

NOTICE OF WATER SHUT OFF

FOR UTILITY INSTALLATION

Improvement District No. _____

Please be advised that _____, contracted by the City of Fargo, will be installing water main near your property. This work will require the water supply to your property to be shut off for the following period of time.

Date of shut down: _____

Water outage will begin at: _____

Water will be restored by: _____

During this water outage, it is recommended that each property owner prepare by filling containers with water for essential daily activities. This precaution helps ensure that basic needs like drinking, cooking, and hygiene can still be met during the disruption. It is also recommended to have a reserve of water for flushing toilets and other purposes. This can be accomplished by filling buckets or a bathtub with water.

If you have any questions concerning the shutdown, please contact one of the following individuals:
