

CITY OF FARGO
TRAFFIC TECHNICAL ADVISORY COMMITTEE MINUTES
April 7, 2016

Members Present: Jason Baker Commissioner Mike Williams
 Ryan Erickson Ben Dow
 Nicole Crutchfield

Members Absent: April Walker

Others Present:

Mike Williams called the meeting to order at 4:00 PM.

1. Seasonal No Parking on One Side of the Street

A resident in south Fargo wanted to change the end date of the seasonal no parking restrictions of April 15 to an earlier time. Stating the recent mild winters and the inconvenience of not being able to park in the street. Another resident in north Fargo had a similar issue of always having to move her car every other day due to the seasonal no parking restrictions. She is located on a longer block and to park it on the crossing street is very inconvenient for her. Ben Dow said that he has been thinking of a way that wouldn't be as inconvenient for resident but still allow street crews to clean streets and keep them passable. He suggested that we eliminate the alternating no parking overnight for Avenues and Streets and to install no parking all the time on one side of the Streets and Avenues. One day of the week the no parking will switch to the other side to allow for cleaning. This simplifies the no parking as resident find the no overnight parking confusing. Members will bring this suggestion back to their respective departments to get their input.

2. Mid America Steel requests on-street parking changes to NP Avenue

Mid America Steel requested to change on-street parking changes to NP Avenue adjacent to their property. They would like to remove to 4-HR timed restrictions. The no parking 1am-7am will remain. They would also like to add two handicapped spots as well. All members were in favor of the proposed change.

3. Other Business

With no other business the meeting was adjourned at 4:30 pm.
