MEMORANDUM

TO: FARGO CITY COMMISSION

FROM: FIRE CHIEF STEVE DIRKSEN

DATE: 04/27/2023

SUBJECT: FIRE DEPARTMENT 2022 ANNUAL REPORT TO COMMISSION

The Fire chief will provide a summary of the 2022 Fire Department annual report to the Commission.

Recommended Action: Receive and file the Fire Department's Annual Report.

Fargo Fire Department

39

MEMORANDUM

TO: BOARD OF CITY COMMISSIONERS

FROM: FIRE CHIEF STEVE DIRKSEN

DATE: APRIL 27, 2023

SUBJECT: BID AWARD FOR FIRE STATION #8 CONSTRUCTION

At the April 18, 2022 Fargo City Commission meeting, the Commission approved authorizing the sale of bonds for the construction of Fire Station 8. An RFQ for architectural services was advertised. EAPC was selected as the architect for both projects. Over the past year, EAPC has worked with staff to develop schematic design documents, bidding documents and project administration.

When the bond purchase was before you, it was estimated that construction costs would be \$5,250,000 with a \$262,500 contingency. The station design is for 10,832 square feet.

The project was sent out for bids in February of 2023 with bid opening on April 19, 2023.

The low base bid results are as follows:

General Contractor – Ledgestone, Inc.	\$3,471,000
Mechanical Contractor – Manning Mechanical, Inc.	\$1,247,500
Electrical Contractor – Grotberg Electric, Inc.	<u>\$ 591,000</u>
Total Bid Amount -	\$5,309,500

There were a number of alternates that were also bid out. One that we are required to complete is and addition to the storm water retention. This only affects the bid from the general contractor of an additional \$33,720. That brings the total bid amount to \$5,343,220

RECOMMENDED MOTION:

Authorize the Fire Chief and staff to negotiate contracts with Ledgestone, Inc. for general construction services, Manning Mechanical, Inc. for mechanical construction services, and Grotberg Electric, Inc. for electrical construction service.

Signed:  for EAPC

MEMORANDUM

TO: BOARD OF CITY COMMISSIONERS

FROM: JIM GILMOUR, STRATEGIC PLANNING DIRECTOR 

DATE: APRIL 27, 2023

SUBJECT: NP AVENUE PARKING GARAGE PLAN REVIEW

The public private partnership agreement for the proposed NP Avenue Parking Garage required the developer to deliver to the City plans for the garage by April 15, 2023. The City is required to promptly agree and finalize a set of plans by May 1, 2023. These plans will be used to obtain construction bids for the garage.

Walker Consultants has been reviewing the plans from the beginning of the design. The most recent review by Walker indicate that the plans are acceptable. The report is attached along with the plans.

The agreement was for 450 to 490 parking spaces. The plans are for 461 parking spaces.

Recommendation

Approve the plans for the NP Avenue Parking Garage submitted by Great Plains NP Holdings, LLC and reviewed by Walker Consultants.

NP Avenue Mixed-Use Parking Garage review

Walker has reviewed a set of design development level drawings (A0.1, AP1.1, AP1.2, A3.0, A3.3, A4.1, A5.7, A6.6, A6.7, A7.3, A7.4) for the above identified development in the City of Fargo, North Dakota. The purpose of Walker Consultants review is to review the acceptability of the proposed parking garage functional, serviceability and parking geometry attributes.

Description of parking facility:

The parking facility function is described as a single threaded helix with a slab on grade at ground level, and six levels of supported structure above containing 461 parking spaces. The primary entrance and exit from the garage occur from Northern Pacific Avenue. Three access-controlled lanes are provided with one lane reversible. A manually controlled overflow parking area access point is provided to the alley south of the garage. Standard parking stalls are 9'-0" x 18'-0" w/ 90-degree, two-way traffic at all levels.

The parking garage is constructed of precast concrete columns, beams, and bearing spandrels. The garage area appears to be "open" and structurally independent, and fire separated from the residential components. Two pedestrian vertical circulation cores provide elevating and stairway connections to all floor levels.

- A site plan and relative site grade information was not provided.

Conclusion:

Based on limited plan set review Walker Consultant's confirms, in our opinion the proposed parking facility design generally meets the functional, serviceability and geometric parameters for a mixed-use parking structure.

If you have any questions in this regard, please do not hesitate to call.

END.
