June 29, 2015

To the Honorable Mayor, Members of the City Commission, and the Citizens of the City of Fargo, North Dakota:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for the City of Fargo for the fiscal year ending December 31, 2014. This report satisfies audit and financial reporting requirements pursuant to North Dakota Century Code 54-10-14 and the Single Audit Act of 1985.

This report is prepared by the City's Finance Department in accordance with generally accepted accounting principles. The Finance Department is responsible for the accuracy, clarity, and presentation of the financial statements. We believe that this report fairly and accurately presents the financial position of the City and the results of operation of the various funds for the period covered, and that all disclosures necessary for such presentation have been included.

Eide Bailly LLP has issued an unmodified "clean" opinion on the City of Fargo's financial statements for the year ended December 31, 2014. The independent auditor's report is located at the front of the financial section of this report.

It is management's responsibility to develop a system of internal controls to safeguard the assets of the City. In developing the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. Because the cost of internal controls should not exceed their benefits, the City's internal controls have been designed to provide reasonable basis rather than absolute assurance that the financial statements will be free from material misstatement. We assert that this financial report is complete and reliable in all material respects.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements. Management's Discussion and Analysis is included in this report on page 4. This letter of transmittal has been designed to compliment the MD&A and should be read in conjunction with it. The MD&A contains a more detailed analysis of changes in financial condition.

CITY OF FARGO PROFILE

The City of Fargo was incorporated in 1875 and is located in the eastern border of North Dakota at the intersection of Interstate Highways I-29 and I-94. This regional economic center continues to expand with a trend of consistent growth over the past several years. The current population is estimated at 115,000. Health care, education and retail have a strong presence that expands the local economy into a broader regional economic center. The City is empowered to levy taxes on real property located within its boundaries and continues to expand its size with many annexations being completed in the past few years. This trend is predicted for the next several years as our population and economy expands.

The City of Fargo operates under a Home Rule Charter, established in 1986, with a Mayor-Commission form of government. Policy making and legislative authority is vested in a five member Commission. The City Commission is responsible for policy and ordinance adoption, approving budgets, committees, and serving needs of the community. All Department Heads serve on the Mayor's Cabinet which is used as a

forum to communicate City and Community issues. The City Administrator, Pat Zavoral is the liaison to the City Commission and is responsible for overseeing the day to day operations of the City and its eight Departments. Bruce Grubb has been appointed as the Assistant City Administrator this year.

The Mayor and City Commissioners are elected at large and serve four year terms. Tim Mahoney is serving as the interim Mayor since the passing of Mayor Dennis Walaker. The next municipal election will be held in June of 2015 at which time the citizens will elect a Mayor and one Commissioner.

The City of Fargo provides a full range of governmental services including public safety, construction and maintenance of infrastructure, public utilities including water, wastewater, solid waste and urban forestry, health and social services, public transportation, recreation and culture, and general support services necessary to serve the citizens of Fargo.

The City is required to adopt an annual operating budget by October 7 of each year. All Departments submit their requests to the Mayor during the budget development process which begins each June. Currently, the Mayor utilizes a budget team approach to discuss budget strategy with the City Administrator and the Director of Finance; however, the Mayor is responsible for the final decisions relating to the preliminary budget presentation. The City Commission is responsible for adoption of the final budget. Budget control is maintained at the fund, function (e.g. Public Safety) and Department (e.g., Police). Department Heads may make transfers of appropriations within a department. Supplemental budget appropriations require approval by the City Commission.

STABLE ECONOMIC CONDITIONS IN FARGO AND STATE OF NORTH DAKOTA

Favorable Statewide Financial Conditions

Statewide economic conditions remain very strong in North Dakota resulting primarily from the impact of oil discovery and related extraction in the Bakken oil formation in the Western portions of the State. State intergovernmental revenues remitted to the City have increased significantly over the past three years. State intergovernmental resources have now become the largest revenue source in our General Fund.

The Tax Commissioner for the State of North Dakota recently announced that statewide sales tax collections increased by 11% in 2014 as compared to 2013.

The growth of intergovernmental revenues is discussed in more detail in the management discussion and analysis section of this report.

The median Fargo per capita income and our labor force continues to rise and is reflective of our strong local economy. Per capita incomes have increased to \$47,023 in 2013 as compared to 39,812 in 2008 which represents an 18% increase in income levels. Our labor force has increased to 65,038 in 2014 as compared to 59,265 five years ago which represents a 9.7% increase.

Building Permit Activity Tops 1 Billion

Another record setting year is noted in overall building permits. Permits issued for 2014 totaled \$1 billion, up from \$378 million in 2013. Significant increases are noted in commercial construction. These totals include permits issued for Sanford Hospital who is constructing a \$500 million facility near Interstate 94. Significant increases are noted in commercial and multi-family construction categories.

Sales Taxes Funding Key Infrastructure

Fargo is utilizing sales tax revenues as a primary funding source for key infrastructure projects. All of our sales tax resources are dedicated to various types of infrastructure. The most significant expenditures are being made in updating municipal utilities to accommodate present and future growth, flood levees to protect us from Red River flood events, and improving our highway systems throughout our community. Existing sales tax authorizations expire in 2028, 2029 and 2032 providing a solid stream of resources to plan well into the future.

A more comprehensive review of these statistics is contained in the statistical section of this report which begins on page 113.

State and Local Sales Tax Revenue Trends

Sales tax collections across the State of North Dakota slowed considerably in 2012 and 2013. During 2014 the State experienced an increase of 11%, a notable increase as compared to past years. A portion of this revenue is shared with political subdivisions and helps to increase our General Fund revenues from State aid collections.

Fargo's locally imposed sales taxes exceeded last year's level slightly. Local sales tax collections reported in 2014 totaled \$48.3 million, up from \$47.1 in 2013, a 2.5% increase. Regardless of our economic conditions experienced in the past, Fargo has never experienced a negative growth rate for this revenue source. This reflects the strength of our regional economic conditions.

MAJOR INITIATIVES FOR THE YEAR

Fargo Moorhead Diversion Channel Project

The Army Corp of Engineers has been studying various alternative flood protection projects for the Fargo-Moorhead area for the past two years. They have recommended a large flood diversion channel that will redirect and lower record river flood levels significantly. The estimated current project cost is \$1.8 billion. This will be funded by various Federal, State and local stakeholders.

In October of 2012 a record of decision was approved by the Chief of the Army Corp of Engineers. This critical step recognized the feasibility, final review, and concurrence to include this project on the Federal Government's approved projects listing.

This project was included in the 2013 Water Resources Development Act Bill and has been approved by the U.S. Senate and the House of Representatives. The construction project will take about eight to ten years to construct subject to funds being appropriated in a timely manner.

Funding has been secured for the State and local share of this project. The project design continued during the year and much of the overall project design has been completed. The appropriation of Federal funds and completion of the Minnesota environmental impact study will trigger the commencement of construction.

Work continued in 2014 on securing Federal and State funding for this project. Local officials and our congressional delegation from North Dakota and Minnesota are working together to help formulate plans for a public private partnership pilot project (PPP) as a way to provide long term funding of this project. This process will continue into 2015 with the goal of identifying a solution in 2016 or 2017.

Flood Levee Construction Continues

Flood levees are being constructed or enhanced along the Red River corridor. These levees require removal of existing homes and construction of levees or flood walls along the river. A five year capital improvement plan has been approved for work in various neighborhoods where flood control levees are needed. 2014 is the fourth year of this strategic plan. The City Engineering Department reported on the status of our accomplishments in local flood control projects. We have completed about 50% of the required work needed construct and connect our levee system to provide citywide protection. Additional funding was sought by City officials from the State of North Dakota and an additional \$100 million has been appropriated to help us achieve this goal.

Status of Municipal Building Projects in Progress

The City is currently working on three new municipal building projects. The first project is the acquisition and remodeling of a large retail facility which has been vacant for several years into the new home for Fargo Cass Public Health. The building was purchased in 2012 and final design work was completed in 2013. Bids were awarded in 2013 and final construction will be complete by July 1, 2015. The total project costs anticipated for this work is \$11.7 million. It is being funded by a combination of pay as we go financing from the General Fund and short term financing.

The second project is the design and construction of a new City Hall. The existing City Hall was built in 1960 and is not meeting the needs of our growing community. It will be demolished once the new facility is constructed. Design work was completed in 2014 and construction bids will be solicited in early 2015. Subsequent to year end project bids were tabulated and the cost of the facility was \$31 million, significantly higher than anticipated. Bids have been rejected and a formal review of design elements is ongoing with the goal of rebidding the project during 2015 with an expected cost of \$27 million.

The third project is the expansion of our water treatment plant to accommodate future growth and demands for water. The project will incorporate advanced water treatment technologies due to changing water quality conditions on the Sheyenne River as a result of discharges from Devils Lake. In addition advanced water treatment technologies, the project will also increase the City's overall treatment capacity from 30 million gallons per day (MGD) to 45 MGD. Construction is expected to begin in June of 2015 and will take three years to complete.

Future Building Projects Currently Being Evaluated

The City Commission has approved study of the feasibility of constructing a convention center as well as the repurposing of the existing Civic Center into a performing arts center or other multi-purpose functions. These planning efforts will continue during 2015.

Strategic Planning and Long Term Capital Improvement Plans

Strategic planning efforts are ongoing for various City functions and the development of long term capital improvement plans have been formally adopted for municipal utility infrastructure projects over a twenty year planning horizon, flood control projects and Departmental capital needs for a five year timeframe. Major infrastructure projects are funded with a variety of sources, however, the major resources available are from sales tax and special assessment revenues.

AWARDS AND ACKNOWLEDGEMENTS

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Fargo for its comprehensive annual financial report for the fiscal year ended December 31, 2013. This will be the seventeenth consecutive award received since submission to this voluntary quality review program. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation of this Comprehensive Annual Financial Report could not have been accomplished without the dedicated services of our entire staff. The staff members who were responsible for the achievement of this goal include:

Jenica Flanagan, Accounting Manager
Jamie Bullock, Grant Accountant
Jessica Houim, Accountant
Megan Brandt, Financial Analyst
Sheree Calkins, Accounting Supervisor

Finally, I would like to express my appreciation to the members of the City Commission, the Mayor, City Administrator, Cabinet members and City staff for operating the City in a professional and progressive manner.

Respectfully submitted,

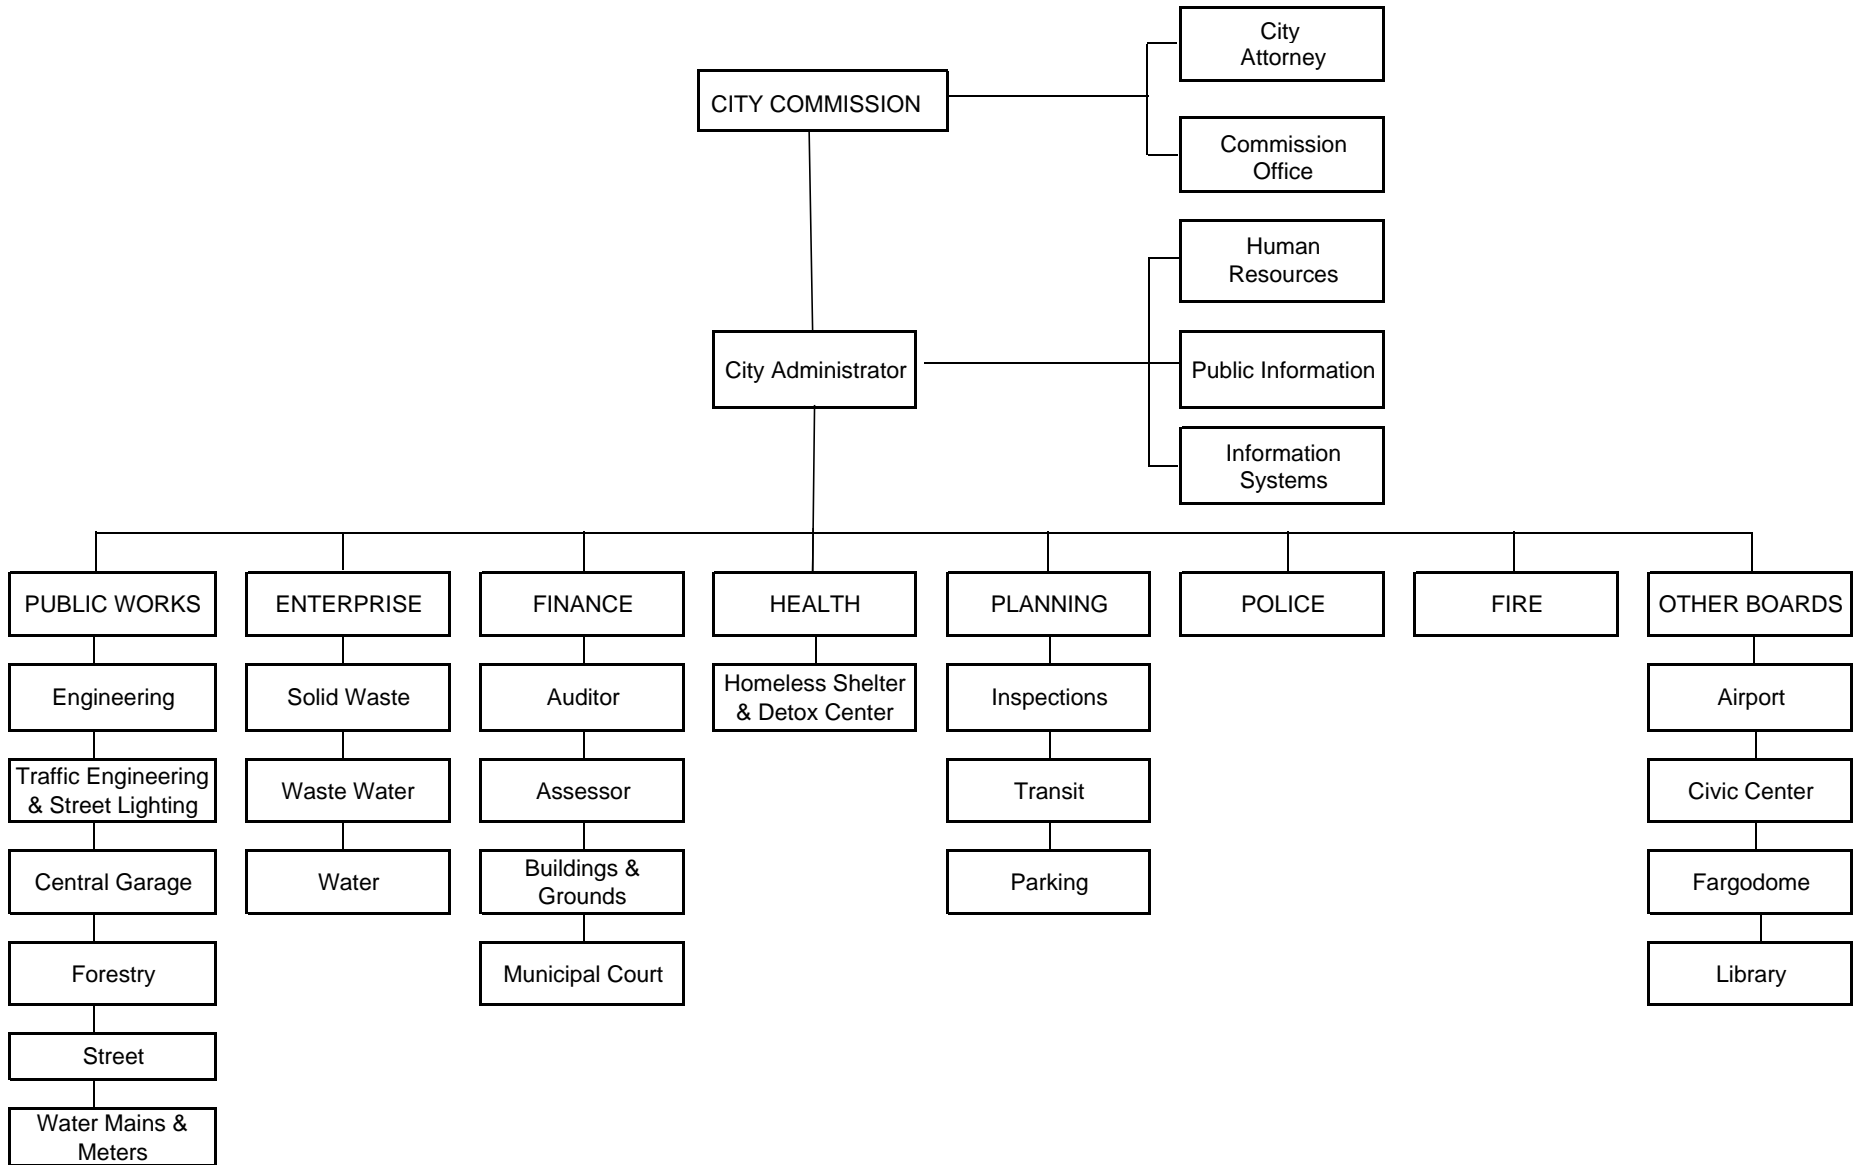

Kent A. Costin
Director of Finance

Executive Director/CEO

Independent Auditor's Report

The Honorable Mayor
and Members of City Commission
City of Fargo, North Dakota
Fargo, North Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fargo, North Dakota (the City), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Restatement

As discussed in Note 4K to the financial statements, certain errors resulting in the understatement of intergovernmental revenues and receivables as of December 31, 2013 and an overstatement of long-term liabilities as of December 31, 2013, were discovered during the current year. Accordingly, an adjustment has been made to fund balance and net position as of January 1, 2014, to correct the errors. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements. The introductory section, combining and individual fund statements and schedules, capital assets used in the operation of governmental funds, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, capital assets used in the operation of governmental funds, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated June 29, 2015 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

The image shows a handwritten signature in black ink that reads "Eide Sallee LLP". The signature is written in a cursive, flowing style.

City of Fargo, North Dakota

Management's Discussion and Analysis

As management of the City of Fargo, we offer readers of the City of Fargo's financial statements this narrative overview and analysis of the financial activities of the City of Fargo for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages III - VI of this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

The assets of the City of Fargo exceeded its liabilities at the close of the most recent fiscal year by \$971,333 (net position).

As of the close of the current fiscal year, the City of Fargo's governmental funds reported combined ending fund balances of \$171,730 an increase of \$43,698 in comparison with the prior year. The increase in fund balance is explained in subsequent sections of this analysis.

The City's unassigned General Fund balance of 32% of the total General Fund expenditures exceeds our management goal of 25%. Increases have been generated by stronger than anticipated economic conditions, especially building activities and demand for new housing sub-developments.

Fargo experienced a record level of building permits issued in 2014. The total value of building permits issued was \$1.012 billion which is an all time record for our community. This record total includes a new hospital valued at \$500 million constructed by Sanford Hospital near Interstate 94.

The City expended \$37.7 million on flood control projects in 2014 which is the continuation of a long term plan to protect our community from ongoing flood risk from the Red River. City Engineers reset our target date for completion of our in-town levee system in 2018. Additional funding has been requested from the State of North Dakota to help us achieve this goal on a timely basis. Subsequent to year end the Legislature appropriated \$100 million for Fargo flood control projects and continued funding for the FM Diversion project with an additional \$69 million in appropriations. Flood risk mitigation projects continue to be one of the highest priorities for our community.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City of Fargo's basic financial statements. The City of Fargo's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Fargo's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City of Fargo's assets, deferred outflow of resources, liabilities and deferred inflow of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Fargo is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Fargo that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Fargo include general

government, public safety, public works, public health and welfare, recreation & culture, urban redevelopment, public transportation, and general support. The business-type activities of the City of Fargo include a Municipal Airport, Water, Wastewater, Storm Sewer, Solid Waste collection and landfill, Southeast Cass Sewer, Urban Forestry, Vector Control, Street Lighting and the FargoDome, a multi-use facility.

The government-wide financial statements can be found on pages 14 and 15 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Fargo, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Fargo can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Fargo maintains twenty one individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, and the capital projects fund, which are all considered as major funds. Data from the other eighteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Fargo adopts an annual appropriated budget for its governmental funds, except for capital projects funds. A budgetary comparison statement has been provided for all of these funds to demonstrate compliance with the approved budget.

The basic governmental fund financial statements can be found on pages 16 - 19 of this report.

Proprietary funds

The City of Fargo maintains ten different proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Fargo uses enterprise funds to account for its Municipal Airport, Water, Wastewater, Storm Sewer, Vector Control, Solid Waste, Southeast Cass Sewer, Forestry, Street Lighting and FargoDome activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Municipal Airport, Water, Wastewater, Storm Sewer, Solid Waste, and FargoDome activities which are considered to be major funds of the City of Fargo. Data from the other four enterprise funds are combined into a single, aggregated presentation, with individual data available elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 22 - 24 of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City of Fargo's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 28 and 29 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31 – 91 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Fargo's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 67 - 88 of this report.

The combining statements referred to earlier in connection with non-major governmental funds is presented immediately following the notes to the financial statements. Combining statements and schedules can be found on pages 95 - 105 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Fargo, assets exceeded liabilities by \$971,333 at the close of the most recent fiscal year.

By far the largest portion of the City of Fargo's net position (81%) reflects its net investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment); less any related outstanding debt used to acquire those assets. The City of Fargo uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Fargo's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following two tables present condensed financial information on the City's Net Position and Changes in Net Position for the fiscal year ending December 31, 2014 and 2013. During the year, the City made an entry to record highway tax payments applicable to the year ended December 31, 2013, which required the restatement of prior year net position. These changes are reflected in the changes in net position found later in this discussion. Further information on this restatement can also be found in Note 4.K. of this report.

Governmental activities

The governmental activities' net position increased by \$15,674 during the current fiscal year.

We experienced increases in charges for services of \$5,442 and capital grants and contributions of \$6,939. The charges for services increase is the result of an increase in capital project administrative revenue, which was due to a large volume and demand for infrastructure in new developments. Prepayment of special assessments is the factor that lead to the increase in the capital grants and contributions revenue.

Overall, expenses in the governmental activities remained constant, noting only a slight increase in spending.

Business type activities.

Business-type activities increased the City of Fargo's net position by \$34,148. There were no notable changes in our business activities in 2014. Rates remained stable for all utility funds with the exception of the Wastewater Utility where rates were decreased and also Solid Waste where an increase in tipping fees was approved.

The FargoDome permanent capital escrow fund grew by \$2 million. This restricted resource now totals \$40.6 million.

Financial Analysis of the Government's Funds

As noted earlier, the City of Fargo uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds.

The focus of the City of Fargo's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Fargo's financing requirements. In particular, unassigned fund balance serves as a useful measure of a government's net resources available for spending during the fiscal year.

As of the end of the current fiscal year, the City of Fargo's governmental funds reported combined ending fund balances of \$171,730, an increase of \$43,698 in comparison with the prior year.

The General Fund is the chief operating fund of the City of Fargo. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$25,881 while total fund balance reached \$37,230. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 32% percent of total general fund expenditures, while total fund balance represents 46% percent of that same amount. Managements fund balance goal of 25% has been achieved for this fiscal year. This fund balance level represents an increase of \$3,452 during the year due an increase in capital project administrative revenue for infrastructure demand in new developments and also a record year in building permit revenue. The remainder of fund balance is assigned (\$2,064, 6 percent), committed (\$3,274, 9 percent), restricted (\$2,933, 8 percent) or nonspendable (\$3,078, 8 percent).

Overall General Fund revenues increased by 4%. As mentioned in the transmittal letter, 2014 was a record setting year for building permits. Licenses and permits revenue increased by \$3,552, or 97%. Charges for services increased by 13% in conjunction with capital project levels of spending with an increased demand for infrastructure in new developments.

Total General Fund expenditures increased by 5%. All functional categories of spending were below budget with the exception of general government, general support, and recreation and culture. The most significant budget savings are related to the timing of capital outlay funding which lagged budget levels by \$2,543. Capital funds will be carried forward into the 2015 budget.

The debt service fund has a total fund balance of \$61,095, all of which is restricted for the payment of future debt service. The net decrease in fund balance during the current year was \$41,780. The capital projects fund had a net increase in fund balance of \$80,088. This increase is due to the issuance of debt proceeds to finance upcoming flood control projects and infrastructure for new developments. In 2014, there was a record level of special assessment prepayments received that totaled approximately \$9 million.

Capital project expenditures increased by 22% in 2014 due to a continuing aggressive housing acquisition program for flood control projects and continued expansion of our new housing sub developments. The City has been experiencing strong demand for housing with many new projects slated for 2015.

Proprietary funds

The City of Fargo's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the proprietary funds at the end of the year amounted to \$36,695. All individual proprietary funds reported increases in net position.

Operating revenues of this fund group increased by 3%, while the operating expenses increased by 2%. Solid Waste revenues increased by 10% due to an approved increase in tipping fees. The Fargodome also experienced an 18% increase in revenue due to a strong concert year with record attendance.

General Fund Budgetary Highlights

Significant variances between original and final budget are noted as follows:

General Fund revenue projections exceeded the originally adopted by 10% and 6% of the revised budget. Changes were made to our revenue projections mid-year due to stronger than anticipated building and construction demand which impacted licenses and permits revenue. State intergovernmental revenues continue to grow as a result of the State's robust economy. The City has been following a budget strategy to appropriate surplus revenues to fund municipal building projects over the past two years from the growth in State resources shared with political subdivisions.

Noted variances between final budget and actual are as follows:

Overall General Fund expenditures were incurred at 95% of final budget, a variance similar to the prior year.

Capital outlay expenditures lagged budget by \$2,543 resulting due to the project timelines for various capital projects. Unexpended funds will be carried forward into the 2015 budget.

Capital Asset and Debt Administration

Capital Assets. The City of Fargo's investment in capital assets for its governmental and business type activities as of December 31, 2014 amounts to \$991,806 (net of accumulated depreciation). This investment in capital assets includes land, intangibles, construction in progress, buildings, improvements, machinery and equipment, infrastructure, and flood control projects.

Major capital asset events during the current fiscal year included the following:

Approximately \$38 million was expended on flood control projects infrastructure.

As mentioned in the transmittal letter, there were also a number of municipal building projects in progress during 2014. \$4.3 million was expended on the acquisition and remodeling of the new facility for the Fargo Cass Public Health department. \$1.2 million was expended on the new City Hall project and \$3.3 was expended on the expansion of the water treatment plant.

Additional information on the City of Fargo's capital assets can be found in Note 4. C. of this report.

Long Term Debt.

At the end of the current fiscal year, the City of Fargo had total bonded debt and notes outstanding of \$519,608. Of this amount, \$332,360 is special assessment debt (improvement bonds) for which the government is liable in the event of default by the property owners subject to the assessment. The remainder of the City of Fargo's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The City of Fargo's total outstanding debt increased by \$60 million during the current fiscal year. This increase can be associated with the need to finance ongoing capital project funding and expansion of the City's utility infrastructure.

During the current fiscal year, the City issued debt as detailed below:

The City issued a \$6,000 direct bank loan, Series 2014A to finance the expansion and relocation of the Fargo Cass Public Health department and the Red River Regional Dispatch Center project. The interest rate on this loan was 1.74% as of December 31, 2014.

The City issued \$32,512 Capital Financing Program Bonds, Series 2014B to finance the construction and installation of flood mitigation projects. These bonds were sold with a true interest cost of 3.23%

The City issued a \$3,000 direct bank loan, Series 2014C to finance the solid waste baling facility project. The interest rate on this loan was 0.83% as of December 31, 2014.

The City issued \$52,400 Refunding Improvement Bonds, Series 2014D at a true interest cost of 3.52%. These bonds were issued to reimburse the capital project fund for project costs previously incurred and to advance refunding the Series 2005A Refunding Improvement Bonds.

The City issued \$19,440 Refunding Improvement Bonds, Series 2014E at a true interest cost of 3%. These bonds were issued as a current refunding of the Series 2010B Refunding Improvement Bonds.

The City issued \$40,445 Refunding Improvement Bonds, Series 2014F at a true interest cost of 3.58%. These bonds were issued to reimburse the capital project fund for project costs previously incurred.

The City issued \$8,355 Taxable Refunding Improvement Bonds, Series 2014G at a true interest cost of 3.88%. These bonds were issued to reimburse the capital project fund for project costs previously incurred.

The City continues to use the North Dakota State Revolving Loan funds to finance some of its water and wastewater projects.

The City of Fargo maintained an "Aa1" rating from Moody's Investors Service for general obligation debt.

Additional information on the City of Fargo's long-term debt can be found in Note 4. G. of this report.

Economic Factors and Next Year's Budgets and Rates

Falling oil prices have impacted our State-wide economic conditions. During the 2015-2017 Legislative Session it was noted that this impact could be as much as a 10% decline. Subsequent reports from the Office of the State Tax Commissioner for the most recent quarter are still showing growth, however, the growth in sales tax collections is slowed considerably. This may have a negative impact our State aid revenues to be received in 2015 and 2016.

The 2015 approved budget contained an increase of 5.8% in our General Fund. Budgets were increased for capital outlay spending by 10.7% which contributed to the overall General Fund increase. Funds appropriated for operational costs increased by 4.9%.

Fuel prices have declined significantly since our 2015 budget was approved. Budgets have been revised to reflect lower prices which resulted in a General Fund savings of approximately \$700k.

There were no utility fund rate increases approved in the 2015 budget.

Requests for information

This financial report is designed to provide a general overview of the City of Fargo's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, 200 3rd Street North, City of Fargo, ND, 58102 or visit the City's web site at www.cityoffargo.com. The entire report is presented in the City information section.

CITY OF FARGO, NORTH DAKOTA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2014

Amounts reported for governmental activities in the statement of activities (page 15) are different because:

Net change in fund balances - total governmental funds (page 18)	\$	43,698,345
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		64,858,930
Capital assets transferred to enterprise funds		(33,150,232)
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins, and donations) is to decrease net position.		(66,595)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		14,654,114
The issuance of long-term debt (i.e. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of, premiums, discounts, and deferred amounts on refundings when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		(75,869,926)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		1,549,576
Change in net position of governmental activities (page 15)	<u>\$</u>	<u>15,674,212</u>

The notes to the financial statements are an integral part of this statement.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Fargo operates under a "mayor-commission" form of government under the Home Rule Charter. The accounting policies of the City, as reflected in the accompanying financial statements, conform to generally accepted accounting principles for local government units.

The following is a summary of the City's significant accounting policies:

A. BASIS OF PRESENTATION

The financial statements of the City have been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The GASB is the standard-setting board for governmental accounting and financial reporting.

The Governmental Accounting Standards Board (GASB) has issued the following statements not yet implemented by the City.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, establishes accounting and financial reporting requirements related to pension for governments whose employees are provided with pension through pension plans that are covered by the scope of this Statement, as well as for nonemployer governments that have a legal obligation to contribute to those plans. This statement establishes a definition of a pension plan that reflects the primary activities associated with the pension arrangement – Determining pensions, accumulating and managing assets dedicated for pensions, and paying benefits to plan members as they come due. This Statement will be implemented by the City in the year ending December 21, 2015.

GASB Statement No. 72, *Fair Value Measurement and Application*, will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement will also enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. This statement will be implemented by the City in the year ended December 31, 2016.

Management has not yet determined the effect these statements will have on the entity's financial statements.

B. REPORTING ENTITY

The City is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Additionally, the City is not included in any other governmental reporting entity.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

The accompanying financial statements present the City and its component units. Blended component units are entities which are legally separate from the City but which are so intertwined with the City that they are, in substance, the same as the City. Discretely presented component units are entities for which the City is considered to be financially accountable or for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete.

Blended Component Unit

The City of Fargo Building Authority, a non-profit corporation, was formed for the purpose of providing funds to finance improvements on City property and for leasing property from the City. The directors of the Authority are made up of the City's Board of Commissioners, as well as the City Administrator and City Finance Director. The activity of the Authority is being reported as a blended component unit within the activities of the primary government. There are no separately issued statements for this component unit.

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The goal of government-wide financial statements is to present a broad overview of a government's finances. The basic statements that form the government-wide financial statements are the statement of net position and the statement of activities. These two statements report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally financed through taxes and intergovernmental revenues, are reported separately from business-type activities, which are normally financed through user fees and charges for goods or services.

The statement of activities reports gross direct expenses by function reduced by program revenues. This results in a measurement of net revenue or expense for each of the government's activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are directly associated with the function or business-type activity and include 1) charges for services and 2) operating or capital grants and contributions that are restricted to a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are prepared for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide, proprietary fund, and fiduciary pension trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Although agency funds have no measurement focus, they also use the accrual basis of accounting to recognize receivables and payables.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, special assessments (both certified and uncertified), intergovernmental revenue, permits, charges for services, pledges and investment income associated with the current fiscal period are the major revenues that are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent they are collected in 60 days. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

General Fund – The general fund is the general operating fund of the City. All financial resources of the general government that are not required to be reported in another fund are accounted for in the general fund.

Debt Service Fund – The debt service fund is used to account for the accumulation of resources for and the payment of general long-term debt principal and interest.

Capital Projects Fund – The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets other than those financed directly by proprietary funds. Major capital facilities include infrastructure such as streets, sidewalks, street lighting, paving, sanitary storm sewers, water mains, sewer lines, flood control and other projects.

The City reports the following major proprietary funds:

Airport – This fund accounts for the operations and construction activities of the Hector International Airport.

Water – This fund accounts for the activities (revenues, operating and capital expenses) of the City's water system. The City receives user fee revenues derived from sale of water and other related services to the general public.

Wastewater – This fund accounts for the activities (revenues, operating and capital expenses) of the City's wastewater (sewer) disposal system. The City receives user fee revenues derived from providing sanitary sewer services to the public.

Storm Sewer – This fund accounts for the activities (revenues, operating and capital expenses) of the City's storm sewer system. The City receives user fee revenues derived from providing storm sewer services to the public.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Solid Waste – This fund accounts for the activities (revenues, operating and capital expenses) of the City's garbage utility. The City receives user fee revenues derived from providing garbage services to the public and operating a regional landfill.

FargoDome – This fund accounts for the operation of the FargoDome which is a multi-purpose regional event center that was constructed in 1989 and is used for conventions, sporting events, trade shows, concerts and other programs. The FargoDome has a maximum seating capacity of 28,000 and is currently operated under a management contract with Global Spectrum, Inc.

In addition, the City reports for the following fund types:

Pension Trust Funds – Pension trust funds are used to account for the activities of the City Employees' Pension Plan and the Police Pension Plan, which accumulates resources for pension benefit payments.

Agency Funds – Agency funds are used to account for assets held by the City as agent for other individuals, organizations, or governmental units. The City has four agency funds, the Performance Deposits fund, the Park District Special Assessments fund, the Red River Regional Dispatch Center fund, and the Metro Flood Diversion Authority.

As a general rule, the City has eliminated the effect of interfund activity from the government-wide financial statements. Exceptions to this rule are when various charges exist between different functions of the government (i.e. water and sewer charges to other various functions of the City). Elimination of these charges would distort direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include the following: amounts received from those who purchase, use or directly benefit from a program; amounts received from parties outside the City that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific program. Revenues that do not meet the previous criteria are reported as general revenues, including all taxes.

Proprietary funds report operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

E. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY

1. Equity in Pooled Investments, Cash and Investments

The City maintains investment pools used by the funds. Each fund's portion of the pool is displayed on the statements as "Equity in Pooled Investments." Interest income on such investments is allocated to certain funds on the basis of the participating funds balance in the cash and investments pool. In addition, investments are separately held by various funds. Three of the investment pools used by the City are managed by the PFM Financial Advisors Group.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Investments are reported at fair value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties. Cash and cash equivalents, for the purposes of GASB Statement No. 9 include cash, demand deposits, and certificates of deposit with a maturity of less than three months at the time of purchase.

2. Receivables and Payables

All outstanding balances between funds are reported as “due to/from other funds” (current portion) or “advances to/from other funds” (non-current portion). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

Advances between funds, as reported in the fund financial statements, are offset by “nonspendable: fund balance in the applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

The City is permitted under provisions of the Home Rule Charter to levy taxes as needed for general governmental services and payment of principal and interest on long-term debt. The current Home Rule Charter maximum mill levy is sixty-four mills. Total mills levied for 2014 were fifty-seven and one-quarter.

All real estate is assessed on current value as of February 1 of each year. Property taxes are attached as an enforceable lien on the real estate and become due on January 1 of the year following the assessment date. A 5% reduction of taxes is allowed if taxes are paid in full by February 15. To avoid being delinquent, one-half of taxes due must be paid by March 1 and the remaining balance paid by October 15.

Taxes are collected by the County and remitted monthly to the City no later than the 10th working day following the month of collection.

3. Inventories and Prepaid Items

Depending upon the nature of the item, inventories for both governmental and business-type funds are valued at the lower of cost or market using either first-in-first-out or weighted average. The cost of inventory is recognized as an expense in both the fund and the government-wide financial statements when used (consumption method). Reported inventories of governmental funds are offset by “nonspendable” fund balance to indicate they are not available for appropriation and are not expendable available financial resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Certain proceeds of the City’s enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. Resources have been set aside for capital repair and upkeep of the FargoDome, as directed by Section 3-1509 of the Municipal Code.

5. Capital Assets

Capital assets, which include property, plant, equipment, intangible, and infrastructure assets (e.g., roads, bridges, sidewalks, flood control, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost equal to or greater than \$5,000, except for infrastructure networks which are capitalized in their entirety. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Intangible assets consist of water rights and right-of-way easements. The water rights were purchased from Cass Rural Water Users. Both the water rights and right-of-way easement assets are considered to have an indefinite useful life as there are no legal, contractual, regulatory, technological, or other factors that limit the useful life of the assets and therefore the assets are not amortized.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized.

Property, plant and equipment of the government is depreciated using the straight line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings	10 – 50
Improvements other than buildings	10 – 20
Infrastructure/Flood Control	20 – 100
Vehicles	3 – 10
Equipment	5 – 10
Office equipment	5 – 10
Computer equipment	3 – 5

6. Compensated Absences

It is the City’s policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Employees vest in sick leave accumulated in excess of 960 hours, which is paid out at 44.4% of their normal pay in December of every year. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts (other than the vested amounts paid out annually) when employees separate from service. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. In the governmental funds, a liability would be reported only if they have matured, for example, as a result of employee retirements or resignations. The entire portion of accumulated unpaid vacation is considered short term for the reason that historically, unpaid vacation is utilized within one year either through vacation payouts when employees terminate their service with the City or with the use of annual leave throughout the year.

7. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds on a straight-line basis over the term of the related issue. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

8. Net Position/Fund Balance

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the City's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt attributable to the acquisition, construction, or improvement of those assets. Restricted net position consists of restricted assets reduced by liabilities related to those assets. Unrestricted net position is the net amount of assets and liabilities that are not included in the determination of net investment in capital assets or the restricted component of net position.

Fund balances are classified based on the spending constraints placed upon them. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (i.e. City Commission). To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same, or higher, level action to remove or change the constraint.
- Assigned fund balance – amounts the City intends to use for a specific purpose. Intent can be expressed by the City Commission or by an official or body to which the City Commission delegates the authority.
- Unassigned fund balance - amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The City Commission establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance. An ordinance is the highest level of authority and requires another ordinance to modify or rescind.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Assigned fund balance is established by the City Commission through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital outlay, project construction, debt service, or other purposes).

The City's first priority is to utilize the restricted fund balance. Committed funds will be considered second with assigned fund balance third when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications are eligible to be used.

The Board of City Commissioners has adopted, through policy, a formal revenue stabilization arrangement. The primary funding source for this arrangement is surplus revenues generated by the General fund. The funding status and sufficiency of this arrangement is to be evaluated annually during the budget development process. As defined in the policy establishing this commitment, the specific uses are listed as overall decline of economically sensitive revenues over at least one fiscal period as incorporated into the City's annual budget revenue projections, (or) need for emergency funds as declared by the Mayor for the local share funding of any major natural disaster event.

In the General Fund, the City strives to maintain an unassigned fund balance to be used for cash flow and unanticipated expenditures of approximately 25 percent of the total current year general fund expenditures.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government – wide statement of net position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$520,355,095 difference are as follows:

Bonds payable	\$ 416,787,000
Notes payable	72,962,978
Capital leases	231,179
December 31, 2014 long-term debt outstanding	<u>\$ 489,981,157</u>
Accrued interest payable	2,830,785
Bond premium	21,522,491
Accumulated unpaid vacation	3,340,449
Bond discount and bond insurance	(89,886)
Net pension obligation liability	<u>2,770,099</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	<u><u>\$ 520,355,095</u></u>

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$64,858,930 difference are as follows:

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Capital Outlay	\$ 79,884,239
Plus: assets transferred in from enterprise funds	40,049
Plus: prior year construction in progress added as asset in current year	752,028
Capital asset increases per footnote 4.C	\$ 80,676,316
Less: assets transferred in from enterprise funds	(40,049)
Less: prior year construction in progress added as asset in current year	(752,028)
Depreciation expense	(15,025,309)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ 64,858,930</u>

Another element of that reconciliation states that “The issuance of long-term debt (i.e. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and deferred amounts on refundings when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.” The details of this \$75,869,926 difference are as follows:

Bonded debt issued	\$ (153,152,000)
Premium on bonded debt issued	(13,463,660)
Bonded debt principal payments	95,065,036
Capital lease proceeds	(244,935)
Capital lease payment	179,435
Loan proceeds	(9,286,885)
Loan payments	5,033,083
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ (75,869,926)</u>

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$1,549,576 are as follows:

Compensated absences	\$ 41,616
Accrued interest	(10,269)
Amortization of bond discounts and bond insurance	(271,819)
Amortization of bond premium	1,056,586
Net pension obligation adjustment	733,462
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ 1,549,576</u>

3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the governmental funds classified as the general fund, special revenue funds, and the debt service fund. No budgets are prepared for capital projects funds.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. According to City charter, the Mayor submits a proposed budget each August to the City Commission. At that time, the City Commission makes any changes they deem necessary to this proposed budget.
2. The preliminary budget must be adopted by September 10.
3. Public hearings are conducted to obtain taxpayer comments.
4. The budget is legally enacted through the passage of a budget ordinance no later than October 7.
5. Budgets are adopted for the general, special revenue, and debt service.
6. The legal level of budgetary control is at the fund level. The Finance Director may approve transfers of budgeted amounts between departments within a given fund. Any transfers of budgeted amounts and any revisions that alter the total expenditures of any fund must be approved by the City Commission.
7. Formal budgetary integration is employed as a management control device during the period for the general fund, special revenue funds and the debt service fund at the fund level. Any expenditures in excess of current year's budget must be approved by the Finance Committee and the City Commission. Supplemental appropriations granted for the 2014 year include \$550,419 for the General Fund.
8. Appropriations lapse at year-end.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration of all funds. Encumbrances outstanding at year-end do not constitute expenditures or liabilities. Authority to complete year-end encumbrances for the general fund may be granted by amending the subsequent year's budget. General Fund Budget revisions approved for open encumbrances totaled \$1,542,711 for the year ended December 31, 2014.

**CITY OF FARGO, NORTH DAKOTA
 NOTES TO FINANCIAL STATEMENTS
 DECEMBER 31, 2014**

B. EXCESS OF EXPENDITURES OVER BUDGET

Expenditures exceeded budget in the following funds by the following amounts:

Special Revenue Funds		
Downtown Business Improvement District	\$	79,689
Regional Training Center		40,954
Court Forfeits		23,014
Skyway Maintenance		12,573
Baseball Stadium		130,836
HUD Home Participating Jurisdiction		78,851
HUD Home Program		6,450
NRI Loan Program		1,960
Convention and Visitors Bureau		308,873
Debt Service Fund	\$	447,024

No remedial action is anticipated or required by the City regarding these excess expenditures.

C. NET POSITION/FUND BALANCE DEFICITS

Governmental Funds		
Special Revenue Funds		
Emergency 911	20,931	This deficit will be eliminated by budget appropriations.
Baseball Stadium	1,222,823	This deficit is due to a capital projects fund being closed out and set up as special revenue fund. The deficit will be recovered by future suite lease fees over the next several years.

D. NET POSITION RESTRICTED BY ENABLING LEGISLATION

The government-wide statement of net position reports \$132,311,594 of restricted net position, of which \$46,935,863 is restricted by enabling legislation.

4. DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

Deposits - In accordance with North Dakota Century Code, the City maintains deposits at those depository banks and brokerages authorized by the City Commission, all of which are covered by Federal Depository Insurance or Securities Investor Protection. Century Code requires that all City deposits be protected by insurance, collateral or surety bond. The market value of the collateral pledged must be equal to or greater than 110% of the deposits not covered by insurance or bonds. As of December 31, 2014, the carrying amount of the City's deposits was \$46,099,855 and the bank balance was \$49,644,238. As noted above, the bank balance is covered by Federal Depository Insurance or Securities Investor Protection.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Per the City's investment policy, custodial credit risk will be minimized by using the following techniques; limiting investments to the safest type of securities, pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the City will do business; and diversifying the investment portfolio so that potential losses on individual securities will be minimized. As of December 31, 2014, the City's deposits were either fully insured or properly collateralized, were held in the City's name, and have no custodial credit risk.

Investments – The City maintains pooled cash portfolios used by substantially all City funds, excluding the investment of employees' retirement funds, using the pooled deposit and investment concept. These pools are governed by an investment policy established by the City Commission.

Investment policy: The City has an adopted investment policy, conforming with federal, state, and other legal requirements, including the City of Fargo Home Rule Charter, specifically Article 3.B – Powers of the City. This policy sets forth the City's investment objectives as well as authorized and suitable deposits and investments, and serves as a guide to proper diversification, maturity constraints, internal controls, and performance measurement. The foremost objective of the City's investment program as set forth by the investment policy is safety of principal. Investment decisions are made under the assumption that, except under limited circumstances, all investments within the pooled portfolios will be held to maturity.

Allowable deposits and investment include:

- a. Direct obligations of the United States of America
- b. Debt securities issued by government sponsored enterprises (GSE's), federal agencies, and federal financing banks.
- c. Direct obligations of the state of North Dakota
- d. Commercial paper
- e. Bankers' acceptances
- f. Negotiable certificates of deposit
- g. Certificate of deposit and time deposits
- h. Obligations or notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States
- i. Investments in money-market funds

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

- k. Asset-backed securities (ABS) rated a minimum of AA long-term or A-1 short-term, or its equivalent, from any nationally recognized statistical rating organization (NRSRO). Pension funds may purchase any investments authorized by the Pension Boards.

The North Dakota Retirement and Investment Office (NDRIO) manages the FargoDome capital escrow investments and a portion of the City Employees' Pension Fund, which the City reports as an external investment pool. The investment pool is not registered with the SEC and is regulated by the North Dakota Century Code. The fair market value of the investment pool is the same as the value of the pooled investment shares. More information on the NDRIO can be found in their financial reports at <http://www.state.nd.us/rio/SIB/Publications/default.htm>.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The chart below summarizes the City's investments using segmented time distribution. The City's investment policy, limits investing funds primarily in short- and intermediate-term liquid securities of high credit quality to ensure adequate liquidity and minimize the impact of changes in interest rates. Portfolios are structured so that securities mature concurrent with cash needs to meet anticipated demands.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As outlined above, city policy limits the type of investments allowed to reduce the amount of credit risk to the portfolio. The chart below summarizes the credit quality of the City's investment holdings.

Investment Type	Credit Rating	Fair Value	Investment Maturities (in years)				
			Not Applicable	< 1	1 - 5	> 5 - 10	> 10

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City's investment policy diversifies the portfolios by limiting investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities). Investments in a single issuer shall not exceed 5% of the City's portfolio for any of the following security types in total: commercial paper, corporate obligations or notes, bankers' acceptances, and negotiable CD's. No single issuer exceeded these established limits as of December 31, 2014. On a fund level the Water Enterprise Fund's investment in the City of Fargo Housing Revenue Bonds represents 100% of its non-pooled investments.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The City has investments in foreign currency in the external investment pool with the State Investment Board. Although the State Investment Board does not have a formal investment policy governing foreign currency risk, the board does manage its exposure to fair value loss by requiring their international securities investment managers to maintain diversified portfolios to limit foreign currency and security risk. As of June 30, 2014, the City has the following foreign currency risk exposure on investments.

Currency	All values in \$000			
	Short term	Debt	Equity	Total
Australian dollar	\$ 5	\$ -	\$ 238	\$ 243

B. RECEIVABLES

Loans receivable as of December 31, 2014 were:

	<u>Interest Rate</u>	<u>Maturity Date</u>	<u>Amount</u>
Community Development	3%	8/2/2021	\$ 262,083
Neighborhood Revitalization Initiative (NRI)	2 - 4 %	3/1/15 - 8/1/21	57,715
Neighborhood Revitalization Initiative (NRI)	0%	Due Upon Sale	22,500
HUD HOME	3%	3/1/15 - 2/1/17	1,509,091
HUD HOME	0%	Due Upon Sale	695,000
Total loans receivable			<u>\$ 2,546,389</u>

The NRI loans and HUD HOME (Home Investment Partnership Program) loans are made to encourage investment in housing as a way to stabilize and strengthen Fargo's neighborhoods. Loans are made for renovation of homes already owned, for assistance with buying and renovating a home, and for assistance with low-income housing and other housing-related issues. The HOME loans are funded by the Department of Housing and Urban Development, while the NRI loans are funded by the City.

Of the above loans, \$1,758,140 is considered in non-repayment status. These loans are forgiven upon certain criteria being met, usually relating to maintaining ownership for a certain number of years. However, if the given criteria is not met, payment is required.

D. COMMITMENTS

Construction

As of December 31, 2014, the City had commitments on various construction contracts totaling approximately \$39,753,087.

Municipal Landfill Closure and Post-Closure Care Costs

The City of Fargo operates a municipal solid waste landfill to service the waste disposal needs of the community. The Environmental Protection Agency and the State of North Dakota regulations and guidelines (NDCC 23-29.04) impact the operation of the landfill.

The landfill site design has a total of 17 cells on approximately 116 acres of land. The City has constructed 16 cells to date, which vary in surface area from 4 to 7 acres. The cell depths range up to 30' below existing grade, varying based on their footprint location. Final elevations of cells range from 40' to 80' above existing grade. The cells have been designed with a leachate collection system and each cell is constructed with a composite liner system consisting of a compacted clay subgrade overlain by a 60-mil high-density polyethylene synthetic liner. Once cells have been filled to capacity, final closure can be performed, which involves placement of 4' un-compacted clay soils, in which 4" of yard waste compost is incorporated into the top 12", and 6" of topsoil.

Cells 1 through 14, 16, and 17 are presently constructed and partially filled. Based upon design capacity, the landfill is 65% full (acres), and based upon present utilization rates; the remaining capacity of the landfill is estimated at 7.22 years. The estimated liability for landfill closure and post closure care is \$3,108,093 as of December 31, 2014. The City will recognize the remaining estimated cost of closure and post closure care of \$2,333,193 as the remaining estimated capacity is filled. The estimated total current cost of landfill closure and post closure care is based upon the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of December 31, 2014. However, actual costs may be higher due to inflation, changes in technology, or landfill regulations. The City owns land held for future expansion adjacent to the existing landfill that can provide 50 years of future capacity.

The City is meeting closure and post closure obligations by applying a financial test as specified in North Dakota Administrative Code sections 33-20-14-02 through 33-20-14-07. Because the City is able to meet the financial test, the restriction of cash in a landfill assurance fund is not required.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

E. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivables/payables are used when a fund has a cash deficit, as well as for other amounts owed between funds. The composition of interfund balances as of December 31, 2014, is as follows:

	Receivable	Payable
Water	\$ 364,215	\$ -
Nonmajor governmental	-	364,215
Water	834,281	-
Solid Waste	-	834,281
Interfund totals	<u>\$ 1,198,496</u>	<u>\$ 1,198,496</u>

At December 31, 2014, the inter-fund advance balances are:

	Funds Advanced	Amount Repaid To-Date	Advance Balance December 31, 2014
General fund	\$ 2,298,802	\$ 1,114,105	\$ 1,184,697
Solid waste fund	1,200,000	1,146,770	53,230
Subtotal baseball advances	<u>\$ 3,498,802</u>	<u>\$ 2,260,875</u>	<u>\$ 1,237,927</u>
General fund - parking authority debt defeasance advance	\$ 765,000	\$ 135,000	\$ 630,000
Total advances	<u>\$ 4,263,802</u>	<u>\$ 2,395,875</u>	<u>\$ 1,867,927</u>

Baseball stadium advances will be repaid by future lease revenues generated by the Stadium lease contract with Fargo Baseball, LLC. The terms of the lease agreement provide for collection of lease revenues for private suites and individual seat license fees.

The parking authority debt defeasance advance will be repaid by future parking authority revenue.

Site and Facility Lease

Site Lease

The City of Fargo executed a long-term lease agreement with North Dakota State University (NDSU) for the FargoDome site. NDSU is leasing the FargoDome site to the City, and is in turn leasing forty days use of the facility from the City. The site lease agreement, which runs from January 1990 to December 2089, requires payments of base rent of \$1 per year.

Facility Lease

The FargoDome has executed a lease with North Dakota State University for use of its facility. The terms of the 2012 lease are set to expire on June 30, 2017 with the terms of NDSU having a maximum of fifty days per lease year to rent the FargoDome. Annual rental fees under the new terms are \$161,344. The lease payment terms change annually on July 1, with the rate based off the prior year annual payment, adjusted for the Midwest Urban Consumer Price Index.

Locker Room Rental Agreement

During 2005, an additional lease agreement was entered into with the NDSU Development Foundation. The agreement is for use of approximately 23,461 square feet of its upstairs mezzanine level and lower level locker rooms. The agreement provides for annual rent of \$57,500 due August 1 of each year. In addition to the rent, North Dakota State University will pay annual fixed expenses of \$3,000 for the generator and building depreciation, as well as the variable costs associated with electrical usage and generator operating costs. The lease expires in 2016, however it will automatically renew for up to two additional periods of 10 years each unless North Dakota State University gives the FargoDome six months in advance of the end of any 10-year term their intent to not renew the lease. The annual rent will be increased 5% every ten years during the term of the lease. They also share a percentage of the concession and novelty sales proceeds for NDSU events.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

The asset leased to NDSU is as follows:

	Business-type Activity
Asset:	
Fargodome	\$ 58,256,248
Less: Accumulated depreciation	(28,511,092)
Total	<u>\$ 29,745,156</u>

The future minimum lease payments for these leases are as follows:

2015	\$ 218,844
2016	218,844
2017	80,672
	<u>\$ 518,360</u>

Baseball Stadium Lease

The City of Fargo constructed a baseball stadium in 1996, and as lessor, has leased the stadium to Fargo Baseball, LLC and North Dakota State University under separate lease agreements.

The Fargo Baseball, LLC, as lessee, has leased the stadium for exclusive lease from May 29th of each year through the end of each baseball season. The lessee will pay the City funds raised from private suite and VIP seat licenses. A 30% commission from these revenue sources will be paid to the lessee by the City according to the lease agreement. The lessee retains the exclusive rights to the concession operations during the lease period. The lessee has responsibility for normal maintenance of the stadium and the lessor has responsibility for major structural improvements, maintenance and insurance.

North Dakota State University, as another lessee, has leased the stadium for an exclusive period from March 21st to May 29th of each season. NDSU has exclusive rights to the parking fees and concessions operations. The lease agreement expires in 2089, and is conditioned on the use of the premises as a stadium for professional baseball. After the City has been repaid all the money it advanced for initial construction of the stadium, or twenty years after the beginning date of the lease, whichever occurs first, the lease will automatically terminate if the premises are not used by a professional baseball team for 24 consecutive months, or have not been used for some other mutually agreeable purpose. Upon termination of the lease, the stadium and all fixtures will belong to NDSU with no further compensation due to the City. Because future payments are not known, a schedule of future minimum lease payments is not presented.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

The leased asset is as follows:

	<u>Governmental Activity</u>
Asset:	
Baseball stadium	\$ 5,266,692
Less: Accumulated depreciation	<u>(2,049,258)</u>
Total	<u>\$ 3,217,434</u>

Lease of Rights to Sewer System

The City of Fargo completed installation of a sewer line to a point of connection with the corporate city limits of the City of Oxbow, and as lessor, has leased the rights of the sewer system to the City of Oxbow.

The City of Oxbow, as lessee, has leased the sewer system until 2027 with the lease agreement expiring at this time.

The future minimum lease payments for this lease are as follows:

2015	\$ 45,684
2016	45,684
2017	45,684
2018	45,684
2019	45,684
Thereafter	<u>342,630</u>
	<u>\$ 571,050</u>

Special assessments	6,599,787	607,468	290,434	6,916,821	335,202
Contract payable	428,307	-	365,835	62,472	62,472
Landfill closure/postclosure	3,076,395	31,698	-	3,108,093	-
Accumulated unpaid vacation	700,360	687,070	700,360	687,070	687,070
TOTAL	\$ 43,700,045	\$ 5,081,301	\$ 7,927,998	\$ 40,853,348	\$ 8,686,756

The General Fund has typically been used in prior years to liquidate the bulk of the liability for accumulated unpaid vacation. Smaller amounts have typically been liquidated by Community Development, HUD HOME, HUD HOME Participating Jurisdiction, and Parking Authority Special Revenue Funds.

The General Fund has typically been used in prior years to liquidate the bulk of the liability for the net pension obligations.

The entire portion of accumulated unpaid vacation is considered short term for the reason that historically, unpaid vacation is utilized within one year either through vacation payouts when employees terminated their service with the City or with the use of annual leave throughout the year.

DECEMBER 31, 2014**

BONDS PAYABLE

A summary of bonds payable is shown below. A detailed listing of the individual bond issues is continued at the end of Note G.

	Original Interest Rates	Original Issue Amounts	Balance Remaining
GOVERNMENTAL ACTIVITIES			
Improvement bonds (Special assessment debt)	0.80 - 6.00 %	\$ 372,100,000	\$ 332,360,000
General obligation bonds	2.00 - 4.00%	2,875,000	2,285,000
Sales tax revenue bonds	2.00 - 6.00%	83,887,000	82,142,000
TOTAL		<u><u>\$ 458,862,000</u></u>	<u><u>\$ 416,787,000</u></u>
BUSINESS-TYPE ACTIVITIES			
Water revenue bond	5.25%	\$ 28,065,000	\$ 10,960,000
Clean renewable energy bond	0.85%	1,500,000	700,000
Airport revenue bond	4.00 - 4.25%	7,755,000	5,125,000
TOTAL		<u><u>\$ 37,320,000</u></u>	<u><u>\$ 16,785,000</u></u>

There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

Revenue bonds payable at December 31, 2014, consist of two issues backed and serviced by sales tax, one issue backed and serviced by annual general fund revenue appropriations, and three issues backed and serviced by utility revenues, which include the Water Fund, Solid Waste Fund, and the Airport Authority.

PLEDGED REVENUES

The City has pledged future sales tax revenues, net of specified operating expenses, to repay \$83.887 million in sales tax revenue bonds issued in 2013 and 2014. Proceeds from the bonds were used to finance the construction and installation of flood mitigation projects. Principal and interest paid for the current year was \$10,258,951. Net sales tax revenue totaled \$24,168,140 for the year.

The City has pledged future general fund appropriations to repay \$2.875 million in development bonds issued in 2009. Proceeds from the bond were used to finance the capital and equipment costs related to the construction of a new fire station in southwest Fargo. Principal and interest paid for the current year was \$189,431. Net general fund appropriations totaled \$189,431 for the year.

The City has pledged future water revenues to repay \$28.065 million in revenue bonds issued in 1997. Proceeds from the bond were used to finance construction of a water treatment plant. Principal and interest paid for the current year was \$3,870,400. Net water revenue totaled \$8,851,915 for the year.

The City has pledged future airport revenues to repay \$7.755 million in revenue bonds issued in 2007. Proceeds from the bond were used to finance airport terminal improvements. Principal and interest paid for the current year was \$1,434,255. Net airport revenue totaled \$4,276,989 for the year.

The City has pledged future solid waste byproduct revenues to repay \$1.5 million in clean renewable energy bonds issued in 2007. Proceeds from the bond were used finance improvements to the landfill gas collection system. Principal and interest paid for the current year was \$106,800. Net solid waste byproduct revenue totaled \$316,396 for the year.

Totals	<u>\$ 5,125,000</u>	<u>\$ 555,475</u>	<u>\$ 5,680,475</u>

Special assessment bonds are paid directly from debt service sinking funds. Special assessments are certified annually in amounts sufficient to pay the debt service requirement. Whenever all special assessments appropriated and collected for a special improvement district are insufficient to pay principal and interest then due on the special improvement bonds issued against such improvement district, the City of Fargo is to levy a tax upon all the taxable property in the City for the payment of such deficiency.

The City of Fargo is subject to the North Dakota Century Code, which limits the amount of general obligation indebtedness (exclusive of revenue-producing utility debt, special assessment debt, tax increment debt, and Housing Authority debt) that the City may have outstanding to 5% of assessed valuation. On December 31, 2014, the statutory limit for the City was \$204,011,329 providing a debt margin of \$193,062,299. This calculation can be found in the statistical section of this report.

PREVIOUS YEARS DEFEASANCE OF DEBT

In prior years, the City defeased certain general obligation and other bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust assets and liabilities for the defeased bonds are not included in the City's financial statements. As of December 31, 2014, \$199,800,000 of bonds outstanding are considered to be defeased.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

CONTRACT PAYABLE

The City has agreed to sell treated wastewater to Cass Rural Water Users District, and Cass Rural Water Users District has, in turn, agreed to sell treated wastewater to the Tharaldson Ethanol Plant, LLC for use at its ethanol plant. On July 9, 2007, the LLC, CRWU, and the City entered into a Memorandum of Understanding under which the parties each agreed to perform certain obligations, including the financing, construction, and maintenance of the infrastructure necessary for delivery of treated wastewater and for the return of plant wastewater to and from the ethanol plant. Cass Rural Water Users District financed the project through issuance of bonds, which are payable by both the LLC and the City for its corresponding obligations under the Memorandum of Understanding. Per the agreement, the City's obligation for this contract is \$1,703,181 which will be repaid to the CRWU over a five year period. As of December 31, 2014, the balance of this contract payable is \$62,472.

NOTES PAYABLE

The City has obtained financing from the State of North Dakota's State Revolving Loan Fund (SRLF) to finance expansion of the wastewater treatment facility, a portion of the new water treatment plant, sewer hook-up for Reile's Acres and Oxbow, storm sewer system, 45th street corridor interceptor project, north side sewer service facility project, transmission lines south side system project, a water tower project, clarifier improvements to the wastewater system, a wastewater stabilization pond project and a water treatment plant.

The City has issued seven tax increment revenue notes subject to development agreements for housing redevelopment projects. The notes are payable from the future taxes generated by the redevelopment projects and will be paid to the developer annually as property taxes are collected from the tax increment project.

The City has obtained financing through direct bank loans to finance the Fargo Cass Public Health Expansion and Relocation project, the Red River Regional Dispatch Center project, and the Solid Waste Baling Facility.

Details relative to the outstanding notes payable are shown below:

H. DEFERRED INFLOW OF RESOURCES/UNEARNED REVENUES

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. A large portion of the amount unavailable relates to special assessments receivable which will be used to pay off refunding improvement and sidewalk bonds. Governmental funds also report unearned revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue in the governmental funds were as follows:

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

	Deferred Inflows of		Total
	Resources	Liabilities	
	Unavailable	Unearned	
Delinquent property taxes receivable	\$ 198,541	\$ -	\$ 198,541
Special assessments receivable	267,354,636	-	267,354,636

Loans/contracts/accounts receivable	3,891,731	1,758,140	5,649,871
Total unavailable revenue for governmental funds	<u>\$ 274,753,502</u>	<u>\$ 1,804,025</u>	<u>\$ 276,557,527</u>

I. CONDUIT DEBT OBLIGATIONS

From time to time, the City has approved issuance of Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2014, the number of Industrial Revenue Bonds outstanding and the aggregate principal amount payable is unknown. Neither the State of North Dakota nor the City of Fargo has a central repository. The only requirement for this type of issue is to request the amount needed for City approval, most times this amount is in excess of the actual amount issued. When completely paid or called they must notify the City of this event.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

K. RESTATEMENT OF FUND BALANCE/NET POSITION

Subsequent to December 31, 2013 the City received tax payments for highway taxes applicable to November and December 2013 tax collections. Proper treatment for this item is to record the revenue and receivable relating to the collections for the year ended December 31, 2013. For that reason, the beginning fund balance of the general fund and the beginning net position of governmental activities have been restated to reflect the understatement of the revenues and receivables as reported in the prior year financial statements. The beginning net position of the governmental activities has also been restated to remove the net pension obligation related to the City Employees' Pension Plan and the Fargo Firefighters' Relief Association Retirement Plan. In reviewing the guidance for the newly implemented and upcoming pension statements, it was determined that neither plan is to be recorded as a net pension obligation on the City of Fargo financial statements. For that reason, the liability for these plans was removed from the government-wide statements. The effect of the restatements are as follows:

	General Fund	Governmental Activities
Fund balance/net position - January 1, as previously reported	\$ 31,884,450	\$ 284,069,405
Restatement		
Tax payment accrual	1,396,138	1,396,138
Net pension obligation	-	5,421,196
Fund balance/net position - January 1, as restated	<u>\$ 33,280,588</u>	<u>\$ 290,886,739</u>

5. OTHER NOTES

A. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; business interruptions, errors and omissions; job related illness or injuries to employees; acts of God, and losses resulting from providing accident, health, dental and medical benefits to employees and retirees and their dependents or beneficiaries.

The City maintains one self-insurance internal service fund that is used to administer the risks of losses associated with the various exposures.

INSURED RISKS

The City purchases commercial insurance for the risk of damage to or destruction of buildings and equipment. Present coverage is provided by the State Fire and Tornado Fund as our primary property insurance carrier. The City's general liability coverage is provided by the North Dakota Insurance Reserve Fund. Other commercial insurance is also purchased for boiler, specialty equipment floaters, aircraft liability coverage and flood coverage for certain locations required by FEMA. A schedule of insurance in force is included in the supplementary information portions of this report. There have been no significant reductions to insurance coverage in the past year. There have been no insurance settlements in excess of the City's coverage in the past three years.

B. PENSION PLANS

The City of Fargo contributes to four separate pension plans which cover substantially all full-time employees. They are the North Dakota Public Employee Retirement System, Employees' Pension Plan, Police Pension Plan, and the Fargo Firefighters' Relief Association Retirement Plan. All of these plans are defined benefit pension systems. The Fargo Firefighters' Relief Association Retirement Plan and the North Dakota Public Employee Retirement System are separate legal entities and are not administered by the City. The plans have not been included in the reporting entity and are not shown in the accompanying financial statements. Details regarding this fund are described below.

Summary of Significant Accounting Policies

Basis of Accounting - The City's financial statements are prepared using the accrual basis of accounting. Employer and plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments - Investments are reported at fair value. Certificates of deposit are reported at cost, which approximates fair value. Securities traded on national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description, Contribution and Reserves Information

Employees' Pension Plan

Plan Description. The City of Fargo Employees' Pension plan is a multiple employer public employee retirement system. The plan is integrated with social security and therefore, is considered a supplemental plan. All full-time City employees not covered by another plan are eligible for participation in the Employees' Pension Plan. As of January 1, 2008 all newly hired employees become North Dakota Public Employee Retirement System (NDPERS) members. Voluntary enrollment in the NDPERS plan was offered to all members currently participating in the City Employee Pension Plan.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Membership in the plan on January 1, 2015 (date of most recent actuarial study) is as follows:

Retirees and beneficiaries	209
Terminated vested and deferred beneficiaries	35
City active plan members	151
NDPERS active plan members	210

Number of participating employers: 2

Employees under a discounted annuity formula may be eligible for early, normal or disability retirement. The plan permits early retirement at age 55. Normal retirement age for full benefits is age 65 or when an employee's age plus their years of service as a full time city employee reaches a sum of 90.

Employee death benefits of \$20,000 are paid to a designated beneficiary for a participant who dies prior to retirement. If a participant dies after retirement, the designated beneficiary will receive a \$3,000 death benefit.

All participants are eligible for a full refund of their contributions plus interest at 5%. Upon termination of employment prior to retirement age, participants may elect a deferred vested benefit to begin between ages 55-65 or a lump sum payment. Lump sum settlements are allowable up to age 55. Lump sum payments are computed as the greater of the actuarial value of plan assets or the "cash balance" in their plan account. The cash balance consists of the employee contributions, plus one-half of the employer's contribution since January 1, 1990, plus interest at 5%.

The City makes a matching contribution of \$25 per month to a deferred compensation plan on behalf of pension plan members who also contribute a minimum of \$25 per month to the deferred compensation plan.

Benefit provisions are established under the authority of the City Commission.

Plan Administration Management of the plan consists of 7 members; the Mayor, City Auditor, Director of Finance, and 4 at large members elected by all plan members. Elected members serve 2-year terms.

Contributions. Participating employees contribute to the plan at a rate of 6.5% of salary and the employers contribute at a rate of 8.0% of regular salary for all employees. The contribution rates are established by local ordinance, and the employer's contribution rate is set by the City Commission. Costs of administering the plan are financed by the employer and employee contributions, and by the Plan's investment earnings.

Long-term Expected Investment Return The long-term expected rate of return on pension plan investments was determined by the Plan's investment advisor using a building-block method in which best estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation. The best estimates of expected future real rates of return were developed by Public Financial Management (PFM) in their annual capital market assumption study. These rates were

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

combined with the target investment allocation provided by the investment advisor to determine the long-term expected real rate of return for the portfolio. This real rate of return was then added to the inflation assumption to create a long-term nominal rate of return and is summarized in the following table:

Asset Class	Allocation at Measurement Date	Long-Term Expected Real Rate of Return
Domestic equity	42.00%	5.40%
International equity	16.00%	5.40%
Emerging markets equity	7.00%	6.00%
Core fixed income	26.00%	3.30%
Investment grade corporate	2.25%	5.00%
High yield	2.25%	4.50%
Emerging markets debt	2.25%	4.75%
Bank loans	2.25%	3.25%
A. Long-term expected real rate of return (weighted average, rounded to 1/4%)		4.75%
B. Inflation assumption		2.75%
C. Long-term expected nominal rate of return (A. + B.)		7.50%

Reserves. The net position at December 31, 2014 is \$39,709,006 and the entire amount is reserved for employee pension benefits.

The City Employees' Pension Plan is included in the City of Fargo financial statements. It does not issue a stand-alone report, nor is it included in the report of any other entity.

North Dakota Public Employee Retirement System Pension Plan

Plan Description. As of January 1, 2008, all newly hired full-time and certain part-time employees (with the exception of Police and Fire department employees) of the City of Fargo are covered by defined benefit plans administered by the North Dakota Public Employee Retirement System (NDPERS). Voluntary enrollment in the NDPERS plan was offered to all members currently participating in the City Employee Pension Plan. The System administers PERS, which is a cost-sharing multiple-employer retirement plan. The PERS was established July 1, 1966 as a defined contribution plan and was changed to a defined benefit plan by the 1977 North Dakota Legislature. The PERS is administered in accordance with Chapter 54-52 of the North Dakota Century Code.

NDPERS provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by state statute. Plan participants are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). The annual pension benefit is equal to 2% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. The Plan permits early retirement at ages 55-64 with three or more years of service under a discounted annuity formula.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, level social security, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members' accumulated contributions plus interest.

Contributions. North Dakota Century Code Chapter 54-52 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. PERS members were required to contribute 7% of their regular compensation in 2014. The City of Fargo's required contribution is 8.26% of covered compensation.

The City's contribution to the Public Employees Retirement System for the years ending December 31, 2014, 2013 and 2012 was \$1,906,878, \$1,508,267, and \$1,205,215, respectively. The City's contribution was equal to the contractually required contribution for the year as set by state statute, or 100% of the required contributions for each year.

NDPERS issues a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained on the internet at www.nd.gov/ndpers, or by writing to NDPERS at PO Box 1657, Bismarck, ND 58502.

Police Pension Plan

Plan Description. The Police Pension Plan is a single employer public employee retirement system. The plan is not integrated with Social Security and has elected to make contributions on a pre-tax basis as of January 1, 1986.

All full-time employees of the Police department, except the Chief of Police, are required to enroll in the plan.

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Membership on January 1, 2015, (date of most recent actuarial study) in the plan is as follows:

Retirees and beneficiaries currently receiving pension payments	108
Fully vested members contributing	87
Non vested members contributing	77
Terminated vested employees	6

Number of participating employers: 1

Plan participants are eligible for normal retirement benefits after age 50 with 10 years of service under 2.65% per year of service formula, plus \$8.33 per year of service, maximum \$250. This is applicable to all new members who participate on or after August 1, 1990. Members who first participated prior to August 1, 1990, can elect this retirement age formula or remain under the Rule of 88, 60% formula.

The Plan purchases life insurance for active employees, the proceeds of which are paid to a designated beneficiary in the amount of \$65,000. The designated beneficiary will also receive the participant's employee contribution plus interest earned on contributions at 6% per annum. Interest is accrued on contributions starting January 1, 1970. Non-active participant's death benefit is \$40,000 for retirements after September 1985, and \$25,000 for retirements between July 25, 1983 and September 30, 1985.

Participants are fully vested in plan benefits after 10 years of service. Upon termination of employment prior to retirement age, participants may elect a deferred vested benefit to begin at the early retirement date, or may elect a refund of all employee contributions plus interest at 5% per annum, in lieu of a deferred vested benefit.

Benefit provisions are established under the authority of the City Commission.

Plan Administration Management of the plan consists of 5 members; the Director of Finance is the member designated by the Board of City Commissioners and 4 members are elected by and from the members of the police department who are currently being assessed.. Elected members serve 4-year terms.

Contributions. Employees contribute at a rate of 10.0% of salary. The City contributes at a rate of 14.65% of salary for members employed prior to April 1, 1986, and a rate of 13.20% of salary for members employed after April 1, 1986. Costs of administering the plan are financed by the employer and employee contributions, and by the Plan's investment earnings.

Long-term Expected Investment Return The long-term expected rate of return on pension plan investments was determined by the Plan's investment advisor using a building-block method in which best estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation. The best estimates of expected future real rates of return were developed by the investment advisor and Morgan Stanley in their annual capital market assumption study. These rates were combined with the target investment allocation provided by the investment advisor to

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

determine the long-term expected real rate of return for the portfolio. This real rate of return was then added to the inflation assumption to create a preliminary long-term nominal rate of return. Lastly, the nominal rate of return was reduced by 25 basis points to provide a margin for adverse deviation. This process is summarized in the following table:

<u>Asset Class</u>	<u>Allocation at Measurement Date</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	60.00%	6.70%
Fixed income	40.00%	2.40%
A. Long-term expected real rate of return (weighted average, rounded to 1/4%)		5.00%
B. Inflation assumption		2.75%
C. Preliminary long-term expected nominal rate of return (A. + B.)		7.75%
D. Margin for adverse deviation		-0.25%
E. Final long-term expected nominal rate of return (C.+D.)		7.50%

Reserves. The net position at December 31, 2014 is \$47,308,553 and the entire amount is reserved for employee pension benefits.

The Police Pension Plan is included in the City of Fargo financial statements. It does not issue a stand-alone report, nor is it included in the report of any other entity.

Fargo Firefighters' Relief Association Retirement Plan

Plan Description. The Fargo Firefighters' Relief Association Retirement Plan is a single employer public employee retirement system governed by Section 18-11 of the North Dakota State Century Code. The Association is organized, operated, and maintained in accordance with its own articles of incorporation and by-laws. The plan is not integrated with social security and has elected to make employee contributions on a pre-tax basis as of January 1, 1996

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

All full time firefighters are required to enroll in the plan.

Membership on January 1, 2015, (date of most recent actuarial study) in the plan is as follows:

Active plan members	117
Deferred vested	2
Retirees, disabled, and beneficiaries	91

Number of participating employers: 1

Plan participants are eligible for normal retirement at age 55 with 10 years of eligible service. Effective August 1, 2001, the benefit formula was improved to provide 2.50% of earnings times years of service. The result is taken times the salary of a first class firefighter to determine the monthly pension benefit amount. A monthly disability service pension benefit is also provided under an alternative formula along with family death benefits.

In lieu of any other benefits from the plan, a member may request a lump sum payment of employee contributions without interest.

Benefit provisions and changes to benefit formulas are established under the authority of the plan's Board of Directors.

Plan Administration Management of the plan consists of a 7 member Board of Trustees, with a President, a Vice-President, a Secretary-Treasurer, and four (4) Trustees-at-large. One of the Trustees can be the Chief of the Fargo Fire Department. At each annual meeting of the Association, Trustees shall be elected by the voting membership for a term of two (2) years each to succeed those Trustees whose terms are expiring.

Contributions. Participating employees contribute to the plan at a rate of 10.4% of salary and the City contributes at a rate of 14.65% for pre-1986 employees and 13.20% for post 1986 employees covered by Medicare. Costs of administering the plan are financed by the employer and employee contributions, and by the Plan's investment earnings.

Long-term Expected Investment Return The long-term expected rate of return on pension plan investments was determined by the Plan's investment advisor using a building-block method in which best estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation. The best estimates of expected future real rates of return were developed by the investment advisor and Morgan Stanley in their annual capital market assumption study. These rates were combined with the target investment allocation provided by the investment advisor to determine the long-term expected real rate of return for the portfolio. This real rate of return was then added to the inflation assumption to create a preliminary long-term nominal rate of return. Lastly, the nominal rate of return was reduced by 25 basis points to provide a margin for adverse deviation. This process is summarized in the following table:

**CITY OF FARGO, NORTH DAKOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

<u>Asset Class</u>	<u>Allocation at Measurement Date</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	60.00%	6.70%
Fixed income	40.00%	2.40%
A. Long-term expected real rate of return (weighted average, rounded to 1/4%)		5.00%
B. Inflation assumption		2.75%
C. Preliminary long-term expected nominal rate of return (A. + B.)		7.75%
D. Margin for adverse deviation		-0.25%
E. Final long-term expected nominal rate of return (C.+D.)		7.50%

The City is legally obligated to contribute to the plan based upon a certain formula established by State law. The City has chosen to fund this obligation by paying the same percentage of pay as other defined benefit plans.

The Fargo Firefighters' Relief Association Retirement Plan is not included in the City of Fargo financial statements, nor is it included in the report of any other entity. The Firefighters' Relief Association issues a stand-alone, publicly available financial report. This report can be obtained by contacting: City of Fargo Fire Department Headquarters, 627 N.P. Avenue, Fargo, ND 58102, Attention: Secretary/Treasurer of the Fargo Firefighters Pension Association.

POLICE PENSION PLAN

The Police Pension Plan uses the aggregate actuarial cost method which does not identify or separately amortize unfunded liabilities. The Schedule of Funding Progress is shown below in accordance with Government Accounting Standards Board Statement No. 50 as noted below.

For the Police Pension Plan, employer contributions for the years ended December 31, 2014, 2013, and 2012 were \$2,516,258, \$2,348,118, and \$2,156,505, respectively, which were 113%, 91%, and 72%, respectively, of the required contributions for each year. The annual pension cost for the years ended December 31, 2014, 2013, and 2012 was \$1,782,796, \$2,465,899, and \$2,882,988, respectively. The percentage funded was 141%, 95%, and 75% for the years 2014, 2013, and 2012, respectively. The Net Pension Obligation NPO at the end of each year was positive (a liability).

Annual Pension Cost Components					
Year Ended December 31	Annual Required Contribution (ARC)	Interest on NPO	ARC Adjustment	Change In NPO	NPO Balance
2005	717,971	(84,611)	(97,004)	(109,167)	(1,237,318)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014**

Government Accounting Standards Board Statement No. 50 (GASB 50 – Pension Disclosures) requires a supplemental disclosure for plans that use the Aggregate funding method as this method does not directly produce an accrued liability. The purpose of this disclosure under the Entry Age Normal (EAN) funding method is to provide information that serves as a surrogate for the funding progress of the plan. We have not shown any prior years EAN information in this Funded Status and Funding Progress footnote below, since disclosure using EAN as a surrogate was not required before this time.

- (1) Revised to reflect audited financial statements.
- (2) Revised investment return assumption.
- (3) Revised plan provisions.
- (4) Changed asset method
- (5) Revised plan provisions and changed actuarial assumptions.

For the Fargo Firefighters' Relief Association Retirement Plan, employer contributions for the years ended December 31, 2014, 2013 and 2012 were \$1,661,219, \$1,524,715, and \$1,388,976, respectively, which were 116%, 84%, and 70%, respectively, of the required contributions for each year. The annual pension cost for the years ended December 31, 2014, 2013, and 2012 were \$1,416,256, \$1,814,169, and \$2,001,656, respectively. The percentage funded was 117%, 84%, and 69%, for the years ended December 31, 2014, 2013, and 2012, respectively. The Net Pension Obligation (NPO) at the end of 2011 was negative (an asset). The Net Pension Obligation (NPO) at the end of 2012, 2013, and 2014 was positive (a liability).

SIGNIFICANT ACTUARIAL ASSUMPTIONS

The information presented in the above schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation follows:

	City Employees'	Police	Firefighters'
Valuation Date	1/1/2015	1/1/2015	1/1/2015
	Entry Age Normal Method		
Actuarial Cost Method	Unit Credit Method **	Entry Age Normal Method	Entry Age Normal Method
Amortization Method	Level Percent	Level Percent	Level Percent
Amortization Period	Closed	Closed	Closed
Remaining Amortization Period	3,5,6,7,8,9,11,12,13,14,15,16 ,19,20	15,19,20	20
Asset Valuation Method	Market Value plus contributions receivable less benefits payable	Market Value	Market Value
Discount Rate	7.50%	7.50%	7.50%
Expected long-term rate of return on assets	7.50%	7.50%	7.50%
Inflation Rate	2.75%	2.75%	2.75%
Salary Increase Rate	3.00%	4.00%	3% for first class firefighter pay rate 4.50% for officers
Mortality table	RP-2014	RP-2014 Blue-collar	RP-2014 Blue-collar

* The aggregate actuarial cost method does not identify or separately amortize unfunded liabilities.

** The Entry Age Normal Cost Method is used for City employees who are accruing benefits under the City's plan. The Unit Credit Method is used for all participants no longer accruing benefits under the City plan (including employees who have switched to NDPERS).

Discount rate The liability discount rate was developed using the alternative method described in paragraph 43 of GASB 67, which states that "if the evaluations required by paragraph 41 can be made with sufficient reliability without a separate projection of cash flows into and out of the pension plan, alternative methods may be applied in making the evaluations." It was determined that the plan's current funded status, combined with the City's funding policy, provides sufficient reliability that projected plan assets will be adequate to pay future retiree benefits. Therefore, the plan's long-term expected return on plan assets has been used as the liability discount rate.

Separate, GAAP financial reports have not been issued for the individual City and Police Pension plans; therefore, the financial statements for those plans are presented here:

Related Party Investments

During 2014 and as of December 31, 2014 the pension plans (City Employees', Police or Firefighters Relief Association) held no securities issued by the City of Fargo or other related parties.

C. JOINT POWERS AGREEMENT

Regional Dispatch Center

In December of 2002, the City of Fargo, ND, City of Moorhead, MN, Clay County of MN and Cass County of ND entered into a joint powers agreement to establish a framework that allows for the joint operation of dispatch functions by the named entities. Additionally, the City of West Fargo, ND entered into the joint powers agreement in 2008. By combining the communications and dispatch of these agencies, duplication of equipment and staff time is reduced or eliminated. The goal was to reduce the financial burden to the respective governments' taxpayers through the sharing of one communication center, as well as to improve communications services. For the past two years, budgeted contributions from the participating entities have been adequate to fund the operations of the center.

Each governmental entity will contribute to the joint operations in the following percentages:

- City of Fargo – 50%
- City of Moorhead – 20%
- Cass County – 10%
- Clay County – 11%
- City of West Fargo – 9%

The joint powers agreement will be in effect until terminated by action of all of its members during the first five years. Thereafter, any governmental entity may elect to withdraw from participation upon giving a 6-month written notice. Additional financial information may be obtained by contacting: Attn: Director, Red River Regional Dispatch Center, 915 9th Ave. N., Moorhead, MN 56560.

Metro Flood Diversion Authority

In June of 2010, the City of Fargo, ND, City of Moorhead, MN, Clay County of MN, Cass County of ND, the Cass County Joint Water Resource District, and the Buffalo Red River Watershed District entered into a joint powers agreement for the purpose of building and operating a flood diversion channel along the Red River of the North to reduce the flood risk of the stakeholder communities and counties. The Diversion Authority and its members worked with the United States Army Corps of Engineers on the FM Metro Flood Risk Management Feasibility Study to develop the flood diversion channel project plan.

This joint powers agreement will continue to be in full force and effect until it is terminated upon unanimous approval of the members to this Agreement. Additional information regarding the authority may be obtained by contacting: Flood Diversion Board of Authority, Box 2806, 211 Ninth Street South, Fargo, ND 58108.

D. CONTINGENCIES

Grants

Amounts received or receivables from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time.

E. SUBSEQUENT EVENTS

Refunding Improvement Bonds Refinanced

On February 2, 2015 the Board of City Commissioners approved a resolution authorizing the issuance of \$18,250,000 Refunding Improvement Refunding Bonds, Series 2015A to refinance outstanding bonds from Refunding Improvement Bonds, Series 2006B and Series 2007B. The new bonds were marketed at a true interest cost of 2.23% which generated a net present value savings of \$2.9 million.

Membrane Water Treatment Plant Expansion

On March 2, 2015, the Board of City Commissioners awarded bids for the new Membrane Water Treatment plant expansion as follows:

Contract #1 General Construction \$84,116,383
Contract #2 Mechanical Construction \$6,820,000
Contract #3 Electrical Construction \$16,379,666

Construction is expected to begin in June of 2015 and will take three years to complete.

Early Redemption of State Revolving Fund Loan (SRF) Notes

On March 30, 2015 the Board of City Commissioners approved the early redemption of three outstanding State Revolving Fund Loan (SRF) notes in the amount of \$4,993,000. The early redemption was completed in order to get the best return on invested funds.

Special Election

On April 28, 2015 a special election was held and the voters elected Timothy Mahoney as the Mayor of the City of Fargo. Anthony Gehrig was also elected as a City Commissioner.

Highland Park Properties Settlement

Highland Park Properties commenced an action claiming that the City of Fargo, through its application of Ordinance 4818, committed a regulator taking of its property and sought damages for inverse condemnation as to lots 4, 5 and 6. Portions of lots 4, 5, and 6 are in the minimal and the limited disturbance zone setbacks as defined by Ordinance 4818. On May 5, 2015, the City of Fargo agreed to settle the underlying claims and obtain ownership of all the lots for the sum of \$920,000.

US Bank Loan for Metro Flood Project Diversion Authority

On May 11, 2015, the Board of City Commissioners approved a resolution authorizing a loan of \$50 million from US Bank National Association for the Metro Flood Project Diversion Authority project and supplemental agreement with Cass County relating to the pledge of sales tax resources to pay this obligation.

Metro Flood Project Diversion Authority Preliminary Injunction

There was a pending lawsuit brought by the Richland/Wilkin County JPA (a joint powers entity) against the federal government regarding the FM Diversion Project being undertaken by and sponsored by the United States Army Corps of Engineers. In this project, the cities of Fargo, North Dakota and Moorhead, Minnesota, along with the Metro Flood Diversion Authority are the non-federal sponsors. Because of its significant interest in the Metro Flood Project, the Diversion Authority sought to intervene in the lawsuit, succeeding in the fall of 2013. Upon motion by the Richland/Wilkin JPA, the federal District Court issued a preliminary injunction (dated May 13, 2015) against the Metro Flood Diversion Authority directing that the Diversion Authority immediately cease all actual physical construction activity related to the OHB ring levee (referring to a ring levee being constructed around the communities of Oxbow, Hickson and Bakke, located approximately 8 miles south of Fargo. This preliminary injunction is not a decision on the merits of the underlying lawsuit.

This page is intentionally left blank.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

The City of Fargo utilizes twenty special revenue funds.

City Share of Special Assessments - This fund is used to account for the portion of special improvement district projects that are not assessed back to the benefiting property owners, and to pay for the special assessments levied against City and HRA owned properties. Resources are derived from property tax revenue.

Noxious Weeds - This fund is used to account for the City's weed eradication programs. Resources are derived from property tax revenue.

Emergency 911 - This fund is used to account for the revenues and expenditures associated with the Emergency 911 communications system. Resources are derived from a special user fee that is added on local phone and cellular service charges and the City's share of the Red River Regional Dispatch Center.

Convention & Visitors Bureau - This fund is used to account for the 3% hotel and motel excise tax that is assessed to promote tourism and conventions. The City has contracted with the Convention and Visitors Bureau to provide this service.

Neighborhood Stabilization - This fund is used to account for the programs which are currently participating in the Neighborhood Stabilization program. Resources are provided by annual entitlements from Federal Department of Housing and Urban Development.

Regional Training Center - This fund is used to account for the operations of the Regional Law Enforcement Training Center. This facility operates on annual contributions from West Fargo, Cass County, and the City of Fargo.

FTA Transit Capital Escrow - This fund is used to account for the rental revenues that are derived from the Greyhound portion of the Ground Transportation Center (GTC). The Ground Transportation Center was financed by an Urban Mass Transportation Capital Assistance grant which required that all revenues generated from this facility be held separately, and used exclusively for transit purposes.

Court Forfeits - Assets that are forfeited by criminal defendants as ordered by the courts are placed in this fund and are used for local law enforcement.

Skyway Maintenance - This fund is used to account for maintenance of the Fargo skyway system. Resources are derived from special assessment revenue..

Parking Authority - This fund is used to account for the operations and maintenance of the City owned parking facilities. The City owns and operates eleven parking facilities in the Downtown area. Resources are derived from parking fee service charges.

Parking Repair and Replacement - This fund is used to account for any major repair or replacement of parking facilities. This fund is required by bond covenants.

Parking Surplus Fund - This fund is used to account for parking net revenues in excess of that required for operations, maintenance, and debt service. This fund is required by bond covenants.

Community Development - This fund is used to account for the programs which are currently participating in the Community Development Block Grant program and the Rental Rehabilitation program. Resources are provided by annual entitlements from Federal Department of Housing and Urban Development.

Housing and Urban Development (HUD) Home Participating Jurisdiction – This fund is used to account for the HOME program which provides resources for housing rehabilitation in the Community. Resources are provided by annual entitlements received directly from the Federal Department of Housing and Urban Development.

Housing and Urban Development (HUD) Home Program - This fund is used to account for the HOME program which provides resources for housing rehabilitation in the Community. Resources are provided by annual entitlements from the Federal Department of Housing and Urban Development.

Downtown Business Improvement District – This fund is used to account for acquisition and maintenance of the City's Downtown Business Improvement District. Resources are derived from special assessment revenue.

NRI Loan Program - This fund is used to account for revolving loan activity relating to the City's Neighborhood Revitalization Initiative. Resources are derived from both private and public financing.

Baseball Stadium - This fund is used to account for the operations of the baseball stadium. Resources are derived from private suite and VIP seat licenses.

NONMAJOR ENTERPRISE FUNDS

The enterprise funds account for the operations that are financed and operated in a manner similar to private business enterprises where the intent of the City is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the City has decided that periodic determination of the revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or for other purposes.

The City operates four nonmajor enterprise funds which are listed below.

Southeast Cass Sewer District - To account for user fee revenues derived from providing sanitary sewer services to the Southeast Cass Sanitary Sewer District, and the expenses and maintenance for this function.

Vector Control – To account for vector control operations involving mosquito control for the City of Fargo.

Street Lighting – To account for user fee revenues derived from providing street lighting services to the City of Fargo, and all expenses for the operation and maintenance of this function.

Forestry - To account for user fee revenues and donations from the Park Board derived from planting and maintaining trees on boulevards and in parks, and all expenses for the operation and maintenance of this function.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the City in trust or as an agent for individuals, private organizations, or other governmental units and/or other funds. The fiduciary funds of the City are described below.

PENSION TRUST FUNDS

City Employee's Pension Trust Fund is used to account for the activities of this defined benefit pension plan. All employees except those covered by other plans are members.

Police Pension Trust Fund is used to account for the activities of this defined benefit pension plan. All members of the Police Department are members of this plan.

The Pension Plan financial statements can be found in the notes to the financial statements, Note 5.

AGENCY FUNDS

The City has four agency funds used to account for assets held as an agent for others.

Performance Deposit Fund is used for deposits required by City ordinance for excavators, bid deposits, special assessment developer deposits, and other miscellaneous deposits.

Park District Specials Fund is used to account for special assessments collected and administered for the Fargo Park District.

Metro Flood Project Diversion Authority is used to account for the collection and disbursement of funds for the Metro Flood Project Diversion Authority.

Red River Regional Dispatch Center Fund is used to account for the collection and disbursement of funds for the Red River Regional Dispatch Center Fund.

STATISTICAL SECTION

This part of the City of Fargo's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	114
These schedules contain trend information to help the reader understand and assess how the government's financial position has changed over time.	
Revenue Capacity	119
These schedules contain information to assist the reader in understanding and assessing the factors affecting the government's ability to generate its own-source revenues.	
Debt Capacity	135
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	144
These schedules offer demographic and economic information to (1) assist the reader in understanding the socioeconomic environment within which a government operates and (2) provide information that facilitates comparisons of financial statement information over time and among governments.	
Operating Information	147
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	

Sources: *Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB 34 in 2002; schedules presenting government-wide information include information beginning in that year.*

Receipts are shown net of state administrative fee.

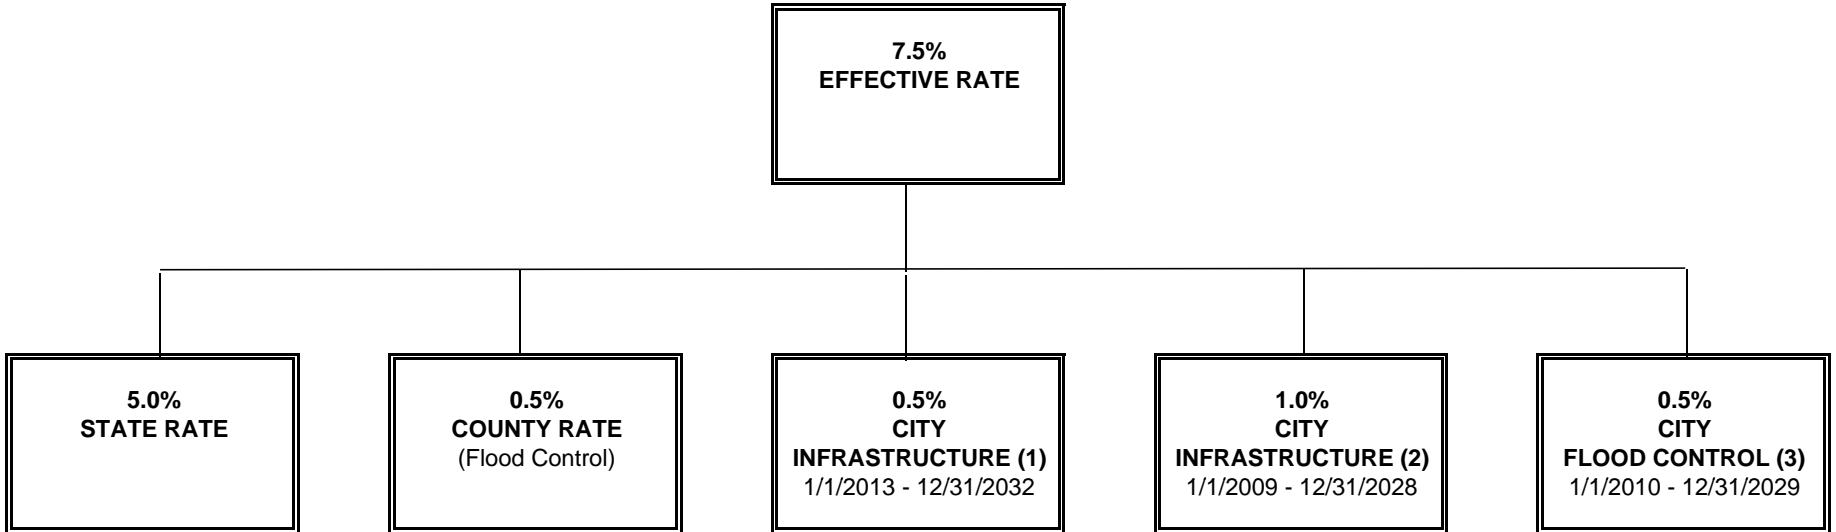

- (1) Beginning in 1996, ordinances were revised to allow the FargoDome to share excess sales tax with the Street Construction Fund.
- (2) Beginning in December 1999, a 1 cent sales tax is receipted into the Sales Tax Bond Debt Service Fund instead of the Street Construction Fund, surplus receipts used for infrastructure projects
- (3) Beginning in 2005 a 1/2 cent sales tax was authorized until June 2006 for library expansion.
- (4) Beginning in 2009 a 1/2 cent sales tax was authorized through December 2028 for infrastructure funding related primarily to an approved utility infrastructure master plan
- (5) Beginning in 2010 a 1/2 cent sales tax was authorized through December 2029 for flood control projects

2005	15,888,706	4,463,294	28.09%	10,690,968	15,154,262	95.38%

Property taxes are collectable at the taxpayer's option under two plans: 1) taxes paid in full by February 15 of the collection year receive a 5% discount or 2) taxes paid in two installments dues by March 1 and due by October 15. Penalties are levied on the following schedule:

<u>Delinquent Time Period</u>	<u>Penalty</u>
Mar 2 - Apr 30	3%
May 2 - Jun 30	an additional 3%
Jul 2 - Sept 30	an additional 3%
Oct 16 - Dec 31	an additional 3%
Jan 1	12% annual rate

The second installment becomes delinquent on October 16 at which time a 6% penalty is assessed. On January 1 the taxes are sold to the County Auditor at which time 12% interest penalty is compounded daily. After five years the property is offered at tax sale at a fair market valuation.

PARKING FACILITY INFORMATION
(UNAUDITED)**

Designated Parking Facilities for Revenue Bond Repayment

The City currently owns and contracts for the management of a parking system consisting of both parking ramp structures and surface parking lots:

	<u># of Spaces</u>	<u># of Monthly Contracts</u>
Designated for Revenue Bond Repayment:		
Ramps:		
Island Park Ramp	355	460
Radisson Hotel	250	225
Ground Transportation Center	185	197
Surface Lots:		
2nd Avenue North	100	120
2nd Avenue South	65	29
Main Avenue	77	64
NP Avenue	145	75
4th Street	175	228
3rd Street	145	181
3rd Avenue & 5th Street	40	45

Operation of the Parking Facilities

The City contracts with Parking Service, Inc. a North Dakota corporation, located in Fargo (the "Operator") for all services involved in the operation and maintenance of the Parking Facilities. The Operator is compensated on a fixed fee basis for such services, with the City bearing an obligation to reimburse the Operator for its out of pocket costs. The Operator also operated the three surface parking lots being acquired with proceeds of the Parking Bonds prior to their acquisition by the City.

Existing Rate Structure

The City has in place monthly and hourly rates for the Parking Facilities as follows:

	<u>2014</u>	<u>2015</u>	<u>Hourly</u>	<u>Daily Max</u>
Designated for Revenue Bond Repayment:				
Ramps:				
Island Park Ramp	\$52	\$53	N/A	N/A
Island Park Lower Level	N/A	\$55	N/A	N/A
Radisson Hotel	\$68	\$72	\$1.50	\$7.50
Ground Transportation Center	\$63	\$63	N/A	N/A
Surface Lots:				
2nd Avenue North	\$58	\$63	N/A	N/A
2nd Avenue South	\$68	\$72	\$1.50	\$7.50
Main Avenue	\$50	\$53	N/A	N/A
NP Avenue	\$55	\$63	\$1	\$5
4th Street	\$52	\$56	N/A	N/A
Ground Transportation Center	\$63	\$69	N/A	N/A
Civic Center	\$52	N/A	\$1	\$5
3rd Street	\$52	\$56	N/A	N/A
3rd Avenue & 5th Street	\$68	\$72	N/A	N/A

Financial Performance

The table below is a compilation of financial results from the designated parking facilities.

	<u>2014(2)</u>
Revenues	\$ 1,311,564
Expenditures	\$ 544,300
Net Revenues	\$ 767,264

(2) Revenues and Expenses do not include operating transfers made between funds.

Source: The individual entity specified.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Fargo. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages are estimated by determining the portion of the entity's taxable value that is within the city's boundaries and dividing it by the entity's total taxable assessed value.
