily found in the same zoning district and that are not a result of the owner's intentional action;
- b. The granting of the permit for the variance will not adversely affect the rights of adjacent property owners or residents;
- c. The strict application of the applicable standards will constitute an unnecessary physical hardship (not economic hardship) because the property cannot be used for an otherwise allowed use without coming into conflict with applicable site development standards;
- d. The variance desired will not adversely affect the public health, safety or general welfare; and;
- e. The variance is the minimum variance that will overcome the hardship.

Acknowledgement – I hereby acknowledge that I have familiarized myself with the rules and regulations to the preparation of this submittal and that the foregoing information is true and complete to the best of my knowledge. I, the undersigned, do hereby petition the Board of Adjustment of the City of Fargo, North Dakota, to take such action as may be required by law of the City of Fargo to grant a variance pursuant to Section 20-0914 of the Land Development Code of the City of Fargo.

Owner (Signature): [Signature] Date: 5-21-18
 Note: A nonrefundable filing fee of \$185.00 must be accompanied with the application at time of submittal.

Location of property requesting a variance:	
Address:	1624 1st Ave. N. (1620-1632 for entire complex)
Zoning District:	General Commercial with a CUP
Legal Description:	see attached

Proposed Variance Information:

What Land Development Code Standard are you seeking a variance? (e.g. setback, lot coverage, height)

Rear Yard setback

Please describe difference between the standard and the proposed (e.g. The standard is 10 ft. and my project would propose a 7' setback).

Standard is 15'; we propose 5' at closet point increasing to 12'

Please explain your project, describing why you are requesting a variance and why you believe a variance is justified. Along with your project description, please include a site plan/diagram with dimensions. (Attach additional pages, if needed.)

The project involves relocating an existing pre-engineered metal building from another site to this site. We need to detach the metal building at least 10' from an existing building in order to meet fire department requirements for access which pushes the building closer to the rear property line. The property in question abuts railroad property so there is no chance that another building will be constructed in close proximity to our project creating an un-safe condition in the future.

Criteria for Approval:

Please explain how your requested variance meets the following five criteria for approval, pursuant to Section 20-0914 of the Land Development Code: (Attach additional pages, if needed.)

- 1) The requested variance arises from conditions that are unique to the subject property, that are not ordinarily found in the same zoning district and that are not a result of the owner's intentional action;

We are trying to re-purpose an existing building of a specific size. We would prefer to have the relocated building abutt an existing concrete block warehouse but need to separate the buildings by at least 10' to comply with fire department access requirements resulting in the building being closer to the rear property line.

- 2) The granting of the permit for the variance will not adversely affect the rights of adjacent property owners or residents;

The adjacent building is railroad land with two main rail lines. It is highly unlikely that the railroad will abandon the lines and build a structure in close proximity to our proposed structure. There are already two existing nearby structures adjacent to the tracks that are several feet closer to the tracks than our proposed structure even if the variance is approved.

- 3) The strict application of the applicable standards will constitute an unnecessary physical hardship (not economic hardship) because the property cannot be used for an otherwise allowed use without coming into conflict with applicable site development standards;

The 15' rear yard setback creates an unnecessary hardship for this site especially in light of two existing very substantial buildings adjacent to the site that are constructed directly on the property line.

- 4) The variance desired will not adversely affect the public health, safety or general welfare; and

The variance will not impact the public health, safety or welfare in any way.

- 5) The variance is the minimum variance that will overcome the hardship.

The variance is to allow the relocation of an existing building within 5' to 12' of adjacent railroad land and is the minimum variance that will overcome the hardship. The 5' to 12' setback being requested is still greater than the 5' side yard setback for this property.
