1458 South River Road

A Fargo house with connections to Frank Lloyd Wright

Current Situation

- The City of Fargo is proposing to acquire and demolish 1458 South River Road for construction of an earthen levee to protect the water treatment plant
- The owners of the home, John and Sherri Stern, have proposed that the City instead look at alternative methods of flood protection that would preserve the house
- The City has acquired all but 4 of the 21 parcels on South River Road needed for the levee
- The house is eligible for individual listing to the National Register of Historic Places
- A nomination to the National Register is underway, and that process is expected to be completed in the next several months

Dear Dawn,

The *Application Guidelines for the Certified Local Government Grant Program for FY 2017 (March 1, 2017 - February 28, 2018)* is now available.

The State Historical Society of North Dakota (SHSND), through its annual appropriation of Historic Preservation Fund money from the National Park Service, is making available approximately \$65,000 in competitive grants to the seven (7) Certified Local Governments in North Dakota.

The purposes of the CLG program are to ensure the broadest possible participation of local governments in the national historic preservation program while maintaining standards consistent with the National Historic Preservation Act, and the Secretary of the Interior's "Standards and Guidelines for Archeology and Historic Preservation;" to enrich, develop, and help maintain local historic preservation programs in cooperation and coordination with the State Historic Preservation Office; and to provide financial and technical assistance to further these purposes.

Applications must be received by SHSND by 5:00 pm on Friday, February 26, 2017. Please contact me with any questions or to receive a complete copy of the application at (701) 328-3573 or amunson@nd.gov.

Sincerely,

Amy Munson
