Development of Plans and Specifications for Construction of a Fire Station at 40th Avenue South at Village Lane Authorized: Appropriate Staff Directed to Initiate Construction of the Fire Station:

The Board received a communication from Fire Chief Bruce Hoover stating the preliminary feasibility study undertaken by T. L. Stroh Architects for constructing a fire station/police precinct facility in the Osgood neighborhood has been completed. Chief Hoover said it has been determined that both facilities cannot be accommodated on this site and he submitted the architect's notice of the finding. He said the study did show the site is very suitable for a fire station and the building committee for this project reviewed the plans to construct a stand-alone fire station on the site and recommend moving forward. Chief Hoover stated the preliminary cost estimate for the station is \$2.8 million and a financing plan has been developed in the City's 2009 budget to address the construction costs and the acquisition of a fire truck for the facility. He said the 2009 budget also funds the remaining six positions needed to staff the station and there will be a total of 12 firefighters available at this station on a full-time basis to respond to emergency events. Chief Hoover requested the development of final plans and specifications for the fire station be authorized and that the appropriate staff be directed to initiate construction.

Terry Stroh with T.L. Stroh Architects, made a power point presentation on the proposed fire station. He said the fire station will be located northwest of the new Osgood Hornbachers on the corner of Village Lane and 40th Avenue South.

There was discussion regarding incorporating energy efficient options into the plans and specifications.

Mr. Stroh stated the Fire Department staff asked his firm to look into those options. He said his firm has done facilities utilizing energy efficient items like geothermal which has become a real winner.

Commissioner Wimmer moved the development of plans and specifications for the fire station be authorized and the appropriate staff be directed to initiate construction of a fire station at 40th Avenue South at Village Lane.

Second by Piepkorn. On call of the roll Commissioners Wimmer, Piepkorn, Williams and Walaker voted aye.

Resolution Adopted Vacating 8th Street Between 2nd Avenue and 3rd Avenue North and to the Alley in Block 9 of Robert's Addition to the City of Fargo, Cass County, North Dakota (Abutting 711, 723, 811 2nd Avenue North; 216, 224 7th Street North and 225 8th Street North):

Commissioner Wimmer offered the following Resolution and moved its adoption:

BE IT RESOLVED BY THE BOARD OF CITY COMMISSIONERS OF THE CITY OF FARGO:

WHEREAS, A Plat has been filed in the office of the City Auditor entitled "Vacation Plat, of 8th Street between 2nd and 3rd Avenue North and the Alley in Block 9 of Roberts' Addition to the City of Fargo, North Dakota".

WHEREAS, Said Plat had been approved by the City Engineer, and a Hearing had been held on said Plat by the Fargo Planning Commission on March 12, 2008, continued to April 9, 2008, then continued to May 14, 2008 and continued again to July 9, 2008, and Notice of such Hearing had been published on February 11, 18, 25, and March 3, 2008, as required by law, and said Plat had been approved by the Fargo Planning Commission; and

WHEREAS, the City Auditor published a Notice of Hearing on said Plat in the official newspaper for the City of Fargo on August 4, 11, 18, and 25, 2008, that a Hearing would be held in the City Commissioner's Room at the City Hall, Fargo, North Dakota, at 5:15 o'clock PM, on Monday, August 25, 2008, at which time said Plat would be considered and all interested persons would be heard; and

WHEREAS, The City Auditor reports that no protest or objections have been received or filed in the office of the City Auditor, either written or verbal, objecting to

the vacation petitioned for and the Board of City Commissioners finds and declares that no written protests have been filed for the attention of the Board and no person is present at this Hearing to protest or offer objection thereto; and

WHEREAS, The Board of City Commissioners hereby declares that it is in the best interest of the adjoining property owners and for the public that 8th Street between 2nd and 3rd Avenue North and the Alley in Block 9 of Roberts' Addition be vacated.

NOW THEREFORE, BE IT RESOLVED, That the findings and recommendations of staff be accepted and 8th Street between 2nd and 3rd Avenue North and the Alley in Block 9 of Roberts' Addition be vacated within the City of Fargo, North Dakota and that the Plat entitled "Vacation Plat, of 8th Street between 2nd and 3rd Avenue North and the Alley in Block 9 of Roberts' Addition to the City of Fargo, North Dakota" be and the same is hereby in all things affirmed and approved, and that the Mayor of the City of Fargo and the appropriate City Officials are hereby directed to endorse their approval on the Plat and then direct Petitioner to file same for record in the office of the Register of Deeds of Cass County, North Dakota.

Board of Adjustment's Denial of a Request for a Variance to the Accessory Structure at 1515 4th Street North Upheld:

A Hearing had been set for this day and hour on the appeal of a July 22, 2008 ruling of the Board of Adjustment denying the request from Marty Schoenfeld for a variance for a 644 square foot variance of the 1036 square foot maximum size for an accessory detached structure at 1515 4th Street North.

Written protests to the granting of the variance have been received and filed.

The Board determined that no person is present at this Hearing to protest or offer objection thereto.

Senior Planner Jim Hinderaker stated Mr. Schoenfeld wants to replace the detached garage with a much larger garage. He said the structure of the house is 1,064 square feet and the proposed garage would be 1680 square feet which would supersede the size of the house by 644 square feet. He said the approval criteria for a variance has to be met and there are two that have not been met. He said the first one is the requested size of the accessory detached structure is preferential to the property owner and is not a result of the zoning district or unique conditions of the property. The second one, he continued, is the size of the structure is preferential and is considered an economic hardship, not a physical hardship. He said staff is recommending the request be denied.

Mr. Schoenfeld stated his SUV and pickup do not fit in the garage. He said he is looking for a spot to park his vehicles and also have room for a work space. He said if the garage was attached to his house he could build it as big as he wanted to and he does not understand why it has to be attached to do that.

Mayor Walaker stated he would like to see something from the neighbors indicating they do not have any objections to the size of the garage.

There was discussion regarding the criteria requirements.

Commissioner Wimmer moved the findings of staff and the Board of Adjustment be accepted and that the 644 square foot variance of the 1,036 square foot maximum size for an accessory detached structure be denied on the basis that review criteria of Section 20-0914.E (1 and 3) have not been met.

Second by Williams. On call of the roll Commissioners Wimmer, Williams and Piepkorn and voted aye.

Commissioner Walaker voted nay.

Absent and not voting: Commissioner Mahoney.

The motion was declared carried.

Request to Turn 11th Street South Between 13th and 14th Avenues into a Northbound One-Way Street Approved:

The Board received a Report of Action from the Traffic Technical Advisory Committee stating received a request from the Grace Lutheran School in October of 2007 to turn the one block of 11th Street South, between 13th and 14th Avenues, into a northbound one-way street. They said the school had concerns with the safety around the school during the morning arrival and the afternoon departure of the children that attend the school. They said the school principal explained that the school recently went through an accreditation process and one of the recommendations was that the traffic along 11th Street should be looked at to achieve more safety. The Committee stated when parents are dropping off their children, they park on both sides of the street, narrowing the street to effectively a one lane street. They said the principal felt by turning the street into a northbound one-way, it will help parents flow through, as they will not have to contend with on-coming traffic while they stop to drop off/pick up their children. They said an officer from the Traffic Safety Unit conducted a site study around the school to identify solutions for the safe pickup and drop-off of the children during these heavy traffic periods and the officer did not have any objection to turning the street into a northbound one way. The Committee stated a memo was sent out to property owners in the area asking for feedback and very little was received, however, Olivet Lutheran Church was very much in favor of the request. They said key points of discussion regarding the request were on street parking, street width to accommodate parking on both sides, and the operations of the intersection of 11th Street and 13th Avenue South in the event that the request would get approved. They said parking is currently allowed on the west side of the street 24/7, but parking is not allowed on the east side of the street except on Sundays, when it is allowed all day. They said the existing street width is 30' from curb to curb and Fire Marshal Norm Scott indicated that allowing parking on both sides on Sundays does not provide the street with a clear 20' wide path for a fire truck to pass through and he would like to completely ban parking on the east side of the street 24/7. The Committee said it was their consensus that allowing parking on both sides of the street for one day out of seven should be acceptable. The Committee recommended the request be approved.

Commissioner Williams moved the request to turn 11th Street South between 13th and 14th Avenues into a northbound one-way street be approved with an implementation date of September 2, 2008 and that parking be eliminated on the east side of the street.
