Amendment to the MOU Between the City of Oxbow and the Metro Flood Diversion Board of Authority Approved:

The Board received a communication from Interim City Administrator Bruce Grubb stating that at the October 8th Diversion Authority board meeting, a discussion was held regarding a possible amendment to the MOU between the City of Oxbow and the Metro Flood Diversion Board of Authority, including the City of Fargo, Cass County and the Cass County Joint Water Resource District. He said the proposed amendments were prepared after a thorough review of the original MOU and the specific sections that have been suggested for modification are as follows:

Section I. Replacement Lots

Section II. "Wet Side" Golf Holes

Section V. Timing of Construction and Implementation

In Section I. Replacement lots, the original MOU required the Diversion Authority to provide replacement lots for existing homes located within the levee footprint (approximately 40), he said, as well as, additional replacement lots for other displaced property owners within the area to be protected by the levee (within Oxbow). The replacement lots were to be an expense to the Diversion Authority, he said, and once a future replacement lot sale occurred, the original MOU required Oxbow to reimburse the Diversion Authority for the Authority's original purchase price plus 10% and Oxbow would keep the balance of the proceeds from the lot sale. He said the proposed amendment essentially requires the return of the remaining proceeds from the lot sales as follows:

- Replacement Lots within Oxbow 100% (approx. \$4.0 million)
- Replacement Lots within Staging Area 75% (approx. \$4.5 million)

In Section II. "Wet Side" Golf Holes, he said, the original MOU required the Diversion Authority to purchase seven golf holes on the wet side of the levee with the land to be conveyed to the City of Oxbow. The proposed amendment, he said, would allow the Diversion Authority to retain ownership of the land to be used for environmental (i.e. wetlands) mitigation.

In Section V. Timing of Construction and Implementation the original MOU contained a 40-month deadline for completion of the OHB Levee Project, he said. The proposed amendment, he said, will change the completion deadline to a period of 36 months from the time that the Preliminary Injunction is removed.

In response to a question from Commissioner Gehrig about whether approval of the amended MOU takes away from the ability to negotiate other money saving issues, Mr. Grubb said it does not. He said landscaping and architectural estimates and quotes, as well as the reassessment issues that were discussed at recent Diversion Authority Finance and Land Management Committee meetings are being pursued.

Commissioner Piepkorn moved the proposed amendment to the MOU between the City of Oxbow and the Metro Flood Diversion Board of Authority be approved.

Second by Williams. On call of the roll Commissioners Piepkorn, Williams, Gehrig, Sobolik and Mahoney voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Parcels of Land in Knollbrook Addition Rezoned (3025 7th Street North and 3030 Broadway North):

At a Hearing held on October 6, 2015 the Fargo Planning Commission recommended approval of a change in zoning from SR-2, Single-Dwelling Residential to LC, Limited Commercial with a C-O, Conditional Overlay on all of Lots 1-4, 15 and 16, and part of Lots 13 and 14, Block 1, Knollbrook Addition.

The City Auditor's Office published a Notice of Hearing stating this is the time and date set for said Hearing at which time all interested persons could appear and would be heard.

Planner Aaron Nelson said the request is to allow the applicant to construct an on-premise sign that would otherwise not be allowed in an SR-2, Single-Dwelling

Residential zoning district and is similar to a request earlier this year by another church to allow larger signage. He said the C-O, Conditional Overlay is to restrict more intensive commercial use if the property were to be sold, and places limitations on the placement of electronic signage.

Commissioner Sobolik offered the following Resolution and moved its adoption:

WHEREAS, All legal requirements in connection with the above-described request for rezoning have been complied with; and

WHEREAS, There have been no written or verbal protests to the request for rezoning and no one is present to protest thereto.

NOW, THEREFORE, BE IT RESOLVED, That the findings of staff and the Planning Commission be accepted and the rezoning be approved with the Conditional Overlay requirements listed in the Ordinance on the basis that it satisfactorily complies with the Comprehensive Plan, Standards of Section 20-0906.F (1-4) and all other applicable requirements of the LDC.
