**62<sup>nd</sup> Meeting of the  
Metro Area Transit Coordinating Board  
March 16, 2016 – 8:00am  
Fargo City Commission Chambers – 200 3<sup>rd</sup> Street North, Fargo ND**

## *Meeting Agenda*

1. Call to Order and Introductions – Kevin Hanson (Chair)
2. Review and Action on Minutes from November 18, 2015 (**Attachment 1**)
3. Fargo Transit Capital Grant Request to NDDOT – Julie Bommelman (**Attachment 2**)
4. 2016 State of Minnesota Capital Grant – Lori Van Beek (**Attachment 3**)
5. MATBUS Operations and Ridership Reports - Lori Van Beek & Julie Bommelman
  - a. 2015 Year End Ridership Report (**Attachment 4**)
6. IGoEco Update – Taaren Haak (**Attachment 5**)
7. Introduction of New MATBUS Mobility Manager – Drew Sturdivant
8. Transit Development Plan (TDP) Update – Bill Troe SRF Consulting Group
9. Other Business

---

Questions, comments or concerns prior to the meeting can be directed to Michael Maddox (701.232.3242 x33; [maddox@fmmetrocog.org](mailto:maddox@fmmetrocog.org)).

*People with disabilities who plan to attend this meeting and need special arrangements should contact Michael Maddox at Metro COG (701.232.3242 Ext. 33), at least two days before the meeting to make arrangements.*

**61<sup>st</sup> Meeting of the  
Metro Area Transit Coordinating Board  
November 18, 2015  
Fargo Commission Chambers**

**Members Present:**

Kevin Hanson, Chair  
Jim Haney, Moorhead City Council  
Larry Weil (proxy for Mark Simmons), City of West Fargo  
Tony Gehrig, Fargo City Commission  
Sue Oatey, Concordia College  
Jeff Goebel, NDSU  
Jim Aasness, Dilworth City Council

**Members Absent:**

Jean Hollar, MSUM  
Shawn Anderson, M|State  
Brenda Elmer, Moorhead City Council  
Mike Williams, Fargo City Commission  
Paul Grindeland, Valley Senior Services

**Others Present:**

Lori Van Beek, City of Moorhead  
Jim Gilmour, City of Fargo  
Bill Christian, Metro COG  
Adam Altenburg, Metro COG  
Dan Farnsworth, Metro COG

Chair Hanson called the meeting to order at 8:00 AM.

**2. Review and Action on Minutes from September 16, 2015.**

A motion to approve the minutes was made by Mr. Haney and seconded by Mr. Aasness

Chair Hanson had a question regarding NDSU's request for additional buses at Barry Hall which was discussed at the previous meeting. Matt Peterson from First Transit stated that they have addressed the problem but there are additional students who have to wait for a bus. Not as many people have to wait, as students waiting have decreased to less than 10. With a bus coming every six minutes, students don't have to wait very long.

**3. Consider Section 5339 Grant Application**

Mr. Farnsworth stated that every year the North Dakota Department of Transportation (NDDOT) solicits applications from transit agencies for Section 5339 grants. Section 5339 grants award funding for the purchase/replacement of buses and improvements to bus facilities. Per NDDOT, Urban Transit Providers need to coordinate their application submittals through their representative Metropolitan Planning Organization (i.e. Metro COG).

The one application received by Metro COG was from the City of Fargo. The City of Fargo (MATBUS) is applying for:

- Three fixed route buses
- or-
- One 60-foot articulated bus plus at least one additional fixed route bus

The estimated cost for this request is \$1,350,000. 80% (\$1,080,000) of this cost would come from the Section 5339 grant and the remaining 20% (\$270,000) would come from the City of Fargo general fund. Roughly \$466,600 is available for the North Dakota Section 5339 Urban Transit portion so only a portion of the requested amount can be expected to be awarded.

Upon approval from the MAT Coordinating Board, Metro COG will submit the application and necessary attachments to the NDDOT. Applications are due to NDDOT by November 23<sup>rd</sup>.

Valley Senior Services stated that they are planning to submit an application for 5339 funding for their storage facility in Fargo. The funding will go toward adding an addition to their facility to handle dispatching and communication. However, they were not aware they had to inform anyone and said they would forward the application to Metro COG after the meeting.

Mr. Gehrig asked that Ms. Bommelman add as description that would clarify that the buses would be diesel in the application.

Mr. Gehrig made a motion to submit the application to the NDDOT. Ms. Oatey seconded the motion.

The motion carried unanimously.

#### **4. MATBUS Operations and Ridership Reports**

##### **a. August & September Reports (Attachment 3)**

Ms. Van Beek stated that attachment 3 is the operation report for August and September. She stated that missed transfer statistic had decreased. Fewer accidents, ridership was down 2% in Moorhead for the month of August (4% for year). Ms. Van Beek stated that she does not believe that information is correct and implied that it was a software issue. Ms. Bommelman stated that in Fargo, ridership decreased by 7% compared to last year (8% overall). The fare box recovery was not as down as the software numbers have been reporting indicating the glitch in the system. Mr. Gehrig stated that he is concerned with the decreasing ridership.

##### **b. Corrected May, June, July Paratransit Reports (Attachment 4)**

Previous reports were corrected due to an error by a MATBUS staff person in entering the data.

MATBUS is seeing a decline in paratransit ridership, which is a good trend. Seniors who are eligible for this service often take senior ride through Valley Senior Services which is the same cost to the rider, but more economical to the provider.

Chairman Hanson asked that ridership reports be sent out every month, even when the Board does not meet.

##### **c. LinkFM Update (Attachment 5)**

There has been continued growth in LinkFM ridership, especially in July for the Street Fair. Most are not riding for park-and-ride purposes. LinkFM is comparable to newer routes that have been added to the system in terms of riders per hour. The goal is 10-15 rides per hour. Mr. Gehrig is concerned that LinkFM is not living up to expectations. Nine months is the original test period for the route. City Hall and other construction

projects that were planned downtown did not happen, which probably affected the ridership.

The City of Moorhead put money in their budget for operations of the route in 2016 dependent upon a grant. They did not receive the grant. Mr. Gehrig said that as a Fargo City Commissioner, he would be pushing for canceling the service. Mr. Gilmour detailed the process by which MATBUS will need to do in order to discontinue a route.

**To:** MAT Coordinating Board  
**From:** Dan Farnsworth, Metro COG  
**Date:** March 10, 2016  
**Re:** Section 5310 Transit Grant Application

The Section 5310 grant is an annual federal grant which provides funding for transit projects that improve mobility for the elderly and persons with disabilities. Awarded projects are funded 80% with federal funding while the remaining 20% requires local funding. Awarded funding would be provided between July 1, 2016 and June 30, 2017. Grant applications for North Dakota applicants within Metro COG's planning boundary were due to Metro COG on March 3<sup>rd</sup>.

Metro COG received one application; from Metro Area Transit – Fargo. The applicant is seeking funding for the replacement of two hybrid diesel-electric paratransit vehicles. The purpose of replacing these vehicles is because the existing vehicles are no longer operable and cannot be repaired or retrofitted as the replacement/repair parts are no longer available. In addition the vehicles have reached their five-year life limit in accordance with FTA guidelines. The estimated cost for the two new vehicles is \$80,000 each. This totals to \$160,000, with a request for \$128,000 federal funding and the remaining \$32,000 being funded locally.

Please see the **attachment** for the Section 5310 grant application as completed by Metro Area Transit – Fargo.

**Recommended Action:**

**Approve the Section 5310 grant application as completed by Metro Area Transit – Fargo.**

**Application for Transit Funding  
For July 1, 2016 – June 30, 2017  
North Dakota Department of Transportation**

**Section 5310 – Enhanced Mobility of Seniors & Individuals with Disabilities**

The goal of Section 5310, the Transportation for Elderly Persons and Persons with Disabilities Program, is to *improve mobility for the elderly and persons with disabilities throughout the country*. Section 5310 provides financial assistance for capital purchases and operating assistance for transportation services planned, designed and carried out to meet the special transportation needs of the elderly and persons with disabilities in all areas – small urban and rural. The program requires coordination of federally-assisted programs and services in order to make the most efficient use of federal resources.

Vehicles may be used to provide meal delivery service for homebound persons on a regular basis in conjunction with passenger transportation. Delivery service **must not** conflict with the provision of transit services or result in reduced service to transit passengers.

**Coordinated Public Transit Human Services Transportation Plan**

**Applicants must be part of a locally derived Coordinated Public Transit Human Services Transportation Plan or part of a regional coordination project and approved by North Dakota Department of Transportation (NDDOT) prior to submission of this application.**

<p><b>Is the requested project part of a Coordinated Public Transit Human Services Transportation Plan?</b></p>	<input checked="" type="checkbox"/> <b>Yes</b> <input type="checkbox"/> <b>No</b>
<p><b>If Yes, how was the Coordinated Plan addressed? Please upload your current Coordinated Plan into the electronic grant management system.</b></p>	<p>The plan assesses services, needs and strategies to develop prioritized project concepts to address identified transportation barriers. A cycle of vehicle purchases, in accordance with FTA replacement guidelines, have been identified in the plan.</p>

**Please Note:**

- If awarded a 5310 Grant, there will be additional language in your Project Agreement regarding the responsibility of the purchaser for maintenance, insurance and training of your drivers. Purchasers will be required to have the ability to finance the operation and maintenance of vehicles purchased with FTA/NDDOT funds.
- Match for Capital requests will require a **20% Local Match**.
- Match for Operating requests will require a **50% Local Match**.
- Match for Mobility Manager’s is a Capital expense at a **20% Local Match**.
- As with most Federal Assistance Programs, 5310 is designed as a reimbursement program. Your agency

should be prepared to pay for your equipment upon delivery/acceptance and then request reimbursement from NDDOT.

- If you receive \$750,000 from any federal source you are required to have an A-133 audit.
- **All applications are due April 1<sup>st</sup>, 2016, 5:00 PM. Late and/or incomplete applications may be subject to a penalty % reduction of requested amount.**

## Section 5310 Project Details

This section of the application is broken into two parts – **Project Description** and **Transportation Program Details**. The **Project Description** is designed to get specific information about the capital item(s) for which you are currently applying. The **Transportation Program Details** is designed to get more general information about your transportation program and how this project request will enhance your existing service. Both portions allow the Grant Review Committee to evaluate your agency proposals and should be used as a way for you to justify your request.

Project Description	
Vehicle Requests	Non Vehicle Request
What type of vehicle(s) would you like to purchase? (e.g. 12 passenger van)	2 Paratransit cut-away vehicles
What type of vehicle(s) would you like to purchase? (e.g. 12 passenger van)	In the box provided below, please describe in detail your proposed project. Be specific and include a description of what you would like to purchase and how it benefits your transportation program.
Will this vehicle(s) replace an existing vehicle(s) from your fleet?	<input checked="" type="checkbox"/> <b>Yes</b> <input type="checkbox"/> <b>No</b>
	1207: VIN # 1FDFE4FLXDA13365
	1208: VIN # 1FDFE4FL8BDA13364
Transportation Program Details	
If yes, which vehicle(s) in your fleet do you plan to replace? (Include year and VIN number)	2 - 2010 diesel-electric Ford hybrid cut-aways for paratransit (units 1207 and 1208), which have reached the five-year life limit in accordance with FTA guidelines. In addition, replacement/repair parts for the vehicles are not available (the battery unit and the hybrid portion of the vehicles). These vehicles are inoperable and cannot be repaired or retrofitted.
What is the current mileage on the vehicle you are requesting to replace?	1207: 53,268 1208: 32,060
What are the eligibility criteria for persons to be eligible to ride your service?	Fixed route: no criteria (all people are able to ride) Paratransit: riders must meet ADA federal guideline
How can people schedule to ride your transportation program?	Fixed route: no scheduling ahead of time required Paratransit: reservations are taken via telephone and

	email	
What is the purpose of the three most commonly requested trips that your clients require? (e.g. medical, shopping, employment, education, etc.)	1.	Medical
	2.	Retail
	3.	Employment
Are you the lead transit provider in your area? If not, what is the relationship of your program(s) to other transportation providers?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
What is the need for transit service in your area? Why does this need exist? How have you determined this need?	The need is extensive for both fixed route and paratransit. The need exists in our urban area for several reasons: people unable to purchase their own vehicles, people choosing to ride transit for 'green' reasons, students reaching campus facilities located away from the main campus, people getting to employment and medical facilities, elderly and disabled people unable to drive individual vehicles choose transit to help maintain independence. We have determined the need by studies, surveys and ridership trends.	
How many trips do you provide on an annual basis?	2015 fixed route: 1,600,610 2015 paratransit: 51,513	
How will this proposed project address this need for service?	The purchase of vehicles assists with replacing older, mechanically diminished vehicles, which conversely keeps the maintenance costs lower and enhances the safety of the vehicles. As these 2 paratransit vehicles are inoperable and not repairable, they are useless for our services.	
What is the average fare a rider will pay for a trip in your transportation program?	Fixed Route:\$1.50 adult; \$.75 senior, disabled, youth Paratransit: \$3.00	
Do you market or promote your service? If yes, please provide a description of how you market the program and to whom in the box at the right.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Services are marketed on social media, billboards, brochures, ads in various publications, website, maps, radio, and TV.
Is your agency name on the vehicles?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Is your agency logo on the vehicles?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Do your vehicles have your phone number on them?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Do your vehicles provide any indication that the vehicle is available for public transportation?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	

If you are awarded a Section 5310 project, you will be **required** to report a number of performance measures, at least annually, to NDDOT on forms provided to you. These forms will be provided at the time the project goes to agreement. Information you will be required to report may include, but will not be limited to the following:

- the number of 5310 one-way trips;
- the number of 5310 vehicles you have in service;
- 5310 ridership demographics;
- annual 5310 vehicle mileage; and
- costs associated with your 5310 service

# Memorandum

To: MAT Coordinating Board

From: Lori Van Beek, Moorhead Transit Manager *lvb*

Date: March 14, 2016

RE: *State of Minnesota Capital Grant for 2016*

---

**Existing Fleet:**

Moorhead's current transit fleet consists of the following vehicles:

- 11 Fixed Route Buses (12-15 year life or 500,000 miles)
- 4 Paratransit Mini-buses (5 year life or 150,000 miles)
- 4 Senior Ride Mini-vans (4 year life or 100,000 miles)

Moorhead's fixed route fleet of 11 large buses includes nine 2003-2005 Orion buses, which were/are due for replacement in 2015-2017. In January 2016, Moorhead received delivery of four new replacement buses, leaving five buses yet to be replaced.

**Grant Funding:**

The State of Minnesota has approved Federal Section 5339 funding for one large transit bus to be ordered in 2016 for delivery in 2017. The estimated cost is \$470,000 of which 80% or \$376,000 will be Federally funded and 20% or \$94,000 would be locally funded through 2017 Capital Improvement Funds.

**Recommended Motion:** To recommend to the Moorhead City Council approval of the contract with the State of Minnesota for capital funding in 2016 and local match funds from the 2017 CI Fund.

**Metro Area Transit of Fargo-Moorhead**  
**~ 2015 Ridership Report ~**

# Memorandum

**To:** MAT Coordinating Board  
**From:** Taaren Haak, Moorhead Asst. Transit Planner & Marketing  
**Date:** March 9, 2016  
**RE:** *iGoEco Challenge Update*

MATBUS is partnering again with the Minnesota Department of Transportation for its 6th annual iGoEco Challenge, formerly the Commuter Challenge. This year, the State of Minnesota provided a large portion of the funding through a grant that expires June 30, 2016. The goal of the iGoEco Challenge is to encourage the use of eco-friendly transportation in the Fargo-Moorhead metro area. Once registered on [www.iGoEcoChallenge.com](http://www.iGoEcoChallenge.com), residents can log their mode of transportation each week for the chance to win prizes. The options include riding MATBUS, biking, walking, rollerblading or carpooling.

The Challenge will run April 4 - May 8, with pre-registration starting March 28. This is a change over previous years, when the promotion was run for eight weeks starting in early to mid-September. MATBUS staff decided to change the time period of the challenge to the spring to better utilize the funding received from the MnDOT grant before it expires. Also, the new timeline will allow for more impact with the university student audience and minimize interaction with the high volume of back-to-school events and messages.

This year will be the third Challenge using the theme of #LiddysLessons, which features a hip, knowledgeable senior citizen popping up in unexpected places to offer advice on eco-friendly transportation.

Types of marketing used for this promotion:

- Radio plan (including on-air interviews, viral videos and social media)
- Television commercials
- Print and digital billboards
- Full bus wrap
- Employer mailing posters
- Promoted social media posts

Residents will register at [www.iGoEcoChallenge.com](http://www.iGoEcoChallenge.com), then log their eco-friendly trips each week for up to five weeks. Those who register prior to the first challenge week will be eligible for a pre-registration prize pack, which will include tickets and vouchers to local restaurants and events. The weekly prizes will be valued at \$400, and those who complete all five weeks will be eligible for the \$1,000 value grand prize, donated by Gate City Bank.

Total listed sponsors for this promotion will be:

- Gate City Bank
- Big 98.7
- BOB 95
- 96.9 Hits FM
- Talecris Plasma Resources
- The Cities of Moorhead and Fargo.
