The following Crimes by Police Beat data has been extracted from the Fargo Police Department Law Enforcement Records Management System.

Number of Calls for Service

Calls for Service per Beat is a count of all criminal and non-criminal calls for service.

- Calls for Service may be community generated or officer-initiated calls.
- Calls for Service include reports completed by citizens using the online reporting system (DORS).
- Calls for Service may be handled by Officers in the field or over the phone.
- Calls for Service do not always result in a police case report being taken, and may not involve any criminal offenses/charges.

Case Offenses

Case Offenses per Beat is a count of case reports in which a Group A Offense was reported.

- Group A Offenses are defined by the FBI's National Incident-Based Reporting System (NIBRS), and does *not* include all possible criminal offense categories.

- Cases with multiple Group A Offenses reported are counted in *each* of the offense categories.

- The offense category "All Rape" includes Forcible Rape, Forcible Sodomy, and Sexual Assault with an Object. (Statutory Rape and Forcible Fondling are each counted in their own category)

- Case offenses may be added, removed, or get re-categorized if/when underlying facts change, or throughout the course of an investigation. Thus, you may see both current and historic numbers change over time.

  - For example, when a victim is shot but not killed, the offense is categorized as an Aggravated Assault. If the victim later dies, the offense is then re-categorized as a Murder/Non-Negligent Manslaughter. Another example is if a person reports their vehicle as stolen, the offense is categorized as a Motor Vehicle Theft. If the person later discovers their vehicle had actually been towed, the Motor Vehicle Theft offense would then get removed from the case.

Shootings & Shots Fired Cases (data manually tracked by Fargo PD Intelligence & Analysis Unit)

Shootings per Beat is a count of cases where a victim sustains <u>injuries</u> due to the use of a firearm, but is not killed.

- The offense in these cases are categorized as an Aggravated Assault.
- If a shooting victim is killed, the case is NOT counted as a Shooting, and the offense is categorized as a Murder/Non-Negligent Manslaughter.

Shots Fired per Beat is a count of cases where gun shots were both reported AND confirmed by evidence such as, locating ammunition casings and/or damage to property or structures due to a firearm.

- Shots Fired cases do NOT result in any reported injuries.
