# Executive Summary

## AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

### 1. Introduction

The 2018 Fargo Community Development Action Plan addresses the City's allocation of \$1 million in Federal funds for the purpose of furthering the creation and retention of affordable housing, revitalizing blighted areas, and assisting low-income households and neighborhoods.

The activities included in this Action Plan address priority needs in the areas of housing, homelessness and non-housing community development. Specific goals focus on affordable housing, homeownership, homelessness, neighborhoods, employment, transportation, fair housing/diversity, and poverty reduction.

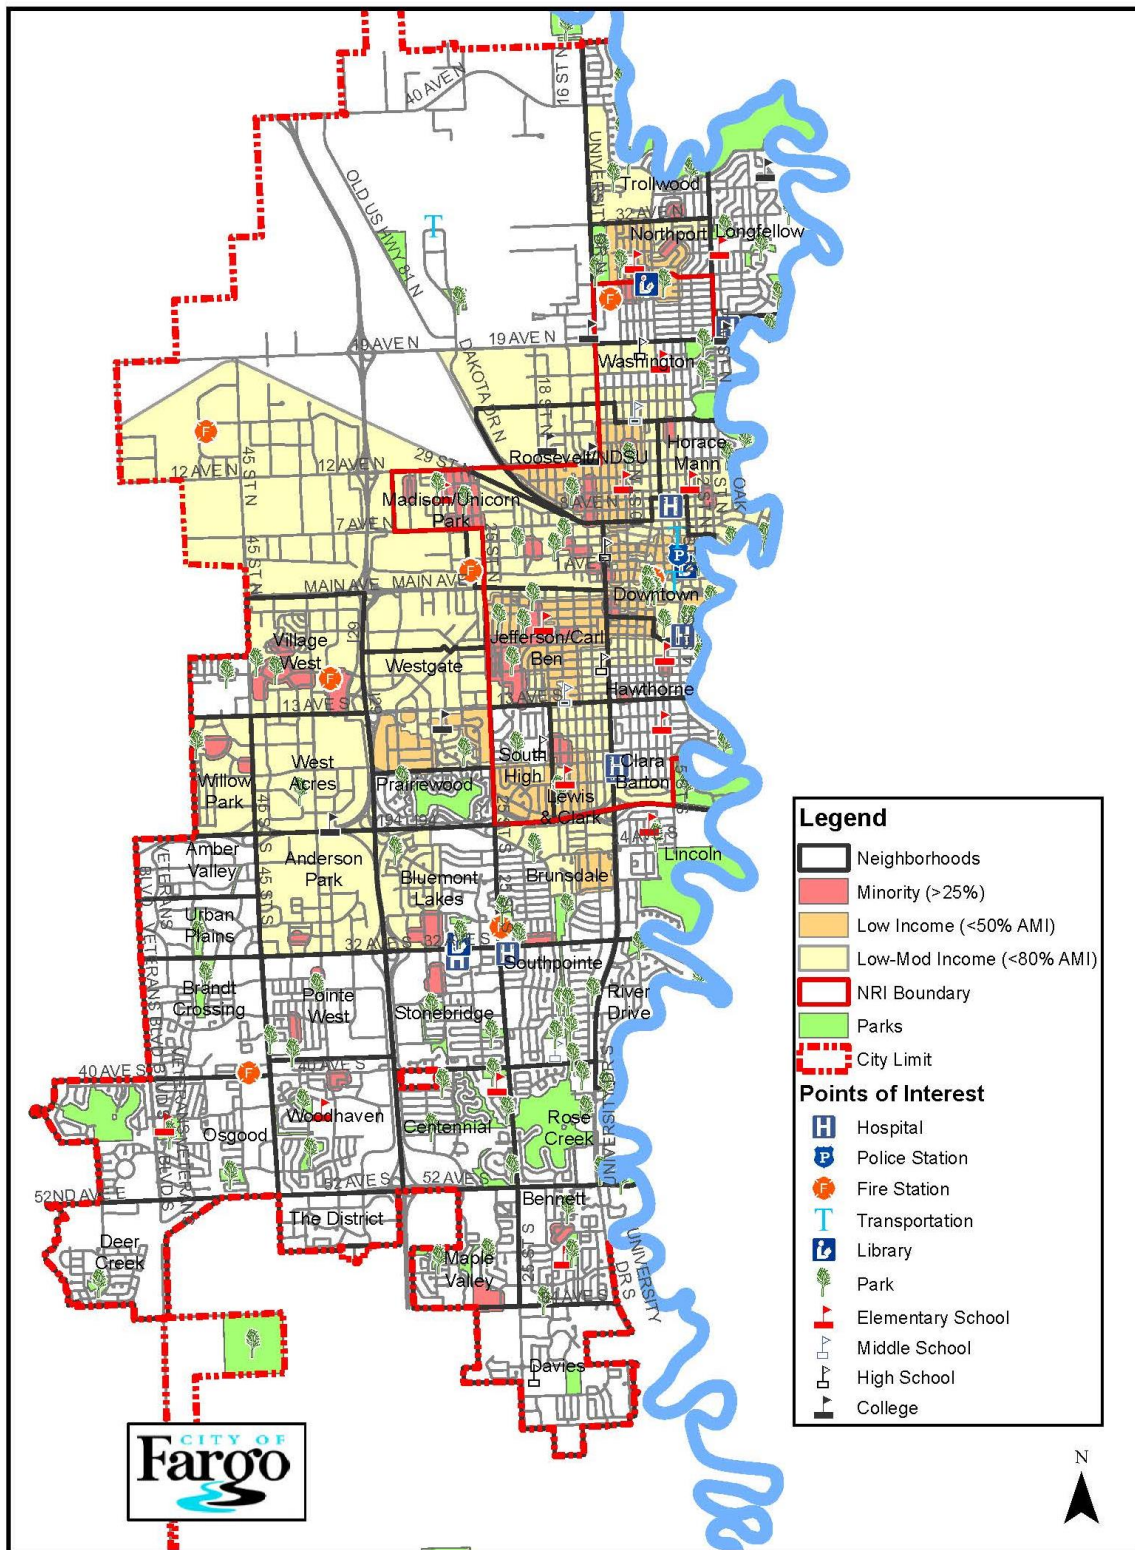

Over the years, the City of Fargo has exhibited a commitment to these issues in previous action plans and has demonstrated capacity in successfully implementing the proposed projects. The 2018 Annual Action Plan outlines the City's approach to sub-recipient and self-monitoring, which includes regular file monitoring and periodic on-site visits to assisted projects.

The City of Fargo is a Community Development Block Grant (CDBG) entitlement community and a HOME Participating Jurisdiction. This plan will address the following topics related to the use of CDBG and HOME funds in the City of Fargo in the 2018 program year (May 1, 2018 to April 30, 2019).

- Source of Funds, including expected grant and program income receipts
- Specific Consolidated Plan Objectives met by 2018 activities
- Summary of 2018 budget and programmatic expenditure limits
- Description of projects included in 2018 budget
- Geographic distribution of the projects
- A summary of special considerations, including discussion on the topics of homeless and other special populations, public housing, poverty reduction strategies, lead paint hazards, minority concentrations, underserved needs, removal of barriers to affordable housing, partnerships, and efforts to further fair housing
- Local plans for monitoring sub-recipients and HUD-funded activities in general
- All of the anticipated HOME funds will benefit low/mod households and, an estimated 80 percent of Community Development Block Grant (CDBG) funds will provide a low/mod benefit. The majority of activities address the HUD objective of decent housing, but there are also activities in the areas of economic opportunity and suitable living environments.

- High Plains Fair Housing
- Fair Housing education and public forums

#### **4. Summary of Citizen Participation Process and consultation process**

Summary from citizen participation section of plan.

The City of Fargo provides citizens, public agencies, and other interested persons with reasonable and timely access to information and records relating to housing and community development plans and programs and the use of housing and community development funds. There is open access to all meetings, and documents related to Fargo Housing and Community Development programs are made available upon request.

On November 21, 2017, a public meeting was held with the Community Development Committee to give residents an opportunity to discuss community needs and priorities. In addition, another public meeting was held on December 19, 2017, seeking community discussion on needs and priorities. A public notice

was published in *The Forum* newspaper, information was posted on the City's website, and 142 notices were mailed to individuals, community agencies, and nonprofit groups. A draft 2018 Action Plan was made available and a 30-day comment period gave citizens, public agencies, or other interested parties an opportunity to provide input. The 2018 Action Plan was presented at a public hearing to the Fargo City Commission on February 26, 2018 in the Commission Room at Fargo City Hall.

Citizens of Fargo are encouraged to participate in the development of housing and community development programs and plans. This participation is of great use to the City in identifying community development needs, assessing the effectiveness of ongoing programs, and developing housing and community development priorities. Citizens are also encouraged to participate through organizations. Participation by low and moderate income persons, residents of blighted areas, residents of predominantly low and moderate income neighborhoods, minority populations, non-English speaking persons, and persons with disabilities is especially encouraged. The City of Fargo will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in the City's programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing or vision impairments. The Community Development division maintains a database which is made up of hundreds of organizations representing these groups and individuals. Staff also attends gatherings of community groups, neighborhood organizations, and ethnic and senior communities. When the Planning and Development Department is notified that a significant number of non-English speaking persons are interested in participating in a community development meeting, contacts are made to obtain translation assistance. Information is also distributed to persons and organizations with an interest in housing and community development through direct mail to stakeholders, public meetings, newsletters, City's website, brochures, and news media.

## **5. Summary of public comments**

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

- There is a strong need for affordable senior housing and development of affordable housing for individuals and families, as well as a need for increase in homeownership.
- The increasing cost of rent is a concern; there needs to be more landlords willing to reduce rental rates and rent to higher-risk people who experience barriers to housing, such as criminal records or mental health issues.
- There are concerns that many people working minimum wage jobs cannot afford their rent.
- There needs to be more tax breaks and incentives provided to builders to create more affordable housing, as neighborhoods should consist of a balance of all income levels.

- The City is becoming more diverse, many New Americans who move here from other countries run into barriers that prevent them from finding housing, such as not having a credit history background.
- Affordable and convenient transportation options are needed to people living in all areas of the City; more bus stops/routes are needed.
- Many services exist throughout the community, but there are continual barriers such as transportation, childcare for working families, and availability of affordable housing for people based on their wages and the fair market rents.
- To strengthen neighborhoods, it is important to continue the operations of several neighborhood schools.
- There is a need for increased security in schools, availability of parking, safety/security upgrades, and building maintenance and repair issues that need to be addressed in schools.
- The need for leadership development in the New American community is important, so there can be a bridge between the City, other service providers, and New Americans.
- There is an increase in overall demand of medical equipment and supplies, with many people who live in poverty needing affordable healthcare equipment.
- Workforce development programs and job skills training are needed.
- There is a need for recreational and educational programming for New American youth, to allow them to express their talents and integrate smoothly into society.
- There is a need for initiatives to increase minority homeownership.
- There is an ongoing need for acquisition of “development ready” land parcels to be used for low-income housing.
- Housing discrimination issues are prevalent, with the majority of clients falling within the low-moderate income parameters; the highest number of complaints come from 1) persons with disabilities, 2) race and national origin, and 3) familial status and receipt of public assistance.
- There needs to be a focus on providing people with second chances to overcome barriers such as low credit, past records, incarceration, etc. with the first step to empowerment being housing, followed by addressing quality-of-life issues.

## **6. Summary of comments or views not accepted and the reasons for not accepting them**

All comments are accepted and considered in the development of the 2018 Action Plan for Housing and Community Development.

## **7. Summary**

The City has prepared an Annual Action Plan for FY 2018 (May 1, 2018 to April 30, 2019). This plan identifies the funding for projects that address the City’s most critical needs in economic development, neighborhood revitalization, housing development, and public services for low-and-moderate income households and the homeless populations.

**Narrative (optional)**

A five-member City Commission governs the City of Fargo. All of the Commissioners are elected at large and serve four-year terms.

The Community Development Committee recommends the specific allocation of funds and oversees the administration of community development programs for the City of Fargo. The City Commission appoints this Committee. The Committee consists of nine voting members, which include two City Commissioners, Assistant City Administrator, Planning Commission Chair, three at-large community representatives, Housing Authority Director, and a member of the Fargo School Board. Ex officio members include representatives of United Way, Home Builders Association, and Downtown Community Partnership. All budgetary decisions are made final at the City Commission level.

The Fargo Housing and Redevelopment Authority (FHRA) is governed by a five-member Board of Directors, which is appointed by the Mayor and confirmed by the City Commission.

The Department of Planning and Development is the lead agency in the implementation of the City of Fargo’s community development program. The above public entities work in cooperation with various non-profit, public and private entities to further the goals of Decent Housing, a Suitable Living Environment, and Expanded Economic Opportunity.

## **AP-10 Consultation – 91.100, 91.200(b), 91.215(I)**

### **1. Introduction**

For the development of this Action Plan, the City of Fargo followed its Citizen Participation Plan by distributing information that outlines the community development planning process to persons and organizations in the community. On November 21, 2017, the Community Development Committee reviewed the Annual Community Development Action Plan with funding levels for projects and programs and made a recommendation to the Fargo City Commission. In addition, the Division of Community Development sent a notice to 142 organizations and individuals for a December 19, 2017 meeting requesting public input on the preparation of the Action Plan for Housing and Community Development. Information was also posted on the City's website.

Notification of the Action Plan was published in *The Forum* newspaper, distributed to persons interested in housing and community development and the news media, and posted on the City's website ([www.fargond.gov](http://www.fargond.gov)). The notice explains the contents and purposes of the plan, locations of where it is available for review, and how to obtain a copy. The City also provides a reasonable number of free copies of the Action Plan to citizens or groups that request it.

There was a 30-day period given for public comment on the proposed Plan. On February 26, 2018, the City Commission held a public hearing on the proposed Plan, at which time the Commission reviewed and considered all comments received during the public comment period and at the public hearing. The City Commission approved the Annual Community Development Action Plan and directed it to be submitted to HUD.

### **Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))**

The City of Fargo works closely with the Fargo Housing and Redevelopment Authority, which is authorized to allocate Federal government resources to address the housing needs of the City's lowest-income households. The City also has ongoing relationships with housing providers working on housing development activities (CHDOs and non-CHDOs). Through support and engagement in the ND Continuum of Care process, the local Coalition for Homeless Persons, and other supportive housing collaborations, the City maintains relationships with mental health providers, homeless shelter and service providers, and other governmental agencies with specific responsibilities to assist homeless individuals and families. In addition, the City participates in a variety of other coalitions that seek to address issues that relate to housing and service needs.

**Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.**

City staff works actively with the North Dakota Continuum of Care and local Homeless Coalition through the City's Department of Planning and Development, the City-operated Gladys Ray Emergency Shelter and Veteran's Drop-In Center, as well as a number of local nonprofit housing, shelter and support partners. Staff participates in regularly scheduled meetings and point-in-time surveys. The City also provides administrative and general fund support to supplement Continuum of Care initiatives in Fargo and the State of North Dakota.

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS**

Staff from the City participate in the development of the Continuum of Care, working with area service providers, to include City resources and HMIS reporting in the provision of service to homeless individuals and families in Fargo. In addition, the City is represented on and attends meetings of the ND Governor's Interagency Council on Homelessness, which works to track and report activities in ND's 10 Year Plan to End Long-Term Homelessness.

	<b>Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?</b>	Agencies were notified of public meetings and consultations. More can be done to bring private sector resources to private/public housing partnerships. Housing tax credits are a powerful resource. Support for the ND Housing Incentive Fund and Federal Low Income Housing Tax Credits offers additional affordable housing resources and leverage. Specific populations in need include low-income elderly populations, people with disabilities/special needs, workforce populations and families, as well as individuals and families that are homeless or precariously housed. Land is needed to support future affordable housing development. There is a need for continued investment of CDBG and HOME dollars in the production of affordable housing, concentrating on public/private partnerships. Housing tenure in Fargo is weighted toward rental (56% renter/44% owner-occupied). As such, affordable senior and assisted living options are needed, especially in connection with the City’s existing public housing and Low Income Housing Tax Credit properties.

## **AP-12 Participation – 91.105, 91.200(c)**

### **1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting**

Stakeholder participation is central to the City in identifying community development needs, assessing the effectiveness of ongoing housing and community development programs, and developing community development priorities. The City of Fargo published a public notice in *The Forum* announcing the availability of the 2018 Action Plan for review.

The Community Development Committee gathered input in the months leading up to submission of the Plan. The list of consultations in the Consultation section represents the formal contacts made to gather information and to further coordination of program delivery. The City Commission held a public hearing for the Plan on February 26, 2018. The plan was made available to the public on the City's website at [fargond.gov](http://fargond.gov) and in paper format.

It is important to use all available methods to determine community development needs, assess effectiveness of existing programs, and develop community development plans. The City of Fargo obtains citizen input through conversations with people, consultation with housing and service providers, and adjacent units of local government, in an effort to better ascertain Fargo's community development needs.

Prior to the solicitation and selection of the 2018 community development projects, a series of meetings were held. Staff met with representatives of area municipalities and local governments, community-based organizations, in addition to service and housing-related agencies to encourage citizen participation. A citywide public input meeting was held to inform the public about the CDBG and HOME programs, community development assets and needs, types of projects eligible for funding, and the process for selecting projects. The low-moderate income population in Fargo is not in one concentrated area. For that reason, the public forum and hearings were held downtown, which include the City's Census Tracts and Block Groups that contain the most sizable population of very-low and low-income residents.

## Expected Resources

### AP-15 Expected Resources – 91.220(c) (1, 2)

#### Introduction

In the past, the City has combined its federal CDBG and HOME allocations with funding from other public and private sector sources to address priority needs. In addition, the City applies for other federal, state, and foundation grants when it meets the application criteria, as do many non-profit and for-profit organizations in the community. Although the nature and amount of such funding is unknown at this time, the City fully intends to meet the challenges addressed in the 5 year Consolidated Plan period and meet increased demand and local community development needs. Any increase or decrease in HOME and CDBG funding to match actual allocation amounts, relative to the estimated allocation amounts, will be applied to the Housing Rehabilitation, Housing Education, Fraser, and Rebuilding Together projects. In addition, the City of Fargo is currently working with 2 property owners to ascertain the timing of their affordable housing projects. These older, subsidized housing projects will

be undergoing millions of dollars of renovation.

**Priority Table**

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 4				Expected Amount Available Remainder of ConPlan	Narrative Description
			Annual Allocation: \$	Program Income: \$	Prior Year Resources: \$	Total: \$		
CDBG	public - federal	Acquisition Admin and Planning Economic Development Housing Public Improvements Public Services	713,369	0	353,617	1,066,986	297,651	The City of Fargo will strive to meet the CDBG goals and objectives over the next 5 years. The goals are based on assumptions about future funding levels for the Consolidated Plan programs. Because these funding sources are subject to annual Congressional appropriations, as well as potential changes in funding distribution formulas, the projected accomplishments and planned activities are subject to change with availability of funding. We estimated 3.4 Million over 5 years in CDBG funding.

Program	Source of Funds	Uses of Funds	Expected Amount Available Year 4				Expected Amount Available Remainder of ConPlan	Narrative Description

The goals are based on assumptions about future funding levels for the Consolidated Plan programs. Because these funding sources are subject to annual Congressional appropriations, as well as potential changes in funding distribution formulas, the projected accomplishments and planned activities are subject to change with availability of funding.

**Table 5 - Expected Resources – Priority Table**

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied**

The City combined its federal entitlement allocations with funding from other public and private sector sources (such as the Neighborhood Revitalization Initiative) to address its priority needs.

Upon becoming a HOME Participating Jurisdiction, the City of Fargo became responsible for documenting appropriate match in conjunction with receiving HOME funds. For the 2015-2019 Consolidated Plan, \$100,000/year in matching fund liability is anticipated. The sources of match will include homeowner contributions and local payments in lieu of taxes. The City also has \$149,515 in HOME program income.

Additional funding that is expected to be available during the next five years includes the Public Housing Capital Fund, Section 8 Vouchers, City General Social Service Funds, and PILOT and Capital Bonds.

The City regularly applies for competitive federal, state, and foundation grants when it meets the application criteria, as do many non-profit and for-profit organizations. However, the nature and amount of such funding is unknown at this time.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

The City will consider the use of publicly-owned land for the construction of affordable housing for low-to-moderate income households.

**Discussion**

In 2018, the City will use CDBG and HOME in partnerships to leverage private, state and local funds to address goals and strategies outlined in Fargo's Consolidated Plan. The City will also continue to identify strategies to be used for a variety of activities with respect to affordable housing and community development.

### **Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.215(b):**

The total estimate of supported housing units in the City is 2,426. Fargo has 1,050 subsidized units serving various segments of the low-income housing market. These include 413 general occupancy units, 576 senior/disabled occupancy units, and 61 special needs/targeted populations units. Fargo also has authority to issue 100 VASH vouchers for homeless vets and 1,194 tenant-based rent assistance vouchers that can be used

in suitable market rate housing. Although most of the assistance is provided through traditional vouchers, some additional assistance serves veterans and people facing homelessness, including 60 tenant based rental assistance (TBRA) units and 22 single room occupancy (SRO) units. However, for most forms of subsidized housing, long waiting lists exist. For example, the tenant-based voucher rent assistance program maintains a waiting list with more than 2,378 names. Over time, the number of vouchers has increased, but at a lower rate than household growth in Fargo.

## AP-35 Projects – 91.220(d)

### Introduction

The City of Fargo is a Community Development Block Grant (CDBG) entitlement community and a HOME participating jurisdiction. This plan will address the following topics related to the use of CDBG and HOME funds in the City of Fargo in the 2018 program year (May 1, 2018 to April 30, 2019).

- Source of Funds, including expected grant and program income receipts
- Specific Consolidated Plan Objectives met by 2018 activities
- Summary of 2018 budget and programmatic expenditure limits
- Description of projects included in 2018 budget
- Geographic distribution of the projects
- A summary of special considerations, including discussion on the topics of homeless and other special populations, public housing, poverty reduction strategies, lead paint hazards, minority concentrations, underserved needs, removal of barriers to affordable housing, partnerships, and efforts to further fair housing.
- Local plans for monitoring sub-recipients and HUD-funded activities in general
- All of the anticipated HOME funds will benefit low/mod households and, an estimated 80 percent of Community Development Block Grant (CDBG) funds will provide a low/mod benefit. The majority of activities address the HUD objective of decent housing, but there are also activities in the areas of economic opportunity and suitable living environments.

## **Describe the reasons for allocation priorities and any obstacles to addressing underserved needs**

The 2018 Action Plan attempts to allocate funding across a range of projects, to ensure that community development efforts are comprehensive. Fargo neighborhoods have diverse needs and funding is dedicated to many different types of projects to make a difference. This includes housing rehabilitation, fair housing activities, facility improvements, infrastructure assistance, and public services. HOME funding is used for owner-occupied housing rehabilitation and multi-family construction.

Over the next year, the City will work to support low and extremely-low-income households by focusing community development efforts on working comprehensively in neighborhoods that contain some of the City's most vulnerable populations. By working comprehensively to revitalize entire neighborhoods, the City plans to use funding as effectively as possible. The Community Development Division will also work to increase its capacity to effectively partner with local nonprofit, public, and for-profit organizations to identify emerging community needs and resources.

## **AP-50 Geographic Distribution – 91.220(f)**

### **Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed**

The primary beneficiaries of all listed projects are low/moderate income households in the City of Fargo. In Fargo, most of the low/mod areas are concentrated in the core of the City, which are also some of Fargo’s oldest neighborhoods.

The City’s strategy for prioritizing community development activities is to target neighborhoods that are low/mod, where affordable housing is available, and that are older (developed pre-1920).

These neighborhoods typically share a number of characteristics that warrant community development interventions. There are opportunities for comprehensive neighborhood planning efforts that identify issues in a strategic way while at the same time empowering residents to act in concert with the City to address those needs. The housing stock is generally in good condition but is in need of re-investment/improvement. Oftentimes, residents’ concerns about safety and public service provision are beginning to emerge. It is at this point that the City feels it can be most effective in using community development resources to affect the lives of the citizens of these neighborhoods as well as the quality of life in the community as a whole.

### **Geographic Distribution**

<b>Target Area</b>	<b>Percentage of Funds</b>

**Table 10 - Geographic Distribution**

### **Rationale for the priorities for allocating investments geographically**

As mentioned above, the City’s strategy for prioritizing community development activities is to target neighborhoods city-wide that are low/mod, where affordable housing is available, and that are older (developed pre-1920).

## Affordable Housing

### AP-55 Affordable Housing – 91.220(g)

#### Introduction

In 2018, Fargo’s affordable housing work involves creating and maintaining housing options and solutions. To do this, the City will rehabilitate older owner-occupied housing, work with local partners to create new housing and rehabilitate existing affordable housing, assist low-income homeowners with infrastructure assessments, increase public awareness of affordability concerns, and work to increase homeownership rates for minority populations.

## **AP-60 Public Housing – 91.220(h)**

### **Introduction**

The Fargo Housing and Redevelopment Authority (FHRA) and City continue to address the needs of its public housing inventory and encourage residents to be involved in its operations.

### **Actions planned during the next year to address the needs to public housing**

The City is working closely with the Fargo Housing and Redevelopment Authority (FHRA) to rehabilitate and expand its affordable housing stock and the overall living environment for residents. The City is planning to invest over \$1,000,000 in CDBG, HOME, and local dollars to rehabilitate the Lashkowitz High Rise. This will allow the FHRA to leverage other sources of affordable housing dollars, such as LIHTCs, and will make it possible to focus on expanding its affordable housing stock in the years following.

In Fargo, there are 13 affordable housing properties providing rental assistance to 789 very low income households. In addition, the Fargo Housing and Redevelopment Authority has 60 tenant based rental assistance units, and provides 100 VASH vouchers for homeless vets and 1,194 Section 8 rental vouchers for general use. The FHRA meets the needs of its tenants through regular physical, operational, and management improvements, which are listed in its Five-Year Agency Plan and annual updates. The FHRA is engaged in efforts to improve its housing stock and the overall living environment for residents. The Lashkowitz High Rise is an example of this endeavor. The Lashkowitz project is in its planning phase to improve the overall condition of affordable units in the City and meet the long-term needs of tenants.

### **Actions to encourage public housing residents to become more involved in management and participate in homeownership**

The FHRA works to engage, educate, and empower residents by providing opportunities for personal development, economic stability, education, health, and fostering family and community life.

### **If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance**

Not applicable. The FHRA is not designated as troubled.

## **AP-65 Homeless and Other Special Needs Activities – 91.220(i)**

### **Introduction**

Homelessness encompasses a population that is elusive, hidden, highly mobile, and characterized by diverse and complex circumstances. In order to identify the needs of persons who are homeless in Fargo, the City works closely with the local homeless coalition, service and housing providers, as well as the ND Coalition for Homeless People, which manages the Continuum of Care and Homeless Management Information System (HMIS) for North Dakota.

### **Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including**

#### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The City Planning Department continues to be involved in local and statewide Continuum of Care efforts and regularly provides CDBG funds to support the planning process. In addition, the Planning Department continues to move forward with the goals and objectives of Fargo's "10-Year Plan to End Long-Term Homelessness", which brings together public and private partners from the metropolitan area to craft a local strategy for addressing the needs of this homeless population. Funds are set aside in the 2018 budget to support project ideas that have come out of that process (Project #6).

#### **Addressing the emergency shelter and transitional housing needs of homeless persons**

CDBG funds will be utilized to provide operating support at Fargo's Gladys Ray Shelter, which serves the Fargo homeless population. The 2018 Action Plan also includes funds to assist with supportive housing and shelter facility improvements. In addition, Project HART in Fargo is a transitional residential facility/program for veterans that are homeless. It provides housing for 48 individuals.

#### **Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

Homeless providers in Fargo are members of the Fargo-Moorhead Coalition for Homeless Persons and North Dakota Continuum of Care, which organize around the implementation of the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act. Their work focuses on planning and delivering housing and services for people who are homeless. Members of the Coalition currently operate in partnership with a locally-maintained homeless information system called CARES, which

helps to coordinate, refer, and evaluate homeless prevention and housing services. The information obtained is also used by homeless and housing providers to identify gaps and improve performance. The local organizations also work with ongoing McKinney-Vento homeless projects to improve outcomes related to transitioning to permanent housing, reducing the number of veterans and families with children that are homeless, assisting youth aging out of foster care, as well as lowering the number of people who become homeless again.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.**

As part of Fargo’s 10-Year Plan to End Long-Term Homelessness, the City plays an important role in supporting emergency solutions for persons experiencing homelessness and prevention strategies to keep people from becoming homeless in the first place. The City operates the Gladys Ray Shelter and Veterans Drop-In Center. These efforts, in addition to general fund and human resource support to local shelters, service and housing providers are key to addressing the needs of individuals entering and exiting the criminal justice system; working to incorporate housing into the discharge planning being done by healthcare facilities; and identifying solutions to address concerns of youth homelessness and kids aging out of foster care. This work is critical toward ensuring that the issue of homelessness is addressed along a community-wide continuum of prevention and intervention strategies.

**Discussion**

<b>One year goals for the number of households to be provided housing through the use of HOPWA for:</b>
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family

## **AP-75 Barriers to affordable housing – 91.220(j)**

### **Introduction**

The 2018 Action Plan demonstrates significant support for the maintenance and creation of affordable housing in the community.

### **Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment**

The City is examining its Tax Increment Financing (TIF) policy to focus local incentive dollars on encouraging affordable housing development; previously, the policy was for any housing development, which often resulted in higher end, more expensive rental housing development. Additionally, the City has begun training and educating local developers on the use of 4% LIHTCs, which are rarely used throughout the state. This has already resulted in one planned development with more being considered.

The Fargo Housing and Redevelopment Authority (FHRA) has struggled to maintain its older housing stock, particularly its high rise, which will allow the FHRA to focus on development of new affordable housing stock.

Outside the City's investments in the FHRA, permanent affordability of housing is not guaranteed by the City's investments of federal and local dollars. The City is considering utilization of a shared equity agreement for the purposes of ensuring permanent affordability.

Although there has been a significant amount of housing development in Fargo over the past decade, much of it has been from a handful of local developers creating a potentially oligopolistic market. The City is examining policies to encourage small-scale, and missing middle-type housing to create a more competitive market and a variety of housing styles and sizes produced or maintained by an expanded number of suppliers, to help drive down the market rates of housing.

To note, the Housing Rehab program helps remove significant barriers to affordable homeownership by assisting with critical repairs and maintenance to Fargo's existing housing stock, much of which is considered affordable housing. The Action Plan also includes funds to assist homeowners with special assessments levied for infrastructure repairs near their home. Direct efforts to remove barriers to affordable housing include assistance with the development of affordable senior housing, with the HomeField III Senior Housing apartments located at 4225 28th Avenue South.

The City of Fargo has worked to address the problem of increased foreclosures in the area through the Neighborhood Stabilization Program (NSP), which was authorized by Congress under Title III of the

Housing and Economic Recovery Act of 2008. Fargo received over \$5 million to acquire and redevelop foreclosed and abandoned properties that might otherwise have become sources of abandonment or blight. The NSP funds have been an excellent source of funding to address increasing numbers of foreclosed or vacant properties. The funds allocated to the City have been obligated and spent; however, approximately \$443,200 in program income remains and can be utilized to address foreclosures and abandoned property. Additional program income may be generated during 2018.

## **AP-85 Other Actions – 91.220(k)**

### **Introduction**

The City will undertake, or support the efforts of other agencies that meet the needs of low-income persons and households.

### **Actions planned to address obstacles to meeting underserved needs**

The City will work with funding agencies, including Cass County, United Way of Cass-Clay, FM Area Foundation, Dakota Medical Foundation, and the Impact Foundation to coordinate and meet the needs of the community.

The City will seek opportunities to increase funding available for affordable housing.

The City will work to inform lenders and households regarding Fair Housing laws, and in particular, to encourage greater participation by minorities and ethnic groups disproportionately represented in homeownership.

### **Actions planned to foster and maintain affordable housing**

Most of the City's affordable housing inventory is owned and managed by non-profit housing providers. There is little risk that projects will be lost from the affordable housing inventory. Regardless, the City will work with these providers when time comes to ensure continued viability of the housing.

The City will work with homeowners and owners of private multifamily rental units to identify obstacles and opportunities for rehabilitation and preservation.

### **Actions planned to reduce lead-based paint hazards**

All housing rehabilitation efforts on homes that were built before 1978 will include lead-based paint hazard evaluations. All hazards will be addressed, either through abatement or interim controls to minimize the hazards.

The City will continue to provide educational information about the hazards of lead-based paint.

### **Actions planned to reduce the number of poverty-level families**

The City continues to support the efforts of nonprofit and public agencies that work to reduce the

number of families living in poverty.

### **Actions planned to develop institutional structure**

The City is a partner in identifying ways to coordinate and improve the effectiveness of the institutional systems, housing and community development needs.

The City will continue to work with all housing and human service agencies to coordinate and improve communications. The Community Development Committee is one mechanism for hearing issues and addressing ways to improve the service delivery and housing system in Fargo.

### **Actions planned to enhance coordination between public and private housing and social service agencies**

The City will continue to support the efforts of housing and service agencies in the community. Fargo continues to expand its representation and presence with housing, social and human service agencies. In 2016, the North Dakota Housing Finance Agency completed a Statewide Housing Needs Assessment. In 2015, the Community Development Committee oversaw the development of a Fargo Housing Study. Around the same time, a Workforce Study was completed by the Fargo Moorhead Economic Development Corporation. The available data was instrumental in the creation of a Build Housing Workgroup, which includes multi-sector representation from the region and focuses specifically on attainable housing to support upward mobility for people in low-wage, basic skill jobs. The result has contributed to the coordination of public and private housing organizations in Fargo's annual action plan through partnerships to develop employer funded housing, tenant and homebuyer education (which the Village Family Service Center stopped offering in 2015), create a regional housing trust fund, and support local and statewide housing programs and policies.

### AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

#### Introduction

The City has prepared specific requirements for the use of CDBG and HOME program income, as well as HOME resale and recapture provisions. All HOME funded projects in Fargo's 2018 Action Plan are subject to the recapture provision, as opposed to the resale provision.

#### Community Development Block Grant Program (CDBG)

##### Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
<b>Total Program Income:</b>	<b>0</b>

#### Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan.	80.00%

**HOME Investment Partnership Program (HOME)**  
**Reference 24 CFR 91.220(l)(2)**

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City uses no other form of investment beyond those identified in Section 92.205. Under 92.205, a participating jurisdiction may invest HOME funds as equity investments, interest-bearing loans/advances, non-interest-bearing loans/advances, interest subsidies consistent with the purposes of the HOME program, deferred payment loans, grants, or other forms of assistance that HUD determines to be consistent with the purposes of the program. Each participating jurisdiction has the right to establish the terms of assistance, subject to the requirements. The City of Fargo generally invests HOME funds as a deferred payment loan or grant with conditions.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

Recapture policies must be in place to assure that HOME-assisted housing units remain affordable through deed restrictions, covenants attached to the land, mortgages, or other similar mechanisms. The City of Fargo typically accomplishes this by using a Land Use Restrictive Agreement (LURA). All HOME funded projects in Fargo's 2018 Action Plan are subject to the recapture provision, as opposed to the resale provision. The HOME CHDO project is required to follow the City's recapture policy.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

All HOME funded projects in Fargo's 2018 Action Plan are subject to the recapture provision, as opposed to the resale provision. The recapture option follows the provisions in 24 CFR 92.254(a)(5)(ii), which allows for recapturing the entire amount of HOME investment based on specific criteria that are established within the City's Recapture Policy. Only direct subsidy to the homebuyer is subject to recapture. The amount recaptured must be limited to the net proceeds from the sale (24 CFR 92.254). Any recaptured funds must be used to carry out eligible HOME activities. In the case of CHDO proceeds, the City of Fargo permits Beyond Shelter, Inc. to retain any CHDO proceeds resulting from the HOME investment with the condition that the proceeds be used to develop additional affordable housing in the City of Fargo (24 CFR 92.3000(a)(2)) following the City's Recapture Policy. In addition, all CHDO proceeds and uses will be reported to the City.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that

will be used under 24 CFR 92.206(b), are as follows:

Fargo does not intend to use HOME funds to refinance existing debt that is secured by housing that is being rehabilitated with HOME funds (as per 92.206(b)). The City will use only the forms of investment described in 24 CFR 92.205(b) (grants, deferred payment loans, non-interest bearing loans).

## **Discussion**

The after HOME rehabilitation value of owner-occupied, single-family properties in the city of Fargo, will not exceed 95% of the area median purchase price. The 95% median purchase price for the area is determined by using the HOME affordable homeownership limits provided by HUD (24 CFR 92.254 (a)(2)(iii)).

# Community Development Goals and Considerations

## COMMUNITY DEVELOPMENT FUNDS

The Fargo Community Development Committee makes recommendations to the City Commission regarding development and oversight of the Community Development Block Grant (CDBG), HOME Partnership and City Social Service Grant funds, which are each separate grants that utilize the same application. The CD Committee's focus is on the following community development goals:

### 1) Affordable Housing & Homelessness

- Create or maintain affordable housing stock
- Increase homeownership
- Reduce homelessness in the community

### 2) Poverty Reduction

- Support efforts to increase self-sufficiency and personal well-being
- Expand economic opportunities for low-income individuals
- Promote the principles of fair housing and acceptance of diversity

### 3) Neighborhoods

- Help ensure that all Fargo neighborhoods are neighborhoods of choice
- Promote the development of downtown and older neighborhoods

### 4) Planning/Administration

- Use for administration of community development programs, general planning activities, and studies

### Responsibilities

The Community Development Committee evaluates how the City's housing and development programs are working. It also examines new programs, proposed changes and grant/funding opportunities. In addition, the CD Committee may recommend and initiate special studies and plans.

### Community Development Grants

Community Development Grants are made by the Fargo City Commission, with the recommendation of the Community Development Committee.

The City of Fargo will not fund:

- Partisan, political, or denominational programs
- Endowment campaigns
- Individuals
- Requests that are not in writing
- Programs located outside the City of Fargo, unless directly benefiting Fargo residents

## ***2018 Action Plan Public Input Meeting Comments***

### **CDBG/HOME Public Input Meeting City of Fargo 2018 Community Development Action Plan December 19, 2017 – 2:30 p.m. City Commission Room, Fargo City Hall**

City Commissioner and Community Development Committee Chair John Strand introduced the community development public input meeting and welcomed everyone in attendance.

Planning Director Jim Gilmour followed up by explaining the purpose of the meeting, which included getting the public's feedback and input of the needs in the community. He reviewed the 5-Year Consolidated Plan goals, which include 1) affordable housing, 2) homelessness, 3) neighborhoods, 4) poverty reduction, and 5) planning, administration and fair housing.

Dan Madler, Beyond Shelter, discussed affordable housing including development of affordable housing for individuals and families. He noted there is a strong need for affordable senior housing, adding Beyond Shelter's HomeField Senior Housing project opened this last year. He also spoke about a component on homeownership, noting Beyond Shelter is working on putting together funding sources to address this demand.

Babs Coler, Churches United for the Homeless, talked about people experiencing homelessness and the need for more affordable housing. She noted landlords are needed who could rent out to people who have barriers to housing, such as criminal records or mental health issues, and help these people find housing. She stated the cost of rent is a big concern, emphasizing the need for more landlords willing to reduce rental rates and rent to higher-risk people. She noted affordable rent is based on an individual's income and many people are working minimum wage jobs, which still does not cover their rent. In addition, she inquired if there are tax breaks and incentives provided to builders to create more affordable housing. She stated neighborhoods should consist of a balance of all income levels.

Abdiwali Sharif, Somali Community Development of North Dakota, addressed housing, homeownership, and language barriers. He noted many New Americans move here from other countries and try to rent an apartment, but many do not have a credit history background, which prevents them from finding housing. He echoed concerns regarding minimum wage jobs and increasing rents, which prevent many people from finding affordable housing.

Chris Johnson, Rape and Abuse Crisis Center, noted the center sees over 3,000 people per year and talked about the amount of violence they see in the community, including domestic violence, sexual assault, and child sexual abuse. He spoke on concerns regarding the availability of affordable housing to people with questionable histories and the barriers their histories may present. He emphasized the importance of making sure people are safe and housed.

Cody Schuler, FM Coalition for Homeless Persons, added there are some places where affordable units exist but they are not convenient if people do not have cars. He noted concerns regarding the location of housing and availability of transportation to people based on their locations.

Thomas Hill, United Way, spoke about workforce and skills gaps. He noted many services exist throughout the community, but there are continual barriers such as transportation, childcare for working families, and availability of affordable housing for people based on their wages and the fair market rents.

Connie Nelson, Fargo Public Schools, talked about neighborhoods and the number of schools that are low income, emphasizing the need to redevelop and repopulate areas to keep the neighborhood schools going. She spoke about needs including increased security in schools, availability of parking, safety/security upgrades, and building maintenance and repair issues. She talked about concerns with combining schools, which would result in an increased distance for children to travel to school.

Christian Harris, New American Consortium, spoke on diversity and the need for leadership development in the New American community. He expressed the need to prioritize the continuance of New American leadership to serve as a bridge between the City, other service providers, and New Americans. He noted that by empowering leaders, this will give them the capacity to continue services and voice the needs of the New American communities.

Stephen Roise, Healthcare Equipment Recycling Organization (HERO), talked about affordability and poverty, noting HERO has seen an increase in overall demand of medical equipment and supplies. He noted there are many people living in poverty who need affordable healthcare equipment. He also echoed the need for more bus routes/stops through public transportation.

DeAnne Sperling, North Dakota State College of Science – Fargo, spoke about the SkillsND Program, which provides job skills training for underemployed, unemployed, and New American populations. She noted the purpose of this program is to help people develop the skills they need to enter the workforce, preventing poverty and homelessness in families. She added the areas of work that the SkillsND Program is focused towards are pre-manufacturing, manufacturing, and nursing.

Abdi Jama, Global Youth United, expressed concerns related to poverty and the programs available to New American youth. He noted many New American youth participate in recreational activities but there needs to be more opportunities for youth to express their talents. In addition, he talked about concerns with language barriers.

Abdiwali Sharif, Somali Community Development of North Dakota, discussed concerns with low homeownership rates for minority populations and talked about the need for some form of assistance to help increase homeownership such as downpayment assistance or 0% interest loans.

Jim Gilmour noted there are tenant education classes being offered through Southeastern North Dakota Community Action Agency and homebuyer education classes being offered through and Lakes & Prairies Community Action Partnership, Inc.

Dawn Morgan, Fargo Neighborhood Coalition, inquired why young people are not acclimating to American society, noting many are eager and bring a lot of value to homes, language skills, and their interpretation of the American way of life. She added the youth that she has met have a great eagerness to participate in society.

Abdi Jama, Global Youth United, stated their organization looks at the strengths of kids and what they like to do, putting those first. He said the aim is to give the kids the ability to do what they love and express their talents, then integrate this into education for them to go to college. He expressed concerns with the lack of funds to implement programs for these kids.

Abdiwali Sharif, Somali Community Development of North Dakota, spoke about the balance between the culture of New American youth and American culture, adding many New American youth experience pressure to learn from their home culture as well as try to integrate into American culture. He explained the difficulty for youth to balance both sides in a household that does not understand both cultures. He emphasized the need for a plan to help New American youth grow and integrate smoothly into society.

City Commissioner John Strand reiterated the importance of partnering and building relationships to move forward with addressing community development and human service needs. He added finding a soccer field and nets for New American youth to participate in recreational activities through connecting with the Fargo School District and Fargo Park District is an example of how developing relationships can make a world of difference.

Ken Enockson, Roosevelt Neighborhood Association, discussed homeownership and affordable housing, noting a way to achieve more affordable housing may be to pursue land trusts.

Jim Nelson, Lake Agassiz Habitat for Humanity, spoke about affordable housing and the ongoing need for the acquisition of “development ready” land parcels to be used for low-income housing. He added low-income housing helps improve education, health, safety, community involvement, financial stability, and hope for the future for families coming out of poverty, and allows these families’ reliance on government programs to decrease significantly.

Michelle Rydz, High Plains Fair Housing Center, discussed the issues that High Plains Fair Housing addresses, noting 95% of all of their clients fall within the low-moderate income parameters. She stated housing discrimination issues are prevalent, with the highest number of complaints coming from persons with disabilities, second is race and national origin, and others include familial status and receipt of public assistance. She

added they have completed nearly 20 tests in-person or phone tests, and 30 phone audit tests, with discrimination (based on race, national origin, public assistance, and disability) being uncovered in 20% of the tests. She stated they have assisted 7 New American families in exercising their fair housing rights, and have also assisted clients who were harassed by their neighbors to file complaints or move apartments without penalty. She added free speech is protected by the constitution but becomes a fair housing issue when people are threatened and intimidated in their homes. In addition, she said their organization assisted 4 Fargo clients with disabilities through the fair housing complaint process, which resulted in monetary remedies. She stated there are currently 2 pending cases of persons with disabilities in the complaint process with the Department of Housing and Urban Development.

Amy Nash, Fargo-Moorhead Dorothy Day House of Hospitality and F5 Project, addressed poverty, lack of affordability, transportation, housing, and workforce challenges. She noted there needs to be a focus on creating second chances and offering low-burden support to assist in making homelessness brief and transition swift. She stated, once a person has a stable place to stay and a means to move about the community, many of the opportunities for self-sufficiency can emerge at the hands of that person, which is true empowerment. She added if these strategies are coupled with addressing the living wage, second-chance employment, and workforce strategies, then the opportunities to be productive, tax-paying citizens are fueled. She stated many people that FM Dorothy Day House of Hospitality and F5 Project serve are in need of second chances to overcome barriers of low credit, past records, incarceration, etc. She emphasized the first step to empowerment is housing, then the issues of quality-of-life can be addressed. She stated the solution for serving a long-term impact is addressing the need for housing, affordability, and attainability.

Jim Gilmour concluded the meeting by thanking everyone for the work they do to address the needs in the community and echoed the importance of developing relationships with each other to continue moving forward.

## Community Development Plan Findings

An examination of community characteristics helped identify priority needs that should be addressed with community development funds.

- **AFFORDABILITY**

The City of Fargo and surrounding communities are fortunate to have a cost of living that is low compared to most other urbanized areas. However, a more in depth examination of the personal economic picture of area households would reveal affordability concerns for the lower income portion of the population. Certain segments of the population do face significant affordability issues. Most rental households earning less than 50% of area median income face a severe cost burden. And, for homeownership to remain within reach for households earning less than 120% of area median income, new construction of affordable owner-occupied housing is needed.

- **HOMEOWNERSHIP**

Homeownership rates in Fargo are low. The City is likely to have a low homeownership rate relative to the state and national rates because of some of the characteristics of the population (high percent of student and elderly households) but the fact remains that the rate could be increased. Efforts to encourage minority homeownership and homeownership for low-income households (50-80% of median income) are key initiatives in Fargo. Additionally, working to ensure a variety of homeownership options throughout the community and improving the ability to pay housing-related costs will encourage increases in homeownership across all income, age, and ethnic groups.

- **HOMELESSNESS**

Homelessness is an issue that has a different scale in North Dakota and in the City of Fargo than larger, more urbanized, areas. The most recent survey of homelessness in Fargo counted 591 homeless persons in Fargo-Moorhead, 36% of whom could be considered chronically homeless. Even though Fargo is home to approximately 16% of the state's population, it is home to more than 1/3 of the state's homeless population. The City has a good emergency shelter and support system, as well as some transitional housing and permanent supportive housing units. However, continuing the work to address crisis housing situations and provide a robust continuum of housing options will allow people to move from homelessness into housing stability.

- **DIVERSITY**

Fargo is a more diverse community. Immigrants come from two distinct groups – a highly educated and relatively affluent group associated with the metro area's universities and medical institutions, and a relatively disadvantaged group of refugees that have been resettled to the United States to avoid persecution in their native lands. In addition, Native American people exhibit the most need (as measured by poverty, education levels, homeownership). Community systems and residents must continue to adjust to accommodate this diversity of language, culture, and need.

- **INFRASTRUCTURE**

A neighborhood's physical and social infrastructure combine to show the strength and long term viability of a place. Continued investment in the physical infrastructure of the City's neighborhoods (housing, streets, utilities, neighborhood facilities, parks and open space) and aggressive elimination of blight will encourage vitality in older and more fragile neighborhoods. In addition, investing in social infrastructure may be just as important. Social infrastructure involves leadership development and support for the activities of grass roots organizations (i.e. neighborhood groups, ethnic communities, not-for-profits, and 'friends of' organizations).

- **POVERTY**

Efforts to reduce poverty levels by increasing earning power and family self-sufficiency have a major impact on community and individual well-being. In Fargo, as well as throughout the State of ND, extremely low-income households face the most extreme cost burdens and overall life challenges. Households living in poverty are unlikely to own a home, and as such, are unlikely to accumulate wealth in the form of a housing asset. Their lack of personal financial resources increases the difficulty associated with meeting basic food and shelter needs, as well as transportation and childcare. In general, this group is living in a precarious situation. Efforts to support stability for extremely low-income households and households in poverty are important because this is the group in greatest need.

**HOUSING NEEDS**

- Significant rehab and replacement needs in public housing must be addressed to maintain the community's inventory of subsidized units
- Affordability concerns for households earning less than 30% of the area median income. The majority of this group rents so rental affordability is key. Also, elderly households earning less than 30% of median income exhibit significant cost burden at high rates. A priority should also be made for young families with children because this group has the largest number of households showing a cost burden
- Homeownership rate is low, with disproportionately low rates of minority homeownership
- Owner-occupied housing costs are rising for all income ranges
- Age-based projections through 2020 show a large increase in senior, empty-nester households, as well as an increase in younger populations – which means shifting housing demand and a strong future bias toward home ownership
- Education on fair housing issues
- Construction of new subsidized units (i.e., Low Income Housing Tax Credits) should target extremely low-income households (less than 30% median income) as well as seniors and workforce families with children

**HOMELESS AND SPECIALS NEEDS**

- Special needs populations continue to have unmet housing needs. Develop additional permanent supportive housing to effectively transition people out of non-permanent living facilities (hospitals, jail, treatment, shelters) in order to avoid discharging people into homelessness
- Find housing options for hard-to-house populations (bad credit, criminal background, behavioral issues)
- Ensure culturally-appropriate housing and support service solutions to maximize successful reduction in homelessness, particularly for the American Indian population which makes up a disproportionate share of the community's homeless and precariously-housed population
- Provide support to extremely low-income households (<30% area median income) because they are the most precariously-housed, non-homeless population
- Support efforts of the Continuum of Care and State agencies to bolster discharge planning practices to prevent newly discharged individuals from becoming homeless
- Increase public awareness of homelessness and the needs of this population

**NON-HOUSING COMMUNITY DEVELOPMENT NEEDS**

- Self-sufficiency enhancement, particularly for extremely low-income households (English language education, transportation, job skills, entrepreneurship, microenterprise support)
- Leadership development within local ethnic communities (i.e., Native and New Americans) to facilitate self-determined activities and successful integration into the community fabric
- Neighborhood-based youth/family facilities in low-income and/or fragile neighborhoods
- Elimination of deteriorated property and blighted conditions in both residential neighborhoods and the central business district

## Community Development Goals and Objectives

To address the priority needs, Fargo has identified the following goals. Specific objectives are provided to further define each of these goals.

1. **Affordable Housing** – Create and maintain affordable housing options and increase homeownership in the City of Fargo
  - Rehabilitate older owner-occupied housing
  - Work with local partners to create new housing and rehabilitate existing affordable housing throughout the community, including the preservation and replacement of the existing subsidized housing
  - Assist low-income homeowners with infrastructure assessments to help maintain the affordability of homeownership
  - Increase public awareness of affordability concerns and the needs of at-risk populations
  - Provide opportunities for housing education to potential and recent homeowners and tenants
  - Increase homeownership rates for minority populations
2. **Homelessness** – Participate in collaborative efforts to reduce and prevent homelessness in the community
  - Support a continuum of housing and emergency solutions for Fargo's population facing homelessness
  - Encourage the development of supportive housing units and housing case management partnerships
3. **Neighborhoods** – Ensure that all Fargo neighborhoods are neighborhoods of choice
  - Eliminate blighted conditions from the downtown business district and Fargo's central residential areas
  - Foster the establishment of strong neighborhoods through the implementation of revitalization efforts
4. **Poverty Reduction** – Reduce poverty & support efforts to increase self-sufficiency and self-determination of low and moderate income households in the community
  - Support skill-building and other opportunities designed to improve personal success (i.e., access to healthcare, job training, financial literacy, English language learning, driving skills, pre-GED, community gardening, entrepreneurship, leadership training)
  - Support metropolitan efforts to address barriers to work that affect low-income individuals (education, transportation, child care, etc.)
5. **Planning, Administration and Fair Housing** – Administer the Community Development program to meet community needs and Federal grant requirements
  - Oversee Community Development program administration
  - Promote the principles of fair housing, as well acceptance and respect for diversity

**City of Fargo**  
**Community Development Notice**  
 The City of Fargo Planning and Development Department has available for public review and comment an Action Plan for housing and community development resources. The 2018 Action Plan will be used in the next fiscal year in accordance with the community's Consolidated Plan update. Fargo anticipates \$637,000 in Community Development Block Grant (CDBG) funds and \$336,000 in HOME funds to be available, as well as approximately \$50,000 in HOME Program Income. Activities in the 2018 Action Plan include the following:  
 \*HOUSING  
**Community Development Housing Organization (CHDO) Project** - \$100,000 in HOME funds for construction of affordable housing.  
**Housing Rehabilitation and Delivery-Owner Occupied** - \$465,000 to be available for rehabilitation of existing owner-occupied housing units. This includes \$213,000 in CDBG and \$252,000 in HOME funds.  
**Special Assessment Assistance** - \$15,000 in CDBG funds to assist low-income homeowners with annual special assessments.  
 \*DOWNTOWN PROJECTS - \$100,000 in CDBG funds for projects that address slum and blight conditions in downtown Fargo.  
 \*PUBLIC SERVICE PROJECTS  
**Housing Education** - \$15,000 in CDBG funds to support Tenant and Homebuyer Education classes in the Fargo-Moorhead community.  
**Homeless Initiatives** - \$38,000 in CDBG funds to support homeless initiatives at the Gladys Ray Shelter and 10-year plan activities.  
**Metro Transportation Initiative** - \$5,000 in CDBG funds to provide transportation to low-income participants.  
**Snow Removal Assistance** - \$2,000 in CDBG funds to offer snow removal assistance to low and moderate income senior households and people with disabilities.  
**NDSCS - Job Training** - \$30,000 in CDBG funds to provide job skills training and development to low-income and New American populations.  
 \*FACILITIES/CAPITAL, NEIGHBORHOODS  
**Fraser, Ltd.** - \$17,000 in CDBG funds to assist with costs of upgrades to an Independent Living Program house.  
**Rape and Abuse Crisis Center** - \$60,000 in CDBG funds to improve the safety and security at the center.  
**Rebuilding Together** - \$10,000 in CDBG funds to support home improvements to low-income seniors, veterans, and disabled individuals.  
 \*PLANNING, ADMINISTRATION & FAIR HOUSING  
**High Plains Fair Housing Center** -

\$5,000 in CDBG funds to support comprehensive outreach and fair housing education.  
 - **Planning and Administration** - \$127,000 in CDBG funds for project development, planning, and administrative costs associated with the delivery of the CDBG program. HOME funds will provide an additional \$34,000 for administration.  
 Anyone wishing to comment on the Action Plan activities should contact the City of Fargo Planning Development Department, 200 North 3rd Street, Fargo, ND 58102. Phone 701-241-1474, TDD 701-241-8258, FAX 701-241-1526. Comments will be received through Wednesday, February 21, 2018. The City Commission will also hold a Public Hearing on the proposed Action Plan on Monday, February 26, 2018 at 5:15 p.m. at Fargo City Hall, 200 North 3rd Street.

# **Fair Housing & Civil Rights Progress Report**

2017 CAPER  
2018 Action Plan

City of Fargo Department of Planning & Development

---

This document is the first annual progress report for the nine Fair Housing & Civil Rights requirements as agreed to by the City of Fargo on September 28<sup>th</sup>, 2016 in the closing conference between FHEO and City of Fargo staff. It is also in response to the letter from James C Whiteside, Region VIII Program Compliance Branch Chief of the Office of Fair Housing and Equal Opportunity, dated December 13<sup>th</sup> 2016.

## **1. Benefits, Services, and Methods of Administration**

### **Relevant Law, Guidance, and Regulation:**

Title VI of the Civil Rights Act of 1964 (Title VI) – 24 CFR 1.4  
Section 109 of Title I of the Housing and Community Development Act of 1974 (Section 109)  
24 CFR 6.4  
Section 504 of the Rehabilitation Act of 1973 (Section 504) - 24 CFR 8.4(b)

### **HUD Technical Assistance Comments:**

Title VI, Section 109, and Section 504 require Fargo to analyze jurisdictional demographic data for race, color, national origin, sex, religion, and disability to determine whether any of the jurisdiction's minority groups appear under-represented by any group protected by Title VI, Section 109, or Section 504, Fargo must adjust the administration of its programs and activities to assure equitable participation.

### **City of Fargo Response:**

Over the course of the next year, the City of Fargo will work with its recipients to ensure that demographic data is being collected on beneficiaries of federal funds, including the gaps mentioned in the technical assistance as well as ensuring race and ethnicity are treated separately. We will report the progress and any data collected in future CAPER submissions, with the goal of having data collections for these categories fully operational and collected for the 2020 CAPER.

Of the data we do collect, we show an over-representation of groups protected by Title VI, Section 109, and Section 504, with the exception of people of Asian descent, which make up 3% of the population but only 1% of the beneficiaries of CDBG and 0% of HOME beneficiaries. The City of Fargo will make plans to reach out to this community specifically and begin implementation of the plans over the next year with updates on progress to be included in future CAPER submissions. These efforts will also be reflected in our citizen participation efforts below.

## **2. Citizen Participation**

### **Relevant Law, Guidance, and Regulation:**

Title VI - 24 CFR - 1.4 and 570.506 and 91.105  
Section 109 - 24 CFR - 6.6 and 570.506 and 91.105  
Section 504 - 24 CFR - 8.4 and 570.506 and 91.105

### **HUD Technical Assistance Comments:**

Title VI, Section 109, and Section 504 require Fargo to implement affirmative efforts to involve racial, ethnic, or religious minorities, single sex headed households, and people with disabilities in its citizen participation process.

**City of Fargo Response:**

The City of Fargo holds regular Community Development Committee meetings, and specific outreach meetings to give feedback on the expenditure of local and federal funds. We invite 142 organizations which serve clients from each of the protected classes. We are making plans to create additional opportunities for citizen participation, including making special efforts to receive feedback from protected groups both by directly reaching out to communities of protected groups, as well as working with our partners and the 142 organizations that attend our annual outreach meeting to make additional efforts to reach their clients and employees, who are members of protected groups. A list of the 142 organizations is attached.

The City of Fargo is planning to expand its public participation process and make additional efforts to reach out to protected classes:

- To the Asian community, which is the only group under-represented in our program usage according to our data
- To the LEP community, particularly: Arabic, Nepali, Somali, Bosnian, Spanish, and Kurdish speaking communities
  - This will include and be a part of efforts to update our four-factor analysis and Language Access Plan (LAP) as noted below under Limited English Proficiency.
- To the hard of hearing and vision impaired community
- Finally, we will expand our use of special notices to all public announcements, including: TTY/TDD information, contact information for our 504 coordinator to secure reasonable accommodations, and information on translation services which are provided upon request

**3. Limited English Proficiency (LEP)**

**Relevant Law, Guidance, and Regulation:**

Title VI - 24 CFR - 1.4(b)

Final Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons (LEP Final Guidance)

**HUD Technical Assistance Comments:**

Title VI and the LEP Final Guidance require Fargo to develop procedures to ensure meaningful access to LEP persons. Fargo must provide interpretation services to LEP persons and must provide written translation of vital documents if and when the LEP population exceeds 1,000 persons. Vital documents include public notices and applications, among others. To comply with LEP requirements, Fargo must conduct a four-factor analysis, create a Language Access Plan (LAP), and document actions to implement the LAP (See document "LEP Reference Sheet," for extensive written technical assistance about completing a four-factor analysis and developing an LAP)

**City of Fargo Response:**

The City of Fargo is working with local agencies to collect data on groups that have limited English proficiency. Census and ACS data do not suggest that there are any groups of people who speak the same primary language and have limited English proficiency (LEP) that reach over 1,000. If we find data that suggests we have reached over 1,000 persons of LEP from one primary language, we will begin the process of translating vital documents into that language. Over the course of the next year, we will complete an updated four-factor analysis and our Language Access Plan (LAP). The City of Fargo does currently have an LAP (See attachment) which was updated in the summer of 2017; however, the four-factor analysis was not updated. A local non-profit has already been contacted to discuss the potential language communities that have the greatest need for translation services, which include: Arabic, Nepali, Somali, Bosnian, Spanish, and Kurdish

The City does provide translation services as needed whenever requested by any member of the public wishing to participate in public meetings or programs, and the City of Fargo website includes an automatic translation of the entire contents of the website into dozens of languages through a service offered by Google.

The City of Fargo will include a means to request reasonable accommodations in regards to interpretation and translation services in its announcements for public participation.

**4. Record Keeping**

**Relevant Law, Guidance, and Regulation:**

Title VI - 24 CFR - 1.6(b) and 121  
Section 109 - 24 CFR - 6.6(a), 6.10(c), and 121  
Section 504 - 24 CFR - 8.55(b) and 121

**HUD Technical Assistance Comments:**

Title VI and Section 109 require Fargo to gather and maintain information about the race, ethnicity, and sex of applicants and participants in their federally-funded programs and activities. The collection of race and ethnic data must conform to form HUD-27061, "Race and Ethnic Data Reporting Form." Section 504 requires Fargo to maintain complete and accurate records that show the extent to which people with disabilities participate in its federally funded activities. The implementing regulation specifically requires Fargo to gather, maintain, and submit documentation of the extent to which people with disabilities are participants in federally-funded programs and activities.

**City of Fargo Response:**

Over the course of the next year, the City of Fargo will update its record keeping practices to gather and maintain all demographic information required, including but not limited to: race, ethnicity, disability status, sex, and head of household status of applicants and participants of federally-funded programs and activities. The City of Fargo will also work with grantees of

federal funds to ensure the same standards of record keeping are in place and reported to the City of Fargo. The City of Fargo will provide an update on progress in terms of record keeping in future CAPER submissions.

**5. Section 504: Effective Communication**

**Relevant Law, Guidance, and Regulation:**

Section 504 - 24 CFR - 8.6

**HUD Technical Assistance Comments:**

Section 504 requires Fargo to take appropriate steps to ensure effective communication with applicants, beneficiaries, and members of the public by: (1) Furnishing appropriate auxiliary aids when necessary to afford individuals with disabilities equal opportunity to participate in and enjoy the benefits of a program or activity receiving federal financial assistance; (2) Providing telecommunication devices for the deaf (TDDs) or equally effective communication systems for hearing impaired persons; and (3) Adopting and implementing procedures to ensure that interested persons (including persons with impaired vision or hearing) can obtain information concerning the existence and location of accessible services, activities, and facilities.

**City of Fargo Response:**

The City of Fargo currently provides information on its website, agendas, and newspaper advertisements regarding how to contact the City of Fargo for aids and assistance as necessary to participate.

Over the course of the next year the City of Fargo plans to audit its practices to ensure we are effectively communicating the availability of assistance to those with disabilities, hearing, or language barriers. Progress on this will be included in future CAPER submissions, as mentioned in previous sections of this document.

**6. Section 504: Coordinator**

**Relevant Law, Guidance, and Regulation:**

Section 504 - 24 CFR - 8.53(a)

**HUD Technical Assistance Comments:**

Section 504 requires Fargo to designate at least one person to coordinate its efforts to comply with Section 504.

**City of Fargo Response:**

The City of Fargo previously had two people serving as 504 coordinators. As a result of a new understanding of the regulations in Section 504, we will be selecting a single 504 coordinator. The Fargo Planning and Development Department is currently undergoing transitions and re-organization. During that process we will select a new 504 coordinator,

the name of this person will be included in communication with our HUD contact and in future CAPER submissions, as well as an update as to improvements in our practices in terms of Section 504.

**7. Section 504: Non-discrimination Notice**

**Relevant Law, Guidance, and Regulation:**

Section 504 - 24 CFR - 8.54(a) and 8.54(b)

**HUD Technical Assistance Comments:**

Section 504 requires Fargo to take appropriate initial and continuing steps to notify participants, beneficiaries, applicants, and employees, including those with impaired vision or hearing, that Fargo does not discriminate on the basis of disability by providing a Section 504 non-discrimination notice within printed informational materials Grantee makes available to participants, beneficiaries, applicants, and employees. The notification must include the name and contact information for the designated Section 504 coordinator and information about the availability of reasonable accommodations.

**City of Fargo Response:**

The City of Fargo includes a non-discrimination notice on all applications for programs and positions as well as all program pamphlets. The City of Fargo plans to audit and improve its notices to ensure opportunities for reasonable accommodation for people with hearing loss, vision loss, disability, or language barrier, as mentioned in previous sections of this document.

**8. Section 504: Grievance Procedure**

**Relevant Law, Guidance, and Regulation:**

Section 504 - 24 CFR - 8.53(b)

**HUD Technical Assistance Comments:**

Section 504 requires Fargo to adopt grievance procedures that incorporate appropriate due process standards and that provide for the prompt and equitable resolution of complaints alleging any action prohibited by Section 504.

**City of Fargo Response:**

The City of Fargo will put together a complete grievance procedure for beneficiaries of HUD funding that incorporates appropriate due process standards and provides for the prompt and equitable resolution of complaints alleging any action prohibited by Section 504 over the course of the next year. Progress will be reported in the next CAPER.

**9. Affirmatively Furthering Fair Housing (AFFH)**

**Relevant Law, Guidance, and Regulation:**

Title VIII of the Fair Housing Act of 1968, as amended (The Fair Housing Act), Sections 808(d) and 808(e)(5);  
24 CFR. – 91.225; Affirmatively Furthering Fair Housing, Final Rule: 24 CFR Parts 5, 91, 92 et al.  
2010 Analysis of Impediments (AI) does not contain all of the essential elements of an AI. See FHEO reviews of Fargo's PY 2011 CAPER and PY 2012 AAP for additional TA in regards to 2010 AI.

**HUD Technical Assistance Comments:**

FHEO encourages Fargo to complete its updated AI utilizing the AFFH Rule framework, draft assessment tools, and AFFH Data and Mapping Tool (AFFH-T) to inform the update.

**City of Fargo Response:**

The City of Fargo will update its Analysis of Impediments to Fair Housing (AI) and include all the essential elements as explained in FHEO reviews of Fargo's PY 2011 CAPER, and other HUD guidance. The City of Fargo has begun the process of creating a "Core Neighborhoods Plan" (CNP) that includes much of the lowest income areas in Fargo, and plans to continue the process of neighborhood planning to overcome impediments to fair housing and other community needs. We will provide updates on progress in future CAPER submissions.

# City of Fargo Recapture Policy

## Recapture Policy

This plan outlines the recapture policy process that will be used by the City of Fargo in the planning and implementation of housing and community development programs. These programs include the Community Development Block Grant Program, the HOME Program and other HUD programs being implemented by the City of Fargo.

Recapture provisions must ensure that the participating jurisdiction recoups all of the HOME assistance to the homebuyers, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability (see table below). The City of Fargo structures its recapture provisions based on its program design and market conditions. The period of affordability is based upon the total amount of HOME funds subject to recapture described in 24 CFR 92.254(a)(5)(ii)(A)(5). Recapture provisions may permit the subsequent homebuyer to assume the HOME assistance (subject to the HOME requirements for the remainder of the period of affordability) if the subsequent homebuyer is low-income, and no additional HOME assistance is provided.

If the total HOME investment (resale) or direct subsidy (recapture) in the unit is:	The period of affordability is:
Under \$15,000	5 years
Between \$15,000 and \$40,000	10 years
Over \$40,000	15 years

Resale and/or recapture policies must be in place to assure that HOME-assisted housing units remain affordable through deed restrictions, covenants attached to the land, mortgages, or other similar mechanisms. The City of Fargo typically accomplishes this by using a Land Use Restrictive Agreement (LURA).

All CDBG or HOME funded projects are subject to the recapture provision, as opposed to the resale provision. The recapture option follows the provisions in 24 CFR 92.254(a)(5)(ii), which allows for recapturing the entire amount of CDBG or HOME investment based on specific criteria that are established within the City's Recapture Policy. Only direct subsidy to the homebuyer is subject to recapture. The amount recaptured must be limited to the net proceeds from the sale (24 CFR 92.254). Any recaptured funds must be used to carry out eligible CDBG or HOME activities. In the case of CHDO proceeds, the City of Fargo permits Beyond Shelter, Inc. (CHDO) to retain any CHDO proceeds resulting from the HOME investment with the condition that the proceeds be used to develop additional affordable housing in the City of Fargo (24 CFR 92.3000(a)(2)) following the City's Recapture Policy. In addition, all CHDO proceeds and uses will be reported to the City.

Fargo does not intend to use HOME funds to refinance existing debt that is secured by housing that is being rehabilitated with HOME funds (as per 92.206(b)). The City will use only the forms of investment described in 24 CFR 92.205(b) (grants, deferred payment loans, non-interest bearing loans).

Program eligibility is based on income, assets, and family size. Households may qualify for a loan and/or a grant to pay for the cost of rehabilitation. Eligibility is determined by taking the total

combined gross annual income for all household members over age 18 and projecting it out for the next 12-month period. The combined gross annual income must fall at or below 80% of the Area Median Income limits (determined by the Department of Housing and Urban Development). In addition, income eligibility is determined using the Section 8 (Part 5) definition of household income. Household assets cannot exceed \$30,000. This does not include the property to be rehabilitated. It does include checking accounts, savings accounts, certificates of deposits, stocks, bonds, other real estate, and business assets. For owner-occupied rental properties, the property owner must qualify for the program, based on the above income and asset guidelines. Property owners cannot own other properties.

The after HOME rehabilitation value of owner-occupied, single-family properties in the city of Fargo, will not exceed 95% of the area median purchase price. The 95% median purchase price for the area is determined by using the HOME affordable homeownership limits provided by HUD (24 CFR 92.254 (a)(2)(iii)).

Homeowners must be current on property tax payments and utility billing, free of judgments and liens (not including mortgage), and in good standing with the City of Fargo.

Applications are reviewed on a first-come-first-serve basis but, as appropriate, priority will be given to emergency assistance.

ASSURANCES - CONSTRUCTION PROGRAMS

OMB Number: 4040-0009  
Expiration Date: 01/31/2019

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards of merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.
14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).
16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
20. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

**CERTIFICATIONS**

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

**Affirmatively Further Fair Housing** --The jurisdiction will affirmatively further fair housing.

**Uniform Relocation Act and Anti-displacement and Relocation Plan** -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, (42 U.S.C. 4601-4655) and implementing regulations at 49 CFR Part 24. It has in effect and is following a residential anti-displacement and relocation assistance plan required under 24 CFR Part 42 in connection with any activity assisted with funding under the Community Development Block Grant or HOME programs.

**Anti-Lobbying** --To the best of the jurisdiction's knowledge and belief:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and
3. It will require that the language of paragraph 1 and 2 of this anti-lobbying certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

**Authority of Jurisdiction** --The consolidated plan is authorized under State and local law (as applicable) and the jurisdiction possesses the legal authority to carry out the programs for which it is seeking funding, in accordance with applicable HUD regulations.

**Consistency with plan** --The housing activities to be undertaken with Community Development Block Grant, HOME, Emergency Solutions Grant, and Housing Opportunities for Persons With AIDS funds are consistent with the strategic plan in the jurisdiction's consolidated plan.

**Section 3** -- It will comply with section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and implementing regulations at 24 CFR Part 135.

## Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

**Citizen Participation** -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

**Community Development Plan** -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

**Following a Plan** -- It is following a current consolidated plan that has been approved by HUD.

**Use of Funds** -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2017, 2018, 2019 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

**Excessive Force** -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

**Compliance with Anti-discrimination laws** -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

**Lead-Based Paint** -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, Subparts A, B, J, K and R.

**Compliance with Laws** -- It will comply with applicable laws.

**OPTIONAL Community Development Block Grant Certification**

Submit the following certification only when one or more of the activities in the action plan are designed to meet other community development needs having particular urgency as specified in 24 CFR 570.208(c):

The grantee hereby certifies that the Annual Plan includes one or more specifically identified CDBG-assisted activities which are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs.

**Specific HOME Certifications**

The HOME participating jurisdiction certifies that:

**Tenant Based Rental Assistance** -- If it plans to provide tenant-based rental assistance, the tenant-based rental assistance is an essential element of its consolidated plan.

**Eligible Activities and Costs** -- It is using and will use HOME funds for eligible activities and costs, as described in 24 CFR §§92.205 through 92.209 and that it is not using and will not use HOME funds for prohibited activities, as described in §92.214.

**Subsidy layering** -- Before committing any funds to a project, it will evaluate the project in accordance with the guidelines that it adopts for this purpose and will not invest any more HOME funds in combination with other Federal assistance than is necessary to provide affordable housing;
