

2018 Community Supported Agriculture

Community Supported Agriculture Programs (CSAs) bring together consumers and farmers in a mutual relationship surrounding food. Consumers collectively pay for the up-front costs of farming through purchasing shares of a farm or garden. The farmer (and sometimes the consumer) tend and harvest the crop. Upon harvesting, the crops are equally divided among the share-holders (consumers) throughout the entire growing season, providing consumers with local, fresh produce.

Bill Erbes Farm

Bill Erbes or Austin Wittmier

(701) 793-5532 or (701) 388-0783
