Concessions May Be on Hold... but Resources Remain

This school year has looked different from all other years in the past. Many things have been impacted by COVID-19, including school activities and concession stands. Even though concession operations are on hold, Fargo Cass Public Health kindly reminds you that resources continue to be available and can be easily accessed at FargoCassFastFuel.com.

We look forward to continued communication over the next several months and seeing your concessions open to serve eager customers!

In the meantime, did you know we have videos of easy recipes that can be made in the comfort and safety of your own home? Let us know which one you try!
