

**Request for Proposal
Water Main Repair Materials, Miscellaneous Water
Distribution Materials, Fire Hydrants and Fire Hydrant
Parts, and Miscellaneous Street Materials
January 11, 2021**

City of Fargo Request for Proposal

The Fargo Public Works Department within the City of Fargo is requesting proposals for water main repair materials, miscellaneous water distribution materials, fire hydrants and fire hydrant parts, and miscellaneous street materials. Sealed proposals will be received by the City of Fargo Auditor's Office at 225 4th Street North, Fargo, ND 58102, for the purpose of evaluating costs of the said materials and parts. Upon completion of the evaluation by the selection committee an order may be placed. **Proposals will be received until 2:00 P.M. Central Standard Time Monday, February 8, 2021.**

CITY OF FARGO RIGHTS

The City reserves the right to cancel this RFP in writing or postpone the date and time for submitting proposals at any time prior to the proposal due date. The City by this RFP does not promise to accept the lowest cost or any other proposal and specifically reserves the right to reject any or all proposals, to waive any formal proposal requirements, to investigate the qualifications and experience of any Proposer, to reject any provisions in any proposal, to modify RFP contents, to obtain new proposals, to negotiate the requested services and contract terms with any Proposer, or to proceed to do the work otherwise.

The City hereby notifies all proposers that it will affirmatively insure that in regard to any contract entered into, pursuant to this request, minority business enterprises will be afforded full opportunity and are encouraged to submit proposals in response to this invitation and will not be discriminated against on the grounds of race, color, sex, or national origin in consideration for an award. The City reserves the right to accept or reject any and all proposals that are in the best interest of the City. All questions and inquiries will be addressed to:

Water Main Repair Materials, Miscellaneous Water Distribution Materials, Fire Hydrants and Fire Hydrant Parts, and Miscellaneous Street Materials Specifications

1.0 INTENT

It is the intent of this specification to provide for the purchase of water main repair materials, miscellaneous water distribution materials, fire hydrants and fire hydrant parts, and miscellaneous street materials to be used by the Fargo Public Works Department (FPW).

The Fargo Public Works Department has evaluated different types of water main repair materials, miscellaneous materials, fire hydrants and fire hydrant parts, and miscellaneous street materials and has determined this published specification is best suited for the FPW needs in terms of quality and features. This specification shall not be interpreted as restrictive but rather as a measure of quality and performance against which all other products will be compared.

The RFP is divided into 4 sections, Section 1-Repair Sleeves, Section 2-Miscellaneous Materials, Section 3-Fire Hydrants and Fire Hydrant Parts and Section 4-Miscellaneous Street Materials. Each of the sections will be totaled and the lowest bidder will be based on the total calculated from all sections. **The estimated quantity provided is for comparing proposals only and is NOT a guaranteed purchase.** The proposed Unit Price will be honored through December 31, 2021.

In comparing proposals, comparison will not be confined to price only. Product quality, availability, and delivery will be secondary factors in successful awards. FPW also reserves the right to reject any or all proposals or any part thereof, and to waive any minor technicalities. If the products or materials are not available at the time of purchase, FPW will purchase said products and materials from the next lowest submitter that has availability.

2.0 EQUIVALENT PRODUCT

Proposals will be accepted for consideration on any make or model that is equal or superior to the products or materials specified. Decisions of equivalency will be at the sole interpretation of the FPW. A blanket statement that equipment proposed will meet all requirements will not be sufficient to establish equivalence. An original manufacturer's brochure of the proposed product is to be submitted with proposal.

3.0 INTERPRETATIONS

In order to be fair to all proposers, no oral interpretations will be given to any proposer, as to the meaning of the specification documents or any part thereof. Every request for such a consideration shall be made in writing. Based on such inquiry, the FPW may choose to issue an Addendum in accordance with local state laws.

4.0 GENERAL

The specifications herein state the minimum requirements of the FPW. All proposals must be regular in every respect. Unauthorized conditions, limitations, or provisions shall be cause for rejection. The FPW will consider as irregular or non-responsive any and all proposals that are not prepared and submitted in accordance with the proposal document and specification, or any proposal lacking sufficient technical literature to enable the FPW to make a reasonable determination of compliance to the specification. It shall be the proposer's responsibility to carefully examine each item of the specification. All variances, exceptions and/or deviations shall be fully described in the appropriate section. Deceit in responding to the specification will be cause for rejection.

SECTION 1 – REPAIR SLEEVES

The repair sleeves furnished shall be all stainless steel construction. Acceptable types of repair sleeves are Ford, Romac, Powerseal, or approved equal. All prices shall be F.O.B. Fargo, North Dakota.
