GOVERNMENT-WIDE DEBARMENT AND SUSPENSION
(NONPROCUREMENT)
49 CFR Part 29, Executive Orders 12549, 12689, and 31 U.S.C.6101 (Contracts over $25,000)

Background and Applicability

The provisions of Part 29 apply to all grantee contracts and subcontracts at any level expected to equal or exceed $25,000 as well as any contract or subcontract (at any level) for Federally required auditing services. 49 CFR 29.220 (b). This represents a change from prior practice in that the dollar threshold for application of these rules has been lowered from $100,000 to $25,000. These are contracts and subcontracts referred to in the regulation as “covered transactions.”

Grantees, contractors, and subcontractors (at any level) that enter into covered transactions are required to verify that the entity (as well as its principals and affiliates) they propose to contract or subcontract with is not excluded or disqualified. They do this by (a) Checking the Excluded Parties List System, (b) Collecting a certification from that person, or (c) Adding a clause or condition to the contract or subcontract. This represents a change from prior practice in that certification is still acceptable but is no longer required. 49 CFR 29.300.

Grantees, contractors, and subcontractors who enter into covered transactions also must require the entities they contract with to comply with 49 CFR 29, subpart C and include this requirement in their own subsequent covered transactions (i.e., the requirement flows down to subcontracts at all levels). Instructions for Certification; By signing and submitting this bid or proposal, the prospective lower tier participant is providing the signed certification set out below.

Suspension and Debarment
This contract is a covered transaction for purposes of 49 CFR Part 29. As such, the contractor is required to verify that none of the contractor, its principals, as defined at 49 CFR 29.995, or affiliates, as defined at 49 CFR 29.905, are excluded or disqualified as defined at 49 CFR 29.940 and 29.945.

The contractor is required to comply with 49 CFR 29, Subpart C and must include the requirement to comply with 49 CFR 29, Subpart C in any lower tier covered transaction it enters into. By signing and submitting its bid or proposal, the bidder or proposer certifies as follows:

The certification in this clause is a material representation of fact relied upon by the municipal corporation. If it is later determined that the bidder or proposer knowingly rendered an erroneous certification, in addition to remedies available to the municipal corporation, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment. The bidder or proposer agrees to comply with the requirements of 49 CFR 29, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

1. **BID PROTEST PROCEDURE**

   a. **General**

   Protests will be accepted from prospective bidders or offerors whose direct economic interest would be affected by the award of a contract or by failure to award a contract. The City of Fargo's staff will consider all protests or objections filed in a timely manner regarding the award of a contract, whether submitted before or after award. All protests shall be in writing and shall be supported by sufficient information to enable the protest to be considered. A protest will not be considered if it is insufficiently supported or it is not received within the time limits specified herein. Protest submissions should be concise, logically arranged, and clearly state the ground for the protest. Protests must include at least the following information:

   - Name, address, and telephone number of protestor.
   - Identification of the solicitation or bid.
   - A detailed statement of the legal and factual grounds of the protest, including copies of relevant documents.
   - A statement as to what relief is requested.

   Protests should be sent via certified mail through the U.S. Postal Service to:

   Protests must be filed with City of Fargo in accordance with our procedures and time requirements. The protest to City of Fargo must be complete and contain all the issues that the protestor believes relevant. The City of Fargo will respond to each substantive issue raised in the protest. Failure to include an issue in the protest to the City of Fargo will preclude raising the issue to FTA, if the protest is appealed to that agency. Following an adverse decision by City of Fargo, protestor may file a protest with FTA under certain limited circumstances listed in paragraph f.

   On occasion, when considered appropriate by the Fargo City Administrator, an informal conference on the merits of the protest with all interested parties may be held.

   b. **Protests Before Award**

      1. **Solicitation Phase**

      Protests concerning the solicitation must be submitted in writing by **COB at 4:30 CT Jul 12, 2021**. If the written protest is not received by the time specified, award may be made in the normal manner unless the Fargo Public Works Fleet Services Manager and Fargo Transit Fleet & Facilities Manager, upon investigation, find that remedial action is required. Oral protests not followed up by a written protest will be disregarded.

      Notice of a protest and the basis therefore will be given to all potential bidders or offerors.
2. **Pre-Award Phase**

When a protest against the making of an award is received after receipt of bids or proposals but prior to award, City of Fargo staff may determine to withhold the award pending disposition of the protest. City of Fargo will provide a written response to each material issue raised in the written protest. Notice of a protest as well as City of Fargo’s response will be provided to bidders/proposers who responded to the solicitation and are in line for the award of a contract.

Where a written protest against the making of an award is received by the time specified an award will not be made unless City of Fargo determines that:

- The items to be procured are urgently required;
- Delivery or performance will be unduly delayed by failure to make award promptly; or,
- Failure to make award will otherwise cause undue harm to City of Fargo or the Federal Government.

If award is made, the City of Fargo Public Works Fleet Services Manager or the Assistant Transit Director will document the file to explain the need for an award and will give written notice of the decision to proceed with the award to the protestor and, bidders/proposers who responded to the solicitation and are in line for the award of a contract by **COB AT 4:30 CT Five (5) business days after the award**.

c. **Protests After Award**

A protest received after the award shall be reviewed by the City of Fargo Public Works Fleet Services Manager and the Assistant Transit Director, and the Legal Department. The selected contractor will, in any event, be furnished with the notice of protest and the basis therefore. When it appears likely that an award may be invalidated and a delay in receiving the supplies or services is not prejudicial to City of Fargo’s interest, the Public Works Fleet Services Manager and the Assistant Transit Director, and the Legal Department may consider a mutual agreement with the contractor to suspend performance on a no-cost basis. A written response by City of Fargo staff will be issued by **COB AT 4:30 CT Five (5) business days after the written protest is received**.

d. **Post-Award Appeals**

Appeals must be sent in writing to the Fargo City Commission by **COB AT 4:30 CT Ten (10) business days after notification of protest determination**. The Fargo City Commission will schedule a hearing at the next scheduled City of Fargo Commission meeting where the appellant may be heard. The Fargo City Commission will issue a final written determination by **COB AT 4:30 CT five (5) business days after the meeting**.
The decision of the Commission is final and no further appeals to the City of Fargo may be made.

e. **Determination of Interested Party**

An interested party is an actual prospective bidder or offeror whose direct economic interest would be affected by award of a contract or failure to award a contract. This definition specifically excludes subcontractors and their suppliers.

1. The ability to qualify as an actual or prospective bidder/proposer ends when the vendor registration period ends.

2. The offer received from the protestor must be technically responsive.

3. The protestor must be the next in line to receive the award if the protested issues prevail.

4. If not next in line, the protestor must successfully challenge all intervening offers to establish next in line status.

f. **Protests to FTA**

Under certain limited circumstances, an interested party may protest to FTA the award of a contract pursuant to an FTA grant. FTA’s review of any protest will be limited to alleged failure of City of Fargo to have or follow its written protest procedures or alleged failure to review a complaint or protest.

1. **Time for Filing**

   i. An appeal to FTA must be received by FTA Region VIII within five (5) working days of the date the protester learned or should have learned of an adverse decision by the grantee or other basis of appeal to FTA. Protests should be addressed to

   U.S. Department of Transportation  
   Federal Transit Administration, Region VIII  
   12300 W Dakota Ave, Suite 310  
   Lakewood, CO 80228

   ii. Violations of Federal law or regulation will be handled by the complaint process stated within the law or regulation.

2. **Submission of Protest to FTA**

   i. A protestor must exhaust all administrative remedies with City of Fargo before pursuing a protest to FTA.

   ii. Protests to FTA should be sent to the FTA Regional or Headquarters Office. A concurrent copy of the protest must be sent to City of Fargo.
iii. The protest filed with FTA shall:

- Include the name and address of the protestor.
- Identify City of Fargo and the number/title of the contract solicitation.
- Contain a statement of the grounds for the protest and any supporting documentation. This should detail the alleged failure of City of Fargo to have or follow its protest procedures or the alleged failure to review a complaint or protest.
- Include a copy of the local protest filed with City of Fargo and a copy of City of Fargo’s decision, if any.

   b. **Retention Period.** The Contractor agrees to comply with the record retention requirements in accordance with 2 C.F.R. § 200.333. The Contractor shall maintain all books, records, accounts and reports required under this Contract for a period of at not less than three (3) years after the date of termination or expiration of this Contract, except in the event of litigation or settlement of claims arising from the performance of this Contract, in which case records shall be maintained until the disposition of all such litigation, appeals, claims or exceptions related thereto.
   c. **Access to Records.** The Contractor agrees to provide sufficient access to FTA and its contractors to inspect and audit records and information related to performance of this contract as reasonably may be required.
   d. **Access to the Sites of Performance.** The Contractor agrees to permit FTA and its contractors access to the sites of performance under this contract as reasonably may be required.

The Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Master Agreement between the Agency and FTA, and they may be amended or promulgated from time to time during the term of this contract. Any such termination for default shall not in any way operate to preclude the Agency from also pursuing all available remedies against Contractor and its sureties for said breach or default.

The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or to contracts for transportation or transmission of intelligence.
      ii. In the event of any violation of the clause set forth herein, the Contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, the Contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of this clause in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by this clause.

Such records maintained under this paragraph shall be made available by the Contractor for inspection, copying, or transcription by authorized representatives of the FTA and the Department of Labor, and the Contractor will permit such representatives to interview employees during working hours on the job.

20. Bonding: The Common Grant Rules require bonds for all construction contracts exceeding the simplified acquisition threshold (exceeding $175,000. Minnesota State Statute 574.26 limit is $100,000) unless FTA determines that other arrangements adequately protect the Federal interest. FTA’s bonding policies are as follows:

a. A bid guarantee from each bidder equivalent to five [5] percent of the bid price. The "bid guarantees" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

b. A performance bond on the part to the Contractor for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.
c. A payment bond on the part of the contractor for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment, as required by law, of all persons supplying labor and material in the execution of the work provided for in the contract. Payment bond amounts required from Contractors are as follows:

i. 50% of the contract price if the contract price is not more than $1 million;

ii. 40% of the contract price if the contract price is more than $1 million but not more than $5 million; or

iii. $2.5 million if the contract price is more than $5 million.

d. A cash deposit, certified check or other negotiable instrument may be accepted by a grantee in lieu of performance and payment bonds, provided the grantee has established a procedure to assure that the interest of FTA is adequately protected. An irrevocable letter of credit would also satisfy the requirement for a bond. Bid Bond Requirements (Construction)

The Contractor hereby guarantees the work against defective materials or faulty workmanship for a minimum period of one [1] year after final payment by the Agency and shall replace or repair any defective materials or equipment or faulty workmanship during the period of the guarantee at no cost to the Agency. As additional security for these guarantees, the Contractor shall, prior to the release of final payment, furnish separate maintenance (or guarantee) bonds in form acceptable to the Agency written by the same corporate surety that provides the performance bond and labor and material payment bond for this contract. These bonds shall secure the Contractor's obligation to replace or repair defective materials and faulty workmanship for a minimum period of one [1] year after final payment and shall be written in an amount equal to ONE HUNDRED PERCENT [100%] of the CONTRACT SUM, as adjusted (if at all).

This restriction on publication, however, does not apply to any contract with an academic institution. For purposes of this agreement, the term "subject data" means recorded information whether or not copyrighted, and that is delivered or specified to be delivered as required by the contract. Examples of "subject data" include, but are not limited to computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information, but do not include financial reports, cost analyses, or other similar information used for performance or administration of the contract.

b. Unless FTA determines otherwise, the Contractor performing experimental, developmental, or research work required as part of this contract agrees to permit FTA to make available to the public, either FTA's license in the copyright to any subject data developed in the course of the contract, or a copy of the subject data first produced under the contract for which a copyright has not been obtained. If the experimental, developmental, or research work, which is the subject of this contract, is not completed for any reason whatsoever, all data developed under the contract shall become subject data as defined herein and shall be delivered as the Federal Government may direct.

c. Unless prohibited by state law, upon request by the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under that contract. The Contractor shall be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.

d. Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.

e. Data developed by the Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the underlying contract is exempt from the requirements herein, provided that the Contractor identifies those data in writing at the time of delivery of the contract work.

f. The Contractor agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance.

a. Withholding monthly progress payments;

b. Assessing sanctions;

c. Liquidated damages; and/or

In order to ensure that a fair proportion of the purchases of supplies and services is placed with disadvantaged business enterprises, the Contractor agrees to take affirmative action to identify disadvantaged business firms, solicit bids or quotations from them for supplies and services related to this proposal.

The Contractor agrees to meet any goals established by Agency for purchases pertaining to this contract to the best of the Contractor's ability and will provide the Agency with the necessary certification and records for reporting purposes. When the majority of the contract is labor, which is not a contracting opportunity, DBE goals will not be set but Contractors are encouraged to use DBE businesses.

The Contractor will be required to report its DBE participation obtained through race neutral means throughout the period of performance.

The contractor must promptly notify the Agency whenever a DBE subcontractor performing work related to this contract is terminated or fails to complete its work and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. The contractor may not terminate any DBE subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of the Agency.

Finally, for contracts with defined DBE contract
goals, each FTA recipient must include in each prime contract a provision stating that the Contractor shall utilize the specific DBEs listed unless the Contractor obtains the recipient's written consent; and that, unless the recipient's consent is provided, the Contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE. 49 C.F.R. § 26.53(f) (1).
