FROM: Tia Braseth, Community Development Coordinator

RE: Item 6 – NDSU Land Acknowledgment Statement

A representative of NDSU will present two drafts of land acknowledgement statements and seek the NAC's feedback in which one to use. This will not be an editing session. As a land-grant institution, NDSU feels it is important to acknowledge the land in which we reside. Part of the cultural belief is that this would be approved by local tribal members and community elders.

Statement 1: *As a land-grant institution, we acknowledge that North Dakota State University is located on the traditional, ancestral, and contemporary lands of Indigenous people. The University resides on land that was cared for and called home by the Anishinaabe, Dakota, Lakota, and Nakota peoples. This land holds great historical, spiritual, and personal significance for its original stewards, the Native nations and peoples of this region.*

Statement 2: *We want to collectively acknowledge that we gather as NDSU on the traditional land of the Anishinaabe, Dakota, Lakota, and Nakota people, and honor with gratitude the land itself and the people who have stewarded it throughout the generations. As a land-grant institution, we are committed to continuing to learn how to be better stewards of this land we inhabit as well as building strong, trusting relationships with our indigenous people of the region.*

Recommended Action: None needed. Provide feedback.

RE: SWEAT LODGE UPDATES

Regrettably, in December 2019, the City of Fargo had to close the sweat lodge. Staff is in the process of seeking new organizational and community structures to oversee and manage the sweat lodge. Based on conversation with community members and people who have used the sweat lodge, we are finding some inconsistent operations that pose safety concerns. After further discussions with city leaders, we believe a more sustainable organizational structure is necessary and we need to call on our community partners for more engagement or contract management of the site.

For reference, attached are the waivers and rules for operation of the sweat lodge as drafted in 2018. Each reservation must have a pourer and helper. We believe these rules need to be updated for clarity in defining the City's responsibilities and to confirm those responsibilities through the city commission review process. Staff believes the City of Fargo should investigate establishing a more structured system to manage the facility to meet the public's safety and health expectations, similar to how a community room at the public library or a park shelter is reserved. We need to further define liabilities and ensure volunteers and users of the facility are adequately protected.

Until this can happen, the sweat lodge needs to be closed until new management can be vetted by the Native American Commission, the City Commission, and the City Attorney. A formal sign will be posted with an opening date uncertain. This decision is not arrived at lightly, and we know we have many individuals and partners who rely on this facility for health and spiritual practices. We will be reaching out to our community partners, such as Share House, Prairie St. John's and Gladys Ray Center for ideas and collaboration on how to rebuild and fund a more sustainable and predictable operation.

We look forward to further working with the Native American Commission as we seek resources and participate in community discussions to seek a more sustainable operation. We are extremely thankful of the countless volunteer hours and financial contributions to operate the site to date.

Mission and Goals

The Goal of the Native American Commission Sweat Lodge Subcommittee is to provide, to the public, a traditional means to meet spiritual and cultural needs that are uplifting to the Native American way of life.

The Sweat Lodge Subcommittee recognizes the need for natives in an urban setting to express themselves spiritually and to purify by way of traditional ceremony. Furthermore, we emphasize that spiritualism and culture are greatly intertwined and it is imperative to define Native Culture apart from how the general public views "Religion". The Native American Commission thereby gains an advantaged point of view in meeting the needs of the Native population that other organizations are not likely to, or would not inherently possess.

It shall be the intention of the sub-committee to provide a lodge, its appurtenances, some Materials, and a parcel of land, to community members for use.

The lodge is open to all who are interested, Indigenous Americans and non-Indigenous American without bias or prejudice. All tribal backgrounds are accepted.

The lodge shall be respectfully maintained, and kept in an organized and clean fashion. An effort shall be adopted by the community to be pro-active and prompt with improvements and maintenance. Community connectivity and communication shall be continually improved. The Sweat Lodge Subcommittee shall maintain, strengthen and improve relationships with lodge leaders and their lodge helpers to provide opportunities to the community.

Roles and Responsibilities

Scheduling of the Sweat Lodge is crucial in letting everyone have equal access to the site and maintaining organization.
