Re: Receipt and Filing of Certified Copy of Amended Home Rule Charter

Dear Mayor and Commissioners:

On June 9, 2026, the electors of the City of Fargo approved, by a vote of 72.9%, an amendment to Article 3, Paragraph S of the Fargo Home Rule Charter extending the existing one percent (1%) sales, use, and gross receipts tax for infrastructure capital improvements through December 31, 2048. On June 22, 2026, the Cass County Canvassing Board certified the results of the June 9, 2026, election. As a result of the election, the Home Rule Charter was amended to reflect the approved twenty-year extension of the sales tax.

Pursuant to N.D.C.C. § 40-05.1-07, a certified copy of the amended Home Rule Charter must be filed with the North Dakota Secretary of State, after which the amendment is subject to judicial notice by the courts. The City has completed that filing, and the Secretary of State has returned a stamped copy confirming that the certified amended Home Rule Charter has been filed with that office. A copy of the certified amended Home Rule Charter stamped by the Secretary of State is enclosed with this letter.

The final administrative step is for the City Commission to receive and file the certified amended Home Rule Charter with the Office of the City Auditor as part of the City's official records. Doing so documents that all statutory requirements necessary to amend the Home Rule Charter have been completed, that the amendment is now subject to judicial notice by the courts, and that the enclosed certified copy constitutes the City's current Home Rule Charter.

SUGGESTED MOTION:

I move to receive and file the amended Home Rule Charter of the City of Fargo with the Office of the City Auditor to be part of the City's official records.

Sincerely,

Ian R. McLean
City Attorney

5. The three percent (3%) lodging tax authorized hereby shall be imposed and collected in addition to an existing three percent (3%) city of Fargo lodging tax set forth in Article 3-13 of the Fargo Municipal Code, said existing tax having been (a) initially imposed by city ordinance as a two percent lodging tax (city of Fargo Ord. Ch. 429 (1981), Sec. 1-4) and, therefore by exclusion, the city of Fargo and other home rule charter cities could utilize home rule city powers to enact lodging taxes, and (b) subsequently expanded the existing three percent lodging tax (City of Fargo Ord No. 2595 (1991)) also by said home rule authority.

W. To impose a retail sales, use, and gross receipts tax subject to the following limitations:

The tax imposed shall be

computed and collected in the same manner provided by law for the collection of the state sales, gross receipts and use tax as provided in Chapters 57-39.2, 57-39.5, 57-39.6 and 57-40.2 of the North Dakota Century Code. All references to the North Dakota Century Code include amendments adopted by the North Dakota Legislative Assembly.

Proceeds from such tax may be used to make direct payment of the costs for such operations, equipment and buildings. Article 4 - Initiative and Referendum

The electors of the city of Fargo reserve to themselves the right to initiate ordinances that comply with the powers vested in the city. If the governing body refuses to enact an initiated ordinance, as provided in this charter, the proposal shall be submitted to the voters for approval or rejection.

The electors also reserve the right to refer an ordinance enacted by the governing body. If the governing body fails to repeal the referred ordinance, the ordinance will be suspended until the voters approve or reject the ordinance.

The rights of initiative and referendum are secured to the people of Fargo, no matter what form of government is provided by the Fargo home rule charter or state law.

- A. Requirements for petitions for initiative, referendum and charter amendments are the same. The petitions must identify by name and voting address three members of the petitioners' committee responsible for circulating and filing the petitions. The petitions must include the full text of the ordinance or charter amendment being initiated, or the ordinance being referred. The number of valid

petition signers must equal or exceed 15% of the number of voters who voted for mayor in the most recent city election at which that office was filled. The petitions must show the date of signing, signature of the elector, and his/her voting address. The circulator of each petition shall sign an affidavit on the petition affirming that he/she witnessed the signing of all names on the petition and believes that the signers are qualified electors.

- B. The city auditor or city official designated by the governing body shall determine the validity and sufficiency of the signatures. If he finds irregularities, he shall notify the sponsor's committee and allow ten days for correction. The city official shall notify the governing body of his decision and certify the petitions as valid to the governing body when they meet the criteria set forth in this charter.
- C. If the petitions for an initiated ordinance are sufficient and valid, the proposed ordinance shall be submitted to the governing body. The governing body may enact the ordinance without change or submit the initiated ordinance to the voters for approval or rejection. If the measure is not enacted within 21 days after the petitions are certified as valid and sufficient, the ordinance shall be put up for approval or disapproval by the voters. The election may be held no sooner than 60 days after the petitions are ruled valid.
- D. Petitions to refer an ordinance must be filed within ten days of the effective date of the ordinance. If the designated city official finds the petitions valid and sufficient, the referred ordinance shall be suspended. The ten days allowed for correction of petition irregularities shall not be used to add names and signers to the petition. The annual city budget ordinance is exempt from the referendum process. The governing body may either repeal a referred ordinance or submit the ordinance to the voters at the next city-wide election occurring 60 days after the petitions are ruled valid. Referendum petitions may be filed against individual sections and subsections of an ordinance; if so, the remainder of the ordinance remains in effect.
- E. The question for both initiated and referred ordinances on the election ballot shall be: "Shall this ordinance be approved?" If there is a majority of "Yes" votes, the ordinance is enacted and becomes effective ten days after the election results are certified. If the "No" votes are in majority, the ordinance is rejected.
- F. Initiated or referred ordinances proposed by a Petition and adopted by a vote of the voters cannot be repealed or amended except by a vote of the voters so long as the City of Fargo remains under the commission system of government. This article is self-executing and all of its provisions are mandatory. Ordinances may be enacted to facilitate and safeguard, but not to hamper, restrict or impair these powers.

Article 5 - Amendment or repeal of charter

This Fargo Home Rule Charter may be amended or repealed only by a majority of the electorate voting on charter proposals submitted to them.

- A. Proposals to amend or repeal the Fargo Home Rule Charter may be submitted to the voters by adoption of a resolution approved by a majority of all members of the governing body. The proposed amendment shall be published in the official newspaper of the city at least 60 days prior to the election at which the matter will be decided.
- B. Fargo citizens also reserve to themselves the right to amend or repeal this home rule charter by the initiative process. Petitions for such purpose must conform to the rules prescribed in this charter on initiative and referendum of ordinances.
- C. The complete amendment must be printed on the petitions. When petitions to amend or repeal are certified as valid, a proposal must be submitted to the voters at the next city-wide election occurring at

least 60 days after publication of the petition in the official newspaper of the city. The ballot question shall be "Shall such amendment be approved?" If there is a majority of "Yes" votes of those voting on the matter, the charter amendment becomes effective ten days after the election results are certified.

- D. If either the governing body or an initiative petition seeks to repeal the Fargo Home Rule Charter, the ballot proposal must establish the form of government which would replace the system established by this charter.

Article 6 - Boundaries

The boundaries of the city shall be the boundaries as established at the time this charter takes effect, or as such boundaries may be changed thereafter in the manner authorized by law.

Article 9 - Plenary and implied powers of the governing body

The governing body shall have plenary power to enact and make all proper and necessary ordinances, resolutions and orders to carry out and give effect to the express and implied powers granted in this charter to the end that a complete, harmonious and effective municipal government may be initiated, installed, operated, and maintained in the city, and thereby protect and safeguard the rights, interests, safety, morality, health and welfare of the city and its inhabitants.

Except as otherwise specifically provided, this charter shall not affect or impair the rights or privileges of officers or employees of the city, or any office, department or agency thereof, existing at the time this charter shall take effect. Any provision of law in force at the time this charter shall take effect,

which provision of law is not inconsistent herewith, shall remain in full force and effect as respects qualifications of personnel, appointment, removal, pension and retirement rights, civil rights, or any other rights or privileges of officers or employees of the city or any office, department or agency thereof.

B. Continuance of present officers

All persons holding executive and administrative office at the time this charter takes effect shall continue in office and shall continue the performance of their duties until provisions shall have been made in accordance therewith for the performance of such duties or the discontinuance of such office.

C. Continuance of present offices, departments or agencies

Any office, department, or agency, heretofore existing, shall continue to exercise powers and duties the same as were heretofore exercised and shall have the power to continue any business proceedings or other matters within the scope of its regular powers and duties until such office, department or agency shall be charged or abolished by the governing body. The powers conferred and the duties imposed upon any office, department or agency of the city by the laws of this state shall, if such office, department or agency be abolished by this charter or under its authority, be thereafter exercised and discharged by the office, department or agency designated by the governing body.

D. Continuance of appointive boards, authorities and commissions

All appointive boards, authorities and commissions, heretofore existing shall continue and shall exercise such powers and duties as were granted them until such boards, authorities, and commissions and the powers thereof shall be changed or abolished by the governing body.

E. Continuance of contracts

All contracts entered into by the city, or for its benefit, prior to the taking effect of this charter, shall continue in full force and effect.

F. Pending actions and proceedings

The adoption of this charter shall not abate or otherwise affect any action or proceeding civil or criminal, pending when it takes full effect, brought by or against the city or any office, department, agency or officer thereof.

G. Ordinances and statutes to remain in force

All ordinances, resolutions and regulations of the city together with state statutes applicable to municipalities which are in force at the time this charter takes effect, and not inconsistent with the provisions thereof, are hereby continued in force until such ordinances, resolutions and regulations of the city are duly amended or repealed and until ordinances are enacted providing procedures replacing those previously required by state statute.

H. Inauguration of government under this charter

If a majority of the qualified electors of the city voting on the question vote to ratify this charter, the provisions of this charter shall go into effect upon the filing of the charter by the governing body with the secretary of state, the clerk of the District Court for Cass County, and the office of the city auditor, within ninety days.

Re: Improvement District No. NR-24-C1 – STS LS Rehab/Reconstruction
Final Balancing Change Order #2

Background:

Improvement District No. NR-24-C1 is for the rehabilitation of storm sewer lift stations #7, #20 & #28 that includes pump and control panel replacements, safety upgrades and miscellaneous improvements at each lift station. Below is a list of extra items encountered during construction completion.

Site #1: STS LS #7

The elevation of the pump discharge manhole structure north of the lift station was low compared to the access road and needed repair. The old manhole riser top section was removed & disposed and a new 60" diameter concrete barrel section, concrete cover slab and manhole casting was installed at a total cost of \$7,746.00.

Pre

Post

After the manhole barrel section was replaced Key Contracting imported 18 CY of crushed concrete for traffic surface gravel at a cost of \$45/CY for a total cost of \$810.00.

The new pump motors were equipped with condensation heaters to prevent moisture buildup inside the motor housing when the motors are idle. The electrician informed us that they were unable to connect the condensation heaters to the existing breakers that powered the motors due to electrical codes. The electrician installed the new breaker for

the heaters, the associated wiring and labor to pull the wires and make connection to the control panel and pumps at a total cost of \$6,712.42.

Site #3: STS LS #28

The old control panel at lift #28 sat on top of the lift station cover which created a safety hazard as workers had to balance on the block retaining wall surrounding the lift station to access the controls.

The new control panel was too large to safely sit on top of the lift station. The new panel was installed on a concrete working pad adjacent to the lift station. To ensure that the controls remain operational if the area surrounding the lift station is inundated with water the bottom of the control panel was raised to match the top of the adjacent sheet pile wall. The Contractor also fabricated and installed aluminum steps to safely access the control panel at a total cost of \$9,024.35.

Recommended Motion:

Approve the final balancing change order #2 in the amount of \$23,932.77 to Key Contracting for the modifications described above.

Funding source is 50% Special Assessments & 50% Storm Sewer Utility (Fund 524) for Site #1 (LS #7) and Site #3 (LS #28) is 100% Special Assessed.

Re: Improvement Dist. No. PN-26-A1 – Change Order #1

Background:

Improvement District No. PN-26-A1 is an asphalt wear course project that provides the final lift of pavement following the initial installation of underground utilities and the roadway section. During the original construction, utility trenches are backfilled with virgin materials. Due to the nature of the native clay soils in Fargo, settlement occurs over time as these materials consolidate. This project corrects those settlements and places the final asphalt wear course on recently constructed streets throughout the City.

The project consists of work in six separate areas across the City of Fargo. Border States Paving is the Prime Contractor.

Change Order No. 1 adjusts quantities for several bid items within Sections 2, 3, 4, and 5 and adds a new sidewalk bid item to Section 4. During construction, it was determined that additional curb repairs were necessary in several sections beyond what was originally anticipated.

Change Order No. 1 increases the contract by \$152,201.30. The original contract amount was \$2,852,633.90, resulting in a revised contract total of \$3,004,835.20. Funding for this project is provided entirely through Special Assessments.

The net increase by project section is as follows:

- Section 2: \$43,860.00
- Section 3: \$42,751.00
- Section 4: \$49,861.30
- Section 5: \$15,729.00

The contract increases for each section are expected to have only a minimal impact on the estimated special assessments previously mailed to the affected property owners.

Recommended Motion:

Staff recommends approval of Change Order No. 1 for Improvement District No. PN-26-A1 in the amount of \$152,201.30.

PAVING AND UTILITY REHAB/RECONSTRUCTION
IMPROVEMENT DISTRICT NO. BR-26-G

Nature & Scope

The project is on 17th Avenue South from 25th Street to University Drive.

This project is for pavement reconstruction of 17th Avenue South. It will upgrade the existing infrastructure by replacing the existing pavement, curb and gutter, water distribution system, sanitary sewer system, storm sewer system, sidewalk and incidentals.

Purpose

This project is necessary because 17th Avenue South is a principal arterial roadway that serves the City of Fargo. The existing roadway has deteriorated and needs full reconstruction. The project includes the replacement of deteriorated sanitary sewer and water main infrastructure, along with associated service lines, which will be located beneath the reconstructed roadway. In addition, the existing storm sewer system will be upgraded to provide increased capacity and improve overall stormwater conveyance.

Funding for the project will consist of Federal Surface Transportation Block Grant and Carbon Reduction Program Funds from the NDDOT, Infrastructure Sales Tax, Street Light Utility Funds, Storm Sewer Utility Funds, Waste Water Utility Funds, Water Utility Funds and Special Assessments.

Special Assessment District

All properties within the Special Assessment District will benefit from the infrastructure improvements and were determined through consideration of the longevity, consistency, and uniformity of benefiting properties within the City of Fargo. Special Assessments will be levied to each property in accordance with the City's Infrastructure Funding Policy and are subject to the approval of the Special Assessment Commission and the City Commission.

From: Tom Knakmuhs, City Engineer
Date: July 22, 2026
Re: Project No. MS-25-A0 - Contract Amendment #1 with SRF Consulting for Former Mid-America Steel Site

Background:

On June 2, 2025, the Public Works Projects Evaluation Committee (PWPEC) approved Step 1 of 4 with SRF Consulting (SRF) for work related to site improvements at the Former Mid-America Steel site. The approved scope of services was limited to \$40,000 and included due diligence, coordination, and planning.

In late June, the U.S. Environmental Protection Agency (EPA) encouraged the City to apply for a Land Revitalization Technical Assistance (LRTA) project for the Former Mid-America Steel site. Because the application required a very short turnaround, the City requested SRF's assistance in gathering information and preparing the application, which was submitted on July 10.

The attached contract amendment increases SRF's scope of services by \$2,200, resulting in a revised contract amount of \$42,200.

Additionally, the City has been notified by the EPA that its LRTA application was approved.

Recommended Motion:

Approve Contract Amendment #1 with SRF Consulting in the amount of \$2,200, increasing the total contract amount to \$42,200.

Re: Project No. UR-26-A1 - Change Order #2

Background:

Project No. UR-26-A1 is for repairing various storm sewer location around the City of Fargo. Examples being sinkholes, stormwater outlets, and busted/disconnected stormwater pipes.

Key contracting is the Prime Contractor on this project.

This is an increased cost/no time added change order.

Public Works notified the Stormwater Engineering Team that a 12-inch reinforced concrete pipe (RCP) storm sewer located beneath 13th Avenue South at the intersection with 14½ Street South requires immediate attention. The storm water pipe is significantly deformed and concaving in certain areas, which could lead to a potential collapse/sinkhole in the roadway.

Key Contracting will begin this project quickly to reduce the chances of the pipe failing.

Recommended Motion:

Approve Change Order #2 for Project No. UR-26-A1 in the amount of **\$59,565.00**.

Staffing will be set at levels in the best interest of public safety and mutually agreeable by the Authority and NDSU.

Upon request by NDSU, the Authority shall furnish NDSU with a projection of event expenses for all NDSU events.

8. **SCHEDULING AND EVENT TYPE RIGHTS GRANTED TO NDSU.**

A. Total Event Days: NDSU shall have the right to rent the DOME for a maximum of fifty-five (55) total event days per Lease Year.

- i. If NDSU fails to use all of the fifty-five (55) total event days during the Lease Year, the unused dates shall not carry forward to future Lease Years except that if NDSU is bumped from any of its Non-Priority Event Dates during the last six (6) months of a Lease Year, NDSU can carry over up to three (3) dates into the following Lease Year.
- ii. NDSU's athletic playoff dates which are held will count towards the fifty-five (55) total event days, except that if NDSU does not use the playoff date and the Authority is able to schedule another revenue producing event, NDSU shall not be charged for that playoff date as a use date.

B. Priority Dates: Of the fifty-five (55) total event days, NDSU shall have the right to a priority in scheduling for a maximum of twelve (12) NDSU events per year. In order to have priority in scheduling these dates, NDSU must notify the Authority no less than three (3) years in advance of the desired date(s).

C: Non-Priority Non-Football Athletic Practices: Of the fifty-five (55) total event days, NDSU's use of ten (10) event days will be limited to non-football athletic practices to be scheduled around the Authority's event schedule. The Authority retains the option to re-schedule athletic practices if an event opportunity arises. NDSU will be responsible the costs associated with practices, including security staffing and field installation, if required.

D. Non-Priority Event Dates: Of the fifty five (55) total event days, NDSU's access to the remaining thirty-three (33) days shall be on a first come, first served basis, just as the access that is granted to other lessees. NDSU must comply with the Authority's requirements and procedures for the leasing, booking, and use of the DOME for these events, including the Authority's protection period requirements for similar events and other event definitions set solely by the Authority.

E. NDSU's use of the DOME for Priority Dates and Non-Priority Event Dates shall be limited as such:

- i. NDSU must use five (5) of the Priority Dates and/or Non-Priority Event Dates in the months of July and August.
- ii. Events will be limited only to NDSU athletic events, amateur athletic events/NCAA athletic events, NDSU or Tri-College sponsored job/career fairs, and non-revenue producing NDSU sponsored events.
- iii. Unless waived in writing by the Authority, NDSU shall not use the DOME for any of the following types of events:
 1. Official high school activity association sponsored or sanctioned events, unless these games are a part of NDSU's football/basketball game day.
 2. Professional sports events of any type.

3. Trade or consumer shows of any type. A job/career fair shall not be considered a trade or consumer show.
 4. Family entertainment events of any type.
 5. Concert events.
- iv. Practices: As addressed in Section 8.C., NDSU is required to use ten (10) days for non-football athletic practices. NDSU shall be able to use their remaining 45 (forty-five) days of Priority Dates and Non-Priority Event Dates for football or non-football athletic practices, but the Authority reserves the right to eliminate the practice day in favor of an event the Authority schedules into the DOME. If the Authority schedules an event which results in NDSU having to incur the expense of installing and/or removing the football field set-up for practice, the Authority shall attempt to have the field installation and removal expense paid by the event. If the Authority is unsuccessful in getting the event to pay this expense, then the payment of the expense shall be mutually agreed upon by the Authority and NDSU. The amount of the field installation and removal shall be mutually agreed upon by NDSU and the Authority. Athletic game practice days also count as one of the use dates, except that football practice dates shall count as one-half of a use date. NDSU shall have the option of paying an additional fee for use of the DOME for practices instead of having the practice date count against their use dates. The practice rental fee shall be \$250 per hour measured from one-half hour before the practice until one-half hour after the practice ends.

NDSU shall not incur any additional expenses of the football field set-up for use on non-game days if the field is already in place. However, if the field must be set-up for practice days or other non-game day use, NDSU shall be responsible for paying all costs incurred by the Authority for setting up the football configuration.

NDSU further agrees to reimburse the Authority for any cleaning or staffing expenses the Authority incurs as a result of NDSU's use of the DOME for practice days.

If the Authority has no events between the specified practice date and the game date, and the Authority shall incur no additional expense by placing the field down in time for the practice date, then the Authority shall place the field down for the practice and game and NDSU shall not incur any additional expense. If there is no DOME event between home football game dates, NDSU shall not be charged for, nor shall any credit be given to NDSU, for any set-up costs.

F. NDSU agrees not to give, sell or sublease any of their use dates to any party or potential lessee of the Authority who could have otherwise leased the DOME directly from the Authority.

G. NDSU shall be allowed to schedule and present any of the prohibited events listed herein as long as NDSU rents the DOME under a separate lease agreement outside of the terms and fees stipulated in this Agreement.

H. It is desired that the Authority and NDSU develop the type of working relationship whereby the parties communicate freely with the other so as to work collaboratively and avoid conflict in this and all other areas relative to this Lease Agreement. The Authority shall follow its own policies relative to first come, first served basis in the event NDSU and the Authority want to schedule a similar or competitive event. The Authority reserves the right to schedule another event at the same time as an NDSU event only if the other event does not interfere with the NDSU event.

I. The Authority shall also assume all responsibility for keeping records on the number of dates scheduled and used in a Lease Year. The Authority shall have the responsibility and obligation to notify NDSU when NDSU has scheduled all of their fifty-five (55) total event days in a Lease Year. NDSU shall pay the Authority for all dates used in excess of the fifty-five (55) total event days herein described at rates solely established by the Authority and covered by a separate lease agreement.

9. DEFAULT. The Authority has the right to cancel this Agreement if NDSU fails to pay the required rentals and expenses or otherwise materially breaches this Agreement and does not cure such material breach within fourteen (14) days after receiving written notice stating the material breach. Failure to indemnify the Authority pursuant to the provisions of Section 17 or failure to provide liability insurance, if required, in accordance with Section 45, shall be a material breach. This remedy is not exclusive and the Authority may, at its discretion, pursue any appropriate remedy.

NDSU shall have the right to cancel this Agreement if the Authority fails to pay any required funds due NDSU or otherwise materially breaches this Agreement and does not cure such material breach within fourteen (14) days after receiving written notice stating the material breach.

10. FINANCIAL SETTLEMENT/EVENT EXPENSES. The Authority shall prepare and present a settlement report to NDSU on a per event basis which shall show the expenses from the event payable to the Authority from NDSU, with payment of such expenses due to the Authority. If NDSU and the Authority cannot agree on the financial settlement for an event, then NDSU's Vice-President for Business Affairs and the Authority's President shall be the arbitrators to make final and binding decision regarding the disputed NDSU event.

11. **COMPLIMENTARY TICKET.** NDSU shall provide Authority with a mutually agreed upon number of complimentary tickets to each NDSU ticketed event in locations mutually agreeable to NDSU and the Authority.

12. **PARKING.**

A. FARGODOME Event Parking. Except as provided in subsection B below, the Authority shall have the sole right and responsibility to manage and control all of the DOME parking lot areas, control all ingress and egress areas and collect and retain all parking revenues from vehicles using the DOME parking facilities.

B. NDSU's Use of FARGODOME Parking Lot Areas. NDSU shall have the right to use Lot C (the Southeast DOME parking lot), Lot D (the South DOME parking lot) and Lot E (the Southwest Dome parking lot) in accordance with the terms of an annual Fargodome-NDSU Parking Agreement originating July 30, 2002, and renewing annually. NDSU's use of any other Authority parking areas may only be done with prior written approval from the Authority except as provided below:

1. NDSU Team Makers shall have the right use parking lots E, F & G (the west DOME parking lots) for all NDSU home football games in accordance with the terms of an annual FARGODOME-NDSU Team Makers Parking Agreement originating August 1, 2012, and renewing annually.

2. NDSU employees or faculty working at the Sanford Health Athletic Complex (hereinafter "SHAC"), or other persons attending SHAC events or going to SHAC during regular business hours, may park in Lot C or Lot B, at no charge, unless the Authority has an event at the DOME and is charging a parking fee for use of the lot. On those occasions, SHAC attendees must pay the regular parking fee in order to park in the DOME lot, and the Authority shall retain all such revenue. At no time shall NDSU collect, receive or retain any parking revenue from vehicles parked on the Authority's parking lots unless otherwise agreed to in writing by the Parties. NDSU must notify the Authority in writing regarding the dates and times when a SHAC event is scheduled to take place which will require NDSU's use of the Authority's parking lot.

3. The Authority and NDSU shall designate three hundred-fifty (350) parking spaces in a good location as a VIP parking area for NDSU's use during NDSU football games. Persons using these spaces shall be responsible for paying the Authority for use of the spaces, and/or NDSU may buy-out these spaces for football games at the prevailing per-car parking rate.

4. The Authority hereby agrees that parking in the Authority lots shall be provided free of charge to patrons when NDSU has a non-revenue event, as defined herein, at the DOME. NDSU shall be responsible for the payment of any staffing expenses or other expenses incurred by the Authority for providing this free event parking.

5. NDSU shall be allocated twenty-five (25) parking spaces free of charge for its staff parking on days of its events in Lot A.

13. **CONCESSIONS.** The Authority shall retain all rights to concession sales, including, but not necessarily limited to, all food and beverage products, vending items and checkroom services except as herein agreed upon. No outside food and beverages will be allowed in the DOME. All food and beverages, with the exception of catering services, are provided by the Authority's authorized concessionaire.

14. **FREE SAMPLES.** Neither NDSU nor any of NDSU's attendees may sell or give away any samples of food, beverages or any product deemed by the Authority to be in competition with items sold or distributed by the Authority without prior written approval of the Authority. NDSU, on behalf of its advertisers and sponsors, shall be permitted to give away samples as long as NDSU obtains prior written approval from the Authority and does hereby agree to pay the additional cleaning costs, both inside the DOME and outside the DOME, and assumes all responsibility and liability for damages or injuries which may be incurred from the giveaway items.

15. **STORAGE.** NDSU shall have the use of approximately 1,000 square feet of temporary storage space in the DOME during the football season for the storage of athletic or band equipment. NDSU shall further have the use of the novelty storage room areas on the concourse level, except that NDSU shall be required to remove all their novelty items when another event requires the use of this novelty sales area. The Authority shall provide alternative storage areas for use by NDSU for the storage of said novelty items when the novelty storage area is not available. The Authority assumes no responsibility or liability whatsoever for the safety or security of any items NDSU chooses to store at the DOME.

16. **INDEMNIFICATION.** To the extent permitted under North Dakota law and subject to available appropriations, NDSU shall keep, defend, indemnify and hold harmless, the City of Fargo, the Authority and the management company, and all its officers, agents and employees and each of them, from and against any and all costs, liability, damage or expense, including legal fees and costs, claimed by anyone by reason of injury or damage to person or property directly or indirectly arising out of the leasing and use of the DOME under the terms of this Agreement, except to the extent that the injuries or damage resulting in such claims, costs, liability, damage or expense, including legal fees and costs, are the result of the City's, the Authority's, or the management company's negligence or fault. Nothing, herein shall preclude NDSU from asserting against third parties any defenses to liability it may have under North Dakota law. Each party hereto shall give the other prompt and timely notice of a claim or suit instituted

within its knowledge that in any way, directly or indirectly, contingently or otherwise affects or might affect the other party. Notwithstanding the duty of NDSU to defend, indemnify and hold harmless the City of Fargo, the Authority and the management company as hereinabove provided, the City of Fargo, the Authority and the management company shall each have the right, but not the obligation, to participate in the defense of any claim or action to the extent of its own interest, at its own expense. In the event available appropriations are insufficient to indemnify and satisfy claims against NDSU arising hereunder, NDSU agrees to include in its budget request an appropriation fully sufficient to satisfy such claims. Should the Governor of the State of North Dakota not include in the executive budget for any reason the amount requested pursuant to the preceding sentence, NDSU shall request The North Dakota State Board of Higher Education to independently request that the Legislative Assembly amend the executive budget to include such amounts. NDSU, to the extent permitted by North Dakota law and subject to the available appropriations, shall agree to assume, defend, indemnify, protect and hold the Authority, the City of Fargo and the management company, harmless against any and all claims, damages, or liability resulting directly or indirectly from NDSU's use of the Authority's parking lot areas, except to the extent that the injuries or damage resulting in such claims, costs, liability, damage or expense, including legal fees and costs, are the result of the City's, the Authority's, or the management company's negligence or fault. NDSU further agrees to pay any and all claims or costs which may be made or incurred due to NDSU's use of the DOME parking lot areas. Nothing herein shall preclude NDSU from asserting against third parties any defenses to liability it may have under North Dakota law.

17. **INSURANCE.** NDSU will obtain insurance that meets the following criteria:

- A. Such insurance shall be provided by a comprehensive general liability form of policy including the broad form liability extended coverage, with a combined single limit of at least \$250,000 per person and \$1,000,000 per occurrence.
- B. NDSU shall also provide necessary Workers Compensation insurance for NDSU's employees.
- C. NDSU shall further furnish comprehensive automobile liability insurance coverage as shall protect NDSU against claims for damages from bodily injury, including wrongful death and property damage which may arise from the operations of any owned, hired or non-owned automobiles used by or for NDSU in any capacity with respect to the performance of Agreement in the amount of \$500,000 per occurrence.
- D. The insurance must be written by an insurance company licensed to do business in the State of North Dakota and have an A.M. Best rating of A+ or higher, or the alternative, provide coverage through the North Dakota Risk Management Fund. NDSU shall provide proof of such insurance coverage to the

City and the Authority. If NDSU fails to provide the aforementioned insurance, the Authority shall have the right to either obtain the required insurance with the premium to be paid by NDSU or to terminate this Agreement.

18. **FORCE MAJEURE.** In the event the DOME or any portion thereof shall be destroyed or damaged by fire or other calamity so as to prevent the use of the premises for the purposes and during the periods specified herein, or if the premises cannot be so used because of strikes, acts of God, national emergency or other causes beyond the control of the Authority, then this Lease Agreement shall terminate and NDSU hereby waives any claim against the Authority for damages by reason of such termination except that any unearned portion of the rental fee due hereunder shall abate or be refunded by the Authority to NDSU.

20. **PUBLIC SAFETY.** NDSU shall at all times conduct the event in full regard for public safety and will abide by all regulations as required by local authorities and the Authority. The Authority shall have the right to interrupt or terminate any event when in the sole judgement of the Authority, it is necessary in the interest of protecting the safety of the public. Whenever possible, the Authority shall confer with NDSU before any such termination. If a termination or interruption occurs, NDSU hereby agrees to waive any claims for damages against the Authority.

Department: Fire

Net Financial Impact: \$0

Description:

See attached memo.

At this time, FAHR recommends approval of the reallocation for the temporary live-burn training shipping containers and the utility terrain vehicle (UTV). FAHR believes these items address immediate operational and training needs while remaining consistent with the Fire Department's long-term planning efforts for the future training facility.

FAHR is not recommending approval of the requested staff vehicle at this time. The Committee intends to review that request at a later date following a broader evaluation of the Fire Department's vehicle fleet and future fleet needs to ensure the request aligns with the City's overall fleet strategy and operational priorities.

Suggested Motion:

Move to approve the use of existing 2026 Fire Department capital funds, account 475-4010-510.74-10, originally budgeted for the Mobile Ventilation Prop and Mobile Auto Extrication Prop, for the purchase of temporary live-burn training shipping containers and associated setup, and a utility terrain vehicle (UTV). All expenditures shall remain within the existing approved 2026 budget.

TO: FAHR Committee

FROM: Fire Chief Gary Lorenz

DATE: 7/27/2026

SUBJECT: Reallocation of Capital Funds

In the 2026 Fire Department Budget account 475-4010-510.74-10, a Mobile Ventilation Prop (\$100,000) and a Mobile Auto Extrication Prop (\$21,500) are identified.

Since the 2026 budget was developed, the city has acquired property for new fire department training facility, and we are currently working to identify an architect/engineering firm to develop conceptual designs and cost estimates for developing this property. Therefore, I do not believe it would be prudent to purchase these two items that may not fit into upcoming training facilities and props. Once the funds are available, the Fargo Fire Department team will follow all applicable City of Fargo purchasing policies.

I am requesting that these funds be reallocated for the following items:

- Shipping containers to be used for live burn training - approximately \$45,500
 - Includes the purchase of shipping containers and associated setup costs.
 - Due to the poor condition of the current live-burn training facility, the container assembly would provide an interim training solution until a permanent live-burn structure is constructed as part of the future training facility.
 - As the new training facility becomes operational, the Fargo Fire Department will seek opportunities to repurpose the shipping containers for other training, equipment storage, or operational needs to maximize their long-term value to the City.
- Staff vehicle – approximately \$40,000
 - This was requested in the 2027 budget but not funded.
 - Vehicle to be housed out of Fire Station 1 for administrative staff for City business, including travel to training, meetings, and other work-related activities in and outside of Fargo.
- UTV – approximately \$36,000
 - This will be a shared-use utility vehicle for multiple purposes such as grass and brush fires in hard-to-reach locations, emergency response at events such as NDSU tailgating and the street fair, and movement of personnel and equipment at the new training location.

Recommended Motion:

Move to approve the use of the budgeted \$121,500 in existing 2026 Fire Department capital funds, account 475-4010-510.74-10, originally identified for the Mobile Ventilation Prop and Mobile Auto Extrication Prop, for equipment needs that have become a higher priority during 2026, including temporary live-burn training containers and associated setup, an additional staff vehicle, and a utility terrain vehicle (UTV). All expenditures will remain within the existing approved budget and be completed in accordance with applicable City purchasing policies and procurement requirements.

RED RIVER VALLEY S.W.A.T.

MEMORANDUM

To: F.A.H.R. Committee

From: LT Nate Nieman

Date: 07/17/2026

RE: Budget Adjustment

I respectfully submit this formal request for approval to move funds from the Red River Valley SWAT revenue accounts to our General Supplies expense account. The specific revenue I would like to move is from multiple sources. Red River Valley SWAT facilitates SWAT Basic courses for local and regional SWAT operators. Red River Valley SWAT also recycles expended ammunition casings through Bernath Recycling. In addition, Red River Valley SWAT has received donations from the Walmart Police Grant Program, a SWAT Sniper Competition donation, and the Hometown Heroes Foundation. The total revenue available to be transferred from these sources is **\$28,216.63**.

Currently, the General Supplies account is being depleted as we continue to replace aging equipment and maintain the operational readiness of the team. The transfer of these funds will allow for the purchase of critical equipment and supplies necessary to support Red River Valley SWAT operations, including replacement equipment, tactical gear, equipment maintenance, and other operational needs.

I appreciate your time and consideration of this request. Your support will enable our team to continue its critical mission of protecting our community.

Recommended Motion:

Approve the transfer of funds from Red River Valley SWAT revenue accounts to the General Supplies expense account.

Re: Acceptance of Donation from Curt Heiser

Curt Heiser has generously donated **\$12,000** to the City of Fargo for the benefit of the Red River Valley SWAT Team to support our ongoing efforts to serve and protect the communities we represent. Mr. Heiser requested that the donation be used to support the team's operational needs and enhance the safety and effectiveness of our personnel.

After discussing the team's current priorities with Mr. Heiser, we shared our plan to use these funds to continue the transition and modernization of the Red River Valley SWAT Team's weapon systems. This project focuses on replacing aging and outdated equipment with modern, reliable platforms that improve officer safety, operational effectiveness, and long-term sustainability. Mr. Heiser fully supported this proposal and recognized the importance of ensuring our personnel have dependable, lifesaving equipment while responding to high-risk incidents.

At this time, I respectfully request that the donated funds be accepted and transferred into the Red River Valley SWAT General Supplies expense account (216-5016-411.61-40). Once the funds are available, the Red River Valley SWAT Team will follow all applicable City of Fargo purchasing policies. When the project is ready to move forward, we will complete the required Request for Quote (RFQ) process and comply with all City procurement requirements before making any purchases.

On behalf of the Red River Valley SWAT Team, I would like to express our sincere appreciation to Curt Heiser for his generosity and commitment to supporting the safety of our officers and the communities we serve.

Recommended Motion:

Approve the acceptance of the Curt Heiser donation and transfer the funds to the 2026 Operating Budget.

Department: Human Resources**Net Financial Impact:** \$0 reallocation of budgeted funds

Description: See attached Memo. Human Resources would like to provide leadership training to approximately 50 leaders, managers, and supervisors at the City of Fargo. Administration has indicated various accounts that will provide budget dollars to be used.

At their meeting, FAHR endorsed this request.

Suggested Motion:

TO: FAHR Committee
FROM: Michael Mitchell, Training and Development Coordinator
RE: Leadership Training – Budget Adjustment
DATE July 15, 2026

Background:

In 2018, the City of Fargo Human Resource Department initiated Leadership Development Training for all leaders, supervisors and managers. This training was coordinated through a partnership agreement with North Dakota State College of Science (NDSCS). The training was highly successful and continued through 2023. The partnership agreement with NDSCS was not renewed in 2024. As a result, there has been no leadership development training since the suspension of this partnership.

In 2026, the Human Resources training budget which supports all City of Fargo employee training was reduced from \$17,500 to \$12,500. Additionally, an unforeseen budget reduction to the training budget occurred when a portion the Vector Solutions LMS package was eliminated. The current amount in the HR training budget is approximately \$5400.

My goal for 2026 is to reinstate a leadership program by working with a new partnership with the University of Mary. We currently have 50 leaders, managers, and supervisors who have no formal leadership development training. To accomplish this, we are asking for an HR training budget adjustment of \$7200.

Subrecipient, by the signature below of its authorized representative, hereby acknowledges that the Subrecipient has read this agreement, understands it, and agrees to be bound by its terms and conditions.

Section 26. Conflicts of Interest. The purchaser and Subrecipient acknowledge and agree that, notwithstanding any concurrence by the federal government in or approval of the solicitation or award of the underlying agreement, absent the express written consent by the federal government, the federal government is not a party to this agreement and shall not be subject to any obligations or liabilities to the purchaser, Subrecipient, or any other party (whether or not a party to that agreement) pertaining to any matter resulting from the underlying agreement.

The Subrecipient agrees to include the above clause in each subagreement financed in whole or in part with federal assistance provided by FTA. It is further agreed that the clause shall not be modified, except to identify the subrecipient who will be subject to its provisions.

Section 29. Incorporation of Federal Transit Administration (FTA) Terms - The preceding provisions include, in part, certain Standard Terms and Conditions required by USDOT, whether or not expressly set forth in the preceding agreement provisions. All contractual provisions required by USDOT, as set forth in FTA Circular 4220.1, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Agreement. The Subrecipient shall not perform any act, fail to perform any act, or refuse to comply with any NDDOT requests which would cause NDDOT to be in violation of the FTA terms and conditions.

Parties: **State** – State of North Dakota, its agencies, officers and employees

Governmental Entity – The Governmental Entity executing the attached document, its agencies, officers and employees

Governments – State and Government Entity, as defined above

Each party agrees to assume its own liability for any and all claims of any nature including all costs, expenses and attorney's fees which may in any manner result from or arise out of this agreement.

Each party shall secure and keep in force during the term of this agreement, from insurance companies, government self-insurance pools or government self-retention funds, authorized to do business in North Dakota, the following insurance coverages:

- 1) **Commercial general liability and automobile liability** insurance – minimum limits of liability required of the Governmental Entity are **\$500,000 per person and \$2,000,000 per occurrence**. The minimum limits of liability required of the State are **\$500,000 per person and \$2,000,000 per occurrence**.*
- 2) **Workers compensation** insurance meeting all statutory limits.
- 3) The policies and endorsements may not be canceled or modified without **thirty (30) days prior written notice** to the undersigned State representative.

The State reserves the right to obtain complete, certified copies of all required insurance documents, policies, or endorsements at any time.

Each party that hires subcontractors shall require any non-public subcontractors, prior to commencement of work set out under an agreement between that party and the non-public subcontractor, to:

Defend, indemnify, and hold harmless the Governments, the state of North Dakota, its agencies, officers and employees (State), from and against claims based on the vicarious liability of the State or its agents, but not against claims based on the State's comparative and/or contributory negligence or fault, sole negligence, or intentional misconduct. The legal defense provided by Contractor to the State under this provision must be free of any conflicts of interest, even if retention of separate legal counsel for the State is necessary. Subcontractor also agrees to defend, indemnify, and hold the Governments harmless for all costs, expenses and attorneys' fees incurred if the Governments prevail in an action against the Subcontractor in establishing and litigating the indemnification coverage provided herein. This obligation shall continue after the termination of this agreement.

Subcontractor shall secure and keep in force during the term of this agreement, from insurance companies, government self-insurance pools or government self-retention funds authorized to do business in North Dakota: 1) commercial general liability; 2) automobile liability; and 3) workers compensation insurance all covering the Subcontractor for any and all claims of any nature which may in any manner arise out of or result from this agreement. The minimum limits of liability required are \$500,000 per person and \$2,000,000 per occurrence for commercial general liability and automobile liability coverages, and statutory limits for workers compensation. The Governments shall be endorsed on the commercial general liability policy and automobile liability policy as additional insureds. The Governments shall have all the benefits, rights and coverages of an additional insured under these policies that shall not be limited to the minimum limits of insurance required by this agreement or by the contractual indemnity obligations of the Contractor. Said endorsement shall contain a "Waiver of Subrogation" waiving any right of recovery the insurance company may have against the Governments as well as provisions that the policy and/or endorsement may not be canceled or modified without thirty (30) days prior written notice to the undersigned representatives of the Governments, and that any attorney who represents the State under this policy must first qualify as and be appointed by the North Dakota Attorney General as a Special Assistant Attorney General as required under N.D.C.C. Section 54-12-08. Subcontractor's insurance coverage shall be primary (i.e., pay first) as respects any insurance, self-insurance or self-retention maintained by the Governments. Any insurance, self-insurance or self-retention maintained by the Governments shall be excess of the Contractor's insurance and the Subcontractor's insurance and shall not contribute with them. The insolvency or bankruptcy of the insured Subcontractor shall not release the insurer from payment under the policy, even when such insolvency or bankruptcy prevents the insured Subcontractor from meeting the retention limit under the policy. Any deductible amount or other obligations under the Subcontractor's policy(ies) shall be the sole responsibility of the Subcontractor. This insurance may be in policy or policies of insurance, primary and excess, including the so-called umbrella or catastrophe form and be placed with insurers rated "A-" or better by A.M. Best Company, Inc. The Governments will be indemnified, saved, and held harmless to the full extent of any coverage actually secured by the Subcontractor in excess of the minimum requirements set forth above. The Government Entity that hired the Subcontractor shall be held responsible for ensuring compliance with the above requirements by all Subcontractors. The Governments reserve the right to obtain complete, certified copies of all required insurance documents, policies, or endorsements at any time.

Proposal:

The applicant requests approval of one entitlement:

1. A plat of the **Champions Gate at Prairie Farms Fourth Addition**, a replat of Lots 1 and 2, Block 1, Champion's Gate at Prairie Farms Second Addition, to the City of Fargo, Cass County, North Dakota.

This project was reviewed by the City's Planning and Development, Engineering, Public Works, and Fire Departments ("staff"), whose comments are included in this report.

Surrounding Land Uses and Zoning Districts:

- North: P/I, Public/Institutional, with park and open space use;
- East: P/I, Public/Institutional, with park and open space use; and SR-4, with single family use
- South: SR-3, with single family use; some lots are undeveloped
- West: City of Frontier—lots adjacent to the proposed subdivision are large lot detached single family residences.

Area Plans:

The Fargo Growth Plan 2024 designates the area of the subject property as "Suburban Neighborhood" place type. The primary use in this place type is small to medium lot single family detached housing. The SR-3 zoning is consistent with this place type designation.

(continued on next page)

Context:

Schools: The subject property is located within the Fargo School District and is served by Centennial Elementary, Discovery Middle, and Davies High schools.

Neighborhood: The subject property is located within the Maple Valley neighborhood.

Parks: Prairie Farms Park (5400 31st Street South) is located east across 31st Street South from the subject property. This park has amenities of a basketball court, grill, picnic table, playgrounds for ages 2-5 and 5-12 recreational trails, and a shelter.

Pedestrian / Bicycle: An off-road bike facility is located along 52nd Avenue South, approximately one-quarter mile north of the subject property. Additionally, there are paths within Prairie Farms Park, as noted above. All these paths are components of the metro area trail system.

MATBUS Route: The subject properties are not located along a MATBUS route.

Staff Analysis:**SUBDIVISION**

The area of the proposed subdivision has been included in two previous subdivisions, as shown in the chart below.

SUBDIVISION	YEAR	BLOCK	LOTS or portions thereof
Prairie Farms	2014	6	14, 15
Champions Gate at Prairie Farms	2018	1	1 through 4
Champions Gate at Prairie Farms Second Addition	2025	1	1 and 2

(NOTE: There is also a Champions Gate at Prairie Farms Third Addition, but the proposed Fourth Addition is not a replat of the Third Addition. The Third Addition is a replat of different lots in the Second Addition.)

The proposed subdivision combines Lots 1 and 2, Block 1, into a single lot. Though Lot 1 has an area of over 27,000 feet, and a building envelope (within the setbacks) of almost 15,000 square feet, the developer believes the configuration of this lot, with its long, curved frontage and narrowing "tail" to the north, does not allow him to build the type of homes he envisions for this subdivision, so his intent is to combine it with Lot 2 into a single large lot.

Lot 1 currently includes a subdivision sign. This sign will be in an easement, which will be a document recorded separately from the plat. The sign will be maintained by the HOA.

A private driveway with two access points from 31st Street South serves the individual lots in the Champions Gate at Prairie Farms subdivision, so the lots do not have individual driveways directly onto 31st Street South. The proposed plat depicts the vacation of the portion of this access easement on Lot 2, as this will no longer be necessary since Lots 1 and 2 will be combined.

Staff has determined that neither an amenities plan nor a developer agreement is required for this subdivision.

The LDC stipulates that the following criteria are met before a minor plat can be approved:

- 1. Section 20-0907.B.3 of the LDC stipulates that the Planning Commission recommend approval or denial of the application, based on whether it complies with the adopted Area Plan, the standards of Article 20-06 and all other applicable requirements of the Land Development Code. Section 20-0907.B.4 of the LDC further stipulates that a Minor Subdivision Plat shall not be approved unless it is located in a zoning district that allows the proposed development and complies with the adopted Area Plan, the standards of**

Article 20-06 and all other applicable requirements of the Land Development Code. The Fargo Growth Plan 2024 designates the area of the subject property as “Suburban Neighborhood.” The SR-3 zoning is generally consistent with this growth plan designation. In accordance with Section 20-0901.F of the LDC, notices of the proposed plat have been sent out to property owners within 300 feet of the subject property. To date, staff has received and responded to one inquiry about the project. The project has been reviewed by the city’s Planning, Engineering, Public Works, Inspections, and Fire Departments. These departments have found that the plat meets the standards of Article 20-06 and other applicable requirements of the Land Development Code. (Criteria Satisfied)
2. Section 20-0907.C.4.f of the LDC stipulates that in taking action on a Final Plat, the Board of City Commissioners shall specify the terms for securing installation of public improvements to serve the subdivision. While this section of the LDC specifically addresses only major subdivision plats, staff believes it is important to note that any improvements associated with the project (both existing and proposed) are subject to special assessments. Special assessments associated with the costs of the public infrastructure improvements are proposed to be spread by the front footage basis and storm sewer by the square footage basis as is typical with the City of Fargo assessment principles. (Criteria Satisfied)
Recommended Motion
Suggested Motion: “To accept the findings and recommendations of the Planning Commission and staff and move to approve the proposed plat of the Champions Gate at Prairie Farms Fourth Addition, as outlined within the staff report, as the proposal complies with the Fargo Growth Plan 2024, the standards of Article 20-06, Section 20-0907.B.and C of the Land Development Code, and all other applicable requirements of the Land Development Code.”
Planning Commission Recommendation: July 7th, 2026
At the July 7th, 2026 Planning Commission, that Commission, by a vote of 9-0 with two Commissioners absent, moved to accept the findings and recommendations of staff and recommended approval to the City Commission of the proposed plat of the Champions Gate at Prairie Farms Fourth Addition, as outlined within the staff report, as the proposal complies with the Fargo Growth Plan 2024, the standards of Article 20-06, Section 20-0907.B.and C of the Land Development Code, and all other applicable requirements of the Land Development Code.

There was an existing sign easement in the northeast corner of the plat that was vacated via separate document by the owner after the Planning Commission approval.

Staff has determined that an Amenities Plan is not necessary for the proposed subdivision.

Proposal:
The applicant requests one entitlement: - A minor subdivision, entitled Berg Addition which is a replat of Replat of Lots 1-5, Block 11, Lots 22-26, Block 12, part of the vacated 22nd Street North right-of-way, and part of the vacated alley along the West line of Block 11, Tyler's Addition, to the City of Fargo, Cass County, North Dakota This project was reviewed by the City's Planning and Development, Engineering, Public Works, and Fire Departments ("staff"), whose comments are included in this report. Surrounding Land Uses and Zoning Districts: - North: LI, industrial service with industrial uses

• East: SR-3, Single-Dwelling Residential with residential use • South: LI, industrial uses • West: LI, industrial uses
Area Plans: The Fargo Growth Plan 2024 designates the place type of the subject property as “Transitional Industrial/Commercial.” The future land use map in the Madison/Unicorn Park Neighborhood Implementation Brief of the Core Neighborhoods Plan designates the subject property as “Industrial / Warehouse.” The existing LI, Limited Industrial zoning and the current industrial land uses are consistent with this place type and land use designation. No zone change is proposed.
Context: Schools: The subject property is located within the Fargo School District, specifically within the Madison Elementary, Ben Franklin Middle, and Fargo North High schools. Neighborhood: The subject property is in the Madison/Unicorn Park neighborhood. Parks: There are no parks within a quarter mile of the subject property. This route connects the downtown Ground Transportation Center with the industrial areas along 2nd, 7th, and 12th Avenue North.
Staff Analysis: <u>SUBDIVISION</u> The proposed subdivision replats several lots and portions of a vacated street and alley within Tyler’s Addition into a two-lot, one block subdivision. The buildings on the subject property are used as shops and offices; most of the property is used for truck parking. These uses are intended to continue, with no further development is planned at this time. The applicant intends to convey Lot 2 to another business for use as a truck parking area. At staff’s direction, the applicant has added a 10-foot wide easement for the exclusive use of the City between the two existing sanitary sewer and water line easements. Staff and the applicant have executed an amenities plan addressing stormwater management. FINDINGS Minor Subdivision The LDC stipulates that the following criteria is met before a minor plat can be approved: 1. Section 20-0907.B.3 of the LDC stipulates that the Planning Commission recommend approval or denial of the application, based on whether it complies with the adopted Area Plan, the standards of Article 20-06 and all other applicable requirements of the Land Development Code. Section 20-0907.B.4 of the LDC further stipulates that a Minor Subdivision Plat shall not be approved unless it is located in a zoning district that allows the proposed development and complies with the adopted Area Plan, the standards of Article 20-06 and all other applicable requirements of the Land Development Code. This subdivision is intended to replat several lots and portions of a vacated street and alley within Tyler’s Addition into a two-lot, one block subdivision. The Fargo Growth Plan 2024 designates

the place type of the subject property as "Transitional Industrial/Commercial." The future land use map in the Madison/Unicorn Park Neighborhood Implementation Brief of the Core Neighborhoods Plan designates the subject property as "Industrial / Warehouse." The existing LI, Limited Industrial zoning and current industrial uses are consistent with this place type and land use designation. No zone change is proposed. In accordance with Section 20-0901.F of the LDC, notices of the proposed plat have been sent out to property owners within 300 feet of the subject property. To date, staff has received and responded to one inquiry about the application. Staff has reviewed this request and finds that this application complies with standards of Article 20-06 and all applicable requirements of the Land Development Code. (Criteria Satisfied) 2. Section 20-0907.C.4.f of the LDC stipulates that in taking action on a Final Plat, the Board of City Commissioners shall specify the terms for securing installation of public improvements to serve the subdivision. While this section of the LDC specifically addresses only major subdivision plats, staff believes it is important to note that any improvements associated with the project (both existing and proposed) are subject to special assessments. Special assessments associated with the costs of the public infrastructure improvements are proposed to be spread by the front footage basis and storm sewer by the square footage basis as is typical with the City of Fargo assessment principals. (Criteria Satisfied)
Staff Recommendation:
Suggested Motion: "To accept the findings and recommendations of the Planning Commission and staff and move to approved the proposed plat of Berg Addition, as outlined in the staff report, as the proposal complies with the Fargo Growth Plan 2024, Core Neighborhoods Plan, Standards of Article 20-06, Sections 20-0907 B and C of the Land Development Code, and all other applicable requirements of the Land Development Code."
Planning Commission Recommendation: July 7th, 2026
At the July 7th, 2026 Planning Commission, that Commission, by a vote of 8-0 with three Commissioners absent, moved to accept the findings and recommendations of staff and recommended approval to the City Commission the proposed plat of Berg Addition, as outlined in the staff report, as the proposal complies with the Fargo Growth Plan 2024, Core Neighborhoods Plan, Standards of Article 20-06, Sections 20-0907 B and C of the Land Development Code, and all other applicable requirements of the Land Development Code.

RE: Carbide Cutting Edges (RFP26231)

Commissioners:

On July 28, 2026, three proposals were received and reviewed for the purchase of carbide cutting edges.

The results are as follows:

<u>Firm</u>	<u>Price</u>
Kris Engineering Inc	\$153,611.25
RDO Equipment	\$193,189.45
Titan Machinery	\$157,856.75

The review committee consisting of Allan Erickson, Dan Schaeffer and Tom Ganje determined that all vendors met the required specifications and the prices were within expected parameters. Our recommendation is to purchase carbide cutting edges based on the low bid proposal from Kris Engineering Inc.

Funding for this project is included in the 2026 Central Garage budget.

SUGGESTED MOTION:

Approve the recommendation to purchase carbide cutting edges from Kris Engineering Inc. in the amount of \$153,611.25 (RFP26231).

Respectfully Submitted,

Allan Erickson
Fleet Services Manager

RE: Change Order No. 4 for GTC Deck Overlay Project

Dear Commissioners:

This memorandum is to inform the City Commission of Change Order No. 4 for the GTC Deck Overlay project with Industrial Builders, Inc., as prepared by KU Engineering LLC.

Change Order Details

- The scope of work was modified due to changed conditions identified as work was being completed. A summary of the changed conditions are noted below:
 - A total of six (6) tendons were determined to be broken along Grid 9; this includes the 2 original tendons associated with PR #3.
 - There was one broken tendon and another abandoned tendon discovered along Grid D as preparatory work was being completed to address the tendon repairs outlined in PR #3.

After deliberation of the changed conditions, the City elected to pause the ongoing tendon repairs due to funding constraints. The work completed in conjunction with PR #3 at the time work was paused is 59,772.00 (see attached summary from IBI). The previously approved amount of PR #3 was 525,201.00. This results in a credit of \$15,429.00 to the contract.

- The Owner Contingency remaining from CO #3 of \$33,027.15 will be returned to the owner as a credit to the contract.

Impact on Project

- Contract Amount: Decrease of \$48,456.15

Recommended Motion

It is recommended that the City Commission approve Change Order No. 4 for the GTC Deck Overlay Project.

Troy Hall, Water Utility Director, presented the attached proposed Change Order No. 1 with Johnson and Schock Excavating, LLC (J&S) in the amount of \$80,000 under Project WA2507. This change is for private-side Lead Service Line Replacement (LSLR) at two (2) businesses on Northern Pacific (NP) Avenue and one 4-plex housing unit at 308 7th St. N. The Water Utility is coordinating with the Engineering Department for private-side LSLR during Engineering projects. NP Ave is currently under construction to replace the street and creates an opportunity for LSLR. The costs for this change order with J&S are 66.5% grant eligible under the overall LSLR project in Fargo. To align with NP Ave construction timing, a Work Change Directive (WCD) was issued to J&S.

MOTION:

On a motion by Ben Dow, seconded by Tom Knakmuhs, the Utility Committee voted to approve Change Order No. 1 with Johnson and Schock Excavating, LLC in amount of \$80,000 and 14-day time extension.

MEMORANDUM

July 10, 2026

To: Utility Committee

From: Troy B. Hall, Water Utility Director *T.B.H.*

Re: WA2507 Change Order No. 1 – Lead Service Line Replacement (LSLR)

Attached is proposed change order and work change directive with Johnson and Schock Excavating, LLC (Johnson & Schock) under Project WA2507 - Water Service Line Replacement. This is to replace three (3) Lead Service Lines that are all private side ownership: two (2) on Northern Pacific (NP) Avenue and one (1) for a multi-family 4-plex housing unit. We are coordinating with the Engineering Department to replace private side Lead Service Lines when opportunity allows during a street replacement projects. The NP Avenue project is under construction through the Engineering Department. Due to timing, we issued a Work Change Directive to Johnson & Schock for this work.

Per direction from our Drinking Water State Revolving Fund (DWSRF) contact, we requested quotes from contractors that have already been awarded projects within the overall Lead Service Line Replacement (LSLR) project for 2026 construction. By doing that, the contractors are already familiar with DWSRF requirements which allows 66.5% grant funding. Johnson & Schock was the only quote received. Water Utility staff is also requesting a 2-week time extension for Johnson & Schock for the WA2507 project. This is because Johnson & Schock is being temporarily pulled off the original scope of WA2507 to complete the replacement of the three (3) Lead Service Lines.

Plan of Financing

The costs for this change order are eligible for 66.5 percent grant from the DWSRF loan program. The LSLR project is in the budget and part of the Capital Improvement Plan (CIP) for water utility.

SUGGESTED MOTION:

Approve Change Order No. 1 with Johnson and Schock Excavating LLC in amount of \$80,000 and a 2-week time extension to replace three (3) Water Service Lines under Project WA2507.

Your consideration in this matter is greatly appreciated.

Re: Houston Engineering Task Order 26-04: Lead Service Line Replacement – Construction Services for Six Bid Areas: 2026-05, 2026-06, 2026-07, 2026-08, 2026-09, and 2026-10.

Attached is a proposed task order with Houston Engineering, Inc. (HEI) related to our Lead Service Line Replacement (LSLR) project. Under this task order, there are construction services for six (6) LSLR bids with approximately 310 water service lines to homes or businesses. This task order is not-to-exceed \$394,574 and will be billed as hourly. Loan forgiveness (grant) at 66.5% will be applied to the cost of this task order. The LSLR project is in the budget and Capital Improvement Plan (CIP) for the water utility. The following are individual project codes covered in this construction services task order:

- WA2508: Bid Area 2026-05 Final completion 10/30/2026 (50 LSLRs)
- WA2509: Bid Area 2026-06 Final completion 10/30/2026 (52 LSLRs)
- WA2510: Bid Area 2026-07 Final completion 10/30/2026 (50 LSLRs)
- WA2511: Bid Area 2026-08 Final completion 10/30/2026 (61 LSLRs)
- WA2512: Bid Area 2026-09 Final completion 11/20/2026 (51 LSLRs)
- WA2513: Bid Area 2026-10 Final completion 11/20/2026 (46 LSLRs)

Since this project involves federal funding, there are significant federal requirements for LSLR construction in order to receive reimbursement. From a construction observation perspective, the scope is being split between HEI and Water Utility personnel. HEI scope includes construction monitoring and observation, construction administration including work with contractors on invoices, shop drawing submittal review, and pay applications. There is significant coordination when dealing with multiple contractors and over 300 owners of homes and businesses. We are targeting the replacement of roughly 500 Lead Service Lines total in 2026.

Plan of Financing

The task order is eligible for 66.5 percent grant from the DWSRF loan program. The overall LSLR program is in the budget and part of the Capital Improvement Plan (CIP) for water utility.

SUGGESTED MOTION:

Approve Task Order 26-04 with Houston Engineering, Inc. in the amount of \$394,574 for construction services to cover six (6) contractor bid areas for the 2026 Lead Service Line Replacement program.

Your consideration in this matter is greatly appreciated.

A. Standard Hourly Rates

1. For the specified category of services, the Owner shall pay Engineer an amount equal to the cumulative hours charged to the Specific Project by each class of Engineer's employees times Standard Hourly Rates for each applicable billing class. Under this method, Engineer shall also be entitled to reimbursement from Owner for the expenses identified in Paragraph C2.03 below, and Appendix 1.
2. Standard Hourly Rates include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.
3. Engineer's Reimbursable Expenses Schedule and Standard Hourly Rates are attached to this Exhibit as Appendices 1 and 2.
4. The total estimated compensation for the specified category of services shall be stated in the Task Order. This total estimated compensation will incorporate all labor at Standard Hourly Rates, and reimbursable expenses (including Consultants' charges, if any).
5. The amounts billed will be based on the cumulative hours charged to the specified category of services on the Specific Project during the billing period by each class of Engineer's employees times Standard Hourly Rates for each applicable billing class, plus reimbursable expenses (including Consultant's charges, if any).
6. The Standard Hourly Rates and Reimbursable Expenses Schedule shall be adjusted annually (as of January 1) to reflect equitable changes in the compensation payable to Engineer.

C2.03 Reimbursable Expenses

- A. Under the Lump Sum method basis of compensation to Engineer, unless expressly indicated otherwise the Lump Sum amount **includes** the following categories of expenses: transportation (including mileage),

lodging, and subsistence incidental thereto; providing and maintaining field office facilities including furnishings and utilities; toll telephone calls, mobile phone services, and courier charges; reproduction of reports, Drawings, Specifications, bidding-related or other procurement documents, Construction Contract Documents, and similar Specific Project-related items; and Consultant charges. These expenses are not reimbursable under the Lump Sum method, unless expressly indicated otherwise in C2.02.A.3 above.

- B. The amounts payable to Engineer for reimbursable expenses will be the Project-specific internal expenses actually incurred or allocated by Engineer, plus all invoiced external reimbursable expenses allocable to the Specific Project, the latter multiplied by a factor of **1.0**.
- C. Whenever Engineer is entitled to compensation for the charges of its Consultants, those charges shall be the amount billed by such Consultants to Engineer times a factor of **1.10**.
- D. The external reimbursable expenses and Consultants' factors include Engineer's overhead and profit associated with Engineer's responsibility for the administration of such services and costs.

C2.04 *Serving as a Witness*

- A. For services performed by Engineer's employees as witnesses giving testimony in any litigation, arbitration or other legal or administrative proceeding under Paragraph A2.01.A.20, at the "Senior Consultant" rate that is closest to and at least **1.25** times the witness's standard hourly rate. Compensation for Consultants for such services will be by reimbursement of Consultants' reasonable charges to Engineer for such services.

C2.05 *Other Provisions Concerning Payment*

- A. *Extended Contract Times:* Should the Contract Times to complete the Work be extended beyond the period stated in the Task Order, payment for Engineer's services shall be continued based on the Standard Hourly Rates Method of Payment.
- B. *Estimated Compensation Amounts*
 - 1. Engineer's estimate of the amounts that will become payable for services are only estimates for planning purposes, are not binding on the parties, and are not the minimum or maximum amounts payable to Engineer under the Agreement.
 - 2. When estimated compensation amounts have been stated in a Task Order and it subsequently becomes apparent to Engineer that a compensation amount thus estimated will be exceeded, Engineer shall give Owner written notice thereof. Promptly thereafter Owner and Engineer shall review the matter of services remaining to be performed and compensation for such services. Owner shall either agree to such compensation exceeding said estimated amount or Owner and Engineer shall agree to a reduction in the remaining services to be rendered by Engineer so that total compensation for such services will not exceed said estimated amount when such services are completed. If Engineer exceeds the estimated amount before Owner and Engineer have agreed to an increase in the compensation due Engineer or a reduction in the remaining services, the Engineer shall give written notice thereof to Owner and shall be paid for all services rendered thereafter.
