Personalized Reading

Helping Readers One Book at a Time!

Do you need reading suggestions? Need materials for an assignment and don't know where to look? Maybe you're a parent trying to find the right reading level or a grandparent looking for gift suggestions. Whatever it is, we've got you covered! Just fill out the enclosed What's Next? form or visit us at www.fargolibrary.org/whatsnext to tell us what you are looking for and we'll do the rest. We'll even put the books on hold for you!

After you fill out the form, we'll get to work putting together a list of titles and authors that we think you'll like. Depending on your preferences, we can send you a list or put the books on hold for pickup at any Fargo Public Library location.

- For Parents and Guardians: With so many choices out there, it can be difficult to find books that meet your child's reading needs. We can help you find books at your child's reading level that also fit their interests. Whether it's a young child who reads far above their grade level or reluctant readers who struggle to find something that interests them, let us help you navigate the world of children's literature.
- For Grandparents and Other Relatives: The librarians are happy to provide suggestions for books to make the next visit to Grandma and Grandpa's house a success or great gift ideas for birthdays or the holidays.
- For Teachers, Caregivers, and Homeschooling Families: Our librarians can help you, too! We are available to put together a collection of materials according to specific themes or lesson plan needs.

Complete as much or as little of the form (paper or online) as you like. The more information you provide, the better the recommendations we can give you. Our trained experts will work through your responses to help you find authors and titles that match your interests. Look for your completed What's Next reading recommendations delivered to you in 3 to 5 days (1 week for curriculum requests). As always, we value your privacy and will keep your answers strictly confidential.
