Existing Sign Survey

I, _____ of _____
hereby certify that I have conducted a site inspection of the above-listed parcel or development
and certify that the following signs exist on the development site as of the date indicated below.
A map depicting the area surveyed is attached. The existing signs are as follows:

Sign Type*	Size (Dimensions)	Illuminated?**	General Location***
1. _____	_____	_____	_____
2. _____	_____	_____	_____
3. _____	_____	_____	_____
4. _____	_____	_____	_____
5. _____	_____	_____	_____
6. _____	_____	_____	_____
7. _____	_____	_____	_____
8. _____	_____	_____	_____
9. _____	_____	_____	_____

_____ No Signs Exist on These Premises

* Sign types generally include projecting/fin, pole, ground, wall, EMC, or a combination thereof.

** If the sign is internally illuminated or an EMC, respond "yes". Otherwise, respond "no".

*** Please indicate on which wall or which side of the parcel the sign has been installed.

Reviews presuming to give authority to violate or cancel the provisions of the Fargo Sign Code or other ordinances of this jurisdiction shall not be valid. Adherence to provisions contained in any covenants or easements concerning this property are solely and exclusively the responsibility of the property owner.

I hereby acknowledge that this application is not a Sign Permit nor does it authorize the start of construction and that the plans and specifications for the above-referenced signage is a true representation for this proposed project. I understand that the permit applied for herein may be revoked and the signs erected in conjunction with this permit may be required to be removed in the event the information contained hereon is inaccurate.

Sign Application Requirements

It is the applicant's responsibility to provide the information listed and any other documentation necessary so that the application and plans can be reviewed in a timely manner. If you fail to provide sufficient documentation there may be delays to your project.

Site Plan Requirements for Free-Standing Signs:

- a) north arrow and scale;
- b) street names;
- c) property lines;
- d) property dimensions;
- e) sight triangles;
- f) existing and proposed buildings and other structures;
- g) parking areas, drives, and curb cuts on the lot;
- h) drive aisles and/or vehicle circulation areas;
- i) location of existing sign(s);
- j) placement of proposed sign(s); and
- k) sign location in relationship to property lines or curbs (dimensions).

Plan Requirements:

- a) the type of each proposed sign(s);
- b) the area of all existing signs;
- c) the area of proposed sign face(s);
- d) the zoning of the property and the allowable signage for that property or tenant;
- e) sign dimensions, including height, width and depth of supporting structure(s);
- f) sign face design;
- g) an elevation drawing of all proposed signs, to include dimensions and height above street grade for each face;
- h) illumination specifications, if any;
- i) engineered drawing and schedules if required;
- j) a photographic simulation; and
- k) if this is an off-premises sign and located along a state highway, North Dakota State Department of Transportation approval.

Plans for signs attached to a building must show:

- a) where you plan to have the sign attached to the building;
- b) the dimensions of the front wall of the building or lease space;
- c) the dimensions of the sign(s); and
- d) a completed Existing Sign Survey showing the dimensions of any existing signs on the property or lease space as well as any pylon or other sign that may advertise that lease space.

Notes

- It is illegal to install a sign without a permit except as allowed under the City of Fargo Sign Code.
- You must also get a wiring certificate via a licensed electrician if your sign will use electricity.
- All illuminated signs must meet the requirements of the City of Fargo Sign Code.
