Building Permit Acknowledgments

1. I understand and certify that issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or of any other ordinance of the jurisdiction. Permits presuming to give authority to violate or cancel the provisions of this code or other ordinances of the jurisdiction shall not be valid. The issuance of a permit based on construction documents and other data shall not prevent the building official from requiring the correction of errors in the construction, in the construction documents and other data. The building official is also authorized to prevent occupancy or use of a structure where in violation of this code or of any other ordinances of this jurisdiction exist.
2. Through application for and acceptance of this building permit the permit applicant/holder/owner understands and agrees that the City will conduct periodic observations of construction, but that such observation or review of plans and/or construction does not constitute either explicit or implied certification that the plans and/or construction comply with City Codes or any other applicable requirements. The permit applicant/holder/owner at all times remains responsible for ensuring that the construction, plans, and specifications comply with all requirements of all City Codes and other applicable requirements. The City will not provide continuous on-site observation of construction, and disclaims any responsibility for defects in materials or workmanship.
3. The City encourages and recommends the permit applicant/holder/owner hire a private, on-site inspector or other professional as the applicant/holder/owner deems necessary in order to ensure that all aspects of the plans and/or construction comply with applicable codes and all other requirements.
