

## **2021 Community Supported Agriculture**

Community Supported Agriculture Programs (CSAs) bring together consumers and farmers in a mutual relationship surrounding food. Consumers collectively pay for the up-front costs of farming through purchasing shares of a farm or garden. The farmer (and sometimes the consumer) tends and harvests the crop. Upon harvesting, the crops are equally divided among the shareholders (consumers) throughout the entire growing season, providing consumers with local, fresh produce.

### **Bill Erbes Farm**

Bill Erbes or Austin Wittmier  
701.793.5532 or 701.388.0783
