Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The City of Fargo is a Community Development Block Grant (CDBG) Entitlement community and a HOME Participating Jurisdiction (PJ). This Action Plan addresses the final year of the 5-Year Consolidated Plan and focuses on fair, affordable housing and homelessness care and prevention. This focus includes meeting the only unmet goal in the 5-Year Plan, adding homeless beds. It also expands Fargo's affordable housing and neighborhoods goals by adding a new activity that will result in an increased availability of decent and safe affordable housing for Fargo's low to moderate income citizens, part of which primarily targets seniors. This Action Plan will address the following topics related to the use of CDBG and HOME funds in the City of Fargo in the 2019 program year (May 1, 2019 to April 30, 2020).

- Source of Funds, including expected grant and program income receipts
- Specific Consolidated Plan Objectives met by 2019 activities
- Summary of 2019 budget and programmatic expenditure limits
- Description of projects included in 2019 budget
- Geographic distribution of the projects
- A summary of special considerations, including discussion on the topics of homeless and other special populations, public housing, poverty reduction strategies, lead paint hazards, minority concentrations, underserved needs, removal of barriers to affordable housing, partnerships, and efforts to further fair housing
- Local plans for monitoring sub-recipients and HUD-funded activities in general
- All of the anticipated HOME funds will benefit low/mod households and, an estimated 100 percent of Community Development Block Grant (CDBG) funds will provide a low/mod benefit. The majority of activities address the HUD objective of decent housing, but there are also activities in the areas of economic opportunity and suitable living environments.
- Fair Housing & Civil Rights Progress Report – City will continue its efforts to ensure fair housing in Fargo, including implementation and ongoing changes to policy and procedures (see attached report)
- Introduction of Broadband Access, Resiliency, and EnVision Centers (see attachments for more information)

UPDATE: No comments received during the public comment periods for the 2019 Action Plan amendments (July 25 – August 25, 2019; August 27 – September 26, 2019; March 10 – April 8, 2020; May 14 – May 18, 2020; June 3 – July 2, 2020; June 10 – June 15, 2020; August 20 – August 24, 2020; and November 12 – 16, 2020).

The City of Fargo provides citizens, public agencies, and other interested persons with reasonable and timely access to information and records relating to housing and community development plans and programs and the use of housing and community development funds. There is open access to all meetings, and documents related to Fargo Housing and Community Development programs are made available upon request.

On January 8, 2019, a public meeting was held to give residents an opportunity to discuss community needs and priorities. A public notice was published in *The Forum* newspaper, information was posted on the City's website, a notice was e-mailed to 36 individuals, and notices were mailed to 109 individuals, community agencies, and nonprofit groups. In addition, a public notice was published in *The Forum* newspaper; a draft 2019 Action Plan was made available on the City's website and in the Planning and Development Department; and a 30-day comment period gave citizens, public agencies, or other interested parties an opportunity to provide input. The 2019 Action Plan was presented at the April 23, 2019 Community Development Committee meeting, the May 7, 2019 Planning Commission meeting, and as a public hearing at the May 20, 2019 Fargo City Commission meeting, with final consideration and approval on June 17, 2019.

Citizens of Fargo are encouraged to participate in the development of housing and community development programs and plans. This participation is of great use to the City in identifying community development needs, assessing the effectiveness of ongoing programs, and developing housing and community development priorities. Citizens are also encouraged to participate through organizations. Participation by

low and moderate income persons, residents of blighted areas, residents of predominantly low and moderate income neighborhoods, minority populations, non-English speaking persons, and persons with disabilities is especially encouraged. The City of Fargo will, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in the City's programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing or vision impairments. The Community Development Division maintains a database which is made up of hundreds of organizations representing these groups and individuals. Staff also attends gatherings of community groups, neighborhood organizations, and ethnic and senior communities. When the Planning and Development Department is notified that a significant number of non-English speaking persons are interested in participating in a community development meeting, contacts are made to obtain translation assistance. Information is also distributed to persons and organizations with an interest in housing and community development through direct mail to stakeholders, public meetings, newsletters, City's website, brochures, and news media.

5. Summary of public comments

Citizens and organizations have shared a number of issues, many of which are interconnected and addressed by 5-Year Plan goals. These needs are listed below:

- Affordable housing for low-income families, seniors, and persons who are homeless (homeownership and rental)
- Homelessness – many are facing homelessness in the community, and there is a constant need to serve those populations and maintain sustainability through increased advocacy for funding for the local shelters
- Youth Programming – after school and summer programs, particularly among refugees, immigrants, and New Americans
- Lending/micro-lending programs for refugee, immigrant, and New American entrepreneurs and homebuyers (common lending practices prevent some populations from securing traditional loans due to religious beliefs related to interest/also low or no credit history)
- Risk mitigation/lending for rental housing applicants, particularly among refugees, immigrants, New Americans, and Native Americans (reduces risk for co-signers, some organizations serving these populations have been doing this for a few years)
- More resources to help populations facing mental health issues, as well as drug and alcohol issues, which includes sheltering
- More programs that provide job skills training to people at any education level are needed, which will help populations move out of poverty and into owning their own homes and secure jobs to support their families.

6. Summary of comments or views not accepted and the reasons for not accepting them

All comments are accepted and considered in the development of the 2019 Action Plan for Housing and Community Development.

AP-10 Consultation – 91.100, 91.200(b), 91.215(I)

1. Introduction

For the development of this Action Plan, the City of Fargo followed its Citizen Participation Plan. Information outlining the plan development process was distributed throughout the community (145 organizations and individuals) and posted on the City's website (www.fargond.gov). Several needs were identified through a mixed method approach including a combination of conversations with community members and organizations, a formal application process, and a public meeting to hear about the needs of the community. Results of this process were shared with Fargo's Community Development Committee, which appointed a proposal review subcommittee made up of three of its members and City staff. The subcommittee reviewed proposals received by the community and recommended the activities and budgets outlined in this plan. On April 23, 2019, the proposed activities and budget were presented to the Community Development Committee, which made a recommendation to proceed with the proposed plan, including a 30-day public comment period and public hearing at a Fargo City Commission meeting as required by the City's Citizen Participation Plan.

Notification of the Action Plan schedule, activities, and budget was published in *The Forum* newspaper, distributed to persons interested in housing and community development and the news media, and posted on the City's website. The notice included locations of where it was available for review, and how to obtain a copy. The City also offered to provide a reasonable number of free copies of the Action Plan to citizens or groups by request. A news release linked the plan and public notice, and viewers were able to read it in multiple languages and were offered an interpreter to translate and explain the plan and notice.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))

The City of Fargo works closely with the Fargo Housing and Redevelopment Authority, which is authorized to allocate Federal government resources to address the housing needs of the City's lowest-income households. The City also has ongoing relationships with housing providers working on housing development activities (CHDOs and non-CHDOs). Through support and engagement in the ND Continuum of Care process, the local homeless coalition, and other supportive housing collaborations, the City maintains relationships with mental health providers, homeless shelter and service providers, and other governmental agencies with specific responsibilities to assist homeless individuals and families. In addition, the City participates in a variety of other coalitions that seek to address issues that relate to housing and service needs.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

City staff works actively with the North Dakota Continuum of Care and local homeless coalition through the City's Department of Planning and Development, the City-operated Gladys Ray Emergency Shelter and Veteran's Drop-In Center, and a number of local nonprofit housing, shelter and support partners. Staff participates in regularly scheduled meetings and point-in-time surveys. The City also provides administrative and general fund support to supplement Continuum of Care initiatives in Fargo and the State of North Dakota. This plan also includes funding to assist general operations of the Fargo Moorhead Coalition to End Homelessness (FMCEH), ultimately allowing for more dedicated time on CoC-related efforts.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Staff from the City participate in the development of the Continuum of Care, working with area service providers, to include City resources and HMIS reporting in the provision of service to homeless individuals and families in Fargo.

	Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?	Agencies were notified of public meetings and consultations. More can be done to bring private sector resources to private/public housing partnerships. Housing tax credits are a powerful resource. Support for the ND Housing Incentive Fund and Federal Low Income Housing Tax Credits offers additional affordable housing resources and leverage. Specific populations in need include low-income elderly populations, people with disabilities/special needs, workforce populations and families, as well as individuals and families that are homeless or precariously housed. Land is needed to support future affordable housing development. There is a need for continued investment of CDBG and HOME dollars in the production of affordable housing, concentrating on public/private partnerships. Housing tenure in Fargo is weighted toward rental. As such, affordable senior and assisted living options are needed, especially in connection with the City's existing public housing and Low Income Housing Tax Credit properties. In addition, there is a strong concentration on resources and efforts towards affordable housing on the rental side, especially with senior populations.

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

Stakeholder participation is central to the City in identifying community development needs, assessing the effectiveness of ongoing housing and community development programs, and developing community development priorities. It is important to use all available methods to determine community development needs, assess effectiveness of existing programs, and develop community development plans. The City of Fargo obtains citizen input through conversations with people, consultation with housing and service providers, and adjacent units of local government, in an effort to better ascertain Fargo's community development needs. The City encourages and seeks participation from all citizens and emphasizes the involvement of low and moderate-income persons, residents of blighted areas, residents of predominantly low- and moderate-income neighborhoods, minority populations, non-English speaking/limited English proficiency persons, and persons with disabilities. Many of the organizations working with these populations received plan development information and an application for funds. See attachment for a list of these organizations and which ones predominately serve racial/ethnic minorities, non-English speaking persons, persons with disabilities, and protected classes that are historically discriminated against.

Prior to the solicitation and selection of the 2019 community development projects, a series of meetings were held. Staff met with representatives of area municipalities, local governments, and community-based organizations, in addition to service and housing-related agencies to encourage citizen participation. A citywide public input meeting was held to inform the public about the CDBG and HOME programs, community development assets and needs, types of projects eligible for funding, and the process for selecting projects. The low-moderate income population in Fargo is not in one concentrated area. For that reason, the public forum and hearings were held at City Hall in the downtown area, which is inclusive of the City's Census Tracts and Block Groups that contain the most sizable population of very-low and low-income residents. All meetings were held in locations accessible to people with disabilities. Alternative formats of the information or reasonable accommodations for persons with disabilities or limited English proficiency, including the availability of interpretation and translation services were available upon request through the Planning and Development Department. Auxiliary aids or other services were also provided upon request to hearing or sight-impaired residents to enable full participate in the citizen participation process.

The Community Development Committee gathered input in the months leading up to submission of the plan. The list of consultations in the Consultation section represents the formal contacts made to gather information and to further coordination of program delivery. The City

Commission held a public hearing for the plan on May 20, 2019. The plan is available to the public on the City's website at www.fargond.gov and in paper format upon request.

Announcement of the City of Fargo's 2019 Annual Action Plan was published as a public notice in *The Forum*, and publicized through a media release and the City's website. Public notices on the City's website are accessible for translation into over 100 languages. The Annual Action Plan was available during the public comment period on the City's website, and was also distributed to area libraries for viewing. The City provided copies of the plan to citizens or groups upon request.

The citizen participation outreach process for the August 26, 2019; October 7, 2019; April 20, 2020; May 18, 2020; June 15, 2020; July 13, 2020; August 24, 2020; and November 16, 2020 amendments were added to the chart below.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The City combined its federal entitlement allocations with funding from other public and private sector sources (such as the Neighborhood Revitalization Initiative) to address its priority needs.

Upon becoming a HOME Participating Jurisdiction, the City of Fargo became responsible for documenting appropriate match in conjunction with receiving HOME funds. For the 2015-2019 Consolidated Plan, \$100,000/year in matching fund liability is anticipated. The sources of match will include homeowner contributions and local payments in lieu of taxes. The City also has \$43,800 in HOME program income, \$36,200 of which was recaptured homebuyer funds.

Additional funding that is expected to be available during the next five years that will be useful for leveraging includes the Public Housing Capital Fund, Section 8 Vouchers, newly transferred Section 8(bb) HAP vouchers from Wahpeton, ND, City General Social Service Funds, Kresge grant funds for creative place-making and inclusion planning, Neighborhood Revitalization Initiative (NRI) rehabilitation loan funds in partnership with Gate City Bank, state and federal resources including those from the ND Housing Finance Agency, and PILOT and Capital Bonds.

The City regularly applies for competitive federal, state, and foundation grants when it meets the application criteria, as do many non-profit and for-profit organizations. However, the nature and amount of such funding is unknown at this time.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City will consider the use of publicly-owned land for the construction of affordable housing for low-to-moderate income households.

Discussion

In 2019, the City will use CDBG and HOME in partnerships to leverage private, state and local funds to address goals and strategies outlined in Fargo's Consolidated Plan. The City will also continue to identify strategies to be used for a variety of activities with respect to affordable housing and community development.

Goal Descriptions

1	Goal Name	Affordable Housing
	Goal Description	<p>Create and maintain affordable housing options and increase homeownership in Fargo</p> <ul style="list-style-type: none"> • Rehabilitate older owner-occupied housing • Work with local partners to create new housing and rehabilitate existing affordable housing throughout the community, including the preservation and replacement of the existing subsidized housing (i.e., activities may include acquisition and/or slum/blight abatement) • Assist low-income homeowners with infrastructure assessments to help maintain the affordability of homeownership • Increase public awareness of affordability concerns and the needs of at-risk populations • Provide opportunities for housing education to potential and recent homeowners and tenants • Increase homeownership rates for minority populations

2	Goal Name	Homelessness
	Goal Description	Participate in collaborative efforts to reduce and prevent homelessness in the community <ul style="list-style-type: none"> • Work on Fargo’s 10 Year Plan to End Long-Term Homelessness • Support a continuum of housing and emergency solutions for Fargo’s population facing homelessness • Encourage the development of supportive housing partnerships • Public facility improvement projects for homeless shelters • Adding homeless beds (i.e., may include acquisition of property)

Table 7 – Goal Descriptions

Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.215(b):

In addition to 480 general occupancy public housing units, Fargo has the authority to issue 100 VASH vouchers for homeless vets and 1,194 tenant-based rent assistance vouchers that can be used in suitable market rate housing. A Section 8(bb) HAP voucher transfer is also currently taking place for the first time ever in this region, which will add more housing vouchers to the community. There are also multiple affordable units city-wide subsidized by project-based vouchers and/or rental assistance or other means, including but not limited to 161 units owned and managed by the FHRA and 22 single-room occupancy units owned by the City and managed by FHRA, and 53 other units managed by FHRA. However, for most forms of subsidized housing, long waiting lists exist. For example, the tenant-based rent assistance voucher program maintains a waiting list. Over time, the number of vouchers has increased, but at a lower rate than household growth in Fargo.

AP-35 Projects – 91.220(d)

Table 8 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved

needs

Projects focus on housing and homelessness goals, and fewer and larger projects to quickly and correctly spend down funds in order to be successful for the 2020 HUD CDBG timeliness test. CDBG funded projects include housing rehabilitation, fair housing activities, and homelessness prevention and direct care/sheltering. HOME funded projects include owner-occupied housing rehabilitation, multi-family construction, and possibly multi-family rehabilitation. Allocation priorities are a result of the citizen participation and plan development process, including unmet goals (adding homeless beds) and requirements (failed timeliness test) of the 5-Year Consolidated Plan. This Action Plan outlines the final year of the 5-Year Consolidated Plan.

Limited resources throughout the community present an obstacle in addressing underserved needs. A frequent comment received from community organizations and service providers is that funding is limited or has been cut entirely. CDBG/HUD funding has also not increased much over the years. The City can work to increase its capacity to effectively partner with local nonprofit, public, and for-profit organizations to leverage funds, but the City cannot overcome the funding cuts that so many organizations are experiencing.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

While there are no specified “Target Areas” identified in the 2019 Action Plan, the City of Fargo does prioritize its community development activities to neighborhoods that are predominately low to moderate income areas. The Planning & Development Department is currently working on core neighborhood plans, which will likely incorporate HUD-related activities. These neighborhoods and other low to moderate income areas typically share a number of characteristics that warrant community development interventions (e.g., housing rehabilitation, slum and blight abatement/removal, re-investment, community centers/parks, affordable housing, etc.).

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

The need for affordable housing continues to be on the rise, especially with aging Baby Boomers. In 2019, Fargo's affordable housing work involves creating and maintaining housing options and solutions. To do this, the City will rehabilitate older owner-occupied housing, work with local partners to create new housing and rehabilitate existing affordable housing, increase public awareness of affordability concerns, and work to increase homeownership rates for minority populations.

AP-60 Public Housing – 91.220(h)

Introduction

The Fargo Housing and Redevelopment Authority (FHRA) and City continue to address the needs of its public housing inventory and encourage residents to be involved in its operations.

The City is working closely with the Fargo Housing and Redevelopment Authority (FHRA) to rehabilitate and expand its affordable housing stock and the overall living environment for residents. The FHRA meets the needs of its tenants through regular physical, operational, and management improvements, which are listed in its Five-Year Agency Plan and annual updates. The FHRA is engaged in efforts to improve its housing stock and the overall living environment for residents.

Actions planned during the next year to address the needs to public housing

The Fargo Housing and Redevelopment Authority (FHRA), as a public service agency, is committed to providing excellent service to all public housing applicants, residents, and the public. In order to provide superior service, the FHRA resolves to:

- Administer applicable federal and state laws and regulations to achieve high ratings in compliance measurement indicators while maintaining efficiency in program operation to ensure fair and consistent treatment of clients served.
- Provide decent, safe, and sanitary housing in good repair - in compliance with program uniform physical condition standards - for very low and low income families.
- Achieve a healthy mix of incomes in its public housing developments by attracting and retaining higher income families and by working toward de-concentration of poverty goals.
- Encourage self-sufficiency of participant families and assist in the expansion of family opportunities which address educational, socio-economic, recreational and other human service needs.
- Promote fair housing and the opportunity for very low and low income families of all races, ethnicities, national origins, religions, ethnic backgrounds, and with all types of disabilities, to participate in the public housing program and its services.
- Create positive public awareness and expand the level of family and community support in accomplishing the FHRA's mission.
- Attain and maintain a high level of standards and professionalism in day-to-day management of all program components.
- Administer an efficient, high-performing agency through continuous improvement of the FHRA's support systems and commitment to our employees and their development.

The FHRA rehabilitated New Horizons Manor through the HUD RAD program, which program converts Public Housing units through LIHTC and other financial sources, and provides a voucher to the tenants for subsidy.

The Fargo Housing and Redevelopment Authority (FHRA) is responsible for managing low-rent public housing and Section 8 rental assistance. It owns and manages 161 rental units subsidized with project-based assistance: 5 efficiencies, 90 one-bedroom units, 54 two-bedroom units, and 13 three-bedroom units. Beyond Shelter, Inc. now owns and manages 840 units, formerly counted as owned and managed by FHRA. It also has 480 public housing units: 292 1-bedroom units, 90 2-bedroom units, 70 3-bedroom units, and 23 4-bedroom units. It also manages 107 Housing First supportive housing units.

The FHRA has 1,194 Housing Choice Section 8 vouchers plus 100 VASH (Veterans) vouchers to serve the community. The FHRA manages 4 Continuum of Care Projects for the homeless, which serve as housing vouchers for another 59 homeless households. In 2018, the FHRA also had 8 Voucher Homeownership units and sold Public Housing units to 59 low income tenants. The Authority takes a soft second on the mortgage which is payable upon resale of the property.

In the past year, FHRA began two new supportive rental assistance programs: 50 Mainstream vouchers for disabled households under 62 years of age and 40 Family Unification Program Vouchers with two target groups – families being reunited through Cass County Child Protection and youth aging out of foster care working with case management.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The Fargo Housing and Redevelopment Authority (FHRA) works to engage, educate, and empower residents by providing opportunities for personal development, economic stability, education, health, and fostering family and community life.

The FHRA has active Resident Councils in their public housing buildings, and the Permanent Supportive Housing facility Cooper House, which meet monthly. All properties are managed by the FHRA, with one resident per 100 residents that are on the Resident Advisory Board (RAB). Lashkowitz High Rise has three representatives with a population of 247. Cooper House has one representative with a population of 42 residents. All policy changes for the Annual Plan are reviewed with the RAB and a vote being tallied. The FHRA Board of Commissioners will not vote on policy change until it has been reviewed with RAB. The Board presently has one past resident and one current resident commissioner. The FHRA Annual Plan is submitted to the Fargo Mayor and City Commissioners.

The FHRA had sponsored three homeownership programs: 20 units in public housing in the 1990's, Section 5(h) Homeownership program that sold 39 units to public housing residents in early 2000, and Housing Choice Voucher homeownership program with 11 voucher holders which began in 2009. A Section 8(bb) HAP voucher transfer is also currently taking place for the first time ever in this region, which will add more housing vouchers to the community, some of which will be managed by the FHRA.

If the PHA is designated as troubled, describe the manner in which financial assistance will be

provided or other assistance

Not applicable. The FHRA is not designated as troubled.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

Homelessness encompasses a population that is elusive, hidden, highly mobile, and characterized by diverse and complex circumstances. In order to identify the needs of persons who are homeless in Fargo, the City works closely with the local homeless coalition, service and housing providers, and the ND Coalition for Homeless People, which manages the Continuum of Care and Homeless Management Information System (HMIS) for North Dakota.

On October 25, 2018, a total of 243 interviews (136 Fargo) were conducted face-to-face, point-in-time interviews with persons experiencing homelessness in the metro area. This survey replaced the Wilder Survey in Fargo, with 2018 being the first year, titled the Everyone Counts Survey. It provides instant data and faster analysis than the Wilder Survey. Eventually, this survey may be replaced, too, by live data from the coordinated assessment and referral evaluation system, “CARES”, depending on what kind of information can be collected and input into the system. This survey was funded with Fargo CDBG just as the Wilder Survey. The City relies on the information collected, particularly for HUD programming, and because the new survey is designed locally, the City may also be involved in designing questions on the survey if any specific data is needed by the City. Some of the survey results are shared below.

Raw Data of People Experiencing Homelessness in Fargo

- 136 total interviewed: 104 were sheltered, 25 were unsheltered, and 7 were doubled up
- 46% were aged 25-44, 37% were 45-64
- 65% male
- The vast majority were single; 64% never been married, 33% separated or divorced
- 57% were people of color, as opposed to 43% white
- 46% reported having a disability
- 49% reported having a chronic health condition
- 26% reported being diagnosed with at least one substance abuse disorder

Special Needs

There is also a growing number of other individuals with special needs who are not homeless, including those who are elderly, frail elderly, those who live with a disability (mental, physical, developmental), and victims of domestic violence. The City also works closely with partners directly assisting people living with special needs.

According to the most recent 5-Year American Community Census Estimates (2013-2017), 11.4% of the Fargo population is age 65 or older, a slight increase from what was reported in the City’s 2018 Action Plan. Additionally, 21.2% are under 65 and live with a disability; this number has more than doubled from last year’s Action Plan reporting. In 2017, the YWCA of Cass-Clay County provided emergency shelter for 1400 women and children, 59% of whom were escaping domestic violence. Twenty-three of

those women and children went on to supportive housing. Additionally, according to the Anne E. Casey foundation 419 children were placed in foster care in 2017 in Cass County. This continues a steady increase since 2013.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City Planning Department continues to be involved in local and statewide Continuum of Care efforts and regularly provides CDBG funds to support the planning process. This includes funding studies and data collection efforts that give us a better understanding of the homeless population in the community (i.e., Everyone Counts Survey, point in time counts, coordinated assessment, etc.). Although the City's "10-Year Plan to End Long-Term Homelessness" has ended, the City continues to be engaged in conversations with public and private partners from the metropolitan area to determine next steps in continued efforts to end homelessness in the community.

Addressing the emergency shelter and transitional housing needs of homeless persons

In 2019, CDBG funds will be utilized to provide operating and building rehabilitation support at Fargo's Gladys Ray Shelter. Generally, emergency shelter and transitional housing needs are met within the community through strong collaboration between shelters, housing agencies, and service providers.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City of Fargo's primary response to helping homeless persons make the transition to permanent housing and independent living continues to be through its ongoing partnerships with area service providers and organizations, including the Fargo-Moorhead Coalition to End Homelessness and North Dakota Continuum of Care, which organize around the implementation of the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act. These agencies focus on planning and delivering housing and services for people who are homeless, including homelessness prevention. Members of the Coalition currently operate in partnership with the local coordinated assessment and referral evaluation system, "CARES", which helps to coordinate, prioritize, refer, and evaluate people who are seeking shelter or services. The information obtained is also used by homeless and housing

providers to identify gaps and improve performance.

Local organizations also work with ongoing McKinney-Vento homeless projects to improve outcomes related to transitioning to permanent housing, reducing the number of veterans and families with children that are homeless, assisting youth aging out of foster care, as well as lowering the number of people who become homeless again.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Approximately one third of the persons experiencing homelessness were identified as chronically homeless in the 2018 Everyone Counts point-in-time study. The City operates the Gladys Ray Shelter and Veterans Drop-In Center. These efforts, in addition to other funding support from the City's General fund as well as staffing support to local shelters, service and housing providers are key to addressing the needs of individuals entering and exiting the criminal justice system; working to incorporate housing into the discharge planning being done by healthcare facilities; and identifying solutions to address concerns of youth homelessness and kids aging out of foster care. This work is critical toward ensuring that the issue of homelessness is addressed along a community-wide continuum of prevention and intervention strategies.

One of the core goals of the upcoming draft plan responding to homelessness is to ensure that organizations are not discharging people into homelessness. The City has funded and proposes to fund the Fargo-Moorhead Coalition to End Homelessness in this plan. They work closely with area Continuum of Cares and other partners regarding this issue.

Discussion

One year goals for the number of households to be provided housing through the use of HOPWA for:
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family
Tenant-based rental assistance
Units provided in housing facilities (transitional or permanent) that are being developed, leased, or operated
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds

AP-75 Barriers to affordable housing – 91.220(j)

Introduction

The 2019 Action Plan demonstrates significant support for the maintenance and creation of affordable housing in the community.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Availability of both new and existing units of affordable housing has been an increasing challenge in Fargo, both for renters and owners. Fargo's approach to addressing affordability includes local regulatory review and coordination and development of local financing alternatives. Significant effort has been made to ensure that local regulation does not act as a barrier to housing affordability. The City's tax policies, zoning controls, building inspections and housing-related incentives, for the most part, do not act as a barrier to affordable housing creation/preservation.

Tax Policies

The City has a two-year property tax exemption for newly constructed owner-occupied housing that is weighted more heavily toward affordable units. Fargo also has a property tax exemption for home remodeling projects that freezes the pre-rehab value for a period of 3-5 years, depending on the age of the home. In addition, the State of North Dakota has a Homestead Tax Credit that is designed to reduce the property tax burden on low-income elderly and disabled homeowners. One potential issue with the homestead credit is the limit established by statute on the value of eligible property. The current statute says that only the first \$100,000 of a property's value is eligible for exemption.

The City is examining its Tax Increment Financing (TIF) policy to focus local incentive dollars on encouraging affordable housing development; previously, the policy was for any housing development, which often resulted in higher end, more expensive rental housing development. Additionally, the City has begun training and educating local developers on the use of 4% LIHTCs, which are rarely used throughout the state. This has already resulted in one planned development with more being considered.

Zoning and Land Use Controls

Fargo does not have an outer ring growth boundary but is encouraging smart growth to allow for more efficient use of existing infrastructure systems. The Fargo Land Development Code outlines several categories of residential zoning that allow for variation in lot sizes and densities. The City of Fargo adopted a zoning category (SR-5) for the specific purpose of providing developers with an opportunity to build housing on smaller lots, with the end result often being an increase in affordability. The Code also

allows for cluster housing development and other alternative development models, facilitating the efficient use of land for the development of housing.

The process of applying zoning to property is an area that can prove challenging to developers, particularly developers interested in building affordable housing. The community often displays fears of density, in general, and affordability, in particular. This can prompt changes in subdivision design that negatively affect project affordability. The Planning & Development Department has released a Request for Qualifications “RFQ” to analyze the City’s current Land Development Code. While there are no direct barriers to affordable housing in the current version, this analysis should identify areas of inadequacy and/or deficiency, particularly those that may impact or limit affordable housing development (i.e., density, use/zoning, etc.). Additionally, the Department is working on Core Neighborhood Plans that will address preservation and areas of infill. Affordable housing could potentially be increased under these categories by partnering with affordable housing development/preservation organizations such as Habitat for Humanity or Rebuilding Together.

Building Codes

The HUD funded Single-Family Housing Rehabilitation Loan Program helps remove code-related barriers to affordable housing. This program assists homeowners with building code deficiencies, critical repairs, and maintenance. Not only does this program keep housing affordable, decent, and safe for homeowners, but also keeps Fargo’s housing stock from becoming blighted.

AP-85 Other Actions – 91.220(k)

Introduction

The City will undertake, or support the efforts of other agencies that meet the needs of low-income persons and households.

Actions planned to address obstacles to meeting underserved needs

The City will work with funding agencies, including Cass County, United Way of Cass-Clay, FM Area Foundation, Dakota Medical Foundation, and the Impact Foundation to coordinate and meet the needs of the community.

The City will seek opportunities to increase funding available for affordable housing.

The City will work to inform lenders and households regarding Fair Housing laws, and in particular, to encourage greater participation by minorities and ethnic groups disproportionately represented in homeownership.

Actions planned to foster and maintain affordable housing

Most of the City's affordable housing inventory is owned and managed by non-profit housing providers. There is little risk that projects will be lost from the affordable housing inventory. Regardless, the City will work with these providers when time comes to ensure continued viability of the housing.

The City will work with homeowners and owners of private multifamily rental units to identify obstacles and opportunities for rehabilitation and preservation.

Actions planned to reduce lead-based paint hazards

All housing rehabilitation efforts on homes that were built before 1978 will include lead-based paint hazard evaluations. All hazards will be addressed, either through abatement or interim controls to minimize the hazards.

The City will continue to provide educational information about the hazards of lead-based paint.

Actions planned to reduce the number of poverty-level families

The City continues to support the efforts of nonprofit and public agencies that work to reduce the

number of families living in poverty.

Actions planned to develop institutional structure

The City is a partner in identifying ways to coordinate and improve the effectiveness of the institutional systems, housing and community development needs.

The City will continue to work with all housing and human service agencies to coordinate and improve communications. The Community Development Committee is one mechanism for hearing issues and addressing ways to improve the service delivery and housing system in Fargo.

Actions planned to enhance coordination between public and private housing and social service agencies

The City will continue to support the efforts of housing and service agencies in the community. Fargo continues to expand its representation and presence with housing, social and human service agencies. In 2016, the North Dakota Housing Finance Agency completed a Statewide Housing Needs Assessment. In 2015, the Community Development Committee oversaw the development of a Fargo Housing Study. Around the same time, a Workforce Study was completed by the Fargo Moorhead Economic Development Corporation. The available data was instrumental in the creation of a Build Housing Workgroup, which includes multi-sector representation from the region and focuses specifically on attainable housing to support upward mobility for people in low-wage, basic skill jobs. The result has contributed to the coordination of public and private housing organizations in Fargo's Action Plan through partnerships to develop employer funded housing, tenant and homebuyer education (which the Village Family Service Center stopped offering in 2016), create a regional housing trust fund, and support local and statewide housing programs and policies.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City uses no other form of investment beyond those identified in Section 92.205. Under 92.205, a participating jurisdiction may invest HOME funds as equity investments, interest-bearing loans/advances, non-interest-bearing loans/advances, interest subsidies consistent with the purposes of the HOME program, deferred payment loans, grants, or other forms of assistance that HUD determines to be consistent with the purposes of the program. Each participating jurisdiction has the right to establish the terms of assistance, subject to the requirements. The City of Fargo generally invests HOME funds as a deferred payment loan or grant with conditions.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

Recapture policies must be in place to assure that HOME-assisted housing units remain affordable through deed restrictions, covenants attached to the land, mortgages, or other similar mechanisms. The City of Fargo typically accomplishes this by using a Land Use Restrictive Agreement (LURA). All HOME funded projects in Fargo's 2019 Action Plan are subject to the recapture provision, as opposed to the resale provision. The HOME CHDO project is required to follow the City's recapture policy.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

All HOME funded projects in Fargo's 2019 Action Plan are subject to the recapture provision, as opposed to the resale provision. The recapture option follows the provisions in 24 CFR 92.254(a)(5)(ii), which allows for recapturing the entire amount of HOME investment based on specific criteria that are established within the City's Recapture Policy. Only direct subsidy to the homebuyer is subject to recapture. The amount recaptured must be limited to the net proceeds from the sale (24 CFR 92.254). Any recaptured funds must be used to carry out eligible HOME activities. In the case of CHDO proceeds, the City of Fargo permits Beyond Shelter, Inc. to retain any CHDO proceeds resulting from the HOME investment with the condition that the proceeds be used to develop additional affordable housing in the City of Fargo (24 CFR 92.3000(a)(2)) following the City's Recapture Policy. In addition, all CHDO proceeds and uses will be reported to the City.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that

will be used under 24 CFR 92.206(b), are as follows:

Fargo does not intend to use HOME funds to refinance existing debt that is secured by housing that is being rehabilitated with HOME funds (as per 92.206(b)). The City will use only the forms of investment described in 24 CFR 92.205(b) (grants, deferred payment loans, non-interest bearing loans).

Discussion

The after HOME rehabilitation value of owner-occupied, single-family properties in the city of Fargo, will not exceed 95% of the area median purchase price. The 95% median purchase price for the area is determined by using the HOME affordable homeownership limits provided by HUD (24 CFR 92.254 (a)(2)(iii)).

- **Activity Amendment: Slum & Blight Abatement/Hazardous Property Clearance at 916 5 Avenue South**

This activity is included in the City's 2018 Annual Action Plan. Each time location, project scope, and budget are identified, the City must make a "substantial amendment" to the plan. Activities will include demolition and future construction of a single-family housing unit in partnership with the Cass Clay Community Land Trust (CCCLT). *National Objective: Low to Moderate Income Housing Benefit [570.208(a)(3)]. CDBG Matrix Codes: 04 Clearance & Demolition and *12 Construction of Housing. Eligibility 24 CFR Part 570.201 (a) and 570.201 (m). *CDBG funds will only be used to fund demolition, construction of housing will be funded and performed by the CCCLT.*

Financial – \$65,000 is the estimated combined cost for any environmental (e.g., asbestos removal, hazardous materials abatement, etc.) and demolition-related expenses.

2. 2019 Action Plan

- **Activity Amendment: Affordable Housing Development at 712 4 Avenue North & 314/320/324 7 Street North**

This activity is included in the City's 2019 Annual Action Plan. Each time location and project scope are identified, the City must make a "substantial amendment" to the plan. Activities will include disposition of City-owned land previously purchased with CDBG funds. These properties will be donated to an affordable housing developer to build new units which will be occupied by households earning 80% or less of the Area Median Income. At least 51% of the units built on this site must meet this criteria. Reference items #2-3 in the "Changes of Use" section of this notice. *National Objective: Low to Moderate Income Housing Benefit [570.208(a)(3)]. CDBG Matrix Codes: 02 Disposition and *12 Construction of Housing. Financial – No new costs associated with this activity amendment; property will be donated.

3. Citizen Participation Plan

HUD requires its Grantees to adopt a Citizen Participation Plan that sets forth the City's policies and procedures for citizen participation related to its HUD HOME & CDBG programs. The current Citizen Participation Plan is outdated and periodic updates are recommended. A draft copy of the amended plan may be reviewed at www.FargoND.gov or by request through the Planning & Development Department.

CHANGES OF USE

4. Change of Use at 11 11 Street North

CDBG funds were used in 2014 to eliminate conditions of slum and blight at this location. At this time, the City intends to sell this property to the entity with the highest offer and/or best use plan in the neighborhood. The minimum offer accepted must be equal to or more than the current fair market value as determined by an appraisal (underway). With the initial HUD National Objective being met (i.e., slum & blight removal) and no eligible activities proposed or materialized over the past 6 years, the City must now change the use at this site and sell the land to another entity which may or may not directly benefit low and moderate income beneficiaries. Proceeds from the sale will replenish the local CDBG account and become available for use in the City's upcoming 2020 Action Plan.

5. Change of Use at 712 4 Avenue North & 314/324 7 Street North

CDBG funds were used between 2008 and 2013 to eliminate conditions of slum and blight at these locations. At this time, the City intends to release a Request for Proposals to redevelop this site as a new eligible CDBG use activity, affordable housing. Activities will include disposition of City-owned land previously purchased with CDBG funds. Once an acceptable proposal is received, the new activity will be included in the 2019 Action Plan under the existing Affordable Housing Development activity (see Item #2 in the "Amendments" section of this notice). *National Objective: Low to Moderate Income Housing Benefit [570.208(a)(3)]. CDBG Matrix Codes: 02 Disposition and *12 Construction of Housing. Eligibility 24 CFR Part 570.201 (b) and 570.201 (m). * CDBG funds will not be used to fund future construction, unless otherwise included in a future amendment involving citizen participation.*

6. Change of Use at 320 7 Street North

CDBG funds were used in 2002 to purchase this vacant property to support the adjacent Native American Program offices (relocated in 2008). At this time, the City intends to release a Request for Proposals to redevelop this site as part of a larger combination of sites (see #2 above). The new use will be affordable housing, which is an eligible CDBG activity. Activities will include disposition of City-owned land previously purchased with CDBG funds. Once an acceptable proposal is received, the new activity will be included in the 2019 Action Plan under the existing Affordable Housing Development activity (see Item #2 in the "Amendments" section of this notice). *National Objective: Low to Moderate Income Housing Benefit [570.208(a)(3)]. CDBG Matrix Codes: 02 Disposition and *12 Construction of Housing. Eligibility 24 CFR Part*

*570.201 (b) and 570.201 (m). * CDBG funds will not be used to fund future construction, unless otherwise included in a future amendment involving citizen participation.*

As per notification from the developer, this activity’s timeline has been delayed and withdrawn from 2019 award funds. It may be considered for a future HUD HOME activity. The \$350,000 in HOME funds for this activity will be reallocated, see amendment #1(b).

b) Project site/activities/budget identified – 4462 30 Avenue South – “Elliott Place” – Fargo Housing & Redevelopment Authority

Activities include construction of a multifamily senior rental housing complex consisting of two buildings in partnership with Fargo Housing and Redevelopment Authority. The proposed HOME allocation for this activity is \$350,000 in reallocated 2019 HOME funds, see amendment #1(a).

c) Revision of Contingency Language

A 2019 Action Plan amendment approved at the October 7, 2019 Fargo City Commission meeting stated if any other HOME Affordable Senior Housing Development activity were to be canceled, HomeField 3 would be funded up to the full request of \$515,000. Notice of Public Hearing & Public Comment Period Amendments to 2019 Action Plan Community Development Block Grant (CDBG)

The City of Fargo is considering COVID-related amendments to its 2019 Action Plan, previously approved by City Commission on June 17, 2019 and May, 18 2020. An additional allocation of funding has been released for COVID-related response, prevention, and preparation as part of the CARES Act and must be included in the annual action plan. These proposed amendments are considered substantial amendments and must go through a citizen participation process. The details and timeline for this process are outlined below. Upon City Commission action on August 24, 2020, a recommendation regarding these amendments will be forwarded to HUD for their consideration and approval.

Final City Commission Consideration: Monday, August 24, 2020

Summary of Proposed Amendments to 2019 Action Plan:

1. Activity Amendment – Previously advertised as:

“Temporary Rental Assistance – \$464,253 CDBG COVID1 granted to the State of North Dakota to assist Fargo residents through its North Dakota COVID-19 Emergency Rent Bridge program or other similar program.”

Proposed changes would expand the project description to not only include assistance for rent, but also for mortgage payments, utilities, security deposits, and other homeless or eviction prevention-type assistance as approved by the City of Fargo, for up to 6-months per household. Emergency payments will be made directly to the provider of items or services on behalf of an individual or household. Additionally, a portion of the funds may be used for operational support to administer these funds promptly and closely screen beneficiaries to prevent a duplication of benefits, which is prohibited with HUD CDBG-CV funds. Also, as part of this proposed amendment (under the previously advertised “or other similar program”), the activity name is revised, partners are identified, and budgets are determined (see below):

Emergency Subsistence Payments [*Eligibility & Regulation Citation: 05Q Subsistence Payments – 24 CFR 570.207(b)(4)*]

- SouthEastern North Dakota Community Action Agency (SENDCAA) - \$205,000
- Presentation Partners in Housing - \$205,000

Several people have been impacted by the COVID-19 pandemic, particularly those who have low income. Many jobs were lost and in some cases, housing was lost. Keeping people housed, rapidly re-housing, or housing people who are currently homeless instantly provides a safe place for quarantine isolation and social distancing. Ultimately, this response reduces the spread of COVID-19 and keeps the community's hospitals from being inundated.

2. Add Activity – Gladys Ray Shelter Partitioned Bunk Beds *[Eligibility & Regulation Citation: 03C Homeless Facilities (not operating costs) – 24 CFR 570.201(c)]*

Utilize \$50,000 to fabricate and install professionally manufactured bunk beds with solid separation panels. This response reduces the spread of covid-19 by immediately increasing the separation capabilities of people sleeping in tight shelter dorm rooms.

3. Activity Amendment: Affordable Housing Development at 702 2 St N

Activities will include disposition of City-owned land previously purchased with CDBG funds (to demolish blighted house). This property will be donated to Lake Agassiz Habitat for Humanity to build a new unit which will be occupied by a household earning 80% or less of the Area Median Income. Upon occupancy, the City will record a secondary mortgage for the land value with the homeowner, which shall be repaid upon sale or vacancy. *National Objective: Low to Moderate Income Housing Benefit [570.208(a)(3)]. CDBG Matrix Codes: 02 Disposition and *12 Construction of Housing. Eligibility 24 CFR Part 570.201 (b) and 570.201 (m). * CDBG funds will not be used to fund future construction, unless otherwise included in a future amendment involving citizen participation.*

The remaining funds will be used for CDBG-CV administration and/or contingency (\$4,253).

1. **Activity Amendment – Previously advertised as “Temporary Rental Assistance – \$464,253 CDBG COVID1 granted to the State of North Dakota to assist Fargo residents through its North Dakota COVID-19 Emergency Rent Bridge program or other similar program.”**

Proposed changes would expand the project description to not only include assistance for rent, but also for mortgage payments, utilities, security deposits, and other homeless or eviction prevention-type assistance, as well as operational administration support, as approved by the City of Fargo, for up to 6-months per household. Emergency payments will be made directly to the provider of items or services on behalf of an individual or household through City of Fargo partners, SouthEastern North Dakota Community Action Agency (SENDCAA) and Presentation Partners in Housing.

Re: Application for City of Fargo Community Development Block Grant Funds

In the past, organizations have received an annual invitation to apply for City of Fargo community development funds via a single application process. Depending on the type of request, applicant goals, and project readiness, organizations were funded through either the City's Social Service Fund or the Department of Housing and Urban Development's (HUD) Community Development Block Grant (CDBG). While the Social Service Fund is primarily flexible, funding through the CDBG program is federal and highly regulated through specific requirements related to goals, reporting, spending deadlines, eligibility criteria, and oftentimes income-limits.

To simplify the application process and guide organizations to the most appropriate funding source, the City has separated the applications and processes: one for the City's Social Service Fund (mailed in October with November due date) and one for CDBG. At this time, organizations are invited to apply for the City's Community Development Block Grant program. Goals of the program are outlined in the 5-Year Consolidated Plan located on the City of Fargo's website: www.fargond.gov/planninganddevelopment/plansandstudies. The application is online at www.fargond.gov/communitydevelopmentgoals. Paper or email copies may also be requested.

Timeline:

12/21/2018 Application Distribution
1/8/2019 Public Input Meeting/Community Needs Assessment for 2019 CDBG/HOME Annual Action Plan, 2-4 pm
1/18/2019 Application Due

Applications will be prioritized by project readiness, eligibility, and how well they align with the 5-Year Consolidated Plan. 2019 is the final year of the City's 5-year plan and goals not yet achieved will be prioritized. Benefit to low and moderate income households will also be prioritized. The City of Fargo may choose to deny any and all applications if they do not fit within the City's 2019 activity and expenditure goals and/or have the ability to meet HUD requirements.

Please refer to the chart below to see examples of CDBG activities and projects. If you have any questions, please contact me at tbraseth@fargond.gov or 701.476.4144.

2019 Action Plan Public Input Meeting Comments

CDBG/HOME Public Input Meeting City of Fargo 2019 Community Development Action Plan January 8, 2019 – 2:00 p.m. City Commission Room (old), Fargo City Hall

Planning Director Nicole Crutchfield and City Commissioner and Community Development Committee Chair John Strand introduced the community development public input meeting and welcomed everyone in attendance. Ms. Crutchfield provided a brief overview of the changes to the application process regarding Social Service funding and Community Development Block Grant (CDBG)/HOME funding, noting there was a split of the application timelines and a subcommittee that was created to review the applications.

Community Development Planning Coordinator Tia Braseth reviewed the public input process including the three national objectives that CDBG funding must address as well as the 15% cap on public service projects as regulated by the Department of Housing and Urban Development.

Terrie Helleloid, The Arbors at McCormick Park, stated Community Homes was bought and is now under new management, and they are currently going through refurbishing all of the buildings.

Abdiwali Sharif, Somali Community Development of North Dakota, inquired about affordable housing and how homeownership for low-income families can be increased in Fargo. In response, Ms. Crutchfield talked about the continuum of housing and potential housing programs and tools, such as community land trusts, that may be able to address some of these concerns.

Ms. Braseth added the City has an ongoing partnership with Habitat for Humanity, a nonprofit housing organization that helps low-income families obtain homes through acquisition of "development ready" land parcels to be used for low-income housing. She noted, in addition, there are homebuyer education classes that are offered, once people complete those courses, potential homebuyers obtain a certificate that allows them to become eligible for North Dakota Housing Finance Agency loans.

Ms. Crutchfield said the City is also working on acquisition of vacant lots and blighted properties, turning properties around for redevelopment for affordable housing.

Abdiwali Sharif, Somali Community Development of North Dakota, stated there are several low-income families who have been in housing assistance for over 10 years, and inquired about helping these people rent homes to increase homeownership in Fargo. In response, Ms. Braseth stated the City can research what other communities have done for potential programs where landlords work with property owners and see what funding may be available for that.

Erin Prochnow, YWCA Cass Clay, stated the YWCA has received both CDBG and Social Service funding in past years, and has met the goals outlined in the City of Fargo's plans. She stressed there are many facing homelessness in the community, and there is a constant need to serve those populations. In addition, she talked about the importance of the Social Service funding contributing to the sustainability of the YWCA, including evening staffing availability. She added, as a result of the YWCA not receiving Social Service funding for 2019, their organization will have one less staff person. In response, Ms. Crutchfield explained the ongoing need to grow advocacy for funding at the local, county, state, and federal levels.

Dan Madler, Beyond Shelter Incorporated, stated Beyond Shelter has been concentrating on resources and efforts to serve homeless individuals/households and seniors. He noted there is a huge need for affordable housing on the rental side, especially with senior populations. He talked about Beyond Shelter's Bluestem Homes housing, which is a rent-to-own model. He stated this housing is rental for the first 15 years, with a portion of people's rent being set aside for downpayment assistance, etc. After the first 15 years, the tenant has the opportunity to buy the rental unit. Mr. Madler noted Beyond Shelter's main concentration is on the affordable rental side and talked about the utilization of federal funding in past projects. He inquired about the CDBG and HOME dollar amounts for 2019. In response, Ms. Braseth noted the City of Fargo does not receive the federal funding dollar amounts until late spring/early summer.

Gadi Edward, Tu'Deako Group, spoke about the need for summer programs and school programs for youth.

Erin Prochnow, YWCA, inquired about areas that need to be addressed in the chart on the CDBG/HOME application memo that was sent out to organizations on December 21, 2018. In response, Ms. Braseth stated an e-mail will be sent out that shows the outstanding needs that remain to be addressed in the City of Fargo's 5-Year Consolidated Plan.

Babs Coler, Churches United for the Homeless, stated their organization recently acquired the Dorothy Day House of Hospitality. She talked about an increase in mental health issues, drug and alcohol issues, and the need for more resources to help these populations. She stated Churches United is providing shelter to these populations this winter due to the prioritization of all the shelters working together. She stressed the importance of people and the challenges that are associated with raising funds for these populations and services.

DeAnne Sperling, North Dakota State College of Science – Fargo, spoke about the SkillsND Program, which provides job skills training for underemployed, unemployed, and new American populations. She added the program works with people at any education level, with a majority of program participants not having a General Education Diploma. She talked about the importance of their organization's program, helping these populations move out of poverty and into owning their own homes. She shared a story about a student that participated in the SkillsND Program and the positive change the program made for this person's life, providing the opportunity for further education to

Page 2 of 3

Fargo

secure a job and support their family. She stated the SkillsND Program is the only program in the community helping workers who are poorly educated or encountering other barriers, and is critical in the sustainability of program participants and their families.

Ms. Crutchfield noted, with new staff and changing federal regulations, the process and implementation of the City's federally-funded projects with subrecipients will continue to evolve.

Renee Atkinson, The Arbors at McCormick Park, inquired about key projects the City of Fargo is looking to fund and the details needed for the CDBG/HOME grant application. In response, Ms. Braseth stated applicants can meet with City staff to talk about potential, "shovel ready" projects that address one of the goals from the City's 5-Year Consolidated Plan to see if the projects are eligible for federal funding.

Ms. Braseth stated the City of Fargo is in year 5 of its current 5-year Consolidated Plan, and stated the development of the new 2020-2024 Consolidated Plan will entail extensive outreach to organizations and community members, including surveys and several public outreach meetings. She stated there will be several future opportunities for discussion on community needs and future community development goals.

Erin Prochnow, YWCA, inquired if the federal funding that was reallocated to a project with the Gladys Ray Emergency Homeless Shelter Facility addresses the unfulfilled Consolidated Plan goal of adding 4 beds in a homeless shelter, and what types of projects could be done under the public services category of federal funding. In response, Ms. Braseth gave examples of public service activities including homebuyer and tenant education, food programs, daycare programs, bus passes, etc. She added, as part of the 2018 Annual Action Plan, there is \$150,000 reallocated to the Gladys Ray Shelter for facility improvements. She said, depending on the facility's space, 4 beds may be added to address this unfulfilled goal. If there is not room at the facility, the City will look at other potential projects to address this unmet need.

In conclusion, Ms. Crutchfield thanked everyone for the work they continue to do to address the needs in the community.

Entitlement History

2015	\$ 868,706	\$ 347,113	\$ 133,012	\$ 1,148,831

National Objectives

The CDBG programs have three national objectives of which each activity must fall under:

- Benefit to low and moderate income persons
- Aid in the prevention or elimination of slums or blight
- Meet a need having a particular urgency, such as response to a natural disaster

CDBG funds are primarily used to develop viable urban communities by providing the following to low and moderate income persons:

- Decent housing
- Suitable living environments
- Economic opportunities

Annual Plan

Every year, the City of Fargo publishes an annual action plan under its 5-Year Consolidated Plan. The 2015-2019 plan was developed by gathering qualitative and quantitative data, which was used to determine priority needs and principal investment areas for CDBG and HOME funds. Many local service providers and community members participated. Needs were identified under HUD's five areas of need. The list on the back of this sheet provides the City's goals to address each area of need.

Public Service Expenditure Cap

The CDBG program limits expenditures that fall under the category of Public Services. Examples of public services include homebuyer and tenant education, bus passes through the Metropolitan Transportation Initiative program, snow removal assistance, a job skills development program, and outreach and fair housing education. The cap is set at 15% of the grant plus prior year program income, which is generally from home rehabilitation loan repayments.

Average cap: \$130,000

This cap was averaged over the past 5 years, which ranged between \$102,945 and \$166,460. Last year, the cap was \$108,131.

Fair Housing & Civil Rights Progress Report

1. Benefits, Services, and Methods of Administration

City staff will analyze demographic data for race, color, national origin, sex, religion, and disability to determine whether any minority groups appear under-represented in the HUD-funded programs. If the analysis indicates under-representation by any protected group, Fargo will adjust the administration of programs and activities to assure equitable participation. Results will be reported in the 2019 CAPER.

2. Citizen Participation

Plans are underway to amend Fargo's Citizen Participation Plan. The updated plan will include procedures to ensure accessible public hearing locations, the provision of a TDD number, and a means to request reasonable accommodations for persons with disabilities or limited English proficiency - including the availability of interpretation and translation services. The amended plan will expand efforts to reach out to protected classes.

Public notices have been updated to announce the availability of a TTY/TDD phone number, alternative formats or reasonable accommodations for persons with disabilities or limited English proficiency, interpretation and translation services, and auxiliary aids. Public notices have also been updated to include the name and contact information for the Section 504 coordinator. Public meetings are held at Fargo City Hall, a fully accessible building that is centrally located and served by transit.

3. Limited English Proficiency (LEP)

The City of Fargo will conduct a four-factor analysis, create a Language Access Plan (LAP), and document actions to implement the LAP. The LAP will be provided to subrecipients and compliance will be examined.

The City of Fargo provides interpretation and translation services by request.

4. Recordkeeping

Fargo has taken actions to ensure complete and accurate records are maintained, both at the grantee level and at the subrecipient level. Source documents have been updated to uniformly collect race, ethnicity, and head of household data. These same forms have been updated to ensure accurate records show the extent to which people with disabilities participate in the federally funded activities.

9. Affirmatively Furthering Fair Housing (AFFH)

The City of Fargo will continue its efforts to ensure fair housing in Fargo, including implementation and ongoing changes to policy and procedures. The COF will be updating its Analysis of Fair Housing with its 5-year plan (2020-2024).

Introduction of Broadband Access, Resiliency, & EnVision Centers

Broadband Access

To prepare to incorporate HUD's recent Broadband requirements into our upcoming consolidated planning process, the City has begun research on broadband internet accessibility in Fargo.

Affordable access to broadband internet is an increasingly integral component of community development. According to the latest data from the FCC, over 98% of Cass County residents, which includes Fargo, have access to 3 or more broadband providers. Approximately 90% of residents have access to at least two providers of broadband speed of 100/10 Mbps, generally considered one of the highest speeds available ([FCC Broadband Map, 2017](#)).

Based on the latest available ACS data, about 85% of Fargo households have a broadband Internet subscription ([FactFinder, 2017](#)). Residents without a computer and/or broadband subscription may obtain access at any of the public libraries, including:

- Fargo Public Library: 102 3rd St N
- Dr. James Carlson Library: 2801 3rd Avenue South
- Northport Library: 2714 North Broadway

Presence Of A Computer And Type Of Internet Subscription In Household, 2017

	Fargo city, North Dakota	
	Estimate	Margin of Error
Total:	54,351	+/-1,786
Has a computer:	50,973	+/-2,005
With dial-up Internet subscription alone	94	+/-157
With a broadband Internet subscription	46,330	+/-2,155
Without an Internet subscription	4,549	+/-1,278
No computer	3,378	+/-956

Resiliency

To prepare to incorporate HUD's recent Resiliency requirements into our upcoming consolidated planning process, the City has begun research on community resiliency and hazard mitigation in Fargo.

In the wake of recent severe flooding and weather events, Fargo is increasingly concerned with mitigating the threats of natural hazards, especially as climate change poses to amplify them. The greatest natural hazard risks faced by residents of Fargo are: flooding, severe storms, strong winds, and droughts. A five-year multi-jurisdictional, multi-hazard mitigation plan to reduce the community's exposure to these hazards and build resiliency was recently introduced by Cass-Fargo Emergency Management. It includes a breakdown of all Fargo's unique vulnerabilities, including an analysis of which areas are most socially vulnerable to hazards via the Social Vulnerability Index. It acknowledges that areas of lower income are generally at higher risk for being impacted by natural hazards.

Per this plan, Cass County and the City of Fargo have several mitigation actions planned to enhance community resiliency, including a permanent levee for wastewater treatment plant, permanent flood protection around the city, emergency water line improvements, repair to storm sewer system, improvements to city's drainage system, installation of several permanent backup generators, and others (Cass County Multi-Jurisdictional Multi-Hazard Mitigation Plan). In addition, the City of Fargo continues to develop policies that promote infill and density within areas that are already developed and are protected by a flood resiliency strategy ([GO2030](#)).

EnVision Centers

EnVision Centers are a new self-sufficiency concept to HUD, which will ultimately leverage public and private resources. The intent of EnVision Centers is to build self-sufficiency for HUD-assisted households and individuals through a “centralized hub” of support based on four “pillars” as defined by HUD below:

1. Economic Empowerment – designed to improve the economic sustainability of individuals residing in HUD-assisted housing by empowering them with opportunities to improve their economic outlook
2. Educational Advancement – seeks to bring educational opportunities directly to HUD-assisted housing and includes partnering with public and private organizations that approach education in non-traditional ways on non-traditional platforms
3. Health and Wellness – designed to improve access to health outcomes by individuals and families living in HUD-assisted housing
4. Character and Leadership – designed to enable all individuals and families residing in HUD-assisted housing, especially young people, to reach their full potential as productive, caring, responsible citizens by encouraging participation in volunteer and mentoring opportunities

In tandem with HUD's recently launched EnVision Center initiative, various private and public stakeholders in Fargo have begun researching possibilities for developing a central hub of services for low-income residents. Many in Fargo share a vision of collaborating in order to make a variety of services more efficiently accessible in one central location. Preliminary discussions have included many of the elements of EnVision Centers, such as economic empowerment and health and wellness services.

City of Fargo Recapture Policy

Recapture Policy

This plan outlines the recapture policy process that will be used by the City of Fargo in the planning and implementation of housing and community development programs. These programs include the Community Development Block Grant Program, the HOME Program and other HUD programs being implemented by the City of Fargo.

Recapture provisions must ensure that the participating jurisdiction recoups all of the HOME assistance to the homebuyers, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability (see table below). The City of Fargo structures its recapture provisions based on its program design and market conditions. The period of affordability is based upon the total amount of HOME funds subject to recapture described in 24 CFR 92.254(a)(5)(ii)(A)(5). Recapture provisions may permit the subsequent homebuyer to assume the HOME assistance (subject to the HOME requirements for the remainder of the period of affordability) if the subsequent homebuyer is low-income, and no additional HOME assistance is provided.

If the total HOME investment (resale) or direct subsidy (recapture) in the unit is:	The period of affordability is:
Under \$15,000	5 years
Between \$15,000 and \$40,000	10 years
Over \$40,000	15 years

Resale and/or recapture policies must be in place to assure that HOME-assisted housing units remain affordable through deed restrictions, covenants attached to the land, mortgages, or other similar mechanisms. The City of Fargo typically accomplishes this by using a Land Use Restrictive Agreement (LURA).

All CDBG or HOME funded projects are subject to the recapture provision, as opposed to the resale provision. The recapture option follows the provisions in 24 CFR 92.254(a)(5)(ii), which allows for recapturing the entire amount of CDBG or HOME investment based on specific criteria that are established within the City's Recapture Policy. Only direct subsidy to the homebuyer is subject to recapture. The amount recaptured must be limited to the net proceeds from the sale (24 CFR 92.254). Any recaptured funds must be used to carry out eligible CDBG or HOME activities. In the case of CHDO proceeds, the City of Fargo permits Beyond Shelter, Inc. (CHDO) to retain any CHDO proceeds resulting from the HOME investment with the condition that the proceeds be used to develop additional affordable housing in the City of Fargo (24 CFR 92.3000(a)(2)) following the City's Recapture Policy. In addition, all CHDO proceeds and uses will be reported to the City.

Fargo does not intend to use HOME funds to refinance existing debt that is secured by housing that is being rehabilitated with HOME funds (as per 92.206(b)). The City will use only the forms of investment described in 24 CFR 92.205(b) (grants, deferred payment loans, non-interest-bearing loans).

Program eligibility is based on income, assets, and family size. Households may qualify for a loan and/or a grant to pay for the cost of rehabilitation. Eligibility is determined by taking the total

combined gross annual income for all household members over age 18 and projecting it out for the next 12-month period. The combined gross annual income must fall at or below 80% of the Area Median income limits (determined by the Department of Housing and Urban Development). In addition, income eligibility is determined using the Section 8 (Part 5) definition of household income. Household assets cannot exceed \$30,000. This does not include the property to be rehabilitated. It does include checking accounts, savings accounts, certificates of deposits, stocks, bonds, other real estate, and business assets. For owner-occupied rental properties, the property owner must qualify for the program, based on the above income and asset guidelines. Property owners cannot own other properties.

The after HOME rehabilitation value of owner-occupied, single-family properties in the city of Fargo, will not exceed 95% of the area median purchase price. The 95% median purchase price for the area is determined by using the HOME affordable homeownership limits provided by HUD (24 CFR 92.254 (a)(2)(iii)).

Homeowners must be current on property tax payments and utility billing, free of judgments and liens (not including mortgage), and in good standing with the City of Fargo.

Applications are reviewed on a first-come-first-serve basis but, as appropriate, priority will be given to emergency assistance.

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2017, 2018, 2019 (a period specified by the grantee of one, two, or three specific consecutive program years), shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws – The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

Lead-Based Paint – Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, Subparts A, B, J, K and R.

Compliance with Laws -- It will comply with applicable laws.

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2017, 2018, 2019 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation – It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan – Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan – It is following a current consolidated plan that has been approved by HUD.

Use of Funds – It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2017, 2018, 2019 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force – It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.
