Request from Cityscapes Development Regarding Preliminary Review of Proposed Downtown Development Approved:

The Board received a communication from Michael Bullinger, Cityscapes Development, regarding a new mixed-use retail and student housing project to be located in the former Lark Theatre property in Downtown Fargo which will be a joint partnership between NDSU and Cityscapes Development. Mr. Bullinger stated this prominent location, which is on the corner of Roberts Street and First Avenue North, is the heart of Downtown Fargo. He said the proposed project will link the very successful revitalization of the Hotel Donaldson and Straus buildings with the Plains Art Museum and NDSU's downtown campus and will provide much-needed housing for NDSU's rapidly expanding downtown campus. He said NDSU is expecting an influx of around 4,000 students to the downtown area and these students will help to further strengthen the downtown's revitalization with added retail and commercial customers and the opportunity for entry level workers in downtown. Mr. Bullinger stated a key to the success of the downtown campus is providing additional NDSU

housing and, in order to make this project a reality, Cityscapes Development is asking for preliminary approval of Renaissance Zone designation as well as Payment in Lieu of Tax or PILOT tax relief. He said the Pilot program would follow the Renaissance Zone designation with a 10 year term per the City guidelines of 5 years of 100% tax relief and 75% for the remaining 5 years. Mr. Bullinger said as the owner of the existing property during both the above mentioned terms, Cityscapes Development would still be responsible for taxes on the land. He said through a partnership with NDSU, the project will bring approximately 212 bedroom units to downtown that will be operated by NDSU and owned by Cityscapes Development. He said this relationship allows NDSU to provide much-needed student housing at no cost to the University and the project with vital tenants. He said through the agreement, NDSU will market and operate the housing units and the apartment units will be listed as a housing option for new and existing NDSU students. While the University will not guarantee an occupancy rate, he continued, they currently have over 400 students living in hotel rooms and enrollment is not expected to decline. Mr. Bullinger stated in addition to the 212 bedroom units, the project will also bring over 75 underground heated parking spaces and over 40,000 square feet of new retail space to downtown. He said occupancy of the first half of the housing units is tentatively scheduled for August 2009.

City Administrator Pat Zavoral said Mr. Bullinger's project is within a reasonable range for the anticipated tax exemptions. He said the project will help meet the need for increased student housing demands in the downtown area.

Commissioner Wimmer moved the preliminary review for the Cityscapes project be accepted in order for Mr. Bullinger to move ahead with Renaissance Zone and PILOT applications.

Second by Piepkorn.

In response to a question about the effect on the City's general revenue because of tax exemptions, Mayor Walaker said general revenue increases as tax exemptions expire.

Mr. Bullinger said the size of the location could provide possible space for a large retail company as well as meeting the needs for housing.

On call of the roll Commissioners Wimmer, Piepkorn, Williams, Mahoney and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

At 6:05 the Board took a five-minute recess.

After recess: All Commissioners present. Mayor Walaker presiding.

#### Recommendations Regarding an Addition to the Fargodome Approved:

The Board received a communication from Commissioner Wimmer stating the Fargodome Expansion Task Force, made up of representatives from the Fargodome, North Dakota State University (NDSU), City Commission and City staff, has been meeting for the past two years. He said the objective of this ad hoc committee was to analyze the feasibility of expanding the Fargodome to accommodate a second event facility near or attached to the present building. He said the Task Force employed an architectural team of T.L. Stroh (Fargo) and 360 Degree and Associates (Kansas City) to determine size and cost for a smaller scale arena and their estimate is in the

\$30 million dollar range for a 6500 seat building. In conjunction with this effort, he continued, the Fargodome Authority also contracted with CSL and Associates of Minneapolis to determine the marketability of an addition to the Fargodome and this study determined that a second facility would increase revenue to the Fargodome as well as events coming into Fargo. Mr. Wimmer stated the two remaining charges of the Task Force and/or the Fargodome Authority are to determine the financial feasibility of constructing an addition and development of an operational plan to operate and maintain the facility. He said the financial feasibility for a second facility hinges on the contribution of City funds and the development of a funding partnership with another public entity and discussions with NDSU representatives indicated that a partnership can be developed which will make financing of this event center possible. He said this partnership would lead to the development of an operational plan for the facility that would allow ownership to remain with the City, a management arrangement with the Fargodome Authority, and a favorable lease agreement with NDSU for use of the facility. Mr. Wimmer stated it is the Task Force's recommendation to allow for the naming rights to this addition to be granted to NDSU with some limitations to be worked out in a naming rights agreement between the Fargodome and NDSU which will be used to fund 50% of the cost of construction of the addition. He said it is also recommended that the City Commission authorize the use of Fargodome capital escrow funds (Fargodome sales tax surplus) not to exceed \$15 million for 50% of this project. He said a final recommendation is that none of the City funds would be released until the NDSU portion of the funds is secured and the operational and financing plans for the new facility is accepted by the Fargodome and NDSU representatives.

Fargo Dome Authority President Ryn Pitts said two of the studies have been thoroughly gone over by the committees and nothing has been found to curb enthusiasm for the addition. She said the City owns the Dome, not the Fargo Dome Authority, so the City Commission needs to approve this request in order to complete two more studies and to begin to address financing and a host of other details.

Commissioner Williams said money needs to be kept in escrow in order to subsidize Dome operations and it may be difficult to generate the necessary funds with the uncertainty of the market. He said this does not take into account the new addition.

Commissioner Wimmer said it is important to move forward because of the willing partnership of NDSU. He said the \$15 million along with ticket surcharges will keep both buildings viable.

Commissioner Wimmer moved limited naming rights to the Fargodome addition be given to NDSU, that 50% or a net \$15 million be dedicated towards construction of a building addition from the Fargodome capital escrow fund, and that the appropriate staff be directed to work with the Fargodome and NDSU in preparing an acceptable operational plan for the addition.

Second by Piepkorn.

Commissioner Williams suggested NDSU become a true partner with the City in regard to financial responsibilities for the Fargodome addition. He said he is concerned about the future liability of the Fargodome and does not want to see future expenses come back on the taxpayer.

NDSU Vice President of Finance and Administration John Adams said the University is very excited about this project and wants to ensure its success. He said

NDSU cannot be involved as a private owner but details can be worked out in the operational agreement.

On call of the roll Commissioners Wimmer, Piepkorn, Mahoney and Walaker voted aye.

Commissioner Williams voted nay.

The motion was declared carried.

2009 Preliminary Budget Adopted: Public Hearing Set for September 22, 2008:

The Board received a communication from Finance Director Kent Costin stating the 2009 Mayor's preliminary budget was received and filed on August 25, 2008 and the next step in the budget process is to approve the preliminary budget and set the public hearing date. Mr. Costin said Mayor Walaker is recommending approval of the preliminary budget and setting the public hearing for September 22, 2008.

Mr. Costin said the primary message of the preliminary budget is no property tax increases and no utility increases. The three expense increases, he said, are with salaries, energy costs and medical. He said the sales tax approved by voters will start next year which will provide relief.

City Administrator Pat Zavoral said medical insurance has increased so employees will be paying more but the City will continue with the 70/30 split.

Commissioner Wimmer moved the 2009 Preliminary budget be adopted and the public hearing on the Preliminary Budget be set for September 22, 2008 at 5:15 p.m.

Second by Mahoney. On call of the roll Commissioners Wimmer, Mahoney, Williams, Piepkorn and Walaker voted aye.

No Commissioner being absent and none voting nay, the motion was declared carried.

Communication Received from Commissioner Williams Regarding the Proposed New High School:

The Board received a communication from Commissioner Williams stating as Fargo continues to develop its growth strategies and efficient land use and as road construction and energy costs are high, he would like the City Commission to express some concerns regarding a bid letting this fall for the start of the proposed new high school. Commissioner Williams said some identified issues are:

- What are some of the long term ramifications and impacts on future City of Fargo budgets?
- What fiscal effect could prematurely stretching city boundaries and services along with adding to already high energy costs have long term for the citizens of Fargo?

He said he would like to consider and evaluate some of the many factors that may have some impact on current funding sources. He said some of the main issues that are unknown at this time, but will be known by spring of 2009, which was the original start date of the new high school, are:

- Outcome of state initiated measures concerning property tax and income tax

structure

- Outcome of new legislative session and potential property tax relief
- Unknown impact of less driving and less gas tax revenue to transportation funding structures
- Unknown response of residents for assessments for comprehensive flood plan
- Effects on stretching city services of Fire, Police, Garbage, Street Dept, Forestry on future Fargo budgets
- Effect on developing a more efficient, and effective transit system
- Is this site conducive to helping students choose to walk, bike or ride a bus or does it encourage more driving and more roads to get there in a currently undeveloped area?

Commissioner Williams said he will be making a presentation to the School Board at their September 9th meeting. He said he would like to have the School Board hold off on the bidding of the contracts and wait until next spring to start work on the new high school site.

Commissioner Wimmer said he is not in favor of attempting to block the School Board's decisions.

City Administrator Pat Zavoral said the School Board Planning Committee is meeting September 23rd and anyone can attend.

Planning Director Jim Gilmour said the City approved public institutional zoning in 2006 for the high school location. He said there will be more requests coming in this fall for annexation, street upgrades, subdivision requests and other work.

Commissioner Mahoney said City staff meets quarterly with the School Board and discussion can continue at those meetings.

Commissioner Williams said he will attend the upcoming School Board meetings and he will not represent the City of Fargo but will speak as a concerned citizen.

Commissioner Mahoney moved that the Board adjourn to 5:00 o'clock p.m., Monday, September 22, 2008.

Second by Piepkorn. All the Commissioners voted aye and the motion was declared carried.

The time at adjournment was 7:16 o'clock p.m.
