RESIDENTIAL BUFFER EXHIBIT

Project Information

Address: 136 16 St N

Zoning: GC - General Commercial

Lot Area: 30,335.56 SF

Proposed Building Area: 11,100 SF

Max Building Coverage: 25,785 SF

Open Space Requirement: 729 SF

Plant Unit Requirement: 92 Units

Existing Use: Vacant Land

Proposed Use: Industrial Service use requires CUP approval. Additional requirements apply:

- The proposed facility may not be within 300 feet of any residentially zoned property, measured from proposed industrial development to the property line of the residentially zoned property. Building 1 conforms with this requirement, however building 2 does not.
- Residential protection standards for landscaping buffers shall apply to any side of the development within 600 feet of residential zoning districts, or within 600 feet of vacant land illustrated as residential in the Growth Plan. May be able to request RPS Waiver given the site context.

PRELIMINARY SITE PLAN

Kasey Kluver Shop Buildings

Project Narrative

136 16th St N, Fargo, ND

The Kasey Kluver project involves the construction of two post-frame shop buildings on a commercially zoned lot in Fargo, ND. These buildings are designed to support industrial service and warehouse functions, addressing the needs of local contractors and businesses requiring flexible, high-quality storage and workspaces. This development will contribute positively to Fargo's commercial landscape by providing valuable industrial service and storage solutions tailored to support the area's growing business community.

Project Details:

- **Building 1:** 50' x 150' x 18' post-frame construction.
- **Building 2:** 60' x 60' x 18' post-frame construction.
- **Intended Use:** Industrial service and warehouse, suitable for contractors and small business operations and offices
- **Zoning:** The project is located within a General Commercial (GC) zoning district, which permits industrial service and warehouse uses with a Conditional Use Permit (CUP).

Project Objectives:

- **Provide Versatile Spaces:** These buildings will serve as flexible, functional spaces that support the operations of industrial service providers and warehouse users, meeting the demand for contractor-friendly facilities.
- **Compliance with Zoning and Environmental Requirements:** The project team is committed to meeting all CUP and environmental standards, ensuring compatibility with the surrounding area and compliance with Fargo's zoning code.
- **Contextual Consistency:** The proposed development is consistent with adjacent properties in both form and function, blending with the existing commercial and industrial uses in the area and supporting cohesive development within the General Commercial district.

Conditional Use Permit

We are requesting a Conditional Use Permit to allow for industrial uses within a General Commercial (GC) zoning district for the proposed development.

Context of Surrounding Land Uses and Zoning:

- **North:** Vacant land and industrial uses within GC (General Commercial) and LI (Limited Industrial) zoning districts.
- **East:** Warehouse and industrial service uses within the GC zoning district.
- **West:** Warehouse and industrial service uses within the GC zoning district.
- **South:** Warehouse use within the GC zoning district.

Justification for Waiver of Residential Protection Standards (Section R):

Given the surrounding property context, with industrial and commercial uses adjacent to the site, we are requesting a waiver of the residential protection standards outlined in Section R. This development is designed to meet current Land Development Code (LDC) requirements and will improve the public right-of-way with higher-quality landscaping and sidewalk connections compared to surrounding properties.

Additional Site Design Commitments:

- **Dumpster and Storage Location:** All dumpsters and outdoor storage will be positioned at the rear of the property, out of view from the public right-of-way, and screened per code requirements.
- **Loading and Industrial Activity Visibility:** No loading docks, loading areas, or industrial activities will be directly visible from residentially zoned properties, as ensured by the proposed site plan.
- **Outdoor Storage Standards:** There will be no outdoor storage of aggregate soil or construction debris. All outdoor storage areas and paving will be surfaced with all-weather materials to maintain site durability and aesthetics.

This proposed development aligns with the industrial character of the surrounding area and enhances the site's compatibility within the GC zoning district while maintaining a clean, well-organized appearance along the right-of-way.
