Recommendations Regarding Flood Buyout/House Moving Approved:

The Board received a communication from the Public Works Projects Evaluation Committee (PWPEC) stating staff was asked to research additional ways to handle the auctioning of City flood buyouts in a manner that would facilitate removal of the houses in areas where the tree impact could be justified. They said it has been determined that the only area that would warrant tree removal to facilitate house moving is on River Drive. There is the potential for 12 homes to be moved, they said, 9 of which are currently owned by the City. They said twenty-seven boulevard trees would need to be removed to accommodate a 38' wide structure to be relocated. Staff sought guidance from the auctioneer, they said, and were advised the best path forward would be to accept sealed bids prior to the auction of the affected homes. They said if sealed bids result in an appropriate amount of revenue to justify the tree removal, then the City could proceed with an auction. The low bid would be set at the highest amount received by sealed bid and only those submitting sealed bids would be allowed to participate in the auction, they said.

In response to a question from Commissioner Mahoney as to whether any of the trees being removed could be utilized, April Walker stated if the trees can be spaded they will be moved; however, in some cases, there are obstacles such as utilities that may prevent it. A replanting effort will be made, she said.

Mayor Walaker said there may have been some missteps in the past; however, relocating the houses is the optimum outcome and it is best to do whatever is possible to keep them in the community.

Ms. Walker said each time the City has purchased homes and figured out how to dispose of them, it has been a learning process. She said she believes there is a market for the homes and hopes the auction process can be done this fall.

In response to a question from Commissioner Sobolik regarding whether the owners of the three homes now owned by the City have an option to buy their homes back and relocate them, Ms. Walker said they do not have that option. She said they could repurchase the homes through the auction process if they want to relocate them.

Commissioner Sobolik moved staff be authorized to auction flood buyout homes for salvage if determined that the home is not movable, and to facilitate a sealed bid process with the understating that if an appropriate value can be obtained, twenty-seven boulevard trees on River Drive will be removed to facilitate the moving of flood buyout structures.

Second by Wimmer. On call of the roll Commissioners Sobolik, Wimmer, Williams, Mahoney and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

The Board received a communication from Planning Administrator Nicole Crutchfield stating the Reciprocal Release and Relinquishment of Easement is intended to extinguish a portion of a public utility easement established by Plat (Amber Valley West First Addition) on July 6, 2010. She said the easement is requested by the owner due to setback construction issues. The easement does not contain any utilities, she said, and is not likely to be needed in the future. The City of Fargo Engineering Department has reviewed the request and is recommending approval, she said.

Commissioner Sobolik offered the following Resolution and moved its adoption:

Parcels of Land in Chas. A. Roberts Addition and King's Subdivision Rezoned (508, 512, 613 and 617 11th Street South and 1109, 1115, 1121 and 1123 7th Avenue South):

At a Hearing held on July 2, 2013 the Fargo Planning Commission recommended approval of a change in zoning from MR-2, Multi-Dwelling to SR-4, Single-Dwelling on Lot 4, the North 75 feet of Lots 5 and 6, Lots 7 through 10, Block A, Chas. A. Roberts Addition, and MR-3, Multi-Dwelling to SR-4, Single-Dwelling on Lots 9 and 10, King's Subdivision of Block 41, Northern Pacific Addition.

Planning Administrator Nichole Crutchfield said the Planning Department began looking at this zoning change a year ago when residents brought it to their attention that the multifamily zoning did not match the actual land use. She said the Planning Department worked with the Special Assessment Department and staff is in support of the change. The down-zoning will bring the properties into greater conformance with the Land Development Code (LDC) and help stabilize single-family dwellings within this neighborhood, she said.

The City Auditor's Office published a Notice of Hearing stating this is the time and date set for said Hearing at which time all interested persons could appear and would be heard.

Commissioner Sobolik offered the following Resolution and moved its adoption:

Parcels of Land in D.S.I. Addition and Southwood Park Addition Rezoned (3000 32nd Avenue South, 3218, 3234, 3314 and 3320 33rd Street South and 3241 32nd Street South) and Planned Unit Development Master Land Use Plan Approved:

At a Hearing held on July 2, 2013 the Fargo Planning Commission recommended approval of a change in zoning from GC, General Commercial and MR-3, Multi-Dwelling to GC, General Commercial as the underlying zoning district with a PUD, Planned Unit Development Overlay and a Planned Unit Development Master Land Use Plan to allow expansion of the medical hospital, clinic campus and parking lots on Lot 1, Block 1, D.S.I. Addition, Lots 3 through 6, Block 2, Lots 1, 4 and part of 5, Block 3, Southwood Park Addition.

The City Auditor's Office published a Notice of Hearing stating this is the time and date set for said Hearing at which time all interested persons could appear and would be heard.

Planning Director Nichole Crutchfield said staff supports the Planned Unit Development (PUD) Plan. She said by seeing their full plans now, zoning can be customized due to the fact it is a higher, better use than the standardized use in the Land Development Code. She said staff supports the zoning changes and the Planned Unit Development Overlay which includes a parking plan, as well as the Planned Unit Development Master Land Use Plan and the PUD Final Plan.

In response to a question from Commissioner Wimmer about the timeline for Essentia Health's expansion, Ms. Crutchfield stated it will take place over several years. She said right now there are some land use changes where they are demolishing existing storage buildings which will become offsite parking and is part of the PUD.

Commissioner Mahoney stated because of his association with the petitioner, he will exclude himself from voting. He said this expansion has been planned for a number of years and there is a need for more space at Essentia Health.

Commissioner Sobolik offered the following Resolution and moved its adoption:

WHEREAS, All legal requirements in connection with the above-described request for rezoning, the PUD, Planned Unit Development Overlay and a Planned Unit Development Master Land Use Plan have been complied with; and

At a Hearing held on July 2, 2013 the Fargo Planning Commission recommended approval of a change in zoning from SR-2, Single-Dwelling to SR-4, Single-Dwelling with a Conditional Overlay on Lots 1 through 20 and 22 through 26, Block 2; Lots 1-13, Block 3; Lots 1 through 11, Block 5; and Lots 1 through 5, Block 6; from SR-4, Single-Dwelling to SR-4, Single-Dwelling with a Conditional Overlay on Lot 27, Block 2; Lot 14, Block 3; and Lot 6, Block 6; and from MR-1, Multi-Residential to SR-4, Single-Dwelling on Lot 1, Block 1, Valley View Addition.

The City Auditor's Office published a Notice of Hearing stating this is the time and date set for said Hearing at which time all interested persons could appear and would be heard.

Planning Administrator Nicole Crutchfield said the developer is requesting rezoning to allow more building coverage and site setbacks than the SR-2 zoning allows. She said more and more homeowners are requesting three car garages; however, staff had concerns that this rezoning would allow for townhomes, which was not a consideration when the current utility infrastructure was designed and the reason for the Conditional Overlay, she said.

Commissioner Sobolik offered the following Resolution and moved its adoption:

WHEREAS, All legal requirements in connection with the above-described request for rezoning have been complied with; and

WHEREAS, There have been no written or verbal protests to the request for rezoning and no one is present to protest thereto.

NOW, THEREFORE, BE IT RESOLVED, That the findings of staff and the Planning Commission be accepted and the rezoning be approved with the Conditional Overlay requirements listed in the Ordinance on the basis that it satisfactorily complies with the Comprehensive Plans, Standards of Section 20-0906.F (1-4) and all other applicable requirements of the LDC.

Text Amendment to Amend Sections 20-0216 and 20-0901 of Articles 20-02 and 20-09, both of Chapter 20 of the Fargo Municipal Code (Land Development Code)  
Approved:

A Hearing had been held by the Fargo Planning Commission on July 2, 2013 for the purpose of considering a request for a Text Amendment to Amend Sections 20-0216 and 20-0901 of Articles 20-02 and 20-09, both of Chapter 20 of the Fargo Municipal Code (Land Development Code) all relating to UMU, University Mixed-Use requirements and the Fargo Planning Commission at such Hearing recommended to the Board of City Commissioners that the request be approved.

The City Auditor's Office published a Notice of Hearing stating this is the time and date set for said Hearing at which time all interested persons could appear and would be heard.

There have been no written or verbal protests to the request and no one is present to protest thereto.

Planning Administrator Nicole Crutchfield said this item is based on staff working with the Roosevelt Neighborhood over the last year and a half. When the University Mixed-Use Zoning District was originally drafted in 2009, she stated, the issue of how to codify policies that were already being done was not resolved. This includes a provision encouraging applicants to meet with the appropriate neighborhood association or owners of abutting properties upon the submittal of their site plan application. She said a provision is also included that would require written notice to neighborhood associations of certain development applications be provided to neighborhood associations if requested. Additionally, she said, the amendment allows garage structures to be built up to 60 feet in length as opposed to the current 50 feet to allow for a more standard product to be installed.

Commissioner Sobolik moved the request be approved on the basis the proposed Text Amendment complies with Section 20-0904.E (1-3) of the Land Development Code.

First Reading of an Ordinance Relating to Alcoholic Beverages:

City Attorney Erik Johnson said when asked to review an application filed by Cash Wise Liquor to transfer their Class "B" Alcoholic Beverage License, provisions came to the attention of the Board that prompted a review of the Ordinance. He said the amended Ordinance reduces the 14 factors for consideration down to 8, with economic impact being one of the factors removed from the list. He said the 100 foot separation remains in the Ordinance giving the Board authorization to determine the separation has been satisfied.

In response to a question from Commissioner Sobolik about whether discussions included completely removing the 100 foot separation requirement, Mr. Johnson said it was considered; however, if it were removed there would still be some separation requirements under state law. He said without the 100 foot separation

requirement there is a potential for liquor license requests to increase, which will be left alone for right now.

Jade Rosenfeldt, Attorney for The Spirit Shop, stated her letter to the Board dated July 22, 2013 outlines the Spirit Shop's objections. She stressed the uniqueness of the liquor industry and asked the Board to reconsider removing the economic impact factor.

Dan Nicholson of the Spirit Shop said there is more to it than profitability. He said his business is locally owned and supportive of local nonprofits, which may not be the case for an out of state entity. He said he encourages representation from the liquor businesses when changes are made to liquor ordinances.

Mayor Walaker said there is good representation on the Liquor Control Board. He said Fargo may have the most control of liquor business of anyplace in North Dakota. The liquor ordinance can be a determining factor when businesses consider locating in Fargo, he said, and may be the reason Costco chose to build in West Fargo rather than Fargo.

Doug Murch, Conmy Law Firm, said he represents the Oppidan Investment Company which acts as the development agent for Cash Wise. He said he favors the amended Ordinance and feels it strikes a balance with Fargo's goals and stays competitive with other cities. Preserving the proximity factor makes sense for public safety, he said, and streamlining the factors in the Ordinance allows the Commissioners to look at public safety rather than all the overlapping factors. The economic impact that is being removed is very subjective, he said, and ultimately competition is good for customers and gives the public choices.

Commissioner Wimmer moved first reading of an Ordinance Amending Section 25-1508 of Article 25-15 of Chapter 25 of the Fargo Municipal Code Relating to Alcoholic Beverages.
