Southwest Metro Transit Study Approved: Appropriate Staff Directed to Work Toward Obtaining Funding Needed to Implement the Study:

The Board received a communication from Planning Director Jim Gilmour stating the Fargo-Moorhead Metropolitan Council of Governments has completed work on a Southwest Metro Transit Study for southwest Fargo and West Fargo which he submitted for the Board's consideration. Mr. Gilmour said the study looked at future transit needs of the growing area and identified future transit route concepts. He said the study identifies the need for three additional transit routes in southwest Fargo that will be needed over the next five years and the highest priority is for a route to serve the Osgood/Microsoft area. The other two needs, he continued, are for routes to provide service south of 32nd Avenue South in southeast Fargo and north-south along 25th Street between 52nd and 13th Avenues South. Mr. Gilmour stated implementation of these additional routes will require significant resources from a combination of federal, state and local governments. He said the City will have a better idea of available funding after the 2009 session of the ND Legislature and the adoption of the next federal transportation bill. He said the City should also review options for adding local funding to implement these needed transit routes.

Metro COG Community Development Planner Wade Kline stated at the request of the City of Fargo and as recommended by the 2007 Metro Transit Plan, Metro COG conducted the Southwest Metro Transit Study. He said the intent of the Study is to understand the options for transit expansion in the Southwest and most specifically, the Study was tasked with identifying new transit options for the next five years. He said as part of the Study plan development a number of emerging issues were identified surrounding the expansion of transit service in the study area. Mr. Kline stated the Study outlines the existing conditions of transit operations in the Southwest Metro and highlights the dynamics and evolution of existing transit options in the study area. He said the Southwest Metro is an evolving part of the MAT Service Area and the transit network which serves the area has been continuously modified to stay abreast of changes and development trends in the study area. He stated the Study sets the stage for the development of new transit options in the Southwest Metro. He said the alternatives developed by the Study aim to maintain existing service levels while, at the same time, balance bold new route initiatives to meet the growing demand and utility of transit in the study area and system wide. Mr. Kline summarized the proposed transit needs outlined in the Study.

Commissioner Wimmer moved the Southwest Metro Transit Study be approved and the appropriate staff be directed to work toward obtaining the funding needed to implement the study.

Hearing on Proposed Increase in Passenger Fares for Metro Area Transit and MAT Paratransit: Fare Increases Approved Effective January 1, 2009:

A Hearing had been set for this day and hour to consider the following proposed increase in passenger fares for Metro Area Transit and MAT Paratransit effective January 1, 2009:

MAT Fixed Routes

Cash Fare

Adult	\$1.00 + \$.25 = \$1.25
Elderly	\$.50 + \$.10 = \$.60
Disabled	\$.50 + \$.10 = \$.60
Youth	\$.50 + \$.10 = \$1.25

30-Day Pass Fare

Adult	\$35 + \$5 = \$40
Elderly	\$23 + \$3 = \$26
Disabled	\$23 + \$3 = \$26
Youth	\$23 + \$3 = \$26

MAT Paratransit

Cash and Coupon Fare

Eligible Passenger \$2.00+ \$.50 = \$2.50

Coupons are sold in books of 20

The Board received a communication from Transit Administrator Julie Bommelman stating the general fund subsidy from the City of Fargo has increased from \$311,644 in 1998 to \$416,211 in 2007 and a projected \$893,826 in 2009. She said the MAT Fixed Route cash fare has been at \$1.00 for 10 years and the monthly pass fare last changed in 2003. She said the fares for MAT Paratransit service for persons with disabilities was last increased eight years ago. MAT Paratransit rates per the Americans with Disabilities Act, she said, cannot exceed twice the full fare of the Fixed Routes and the proposed increase from \$2.00 to \$2.50 meets this requirement. She said although transit has seen sizeable increases in ridership the past few years, the fare revenue has not been enough to pay for rising fuel costs. In order to maintain transit service, she said, additional revenue is needed from all sources. She stated a fare comparison between similar transit systems was conducted, including the cities of Grand Forks, Bismarck, Rochester and Duluth. She

said MAT's adult cash fare was the lowest at \$1, with the others ranging from \$1.25-\$1.50 and MAT's pass fares at \$35 are comparable with the other systems, which range from \$30-\$35. MAT's discount pass rates for elderly, disabled and youth, she said, are at the low end of the scale at \$23 compared to \$20-\$35 on the other systems and MAT's rates for Paratransit service were the lowest at \$2.00, with the other transit systems rates ranging from \$2.50 to \$3.00. Ms. Bommelman stated the joint Fargo-Moorhead MAT Coordinating Board met on July 15, 2008 and it was the consensus of the members present to recommend approval of the passenger fare increase. She said a public informational meeting was held at the GTC on Friday, September 26, 2008 at which nine passengers attended. Written comments were also received, she said, from eight MAT passengers and no comments were received from MAT Paratransit clients or agencies. She said Moorhead City Council approved the proposed fare increases on October 13, 2008.

Commissioner Wimmer questioned why Transit has not requested increases more often.

Ms. Bommelman stated Transit was trying to build the ridership without increasing the rates.

Mayor Walaker stated a letter of protest was received from Linda Onstad who has been a bus rider for 28 years and staff should respond to some of the concerns in her letter.

Commissioner Williams moved the proposed increase in passenger fares on Metro Area Transit and MAT Paratransit be approved as outlined above effective January 1, 2009.

Second by Wimmer. On call of the roll Commissioners Williams, Wimmer, Mahoney, Piepkorn and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

No Commissioner being absent and none voting nay, the motion was declared carried.

Special Assessment Lists for Improvement District Nos. 5702, 5704, 5740 and 5759 Approved:

A Hearing had been set for this day and hour on the special assessment lists for the construction of the following Improvement Districts in the City of Fargo, North Dakota, on which special assessment lists Hearings had been held by the Special Assessment Commission after which they had been confirmed and filed with the Board of City Commissioners:

Sanitary Sewer, Water Main, Storm Sewer, Paving, Street Lights and Incidentals No. 5702.

PC Concrete Pavement and Incidentals No. 5704.

Sanitary Sewer, Water Main, Storm Sewer, Paving, Street Lights and Incidentals No. 5740.

Sanitary Sewer, Water Main, Storm Sewer and Incidentals No. 5759.

The Board received a communication from Jonathan Garaas, Attorney representing Fred Hector, appealing the special assessments for Improvement District Nos. 5702, 5704, 5740 and 5759. Mr. Garaas submitted a packet of information outlining the reasons for the appeals.

Mr. Garaas handed out additional information regarding Mr. Hector's reasons for objecting to the assessments. He said in regard to the special assessment for Improvement District No. 5704, Mr. Hector objects to the corrected assessment of \$297,739.91 which is at least \$161,739.91 too much and he summarized the reasons for the objection. He said as to the special assessment for Improvement District No. 5740, Mr. Hector objects to the assessment of \$25,261.87 and he summarized the reasons for the objection. He said regarding the special assessment for Improvement District No. 5702, Mr. Hector objects to the assessment of \$247,361.70 which is at least \$82,453.73 more than possible or it is as much as \$233,084.01 more than is possible and he summarized the reasons for the objection. He said as to the special assessment for Improvement District No. 5759, Mr. Hector objects to the assessments of \$38,643.40, \$23,212.94 and \$105,562.77 and he summarized the reasons for the objection.

At 6:05 p.m. the Board took a five-minute recess.

After recess: All Commissioners present. Mayor Walaker presiding.

Special Assessment Coordinator Dan Eberhardt explained the City's process in determining the special assessments for Mr. Hector's property. He also responded to Mr. Garaas's statements regarding each of the Improvement Districts in question and summarized the City's method in determining the assessments.

There was discussion regarding the error made in the assessments for Improvement District No. 5704.

Mr. Eberhardt stated the original memorandum that was sent to Mr. Hector listed the 2006 figures as the estimated assessments for Improvement District No. 5704 and, after the final figures went out, the numbers were calculated with the 2008 figures. He said the assessment should have been figured using the 2007 amount, however, the Special Assessment Commission used the 2006 figures since that was the amount listed in Mr. Hector's original memorandum. He said Mr. Hector got a break on that assessment because it was lower than it should have been.

In answer to a question, Mr. Eberhardt stated the Special Assessment Commission uses the same calculations for everyone's assessments.

In answer to a question, Mr. Eberhardt stated changes can still be made after the Commission approves the special assessments.

Daniel Dunn, Chair of the Special Assessment Commission, stated when the letters for the special assessments are sent out, the Special Assessment Commission holds hearings to answer citizens questions about their assessments. He said the citizens are also told if they have additional questions and concerns they can be addressed by the City Commission at their hearing on the assessments. He said ultimately, the City Commission does have authority to make changes to the special assessments.

Commissioner Mahoney moved that the special assessment lists for the construction of the above listed Improvement Districts be and the same are hereby approved and confirmed and ordered filed in the office of the City Auditor, that the

City Auditor's Office be instructed to proceed to collect the assessments in the manner provided by law, that the interest rate be set at 1% per annum over the net rate on bonds financing said projects and that Mr. Eberhardt be directed to address Mr. Garaas's concerns and review the numbers in Improvement District Nos. 5702, 5704, 5740 and 5759.

Second by Wimmer. On call of the roll Commissioners Mahoney, Wimmer, Williams, Piepkorn and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.
