Second by Piepkorn. On call of the roll Commissioners Williams, Piepkorn, Wimmer and Walaker voted aye.

Absent and not voting: Commissioner Mahoney.

The motion was declared carried.

(Commissioner Mahoney present)

Payment of the Depreciated Value and Deductibles for Sewer Backup Properties in the 3100 Block of 9 1/2 and 10th Streets North Approved: Appropriate Staff Directed to Re-evaluate Claim for Property Located at 3131 10th Street North:

The Board received a communication from Planner Mark Williams stating on November 4, 2009 sewer backup occurred in the 3100 block of 9 1/2 and 10th Streets North while testing a temporary sanitary sewer bypass and approximately 19 homes sustained damage. The North Dakota Insurance Reserve Fund (NDIRF), with assistance from several individual's homeowners' insurance companies, he said, paid

for property damage incurred from the accident. However, he said, the amount did not include the depreciated value and property owners are asking the City of Fargo for reimbursement of that amount or their insurance deductibles. He said claims paid total approximately \$132,789.29 less the depreciated amount of \$24,868.03 and insurance deductible amounts are approximately \$930.00. The Finance Committee met on March 30, 2010 to discuss the inquiries, he said, and did not recommend reimbursing the depreciated amounts.

Nathan Derby, 3141 9 1/2 Street North, said he is against this decision and has been under the impression for the past five months that he wouldn't have to pay for any of the damages caused by the sewer backup. He said the neighborhood could have banded together and filed suit against the City, but chose not to because they were told that the damages would be taken care of. He said he is frustrated that the City will spend hundreds of thousands of dollars to protect the City from flooding, but this \$25,000 seems like a lot of money to come up with for the City. The homeowners felt like they were being strong-armed into signing the agreements from the insurance company stating they would not seek further damages, he said, and if they did not sign the agreement they would not receive any compensation. Whenever the topic of this situation comes up in conversation everyone thinks they have all been 100% compensated, he said, and if this is passed tonight, he would like everyone to know that they have not been 100% compensated.

Susan Joelson, 3133 9 1/2 Street North, said they should have been made aware testing was going to be done in their neighborhood, so they could have protected their homes. The neighborhood consists of a lot of retired folks, people on fixed incomes and many young families, she said, and this is not an expense any of them were prepared for. She said they took it to heart when City officials came to the neighborhood the day of the accident and told them they would be taken care of. She said they should be fully compensated for something they had no blame in or could protect themselves against.

Commissioner Wimmer stated the City has been operating in a straightforward manner, but the City is roughly \$24,000 off the mark to make these property owners whole again. He said even if the City could do 100%, 75% or even 50% of the \$24,868 that would get the property owners closer to being whole again.

In response to a question from Commissioner Mahoney about what the City said they were initially going to do for property owners that incurred damages, City Administrator Pat Zavoral stated the contractor, the design team and the City, through NDIRF put money in to compensate the residents. He said it is his understanding that NDIRF then met individually with each homeowner and NDIRF came up with a reasonable amount minus the depreciated value that should be compensated to the homeowners. He said there are half a dozen homeowners that did not respond to the letter that was sent out asking if they would like to see further compensation from the City.

Commissioner Piepkorn said the City is setting precedence by paying out the whole amount. He said this may have only affected a few residents, but the City could be making a commitment for the future that could be a lot more than \$24,000.

Commissioner Wimmer moved payment of the depreciated value and the deductibles for the sewer back-up properties in the 3100 block of 9 1/2 and 10th Streets North be approved and that appropriate staff be directed to re-evaluate the

claim for the property located at 3131 10th Street North and come back to the Commission in two weeks with a recommendation.

Second by Williams. On call of the roll Commissioners Wimmer, Williams, Mahoney and Walaker voted aye.

Commissioner Piepkorn voted nay.

The motion was declared carried.

Hearing on the Special Assessment List for the Island Park Ramp Approved:

A Hearing had been set for this day and hour on the special assessment list for the Island Park Ramp in the City of Fargo, North Dakota.

No appeals have been filed in writing against any item appearing on such special assessment list and no person is present at this Hearing to appeal or offer any objection thereto.

Commissioner Williams moved that the special assessment list for the Island Park Ramp be and the same is hereby approved and confirmed and ordered filed in the office of the City Auditor and that the City Auditor's Office be instructed to proceed to collect the assessments in the manner provided by law.

Second by Piepkorn. On call of the roll Commissioners Williams, Piepkorn, Mahoney, Wimmer and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Seal Coat and Incidentals No. 5864.

No appeals have been filed in writing against any item appearing on such special assessment lists and no person is present at this Hearing to appeal or offer any objection thereto.

Commissioner Mahoney moved that the special assessment lists for the construction of the above listed Improvement Districts be and the same are hereby approved and confirmed and ordered filed in the office of the City Auditor, that the City Auditor's Office be instructed to proceed to collect the assessments in the manner provided by law and that the interest rate be set at 1% per annum over the net rate on bonds financing said projects.

Second by Piepkorn. On call of the roll Commissioners Mahoney, Piepkorn, Williams, Wimmer and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Funds Allocated From the Sales Tax Fund for Infrastructure for Improvement District No. 5547:

A Hearing had been set for this day and hour on the special assessment list for the construction of Sanitary Sewer, Water Main, Storm Sewer, Paving, Street Lights, Bridge Construction and Incidentals Improvement District No. 5547 in the City of Fargo, North Dakota, on which special assessment list a Hearing had been held by the Special Assessment Commission after which no action was taken due to protests received.

The Board received a communication from City Auditor Steve Sprague stating Improvement District No. 5547 has been pulled from the assessment run while staff responds to objections raised by Attorney Jonathan Garaas on behalf of his clients. The Special Assessment Commission is requesting the City Commission make a decision on a question regarding additional funding, he said, as the Special Assessment Commission does not have the authority to apply additional funds to assessments. He said typically if assessments are made based on caps, which the Special Assessment Commission is doing in this case, the caps are applied based on the zoning that was present at the time that the district was created. In a change initiated by the Planning Commission, he said, the protester in this case had his home reclassified from MR zoning to SR zoning after creation of the Improvement District, which would result in a lower assessment. He stated there are a total of 15 properties, which are in the Roosevelt Neighborhood along 12th Avenue North that would be affected by this change and staff is recommending the Commission allocate additional funding needed of \$3,733.95 from the Sales Tax Fund for Infrastructure.

Commissioner Wimmer moved the Special Assessment Commission be authorized to assess the 15 properties that were rezoned after creation of Improvement District No. 5547 as SR zoning and that the funding shortfall occurring as a result of this action be taken from the Sales Tax Fund for Infrastructure.

Second by Piepkorn. On call of the roll Commissioners Wimmer, Piepkorn, Mahoney, Williams and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Partnership with QuestCDN to Provide a Source for Electronic Downloading of Plan Sets Approved:

The Board received a communication from Deputy City Engineer Dave Johnson stating the City of Fargo has entered into a partnership with QuestCDN to provide a site for electronic download of plan sets and specifications for City projects that are advertised for bidding opportunities. He said the engineering office investigated a number of methods of providing this service and found the advantage of QuestCDN is they are an established service, they have a method to disseminate and track addendums in a timely manner and their partnership is a no-cost service to the City of Fargo. He stated this partnership will provide a source and method whereby interested contractors can download individual plan sets and the accompanying specifications for a modest fee of \$20.00, which will be split 50/50 with the City of Fargo and QuestCDN. The City will still print and assemble plans and specifications, he said, however, this is a time-consuming and labor-intensive process, therefore, with the adoption of the partnership the rates will change from \$25/set to \$125/set.

Commissioner Williams moved the partnership with QuestCDN to provide a source for electronic downloading of plan sets be approved and the charge for a set of plans and specifications be increased from \$25/set to \$125/set.

Second by Wimmer. On call of the roll Commissioners Williams, Wimmer, Piepkorn, Mahoney and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Appropriate Staff Directed to Develop a Viable Funding Participation Formula for the Boise de Sioux Red Path Retention Project:

The Board received a communication from Commissioner Mike Williams stating it would greatly enhance the efforts toward completion of the needed metro area 35,000 cfs diversion project if City Engineering Staff and the Finance Committee were to develop a viable funding participation formula based on Fargo's benefit for the Red Path Retention Project. Funding for the retention projection, he said, could come from last year's 1/2 cent sales tax revenue. He said he is aware these are relatively small projects in the Boise de Sioux Watershed District upstream and are not going to reduce the area's flood levels immediately, but this would demonstrate that the City acknowledges that upstream retention will help reduce flood impacts and work incrementally toward reducing negative impacts to Fargo's downstream friends and neighbors when the diversion is complete.

Jon Roeschlein, Administrator of the Bois de Sioux Watershed District, stated the Watershed has developed an overall plan and the goal is to develop 150,000 acre feet of storage. The project came to be because there was an opportunity to purchase some land, he said, and it looked like a good place to store some water. He said they have roughly two-thirds of the property acquired that is needed to build the project on. The project itself will roughly have a gate control storage of about 13,100 acre feet, he said, and an emergency spillway storage of 16,200 acre feet. He said this project is still in the preliminary stages and the estimated cost of the full blown project with natural resource enhancements is about \$29 million and about \$16 million without the natural resource enhancements.

Jerome Deal, Board member of the Boise de Sioux Watershed District, said the Red River Watershed Management Board has a joint powers agreement with watersheds on the Minnesota side and there is a taxing capacity in place so the board is able to move money around as needed. The Red River Watershed Management Board, he said, uses a star formula to prioritize projects which is for use on the Red only, however, the board is trying to make these projects as multi-use as possible.

In response to a question from Commissioner Williams asking if the agreement can cross state lines, Mr. Deal stated it can cross over into other states and is multi-national as well.

Chuck Fritz, Director of the International Water Institute, said the common goal has to be reduction in peak flows and without putting water storage on the landscape he is not sure how that can be done.

Commissioner Williams moved Engineering staff and the Finance Committee be directed to develop a viable funding participation formula for the Boise de Sioux Red Path Retention Project.

Second by Piepkorn. On call of the roll Commissioners Williams, Piepkorn, Mahoney, Wimmer and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Memorandum of Understanding with Cass County Approved:

The Board received a communication from Mayor Walaker submitting a copy of the Memorandum of Understanding between the County of Cass and the City of Fargo agreeing to hold off on any election question regarding a sales tax for the June 2010 election and agree to not call for any special sales tax election before the November 2010 election. In the meantime, he said, the County of Cass and the City of Fargo agree to jointly work on a funding solution for the North Dakota local share of the Red River Diversion project.

Commissioner Wimmer moved the Memorandum of Understanding with Cass County be approved.

Second by Williams. On call of the roll Commissioners Wimmer, Williams, Piepkorn, Mahoney and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Commissioner Mahoney moved that the Board adjourn to 5:00 o'clock p.m., Monday, April 19, 2010.

Second by Wimmer. All the Commissioners voted aye and the motion was declared carried.

The time at adjournment was 6:11 o'clock p.m.
