

Agenda

- 1. Project updates
- 2. Findings from our analysis so far
- 3. Next steps

Project Team

CODE STUDIO

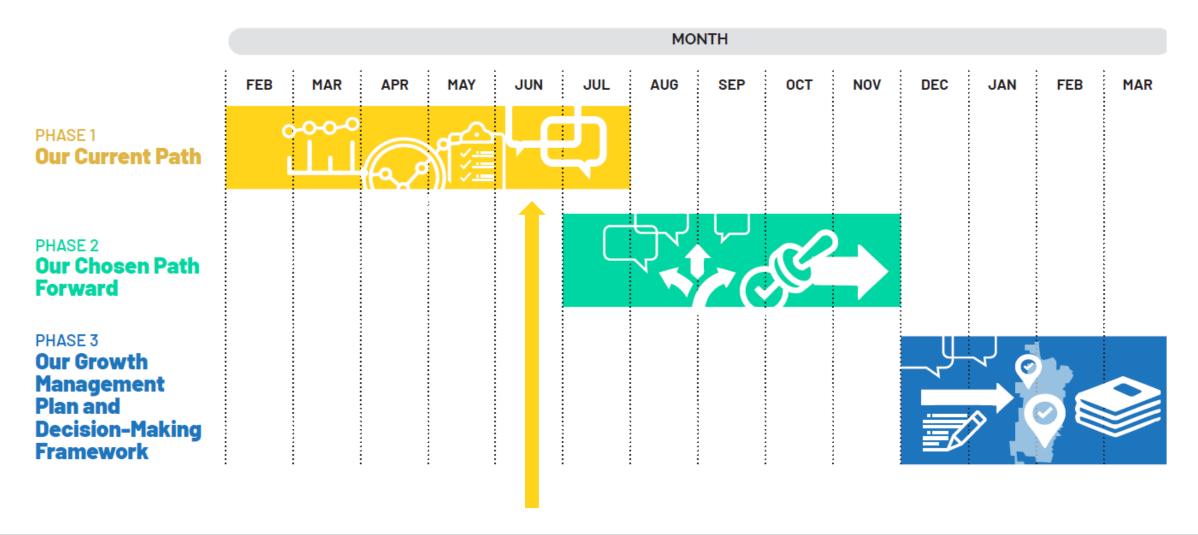

What will be in the new growth plan?

A decision-making framework for future development and redevelopment based on what the community values and its vision for growth

Guidance on "what goes where" to shape future development and redevelopment in ways that support community goals A growth management
plan that outlines specific
implementation steps
for the City of Fargo
and other agencies to
pursue to advance the
community's vision for
growth

How is it being developed?

How does the process engage the public?

In-person open house times and locations:

Tuesday, June 20th Community Room at Dr. James Carlson Library 280132nd Ave S

5:00pm-6:30pm

Wednesday, June 21st **Sky Commons** (Civic Center, 2nd Floor) 207 4th St N

5:00pm-6:30pm

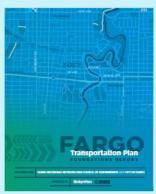

FargoGrowthPlan.org

How does it relate to other plans/studies?

FM Regional Housing Needs Analysis (2023)

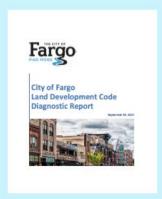

Fargo Transportation Plan DRAFT (2023)

Core Neighborhoods Master Plan (2021)

Land Development Code Diagnostic Report (2020)

InFocus Downtown Plan (2018)

G02030 Comprehensive Plan (2012)

What we've been learning from our analysis

1. Fargo has doubled its population and land area since 1980

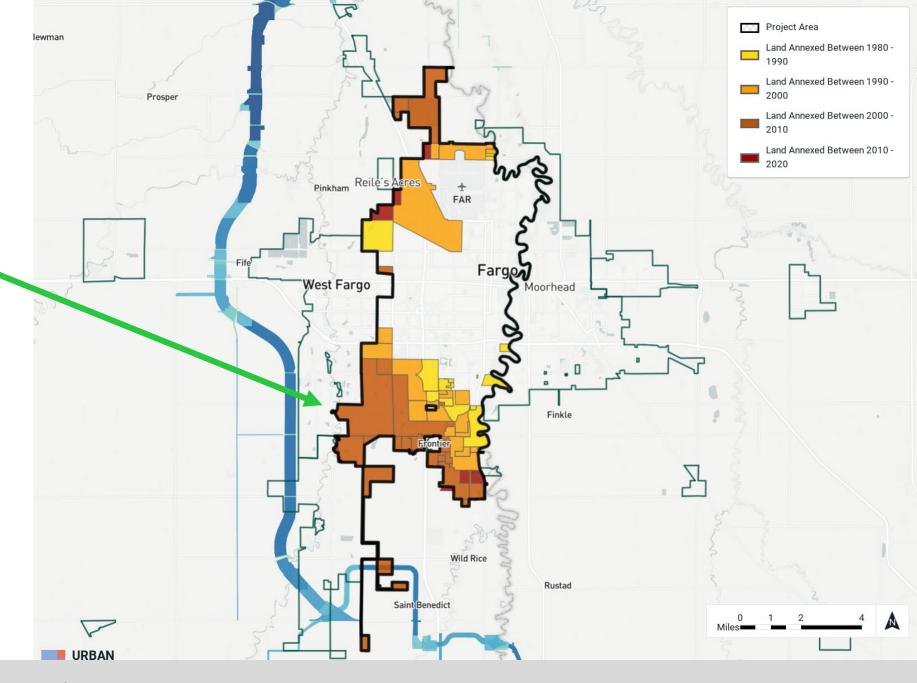

1. Fargo has doubled its population and land area since 1980

- Population
 - o 61,383 to 125,990 (+105%)
- Land area (acres)
 - o 16,464 to 31,677 (+92%)

Period of Annexation	Acres Added
1980 - 1990	2,130
1990 - 2000	5,365
2000 - 2010	7,064
2010 - 2020	653
1980-2020	15,212

Most annexation activity has occurred to the south and southwest

(notable exceptions are immediately west and north of the airport)

2. Detached single-family homes have been the dominant use of land annexed since 2000

	Land Annexed Since 2000	Remainder of Fargo
Dwelling Units	7,473	46,116
Detached single-fam.	4,626 (62%)	23,130 (50%)
Attached single-fam.	135 (2%)	3,284(7%)
Multifamily	2,712 (36%)	19,702 (43%)

	Land Annexed Since 2000	Remainder of Fargo
Population	17,344	94,650
Share of City's population	15%	85%

	Land Annexed Since 2000	Remainder of Fargo
Population	17,344	94,650
Share of City's population	15%	85%
Developed acreage	3,558	15,119
Share of City's developed acreage	19%	81%
Persons per developed acre	4.9	6.3

	Land Annexed Since 2000	Remainder of Fargo
Population	17,344	94,650
Share of City's population	15%	85%
Developed acreage	3,558	15,119
Share of City's developed acreage	19%	81%
Persons per developed acre	4.9	6.3
Share of total jobs in Fargo	5%	95%

- 61% of new residential builds since 2000 have been built in areas annexed since 2000
 - 3.6% have been in core neighborhoods

- 61% of new residential builds since 2000 have been built in areas annexed since 2000
 - 3.6% have been in core neighborhoods
- 23% of major residential remodels (valued at \$100,000+) have taken place in core neighborhoods since 2000

3. Of the developable acreage currently within Fargo's limits (~25,000 acres), 74% has been developed or set aside for parks or conservation and 26% is undeveloped

7,258 acres undeveloped but "developable"

 3,220 acres (44%) are in the southwest and south, on land annexed since 2000

 4,038 acres (56%) are scattered throughout the rest of the city

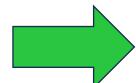

4. Development patterns over the past 75 years reflect overall declines in density

Period	Developed Acres Added	Population Added	Persons Per Developed Acre
1800-1900	202	9,589	47.5
1900-1925	700	15,701	22.4
1925-1950	983	12,966	13.2
1950-1975	3,724	19,118	5.1
1975-2000	5,605	33,225	5.9
2000-2020	7,280	35,391	4.9

- Go2030s Top 5 "priority initiatives" are:
 - 1. Permanent flood protection
 - 2. Promote infill
 - 3. Public art
 - 4. Pedestrian/bicycle infrastructure
 - 5. Design standards

- Go2030s Top 5 "priority initiatives" are:
 - 1. Permanent flood protection
 - 2. Promote infill
 - 3. Public art
 - 4. Pedestrian/bicycle infrastructure
 - 5. Design standards

- Go2030s Top 5 "priority initiatives" are:

 - 2. Promote infill
 - 3. Public art
 - 4. Pedestrian/bicycle infrastructure
 - 5. Design standards

Catalysts

Walkable mixed-use centers

Active living streets

Energy efficiency

2007 Growth Plan says:

- Prioritize livability and quality of life through
 - Walkability
 - Neighborhoods healthy and cohesive
 - Use 'smart growth' principles to keep city as compact as possible

2007 Growth Plan says:

- Also use the following to guide development:
 - Energy efficiency limit sprawl and unnecessary construction
 - Multi-modalism (walk, bike, transit, auto...)
 - Design standards and high-quality public spaces

 Downtown and core neighborhood plans stress the need for strong levels of reinvestment in established areas, with a focus on walkability and transportation options

Key questions for this process:

- To what extent does the "smart growth" language that has infused Fargo's plans over the past 10-15 years remain a good fit for the community's vision for future growth?
- What balance between infill/reinvestment and new development on the edges should be struck?

What grade (A,B,C,D,F) would you give Fargo for advancing the "smart growth" goals that have infused its plans over the past 10-15 years?

How well do you think these goals fit the community's vision for next 10-15 years?

Rate the level of fit on a scale of 1 to 10, where 1 is low and 10 is high.

Next steps

- Feel free to attend the second open house tonight
- 2. Additional findings from data analysis forthcoming in July
- 3. Distribution of draft vision for growth in late July
- 4. Next visit: late August
