This generated Board discussion concerning camera coverage at doors and stairwells not being monitored. Mr. Schnettler explained IP's cameras monitor only the parking related activity, but their security system could be tied into these areas not under their management contract if requested.

Further discussion ensued including the following: clarification of maintenance responsibility for areas not under IP's management; provide more detailed information in future reports regarding the financial statistics reported by the City's PASSPORT System; and reasons for the fluctuation of revenue for specific lots due to changes in customer parking in the downtown area.

Mr. Gilmour and Mr. Schnettler talked about reviewing existing policy and the current monthly parking fees for this ramp; removing the existing gates; providing hanging tags for the monthly parking customers; utilizing digital machines that are currently in storage; and updating the signage.

Discussion began regarding what changes can be made immediately; further review of any fee changes to maintain the current revenue for this ramp; and other ways to accommodate people visiting downtown to reach the businesses during construction periods.

SUBJECT: PARKING RATES FOR 2020 AND 2021

Increased parking fees are essential to paying for the bonds on the Mercantile Parking Garage. The Fargo City Commission approved a financing plan and the facility earlier this month.

I'm proposing the monthly rate changes on the attached sheet, with the 2020 rates to be implemented January 1, 2020 and the 2021 rates to be implemented when the Mercantile Parking Garage is completed. (Fall 2020)

The proposed rates are higher at the locations in the core of the downtown (Civic Ramp and Roberts Commons Garage), and decrease further away from these high demand facilities. There is a lengthy waiting list at both Roberts Commons and the Civic Ramp, our highest demand facilities.

The Island Park Ramp, which is only 50% utilized, would have the lowest rate since demand is low compared to capacity. This provides the more affordable parking option in the downtown.

The new Mercantile Garage and the GTC Garage would be priced at \$106 a month since they are good quality facilities and only two blocks from the core of the downtown.

The NP Lot is also in demand, so rates can be higher. Finally, the 4th Street Lot should be increased to the same at the 3rd Street Lot.

SUBJECT: ISLAND PARK RAMP – SHUTTLE AND GROUP RATE

Bushel (formerly Myriad Mobile) may be interested in leasing parking spaces in the Island Park Ramp and operating a shuttle service to their location.

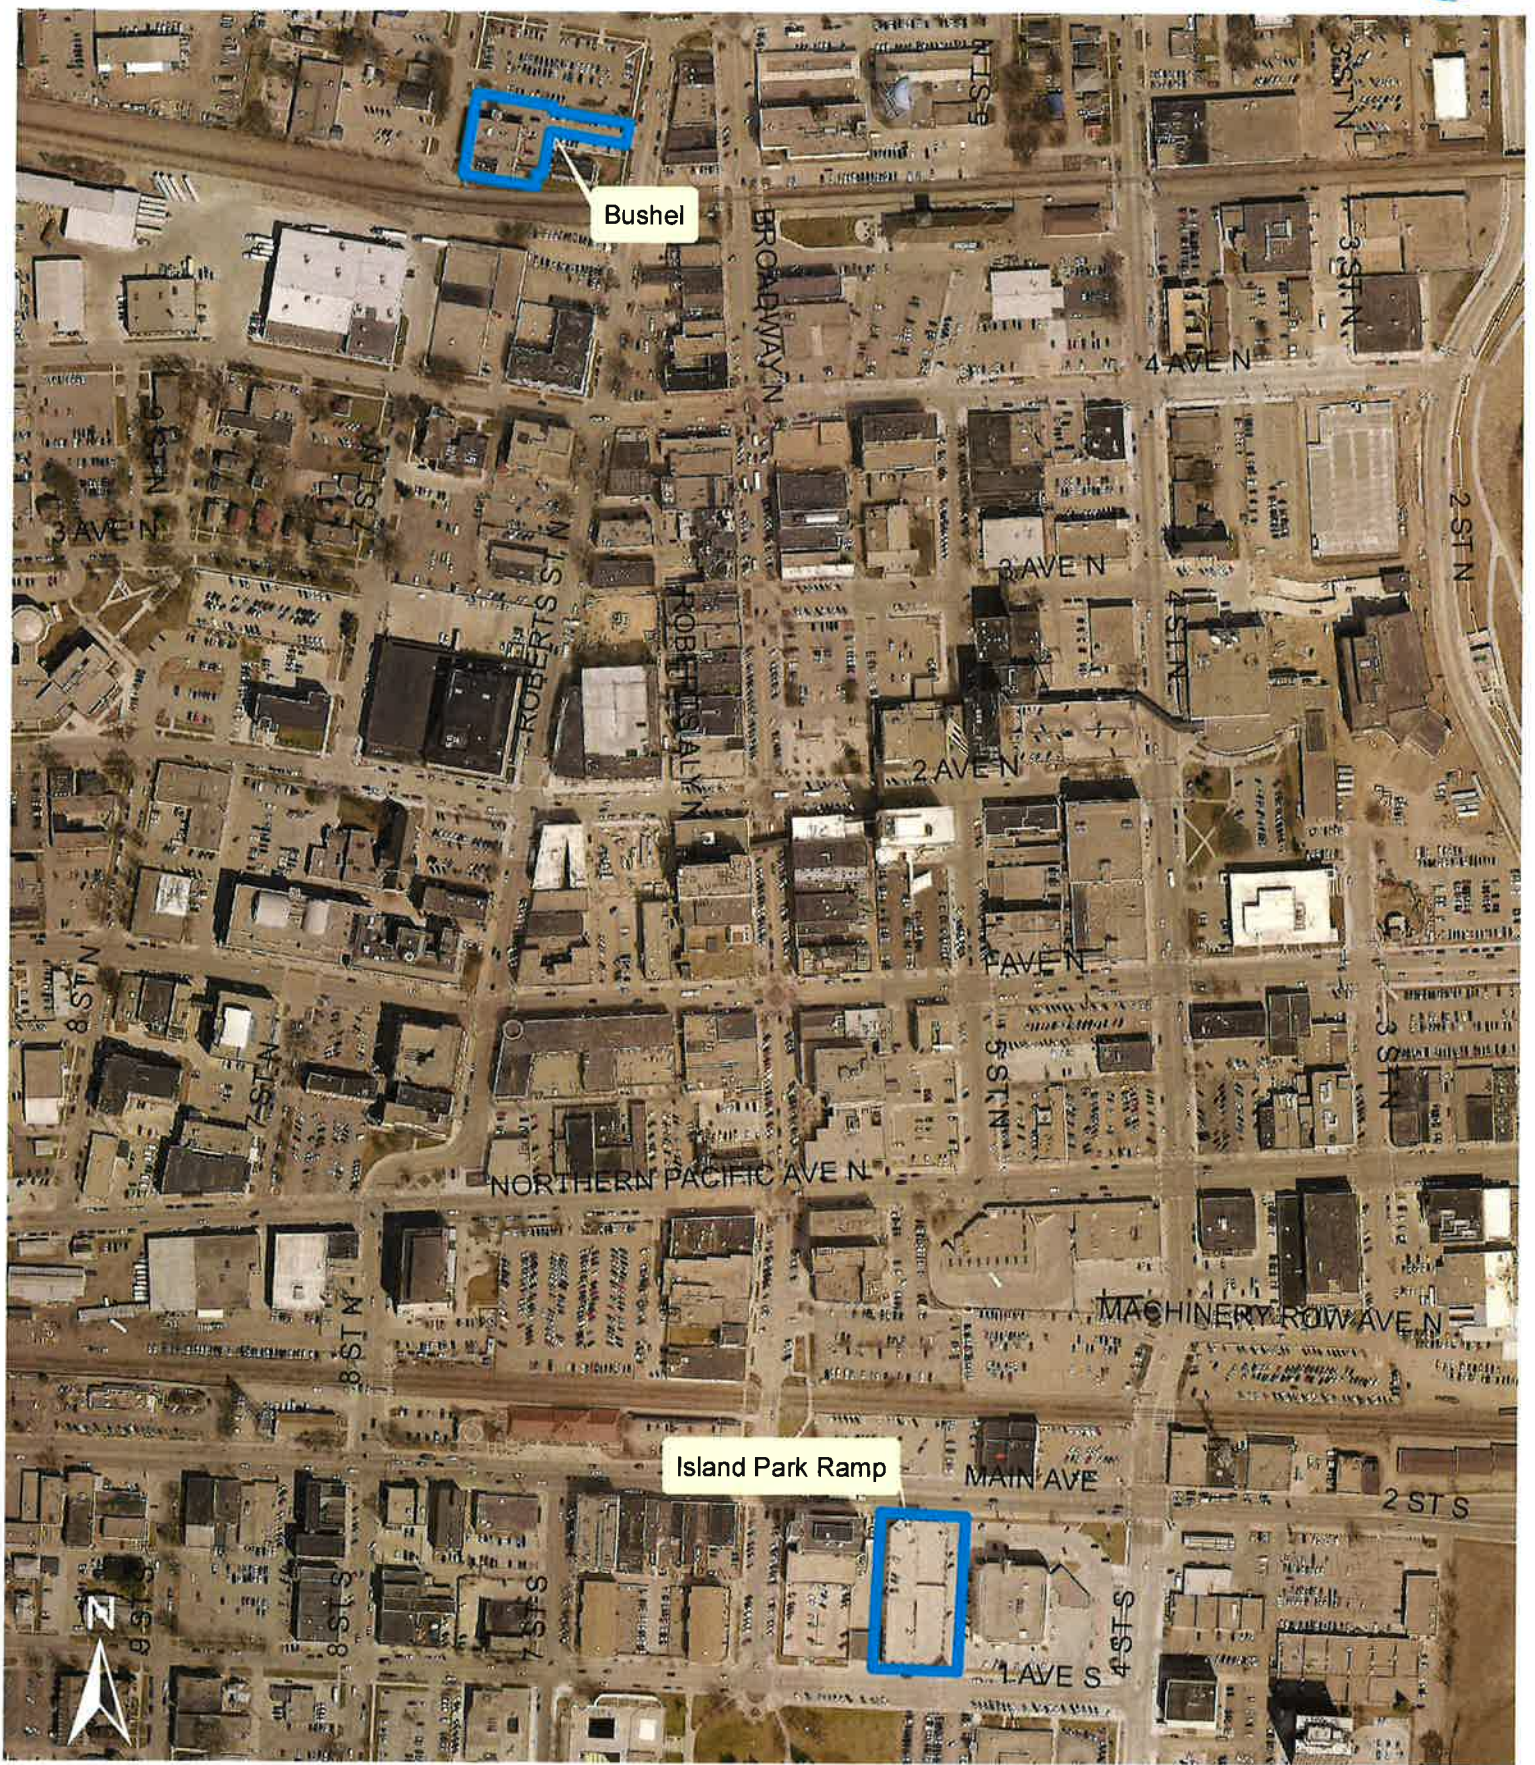

Bushel is located at 503 7th Street North. They are looking for more parking spaces. They have 140 employees and very limited parking. Many employees must park on the street some distance from the office.

The need is for 40 to 50 parking spaces, and this may increase in the future. The only Downtown parking facility with this capacity is the Island Park Ramp. Bushel is about 9 blocks from the Island Park Ramp.

Bushel would be willing to provide the shuttle to pick up employees at the Island Park Ramp and transport them to the office. The shuttle would run for a limited time in the morning and at the end of the workday. The pick-up location would be at the Main Avenue pedestrian entrance to the Island Park Ramp. On street parking could be changed to a "no-parking pick-up/drop-off zone."

The proposed parking rate would be \$50 per month per parking spot. This would provide an additional \$2,000 to \$2,500 month of income from the Island Park Ramp. There would be no additional cost to the City.

The Downtown plan suggested a parking shuttle to meet a portion of Downtown parking needs. This is an opportunity to try the concept at no cost or risk to the City. If it is successful, other employers may consider this option.

RE: PROJECT AND OUTREACH ITEMS

The following are project and outreach item updates from the Planning Department.

- 1) The City conducted an ADA assessment of Island Park ramp by consulting with the City's Inspections department. Staff plans to consult with an architect or engineer to prepare a design solution and get bids. The necessary improvements include sidewalk and access improvements at the pedestrian doors and are estimated to cost approximately \$15,000.
- 2) Last month, as a forwarded item from the Downtown Community Partnership (DCP) and BID, several city staff members from various departments and interested business owners convened to discuss Broadway benches and policing difficulties downtown. This resulted in positive discussion and further planning developments. Included in the discussion was the need for public outreach and an open house in conjunction with City Planning, Downtown Parking and the DCP as we coordinate parking improvements and downtown activities in general. Staff will coordinate some open house dates with the DCP.
- 3) In conjunction with City Administration, the City is seeking to further enhance our governance practices with some general updates. As such, we are assisting all our boards in enacting bylaws. Based on templates we have in-house, as well as from general practice of the Parking Commission, a draft of bylaws is included in your packet. Please provide review comments to staff or bring forward at this week's meeting.
- 4) The Planning office is working on a contract update with Interstate Parking. A draft of this update will be brought forward next month.
