Contents

Getting Started

Step One: Find Your Flood Map

Option A: Search by Address

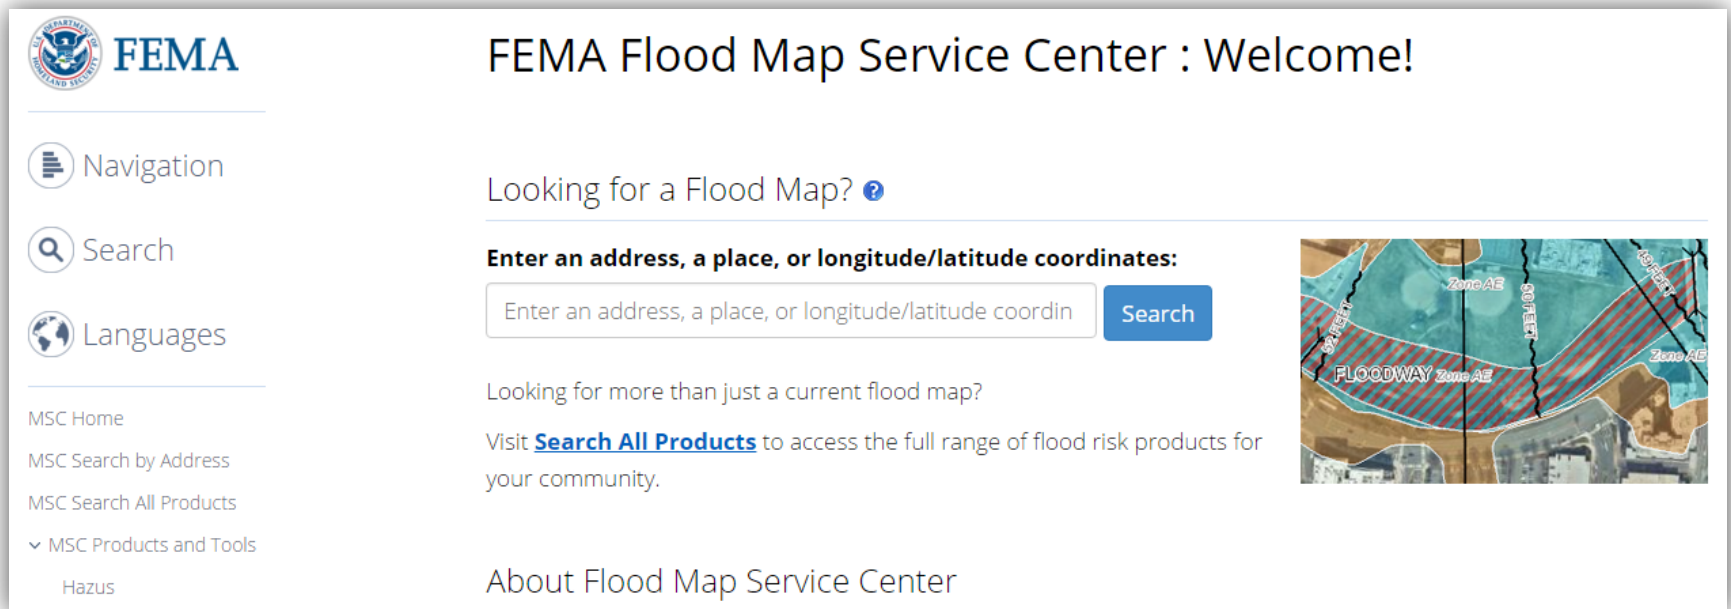

Option B: Search All Products

Step Two: Making FIRMettes in *FIRMette Web*

Troubleshooting

Getting Started

First, navigate to the FEMA Flood Map Service Center (MSC), <http://msc.fema.gov>.

The screenshot shows the FEMA Flood Map Service Center (MSC) homepage. On the left is a navigation menu with the FEMA logo, links for Navigation, Search, and Languages, and a list of links including MSC Home, MSC Search by Address, MSC Search All Products, MSC Products and Tools, and Hazus. The main content area has a heading "FEMA Flood Map Service Center : Welcome!". Below this is a link "Looking for a Flood Map? ?". A search section prompts the user to "Enter an address, a place, or longitude/latitude coordinates:" with a text input field and a "Search" button. Below the search section, it says "Looking for more than just a current flood map?" and "Visit [Search All Products](#) to access the full range of flood risk products for your community." At the bottom of the main content area is a link "About Flood Map Service Center". On the right side of the page is a map showing various flood zones, including "Zone AE", "FLOODWAY Zone AE", and "Zone AE", with a "30 FEET" depth marker.

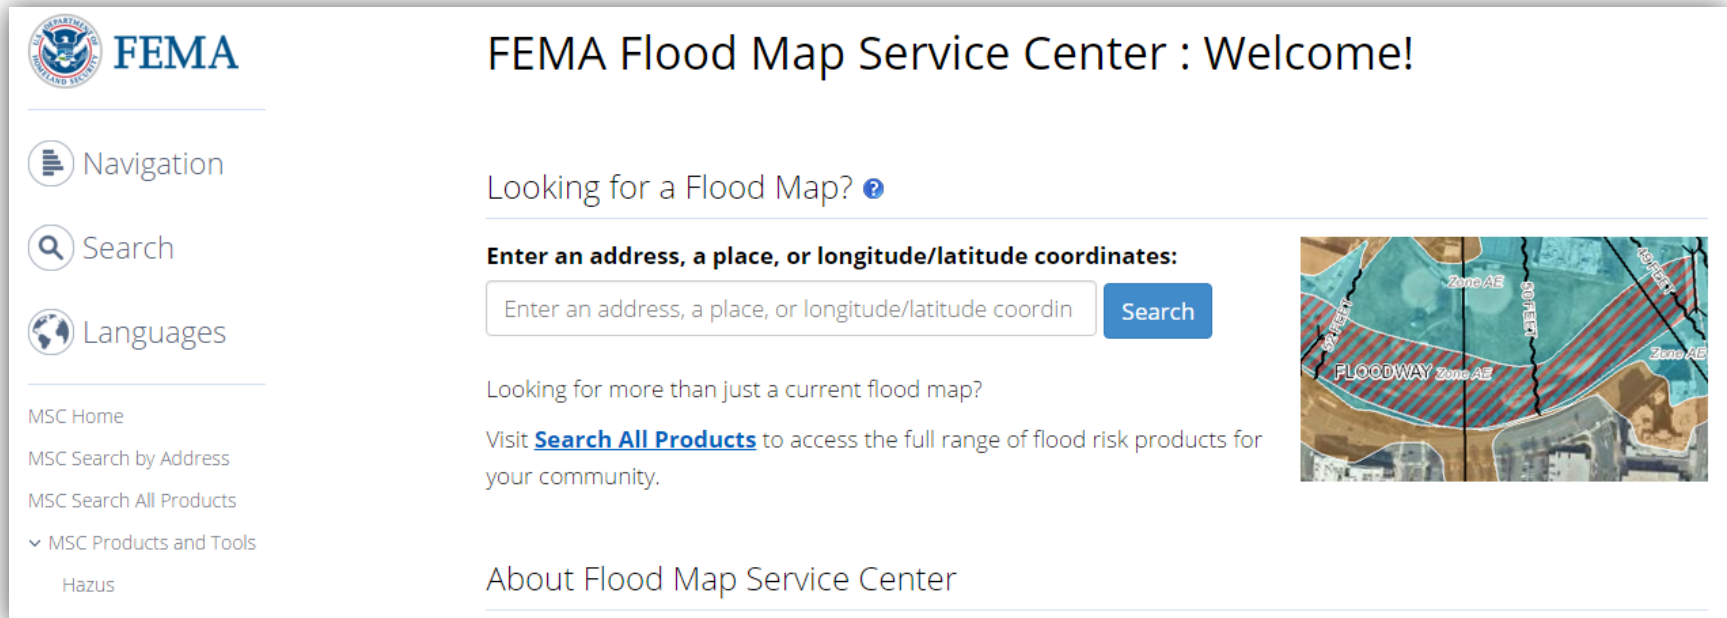

- A Flood Insurance Rate Map (FIRM) is an official flood map used in the National Flood Insurance Program.
- A FIRMette is a full-scale section of a FIRM that you create yourself.

Step One

Find Your Flood Map

[Search by Address](#) is for finding all of the maps for your community. While [Search All Products](#) is useful for finding multiple FIRMs.

- The [MSC Products and Tools page](#) has more information about FIRMettes.

About Flood Map Service Center

Step One

Option A: Search by Address

To find a FIRM for a specific address or landmark, you may use the Address Search on the left side of the MSC homepage.

Enter an address or a place of interest and select the “Search” button.

Looking for a Flood Map? ?

Enter an address, a place, or longitude/latitude coordinates:

Enter an address, a place, or longitude/latitude coordin

Search

Step One

Option A: Search by Address

To create a FIRMette of the current Effective FIRM, select “View Map” This will take you to the *FIRMette* Web tool for your selected FIRM.

The screenshot displays the FIRMette web tool interface. At the top, there is a search bar with the text "20001" and a "Search" button. Below the search bar, a lightbulb icon is followed by a paragraph explaining the tool's features: "The buttons below let you view and print the selected flood map, download the flood map image, open an interactive flood map (if available), or expand the search to all products to view effective, preliminary, pending, or historic maps, and risk products for the community. The locator map shows flood map boundaries in your area of interest. You can choose a new flood map by clicking elsewhere on the locator map or entering a new location in the search box."

Below this, the section "Search Results—Products for DISTRICT OF COLUMBIA" is shown. It contains the text: "The flood map for the selected area is number **1100010018C**, effective on **09/27/2010**". To the right of this text are three icons: a magnifying glass labeled "VIEW MAP", a green download arrow labeled "SAVE MAP", and a globe labeled "INTERACTIVE MAP". A red arrow points from the "VIEW MAP" icon to the "Locator Map" section below. To the right of these icons is a button that says "Show all products for this area" with a right-pointing arrow icon.

Below the icons, the section "Letters of Map Change" is shown with a question mark icon. It lists three items: "Revisions (1)", "Amendments (1)", and "Revalidations (0)".

At the bottom, the "Locator Map" is displayed. It is a map of Washington, D.C., showing major roads like US-50 and US-1, and landmarks like the National Mall. A red arrow points to a specific area on the map, which is outlined in light blue. A small inset map in the bottom right corner shows the location of the selected area within the District of Columbia.

Your selected FIRM panel will be outlined in light blue in the display map.

Step One

Option B: Search All Products

Advanced users may find Effective and Historic FIRMs available for a community, as well as a listing of all other available flood hazard products, using the “[Search All Products](#)” feature from the homepage.

FEMA Flood Map Service Center : Welcome!

Looking for a Flood Map? ?

Enter an address, a place, or longitude/latitude coordin

Search

Looking for more than just a current flood map?

Visit [Search All Products](#) to access the full range of flood risk products for your community.

Step One

Option B: Search All Products

Once you've entered your community and selected "All Products", it will take you to a listing of all available products (including Historic FIRMs), for your selected jurisdiction that you can then choose to view in the [FIRMette Web](#) tool.

- Effective Products (42) ?
- Preliminary Products (0) ?
- Pending Product (0) ?
- Historic Products (13) ?
 - FIRM Panels (9) [DL ALL](#)

Please note: Searches often result in many map files listed under a given section. You can determine the Product ID for the individual map panel needed by looking at the Map Index file. The index map files have "IND" within the Product ID and appear at the start of the list. These index files show an overview of a jurisdiction and how it is subdivided into map panels with the Product ID for each panel shown.

Step Two

Making FIRMettes in *FIRMette Web*

A new window will appear, containing the *FIRMette Web* tool, which will display the selected FIRM panel.

Select the “Make a FIRMette” button.

Step Two

Making FIRMettes in *FIRMette Web*

Click, hold, and drag the pink layer to cover the area you want in your FIRMette.

Choose your paper size.

To reposition the title block or scale and north arrow, click the appropriate button and drag the new pink layer.

The screenshot displays the FIRMette Web interface. At the top, the FEMA logo is visible on the left, and the scale (6%) and LOMC (10-03-2017P-110001) are shown on the right. The main area features a map of the District of Columbia with various zones labeled. On the left side, there is a toolbar with buttons for 'Zoom Win', 'Pan', 'Zoom In', 'Zoom Out', '1:1', 'MAX', 'Zoom In', and 'Zoom Out'. Below these buttons is a section titled 'Follow Instructions...' with a list of steps: '1. Select page size' (with options for Letter 8.5x11, Legal 8.5x14, and Tabloid 11x17), '2. Select & Move Areas' (with buttons for 'Print Area', 'Scale and North Arrow', and 'Title Block'), and '3. Create FIRMette' (with buttons for 'Adobe PDF' and 'Image File'). A red arrow points from the 'Scale and North Arrow' button to the 'To reposition the title block or scale and north arrow' text box. Another red arrow points from the 'Print Area' button to the 'Choose your paper size' text box. A third red arrow points from the 'Title Block' button to the 'To reposition the title block or scale and north arrow' text box. A fourth red arrow points from the 'Image File' button to the 'To reposition the title block or scale and north arrow' text box. A pink layer is visible on the map, and a red arrow points from the 'Click, hold, and drag the pink layer' text box to it. A legend is located on the right side of the map.

Step Two

Making FIRMettes in *FIRMette Web*

- You may use the Zoom and Pan functions to more precisely identify the area you want in your FIRMette.
- However, you must be zoomed out all the way in order to make a FIRMette correctly.

When ready, click on your preferred output format, "Adobe PDF" or "Image File"

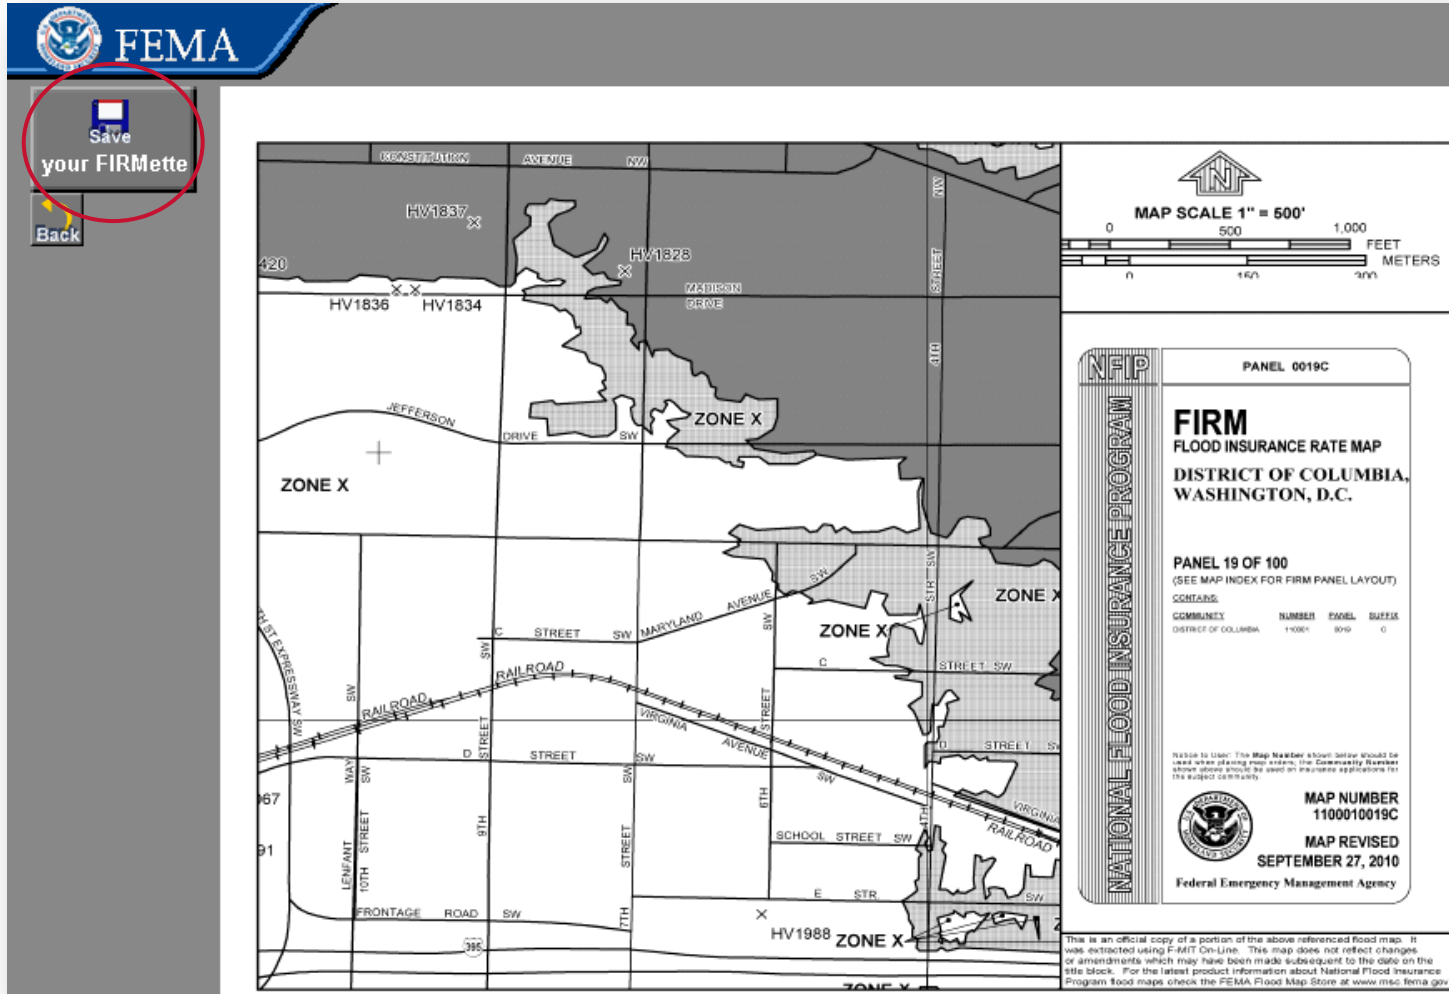

The screenshot shows the FIRMette Web application interface. At the top, there is a FEMA logo, a scale bar (Scale: 6%), and a LOMC dropdown (LOMC: 10-03-2017P-110001). The main area displays a map of the District of Columbia with a green rectangular selection box. On the left, there are navigation controls (Zoom Win, Pan, Zoom In, Zoom Out, 1:1, MAX, Zoom In, Zoom Out) and a 'Follow Instructions...' section with steps 1, 2, and 3. Step 3, 'Create FIRMette', has two options: 'Adobe PDF' and 'Image File'. A red arrow points to the 'Adobe PDF' option. On the right, there is a legend and a thumbnail of the output FIRMette.

Step Two

Making FIRMettes in *FIRMette Web*

- Your FIRMette will appear and can be saved to your hard drive.

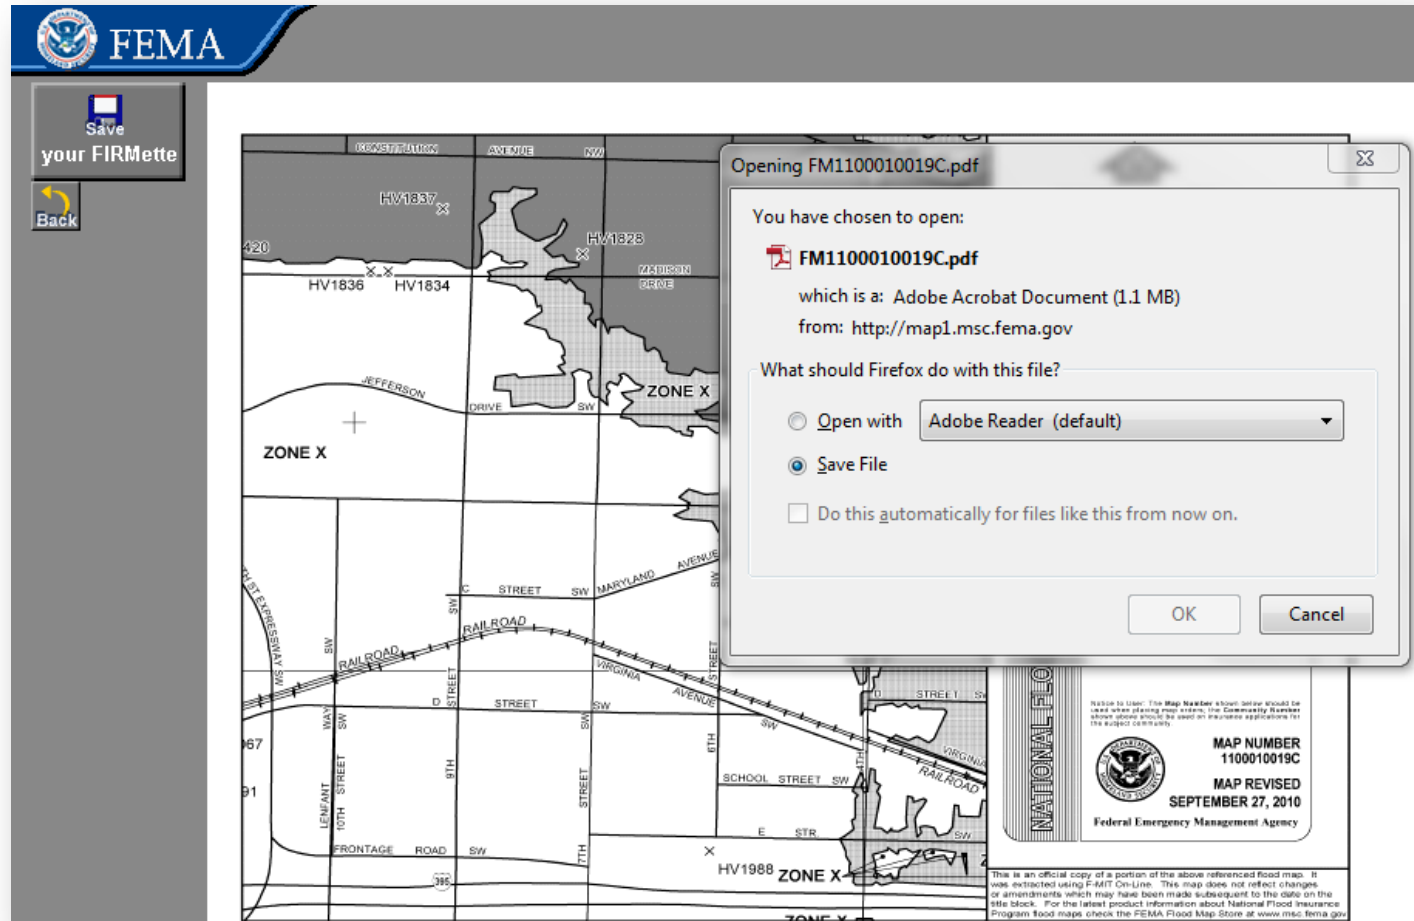

- You can also go back and make additional FIRMettes from the same panel.

Step Two

Making FIRMettes in *FIRMette Web*

Once you have saved and/or opened your FIRMette in your local viewer, you can print it out the on the appropriate-sized paper corresponding to your earlier selection.
