2013 Cost of Living Adjustment for City Employees Approved:

The Board received a communication from the Budget Development Team and the Finance Committee stating that during the budget approval process for 2013, the Commission approved the evaluation of a potential cost of living adjustment (COLA) at mid-year vs. the past practice of including the increase in the original budget. They said this process allows time to complete the final year-end financial reporting and gathering of the most recent economic data prior to making any cost of living increase decisions. They said they are recommending a 2% cost of living adjustment effective July 1, 2013 and the budget be modified for the last half of fiscal year 2013 to fund the proposed COLA. General fund balances are slightly ahead of the fund balance goals, they said, and the health insurance rate for the next two years was 6%, the lowest renewal rate received in years.

Director of Finance Kent Costin said last year at budget time there was somewhat of a permanent shift made in the timing for deciding compensation for City staff. Making the decision at mid-year is helpful, he said, and allows a clearer picture of revenue sources and whether the budget is on target, as well as the economy. He said it is important to keep a balanced approach between the capital spending and operating costs appropriations.

In response to a question from Commissioner Mahoney about the cost of the COLA, Mr. Costin said an increase of 1% would be about \$480,000.00. He said pension contributions were raised 1% and will be raised another 1% January 1st meaning some of the growth in compensation is taken up by the rise in pension contributions.

Commissioner Sobolik moved the 2% cost of living adjustment for all full time and permanent part time employees effective July 1, 2013 be approved, including a budget amendment to appropriate the funding needed for this adjustment.

Application Filed by Northern Prairie Performing Arts d/b/a The Stage at Island Park, Fargo Moorhead Community Theatre for an Alcoholic Beverage License Approved:

A Hearing had been set for this day and hour on the application filed by Northern Prairie Performing Arts d/b/a The Stage at Island Park, Fargo Moorhead Community Theatre for a Class "AB" Alcoholic Beverage License at 333 4th Street South, notice of which had been duly published in the official newspaper for the City of Fargo.

No written protest or objection to the granting of the application has been received or filed in the office of the City Auditor, and said application has been approved by the Police Department as to the character of the applicant.

The Board determined that no person is present at this Hearing to protest or offer objection to the granting of the application.

City Auditor Steve Sprague said the applicant applied for a Class "AB" Alcoholic Beverage License, and it was advertised as such, however; only a Class "A" Alcoholic Beverage License, which is on-sale, can be issued for a club. The "B" part of the license, which is for off-sale, he said, is not available to clubs. He said the

application would need to be amended for a Class "AC" Alcoholic Beverage License, which is a Class "A" license with a club designation. To qualify for a club designation, he said, the entity must have been in existence for 20 years and have 200 plus members. He said the applicant is agreeable to amend the application to a Class "AC" Alcoholic Beverage License. He said he received a communication from Chief of Police Keith Ternes stating if the applicant is agreeable to amending the application to a Class "A" alcoholic beverage license, rather than a Class "AB" license, he would recommend approval.

Commissioner Sobolik moved a Class "AC" Alcoholic Beverage license be approved for Northern Prairie Performing Arts d/b/a The Stage at Island Park, Fargo Moorhead Community Theatre

Second by Williams. On call of the roll Commissioners Sobolik, Williams, Mahoney and Walaker voted aye.

Absent and not voting: Commissioner Wimmer.

The motion was declared carried.

Amendment to the Growth Plan Approved: (4152, 4220, 4242, 4264, 4286 52nd Avenue South; 5498 and 5776 45th Street South; 5461 38th Street South; and 3856 56th Avenue South):

A Hearing had been set for June 10, 2013 to consider approval of an Amendment to the Growth Plan of the proposed The Pines at the District Addition.

At the June 10, 2013 meeting, the Hearing was continued to this day and hour.

The Fargo Planning Commission recommended approval of the Amendment to the Growth Plan at their January 8, 2013 meeting.

No written protest or objection to the amended Plan has been received or filed in the Planning and Development Department.

The Board determined that no person is present to protest or offer objection to the Growth Plan amendment.

In response to a question from Commissioner Williams about whether the trend is to reduce the number of cul-de-sacs in new developments due to the problems with snow removal, Planner Joe Nigg said the original plans for this development included nine cul-de-sacs and that has been reduced down to three. He said as plans for new developments come through, from the conceptual point to the final plans, connectivity is important and cul-de-sacs are being reduced as much as possible.

Commissioner Sobolik moved the amendment to the Growth Plan be approved.

Second by Mahoney. On call of the roll Commissioners Sobolik, Mahoney, Williams and Walaker voted aye.

Absent and not voting: Commissioner Wimmer.

The motion was declared carried.

Renaissance Zone Project for Diamond Law Firm, PLLC Approved:

A Hearing had been set for this day and hour to receive comments on a Renaissance Zone Project for Diamond Law Firm, PLLC for a business leasing property as part of a zone project at 208 North Broadway, Suite 401-B.

No written protest or objection to the Project has been received or filed in the City Auditor's Office.

The Board determined that no person is present to protest or offer objection to the Project.

The Board received a communication from Planning Administrator Nicole Crutchfield stating the Renaissance Zone Law states "a business that purchases or leases property as part of a zone project is exempt from income tax for five taxable years beginning in the year of the investment or lease for income derived from the business locations within the zone". She said the Fargo Renaissance Zone Development Plan further states "Tenant must be leasing space in a building that has been approved as a zone project to be eligible for consideration". She stated the Renaissance Zone Authority felt that lease projects such as the application from Diamond Law Firm, PLLC would generally be straightforward and could be advanced to the City Commission following staff review and would generally not require direct Authority action. She said staff review found the applicant has met the

aforementioned requirements. She said the project addresses the business retention and expansion goals stated in the Renaissance Zone Development Plan.

Commissioner Sobolik moved the Renaissance Zone application filed by Diamond Law Firm, PLLC for a lease project located at 208 North Broadway, Suite 401-B be approved and the income tax exemptions be granted as recommended by the Renaissance Zone Authority.

Second by Williams. On call of the roll Commissioners Sobolik, Williams, Mahoney and Walaker voted aye.

Funds Allocated from Street Rehabilitation Funds for Improvement District No. 6100:

A Hearing had been set for this day and hour on the special assessment list for the construction of Water Main Replacement, Street Reconstruction and Incidental Improvement District No. 6100 in the City of Fargo, North Dakota, on which special assessment list a Hearing had been held by the Special Assessment Commission after which it had been confirmed and filed with the Board of City Commissioners.

The Board received a communication from Special Assessment Coordinator Dan Eberhardt stating on May 24, 2013 a petition for Water Main Replacement, Street Reconstruction and Incidentals Improvement District No. 6100 was presented to the Special Assessment Commission for consideration of a change in zoning from Multiple Family to Single Family for the purpose of establishing assessments to the properties. He stated the Special Assessment Commission has requested that Street Rehabilitation funds in the amount of \$14,024.00 be allocated to accommodate the change in zoning. He said the petition for the zone change is on the Planning Commission agenda for the Planning Commission in July, thus permanently resolving the issue for the properties in the future.

City Auditor Steve Sprague said due to the fact that the change in zoning is in the process, thus reducing the assessment, charging the lower amount makes sense.

Commissioner Williams moved \$14,024.00 be allocated from Street Rehabilitation Funds for Water Main Replacement, Street Reconstruction and Incidentals Improvement District No. 6100, and that the assessments are hereby approved and confirmed, contingent on the zoning change, and ordered filed in the office of the City Auditor, that the City Auditor's Office be instructed to proceed to collect the assessments in the manner provided by law and that the interest rate be set at 1% per annum over the net rate on bonds financing said projects.

Second by Sobolik. On call of the roll Commissioners Williams, Sobolik, Mahoney and Walaker voted aye.

Absent and not voting: Commissioner Wimmer.

The motion was declared carried.

Hearing on the Special Assessment List for Mill and Overlay and Incidentals Improvement District No. 6098 Continued to July 22, 2013:

A Hearing had been set for this day and hour on the special assessment list for the construction of Mill and Overlay and Incidentals Improvement District No. 6098 in the City of Fargo, North Dakota, on which special assessment list a Hearing had been held by the Special Assessment Commission after which it had been confirmed and filed with the Board of City Commissioners.

The Board received a communication from City Auditor Steve Sprague stating residents of East Gateway Circle are protesting the assessments. He said the protest states the area has higher traffic counts than a typical local street and residents are requesting a reduction in special assessments because of increased traffic volumes. He said the Special Assessment Commission approved the spread and staff recommends adhering to the special assessment policy which does not factor in traffic volumes when computing assessments.

Dean Hulse, 1437 East Gateway Circle, said he attended the May 24th Special Assessment Commission meeting and does not agree with Mr. Sprague's statement that the assessment was approved. He said he understood that rather than rejecting the request, the Special Assessment Commission forwarded the request to the City Commission. He said based on traffic counts conducted by the City of Fargo Traffic Engineering Department in January 2012, East Gateway Circle has a 25 percent greater traffic volume than other local streets in the Improvement District; therefore, they request a 25 percent reduction in the special assessment. Traffic became noticeably higher after the stop light went in at 13th Avenue and Gateway Drive, he said, making Gateway Circle a cut through. With the exception of Fargo Housing, who wants to remain neutral, all the property owners of East Gateway Circle signed the petition asking for the reduction, he said. He said the high traffic affects the quality of life for the residents and is a safety issue. He said he feels speed bumps would be beneficial to reduce the cut through traffic.

In response to a question from Commissioner Mahoney about where additional funds would be obtained if the reduction were granted, Mr. Sprague said half of this project was paid for by Street Rehab funds and the Board has the authority to direct additional funds towards the District; however, typically it is preferred to follow policy and factoring traffic counts in an assessment would be unusual. There is the option of taking their concerns to the Traffic Tech Committee and with more time, staff could

analyze whether increased enforcement, speed bumps or some other kind of traffic calming remedy would be appropriate for this area.

Darrell Cariveau, 3107 Westgate Drive, said he has lived at that residence since 1979 and there have been eight special assessments for various projects. He said on Westgate Drive, the majority of traffic is going to the Post Office and there are large trucks which cause deterioration of the street. He received notice of the special assessment, he said, followed by a second notice of assessment with a different amount.

Special Assessments Coordinator Dan Eberhardt said the change in the assessment is due to the fact that Cobblestone Court was initially included and when it was learned that area had been done several years ago, it was removed. He said that resulted in an increase in the remaining assessments of about \$1.50/foot.

City Administrator Pat Zavoral suggested the matter be referred to staff for further review.

Mayor Walaker said significant gains have been made in the City's transportation system in the last ten to fifteen years and attempts are made to be extremely fair in the process of who pays the assessments. He said he would like staff to meet with residents of the area to work toward a solution for their traffic concerns.

Planning/Feasibility and Site Selection Process for a New City Hall Approved:

The Board received a communication from Mayor Walaker stating City Hall is getting old and needs to be replaced. He said there are issues with heating and cooling and the 50+ year old piping is reaching the end of its useful life. Totally replacing it would be very disruptive, he said, and if a winter time replacement was necessary, it would mean shutting down City Hall for a period of time. This issue, he said, along with limited insulation in the exterior walls, the antiquated heating system and mysterious leaks in the roof that drip water in the Planning Offices, bring him to recommend consideration of replacing City Hall. Mayor Walaker said a facility study is needed to determine the best location, cost and financing. He said a committee will be formed and there a number of people who have indicated interest. Limiting the number of committee members to about ten would be reasonable, he said, and would include himself, City Administrator Pat Zavoral and Finance Director Kent Costin.

City Administrator Pat Zavoral said preliminary discussions have been aimed at a two year planning window for the project. An option exists for the Board to stand as a Building Authority, he said, or a citizen task force could be created as the Mayor suggests. Site selection would take up to 75 days, he said and once a site is selected, some of the citizens involved in the task force could form a Building Committee, with additional staff who actually use the building included. It would take about 45 days for an architect to be selected, he said, then various design steps would take about 7 to 9 months, provided the project is deemed feasible. He said Commissioners will receive a copy of the analysis of space needs done in 2000 when there were too many other needs requiring funding. He said state aid has increased

since then and some higher interest bonds on projects have been paid off, which means more projects can be looked at. He stated Richard Moorhead of the IMAGE Group, who has assisted in planning projects for the City for a number of years, will assist until an architect is selected. The analysis needs to be updated, he said, in terms of how much space is needed, projections for future space needs and innovative financing ideas. He said this could be an opportunity to trigger additional river side development, to build in another area of downtown, or to even build the project outside of downtown.

Mayor Walaker said the needs are definitely there and City Hall has had two severe sanitary failures in the last four years, along with heating and cooling issues. It is a planning process, he said, with a goal of a functional, long lasting building. He said Bruce Furness has agreed to chair the Committee and he will be the co-chair, with committee member choices being brought to the Board for approval.

Commissioner Williams said the City offices were built in the 1950's when the population was 50,000 and now the population is 110,000. The process needs to be open and inclusive, he said, and input from all the Commissioners is important.

Commissioner Williams moved the Planning/Feasibility and Site Selection Process for a new City Hall be approved.

Application for Parking Lot Improvements at 56 Broadway Approved Contingent Upon Completion of the Historic Preservation Commission's Final Review:

The Board received a communication from Community Development Administrator Dan Mahli stating the City is considering a proposal to use Community Development Block Grant (CDBG) funds to assist 56 Broadway with parking lot improvements. He said in 2000 fire destroyed the property and it is currently a vacant gravel lot and the proposed project includes paving, drainage, installation of a decorative fence, lighting and landscaping. He said the eligible CDBG funding components include the decorative fence and landscaping. The Historic Preservation Commission (HPC) conducted a property design review on June 19th, he said, and requested a revised design that includes landscaping and improved treatment of the Broadway streetscape. He said normally staff obtains approval from the Committee prior to recommending approval of projects; however, the HPC has not had the opportunity to meet and approve this particular proposal. In order to accommodate the property owner and his desire to complete construction as soon as possible, he said, staff is recommending, if the Board is so inclined, approval of this application, subject to and contingent upon the applicant also receiving approval from the Historic Preservation Commission. He said if the Board approves the application, the HPC will schedule a special meeting as soon as possible.

Commissioner Williams moved the application for parking lot improvements at 56 Broadway be approved and up to \$15,000.00 in 1-for-1 CDBG match funding be allocated, contingent upon the completion of the Historic Preservation Commission's final review.
