Second by Williams. On call of the roll Commissioners Mahoney, Williams, Piepkorn, Wimmer and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Request for an Extension of the Noise Ordinance for The Hotel Donaldson's Dalefest Approved:

The Board received a communication from Josh Tandberg, Operations Manager for The Hotel Donaldson, requesting an extension of the City's Noise Ordinance on August 22, 2008 from 10:00 p.m. to 12:00 midnight for The Hotel Donaldson's Dalefest.

Mr. Tandberg stated the event is being held in support of the arts and will include performances by local bands and various arts demos.

In answer to a question, Mr. Tandberg stated he has met with Dave Anderson from the Downtown Community Partnership and the Police Department regarding the event.

Commissioner Wimmer moved the request be approved.

Second by Piepkorn. On call of the roll Commissioners Wimmer, Piepkorn, Williams, Mahoney and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Red River Greenway Study Accepted:

The Board received a communication from Traffic Engineer Jeremy Gorden and Planner Nicole Crutchfield submitting the executive summary for the Red River Greenway Study which focuses on recreation trail connectivity along both sides of the Red River. They stated the City of Fargo is just one jurisdiction involved in the outcome of the study which was conducted by the Metropolitan Council of Governments in 2007 and 2008. They said the study looked at lands along the Red River corridor and highlighted an implementation priority plan for bridges and greenway expansion priorities.

In answer to a question, Ms. Crutchfield stated it is anticipated there will be funding opportunities in the future, however, it is unknown at the present time what that funding will be.

Commissioner Williams moved the Red River Greenway Study be accepted encouraging recreation connectivity along the Red River and as it applies to the Red River corridor within the City limits of Fargo.

Second by Wimmer. On call of the roll Commissioners Williams, Wimmer, Mahoney, Piepkorn and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Application Filed by Ristreto Coffee & Tea, Inc. d/b/a Ristreto Coffee & Tea, Inc. for an Alcoholic Beverage License Approved:

A Hearing had been set for this day and hour on the application filed by Ristreto Coffee & Tea, Inc. d/b/a Ristreto Coffee & Tea, Inc. for a Class "GH" Alcoholic Beverage License at 4150 40th Avenue South, notice of which had been duly published in the official newspaper for the City of Fargo.

No written protest or objection to the granting of the application has been received or filed in the office of the City Auditor, and said application has been approved by the Police Department as to the character of the applicant.

The Board determined that no person is present at this Hearing to protest or offer objection to the granting of the application.

Commissioner Piepkorn moved the application be approved.

Second by Wimmer. On call of the roll Commissioners Piepkorn, Wimmer, Williams, Mahoney and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Application Filed by Silver Moon Supper Club, Inc. d/b/a Silver Moon Supper Club for an Alcoholic Beverage License Approved:

A Hearing had been set for this day and hour on the application filed by Silver Moon Supper Club, Inc. d/b/a Silver Moon Supper Club for a Class "FARZ" Alcoholic Beverage License at 309 Roberts Street, notice of which had been duly published in the official newspaper for the City of Fargo.

No written protest or objection to the granting of the application has been received or filed in the office of the City Auditor, and said application has been approved by the Police Department as to the character of the applicant.

The Board determined that no person is present at this Hearing to protest or offer objection to the granting of the application.

Commissioner Mahoney moved the application be approved.

Second by Wimmer. On call of the roll Commissioners Mahoney, Wimmer, Williams, Piepkorn and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Communication Received from Rick Fischer Regarding Raccoons:

The Board received a communication from Rick Fischer, 1832 19th Street South, stating he has witnessed raccoons coming in and out of the City storm sewer drains. He said one idea would be to make sure all outlets have grates so animals cannot access the drain system. He said animals carry disease and citizens need to be educated. He stated the City needs to expand the animal control department to handle these issues.

Mr. Fischer stated he would like to see better coordination between the City pound, animal control and the Police Department. He said he was told it was up to him to go to the City pound, get a trap for the animal and release it himself. He said he was uncomfortable with trapping the animal himself and maybe the City should look at working with the DNR and Red River Zoo. Mr. Fischer stated he also is concerned with the various diseases the raccoons can carry. He suggested the City grate the drains so the raccoons cannot get into them and stated grates with small openings could be placed on the sewer drains and the big culverts that drain into the river.

Lolita Fischer stated as the City continues to grow, the animals are pushed out of their natural habitat. She said she and her husband have been educating their neighbors and telling them not to put their garbage out which would get rid of the raccoon's food source. However, she continued, she does not want to push the problem onto another neighborhood.

Mayor Walaker stated grates hinder the water flowing into the sewers which can add to the flooding problems in the streets. He said the problem is the raccoons are looking for a food source.

Commissioner Wimmer stated once the garbage and food source is gone, the raccoons will wander away. He said most of the problems occur when garbage is left out. He said the garbage should only be brought out on garbage pickup days.

Police Chief Ternes stated if people leave the wild animals alone in most cases they will move on. He said when a citizen utilizes some type of a trap, most of the responsibility is on the homeowner. He said the Police Department will respond only if the animal is a serious threat to public safety and that is frustrating to the homeowners. He said when the animal is trapped and the citizen is questioning what to do with it, the community service officer can pick it up and release it. Chief Ternes stated he spoke with Doug Leier with the Game and Fish Department and he was not concerned with the City not taking any type of action regarding the raccoons. He said Mr. Leier indicated there is really no way to mitigate the raccoon population along the

river. He said the City does not have the resources to respond to every complaint and most of the responsibility is the property owner's.

Mayor Walaker stated in regard to rabies problems, the state of North Dakota only had six raccoons with rabies over a 10 year period.

In answer to a question regarding an animal control service, Environmental Health Services Manager Myron Berglund stated citizens can call his department for information on local animal control companies.

Ms. Fischer stated she agrees with Commissioner Wimmer to wait and see if there are any more raccoons spotted in the neighborhood over the course of the next week. She said she has not seen any since a week ago last Friday. She said this is all about public education regarding the raccoons.

Annexation Agreement with the City of Horace and Certain Property Owners Regarding the Disputed Annexation in Sections 5 and 6 of Stanley Township Approved:

The Board received a communication from City Attorney Erik Johnson submitting for the Board's review and approval an agreement with the City of Horace and other protesting property owners regarding the disputed annexation in Sections 5 and 6 of Stanley Township. Mr. Johnson stated in April 2007, the City of Fargo entered into a conceptual agreement with certain property owners and the City of Horace regarding the disputed annexation as a result of a mediation process. He said the Commission directed his office to prepare the appropriate agreements to formalize the conceptual agreement. Although it has taken some time and a fair amount of interaction between the attorneys for the various parties, he continued, he is pleased to report that this matter is close to being brought to completion. He said the conceptual agreement contains the following terms:

"1. The parties agreed that the boundary between the City of Horace and the City of Fargo would be the meandering Sheyenne River on the West side of Section 5. On the south side, properties that have already been improved (occupied by residents) and property owned by the Catholic Diocese would become part of the City of Horace. The majority of acreage in Section 5 would be annexed into the City of Fargo.

2. There are five parcels along the Sheyenne River that are owner-occupied residences. The conceptual agreement provided that separate written agreements will be entered into with those owners. The agreements would state that their property will be annexed into the City of Fargo in the future - not immediately - the property owners will need to connect to the City's sewer system and, thereafter, they will be annexed into the City of Fargo within 15 years thereafter.

3. Of the foregoing five property owners, the City will enter into agreements with two property owners who expect to continue farming their land (within Section 5) for the foreseeable future. These property owners were looking for some protection from the cost of any development that may surround them before their land is ready for development (i.e. so long as they still wish to farm that land). Agreements will be made between the City and these two property owners to allow deferrals of special assessments to provide such protection. The deferral agreements are in conformance with the city's standard policy and practice for deferral of special assessments.

4. A form of written agreement has been negotiated and approved by the lawyers for the city of Fargo, the city of Horace and certain protesting property owners represented by attorney Robert Hoy. This agreement will place into effect the previously described terms, including an 'annexation boundary line' to be established between the City of Horace and the City of Fargo. That agreement is enclosed for your approval.

5. As the final steps toward completing the annexation, initiated in January 2003 (which resulted in the lawsuit brought by the City of Horace and subsequently the mediation that occurred in April 2007), the City Commission will need to approve an amendment of the January 2003 Resolution of Annexation to modify the boundary line in accordance with the aforesaid agreements. A map of the annexation area, as amended, will then be recorded with the Office of the Cass County Recorder."

Mr. Johnson stated he is in the process of collecting signatures on the final draft agreements with the neighboring property owners and expects to submit those to the City Commission in the near future; however, he would appreciate the Board's review and approval of the Agreement for Annexation between the City of Fargo, City of Horace and Certain Property Owners. He said he anticipates that the Horace City Council will approve the same agreement at their regular meeting on Tuesday, July 29, 2008. He said he hopes to have all the agreements with affected property owners collected and ready to present to the Board, along with an Amended Resolution of Annexation, at the August 11, 2008 City Commission meeting.

Commissioner Wimmer moved the Annexation Agreement between the City of Horace, the City of Fargo and certain property owners be approved and the Mayor be authorized to execute such instruments or agreements in substantial conformity therewith upon receipt and approval of the Agreements for Future Annexation with property owners LeClair, Diede, Nudell and Smylie, the Sewer Agreement with property owner Gensler and the Agreements for Deferral of Special Assessments with property owners Diede and Gensler.

Second by Wimmer. On call of the roll Commissioners Mahoney, Wimmer, Williams, Piepkorn and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

At 6:04 p.m. the Board took a five-minute recess.

After recess: All Commissioners present. Mayor Walaker presiding.

Action on the Joint Powers Agreement with Southeast Cass Water Resource District for the Southside Flood Control Project Tabled Until August 11, 2008:

The Board received a communication from Senior Engineer April Walker submitting a PWPEC Report of Action recommending approval of a Joint Powers Agreement (JPA) with SE Cass Water Resource District for the Southside Flood Control project development and construction, as well as a flow chart of the Fargo/SE Cass responsibilities based on the JPA.

The Board received a communication from Attorney Jonathan Garaas stating the Horace City Council will next meet on August 4, 2008 and he has been previously authorized to speak out on behalf of the City of Horace in the event he learned of any

public event which could potentially adversely impact the City of Horace and its residents. He said he believes the City of Horace, and its residents will likely oppose the execution and implementation of the proposed Joint Powers Agreement contemplated between the City of Fargo and Southeast Cass Water Resource District. He said the Horace City Council has not yet taken any position because they have not had an opportunity to review the 182 page submission recently presented to the Fargo City Commission dated July 10, 2008. Mr. Garaas stated it is likely that the City of Horace and its residents will oppose any Joint Powers Agreement whereby the authority of the Southeast Cass Water Resource District or the City of Horace is granted or shared with any other municipality - in this case the City of Fargo. He said should there be a change in project concept so that the proposed agreement would only include lands within the boundaries of the City of Fargo and its extraterritorial zoning area, he does not believe that the City of Horace will have legal standing to oppose such a Joint Powers Agreement. He summarized sections of the North Dakota Century Code that he believes are in conflict with the Joint Powers Agreement. He said the contemplated project goes beyond the area under the legal jurisdiction of Fargo and it contemplates areas within and without Horace that are not subject to flooding even under the results of the on-going FEMA study. He said on July 22, 2008, it was learned that FEMA is not even contemplating any mapping changes for Horace, Briarwood, Frontier, Prairie Rose, or Oxbow which give reason for pause. Mr. Garaas submitted a preliminary floodplain map and stated the map is being provided to various potentially affected landowners as the preliminary results of Houston Engineering, Inc.'s current FEMA studies predicated upon a misunderstanding of the City of Fargo's extraterritorial jurisdiction which is not 4 miles under the old law. He summarized a number of reasons why he believes the project has no flood control benefit to the City of Horace. He listed a number of state statutes in conflict with the agreement providing for reimbursements of expenses incurred by the City of Fargo for the proposed project and questioned the authority of the City of Fargo to enter into such an agreement. Mr. Garaas also summarized the reasons he felt the Joint Powers Agreement might violate North Dakota legislation that already exists. He said the City of Horace will likely not dispute the right of the two entities to enter into such an agreement with respect to lands in Fargo or those lands under Fargo's jurisdiction. He said the City of Horace will not likely consent to any attempt to expand the City of Fargo's authority to areas within Horace or under their extraterritorial zoning authority. He said the Water Resource District and the City of Horace can determine if any project is advantageous. He said he has been advised that FEMA will not certify that the project will take any property out of the 100 year floodplain and resulting requirements until after actual construction followed by a FEMA inspection. He said he is concerned that misinformation exists and there does not appear to be any way that this project can be presently advertised as meeting projected FEMA standards so that project lands would not be in the 100 year floodplain. To the extent anyone so states, there should be immediate corrective action taken so that no one is misled, he said.

Sean Fredricks, Attorney for Southeast Cass Water Resource District, stated the Water Resource District Board did approve the agreement and Chair Thomas Fischer signed it.

Mr. Garaas reiterated the concerns he outlined in his communication. He said he is alerting the Commission to some legal and factual questions and he believes a

meeting is in order before the agreement is signed. He said he is not speaking for Horace because they have not acted on this item yet.

City Attorney Erik Johnson stated his response to Mr. Garaas is that this agreement has been in the works for some time and it was founded on state law.

Mr. Fredricks stated he agrees with Mr. Johnson. He said the City of Horace does have a representative who attended all of the meetings. He said he feels this agreement does have the legal footings in terms of the points raised by Mr. Garaas.

In answer to a question, Mr. Fredricks stated there is an advisory committee and any entity that wants to make comments certainly has the opportunity to do that. He said there is nothing to prohibit them from participating and if they want to enter into an agreement the Water Resource District would be open to that. He said they want to encourage the various entities to participate and they will continue to do that.

City Engineer Mark Bittner stated if the City of Horace wants to become involved in the Joint Powers Agreement, the City of Fargo would like to have them involved. He said he thinks there is a real need to have some agreements in place and he would welcome participation by any cities in the benefitted area. He said he does not see any reason that this cannot wait a little longer.

Mr. Fredricks stated on an administrative standpoint there is no urgency and there is no deadline. However, he continued, if it were up to him, he would say to approve it tonight because it has been sitting for so long.

In answer to a question, Mr. Fredricks said the agreement can be amended to let Horace in. He said he would caution that the agreement not be tabled simply in the interest of obstructing the project.

Mr. Garaas stated if there is a proposal that benefits Horace, they will want to participate.

Mayor Walaker stated he does not see any problem with approving this and sending a letter to Horace to see if they want to participate and then the agreement can be amended.

Mr. Johnson stated the agreement can be approved and amended later.

Commissioner Williams stated it really is not going to make a difference if this item is delayed to give Horace time to review it. He said if the City of Horace is meeting on August 4th, this item can wait until the next City Commission meeting for action.

Mayor Walaker stated waiting does not make any sense at all. He said everything needs to be legal but he has become a little frustrated with this item. He said there are many obstacles lying ahead and the City needs to move forward on this item.

Commissioner Williams moved to delay action on this item for two weeks to give Horace a chance to review the Joint Powers Agreement.

Second by Piepkorn.

There was discussion regarding sending notices to entities that may be interested in participating.

Mr. Fredricks stated he agrees with Mayor Walaker in terms of slowing the process even further if this item is delayed.

On call of the roll Commissioners Williams, Piepkorn and Mahoney voted aye.

Commissioners Wimmer and Walaker voted nay.

The motion was declared carried.

Commissioner Wimmer moved that the Board adjourn to 5:00 o'clock p.m., Monday, August 11, 2008.

Second by Williams. All the Commissioners voted aye and the motion was declared carried.

The time at adjournment was 7:07 o'clock p.m.
